

## CALL FOR NOMINATIONS

### 2019 SOUTH AFRICAN WOMEN IN SCIENCE AWARDS

#### MAKING THE FOURTH INDUSTRIAL REVOLUTION WORK FOR WOMEN

The Department of Science and Technology (DST) calls for nominations for the 2019 South African Women in Science Awards (SAWiSA). The awards recognise and reward excellence by women scientists and researchers, and profile them as role models for younger women. The awards will be made to women who are South African citizens or permanent residents.

The theme for the 2019 SAWiSA is *making the fourth industrial revolution work for women*. The fourth industrial revolution (4IR) has been defined as technological development that blurs the lines between the physical, digital, and biological systems. It integrates cyber-physical systems and the internet of things, big data and cloud computing, robotics, artificial intelligence and additive manufacturing. Compared to previous industrial revolutions, this one is evolving at an exponential rate with potential significant impacts on society and human dynamics. The Humanities and Social Sciences are as critical as the Natural and Engineering Sciences in the 4IR discourse. It is important that the power and potential of all of humanity is unleashed to benefit from the 4IR. Women, who account for more than half of the population of the world have a major role to play.

Awards in the distinguished woman and distinguished young woman researcher categories will be made for research in the **Natural (Life and Physical) and Engineering Sciences, Humanities and Social Sciences, and Research and Innovation (R&I)**. Awards on the latter (R&I) will be made in the areas aligned to the 4IR. The **DST-Albertina Sisulu Fellowships** and **TATA Scholarships** will be awarded to currently registered master's and PhD students.

The 2019 SAWiSA will be presented on **15 August 2019** as part of the Department's celebration of Women's Month. The awards will be made in the following categories:

## AWARD CATEGORIES

### 1. Awards for Distinguished Woman Researchers

- Natural (Life and Physical) and Engineering Sciences
- Humanities and Social Sciences

### 2. Awards for Distinguished Young Woman Researchers

- Natural (Life and Physical) and Engineering Sciences
- Humanities and Social Sciences

### 3. Awards for Research and Innovation

- Distinguished Woman Researcher
- Distinguished Young Woman Researcher

### 4. DST-Albertina Sisulu Fellowships

- Six master's students: 2 in Natural Sciences, 1 in Engineering Sciences, 1 in Human and Social Sciences (HSS), 1 in Indigenous Knowledge Systems (IKS) and 1 in Astronomy.
- Six doctoral students: 2 in Natural Sciences, 1 in Engineering Sciences, 1 in HSS, 1 in (IKS) and 1 in Astronomy.

### 5. TATA Africa Scholarships for Women in Science, Engineering and Technology

- Three master's students in disciplines where the participation of women is low.
- Three doctoral students in disciplines where the participation of women is low.

#### NOTE:

1. *Winners may be requested to participate in public awareness initiatives led by the DST.*
2. *All applicants /nominees are required to submit a short profile.*
3. *Shortlisted finalists will be required to submit three high-resolution photographs to be used for publicity.*

## **NOMINATIONS/ APPLICATIONS**

Nominations and applications on the attached form should reach the Department of Science and Technology by **Friday, 31 May 2019. No late submissions will be accepted.**

The call document has nomination forms for researchers as annexure A, and the application forms for students as annexure B. The application or nomination should be accompanied by the documentation specified for each category.

To meet all the requirements, the attached checklist must be completed and submitted.

Nominations and applications clearly indicating the category, should be submitted electronically (using the attached form) to [SAWiSA@dst.gov.za](mailto:SAWiSA@dst.gov.za)

**NB:** Please note that further correspondence will be only entered into with shortlisted finalists.

**For more information** contact Mr Thembinkosi Magasela at 012 843 6338 or [Thembinkosi.Magasela@dst.gov.za](mailto:Thembinkosi.Magasela@dst.gov.za)

## **1. AWARDS FOR DISTINGUISHED WOMAN RESEARCHERS**

These awards will be made to women scientists or researchers for their outstanding scientific contribution to advancing science and building the knowledge base in their areas of research. Awards will be made in each of the following fields:

- 1.1 Natural (Life and Physical) and Engineering Sciences; and
- 1.2 Humanities and Social Sciences;

### **Nomination criteria**

Nominations in the Natural (Life and Physical) and Engineering Sciences, and Humanities and Social Sciences fields are requested from established woman scientists or researchers with at least five years of postdoctoral experience, and who are actively involved in research.

**NB: Overall winners in the past ten years are not eligible to be nominated in the categories in which they won.**

### **Who may make a nomination?**

Any person who knows the nominee and her work well can make a nomination. The nominator should provide the motivation as required in the nomination form.

### **Adjudication criteria**

Nominees will be judged on their research publication record, their international stature (as evidenced by their presentation of keynote addresses or papers at international conferences), their experience in supervising postgraduate students and researchers, the relevance and impact of their research, and exploitability of their research outputs (i.e. the possibility of using the research results to develop or improve products, processes and services).

### **Value of each award**

Winner: R80 000; first runner-up: R60 000; and second runner-up: R40 000.

### **Use of the award**

No restrictions will be imposed on the use of the award by the recipient.

## **Documents required**

(i) **A completed and signed nomination form**

(ii) **A completed CV template**

(iii) **Proof of scientific/ research publications**

First page of each of your 10 best articles, and the title pages of your books or book chapters.

(iv) **Short profile (see sample)**

(v) **Proof of innovation or applied knowledge outputs (if applicable)**

List of intellectual property (IP) outputs with relevant registration numbers, or list of outputs with inclusive growth and development impact.

(vi) **Letters of reference**

Letters of reference from three people discussing the candidate's professional competence and other personal or professional qualities or interests that make the candidate qualify for the award.

(vii) **Certified copy of ID**

## **2. AWARDS FOR DISTINGUISHED YOUNG WOMAN RESEARCHERS**

These awards will be made to emerging woman scientists or researchers for their outstanding contribution to advancing science and building the knowledge base in their areas of research. Awards will be made in each of the following fields:

2.1 Natural (Life and Physical) and Engineering Sciences; and

2.2 Humanities and Social Sciences

### **Nomination criteria**

Nominations are requested from emerging woman scientists or researchers **under the age of 40 or turning 41 during the year of the awards** who have doctoral degrees, and whose research projects have contributed to advancing science and building the knowledge base.

**NB: Overall winners in the past ten years are not eligible to be nominated in the categories in which they won.**

### **Who may make a nomination?**

Any person who knows the nominee and her work well can make a nomination. The nominator should provide the motivation as required in the nomination form.

### **Adjudication criteria**

In the context of being early career scientists, nominees will be judged on their research publication record, their national and/or international stature (as evidenced by their presentation of keynote addresses or papers at international conferences), their experience in supporting younger students, the relevance and impact of their research, and/or the potential exploitability of their research outputs (i.e. the possibility of using research results to develop or improve products, processes and services).

### **Value of each award**

Winner: R70 000; first runner-up: R50 000; and second runner-up: R30 000.

### **Use of the award**

No restrictions will be imposed on the use of the award by the recipient.

## **Documents required**

- (i) **A completed and signed nomination form**
- (ii) **A completed CV template**
- (iii) **Proof of scientific/ research publications**  
First page of each of your 10 best articles, and the title pages of your books or book chapters.
- (iv) **Short profile (see sample)**
- (v) **Proof of innovation or applied knowledge outputs (if applicable)**  
List of intellectual property (IP) outputs with relevant registration numbers,
- (vi) **Letters of reference**  
Letters of reference from three people discussing the candidate's professional competence and other personal or professional qualities or interests that make the candidate qualify for the award.
- (vii) **Certified copy of ID**

### 3. AWARDS FOR RESEARCH AND INNOVATION

These awards will be made to two women whose innovation (emanating from research) advances South Africa's competitiveness in the 4IR. Awards will be made to:

- 3.1. Distinguished researcher; and
- 3.2. Distinguished young researcher

#### **Nomination criteria**

##### (i) Distinguished Researcher

Nominations are requested from established woman scientists or researchers with at least five years of postdoctoral experience, whose innovation (emanating from research) advances South Africa's competitiveness in the 4IR.

##### (ii) Distinguished Young Researcher

Nominations are requested from emerging woman scientists or researchers, **under the age of 40 or turning 41 during the year of the awards**, who have doctoral degrees; whose innovation (emanating from research) advances South Africa's competitiveness in the 4IR.

**NB: Overall winners in the past ten years are not eligible to be nominated in the categories in which they won.**

#### **Who may make a nomination?**

Any person who knows the nominee and her work well can make a nomination. The nominator should provide the motivation as required in the nomination form.

#### **Adjudication criteria**

For both the distinguished and distinguished young researchers, nominees will be judged on their research publication record, innovation outputs (use of the research results to develop or improve products, processes and services) in advancing South Africa's competitiveness in the 4IR.

#### **Value of each award**

Distinguished Woman: R80 000

Distinguished Young Woman: R70 000

#### **Use of the award**

No restrictions will be imposed on the use of the award by the recipient.

## **Documents required**

(i) **A completed and signed nomination form**

(ii) **A completed CV template**

(iii) **Proof of scientific/ research publications**

First page of each of your 10 best articles, and the title pages of your books or book chapters.

(iv) **Short profile (see sample)**

(v) **Proof of innovation or applied knowledge outputs (mandatory)**

List of intellectual property (IP) outputs with relevant registration numbers, or list of outputs with inclusive growth and development impact of innovations.

(vi) **Letters of reference**

Letters of reference from three people discussing the candidate's professional competence and other personal or professional qualities or interests that make the candidate qualify for the award.

(vii) **Certified copy of ID**

#### **4. DST-ALBERTINA SISULU FELLOWSHIPS**

These awards will be made to twelve women who are currently involved in full-time study or research leading to master's or doctoral degrees. The fellowships recognise outstanding ability and potential in research, enhance the women's research experience and output, and encourage more young women to complete research degrees.

Postgraduate fellowships will be awarded to:

- 4.1. Six master's students: 2 in Natural Sciences, 1 in Engineering Sciences; 1 in Humanities and Social Sciences (HSS), 1 in Indigenous Knowledge Systems (IKS), and 1 in Astronomy
- 4.2. Six doctoral students: 2 in Natural Sciences, 1 in Engineering Sciences; 1 in HSS, 1 in IKS, and 1 in Astronomy.

#### **Application criteria**

The fellowships are open to women who are involved in full-time study towards master's or doctoral degrees, and are registered at South African universities. Applicants should be women who are:

- South African citizens or permanent residents;
- under the age of 35; and
- high performers in their current and previous degrees.

**NB: Previous fellowship/scholarship awardees cannot apply/ be nominated for the same degree of study.**

#### **Adjudication criteria**

Applicants will be judged on the quality and performance in their studies; past and present achievements; quality and feasibility of proposed study/research plan and time schedule; relevance of their research (potential to provide solutions to immediate problems and scarcity of researchers in the field pursued); and their career plans as per the application criteria given.

#### **Value of the awards**

R60 000 for master's (X6)

R70 000 for doctoral students (X6)

#### **Use of the award**

The fellowship is meant to be additional to a postgraduate scholarship awarded by the National Research Foundation or other agencies. It may be used for attending or

presenting a paper in a local or international conference, publishing a research paper, registering a patent, or obtaining personal equipment to conduct research such as a laptop.

### **Documents required**

(i) **An application form**

(ii) **Proof of research publications**

Copies of not more than five relevant research publications (potential to provide solutions to immediate problems and scarcity of researchers in the field pursued), and title pages of your books or book chapters

(iii) **Short profile (see sample)**

(iv) **Letter of reference**

A letter of reference must be written by a person other than the nominator. The letter must reflect the relationship of the referee with the candidate, the contact details of the referee, and also the following about the candidate:

- a. evidence of excellence in current studies,
- b. technical accomplishments and relative standing of the candidate among her peers (publications, conferences, mentoring etc.),
- c. relevance of research being pursued (potential to provide solutions to immediate problems and scarcity of researchers in the field pursued),
- d. the role in encouraging and supporting young women,
- e. personal or professional qualities or interests that make the candidate specially qualified to receive a fellowship, and
- f. any other indicators of outstanding ability.

(v) **A letter of support**

The applicant should submit a letter of support from a relevant referee (preferably a supervisor) who knows the applicant and her work well. This letter should outline the candidate's suitability to receive the award, and the quality and performance in their studies.

(vi) **Letter of intent and candidate statement**

The letter must indicate:

- a. The candidate's desire to be considered for the fellowship,
- b. how the candidate qualifies for the fellowship, and
- c. a demonstrable need for the specialised knowledge and skills that she plans to acquire.

(vii) **Full academic record**

(viii) **Certified copies of qualifications**

(ix) **Certified copy of ID**

## 5. TATA AFRICA SCHOLARSHIPS IN SCIENCE, ENGINEERING AND TECHNOLOGY

Six awards will be made to women who are currently involved in full-time postgraduate study or research leading to **master's or doctoral degrees** in **areas where participation by women is traditionally low**. These awards will recognise outstanding ability and potential in research.

### **Application criteria**

Scholarships will be awarded to young women who have registered for degrees in scarce skills areas such as Agriculture, Architecture, Astronomy, Astrophysics, Computer/Information Sciences, Engineering, Mathematics, Statistics, or Physics.

**NB: Previous fellowship/scholarship awardees cannot apply/ be nominated for the same degree of study.**

### **Adjudication criteria**

- Quality and feasibility of the proposed plan of study or research, and proposed time schedule.
- A demonstrable need for the specialised knowledge and skills that she plans to acquire.
- Academic and professional qualifications, including research publication record.
- Candidate's commitment to the advancement of women and girls in South Africa/Africa as demonstrated by her previous work and her proposed study or research.

### **Value of the awards**

R75 000 for master's (X3)

R75 000 for doctoral (X3)

### **Use of the award**

The award can be used for normal academic registration and tuition fees, and also to expand the experience of the successful candidate. It can also be used to purchase additional equipment required for the completion of the master's or doctoral degree, or to enable the recipients to spend three to six months at an international research facility to improve the outcome of their studies.

## **Documents required**

(i) **An application form**

(ii) **Proof of research publications**

Copies of not more than five relevant research publications (potential to provide solutions to immediate problems and scarcity of researchers in the field pursued), and title pages of your books or book chapters

(iii) **Short profile (see sample)**

(iv) **Letter of reference**

A letter of reference must be written by a person other than the nominator. The letter must reflect the relationship of the referee with the candidate, the contact details of the referee, and also the following about the candidate:

- a. evidence of excellence in current studies,
- b. technical accomplishments and relative standing of the candidate among her peers (publications, conferences, mentoring etc.),
- c. relevance of research being pursued (potential to provide solutions to immediate problems and scarcity of researchers in the field pursued),
- d. the role in encouraging and supporting young women,
- e. personal or professional qualities or interests that make the candidate specially qualified to receive a scholarship, and
- f. any other indicators of outstanding ability.

(v) **A letter of support**

The applicant should submit a letter of support from a relevant referee (preferably a supervisor) who knows the applicant and her work well. This letter should outline the candidate's suitability to receive the award, and the quality and performance in their studies.

(vi) **Letter of intent and candidate statement**

The letter must indicate:

- a. the candidate's desire to be considered for the scholarship.
- b. how the candidate qualifies for the scholarship,
- c. a demonstrable need for the specialised knowledge and skills that she plans to acquire,
- d. how the research advances science and builds the knowledge base,
- e. involvement with mentorship/coaching programmes, and
- f. the exploitability of research outputs (i.e. the possibility of using research results to develop or improve products, processes and services).

(vii) **Full academic record**

(viii) **Certified copies of qualifications**

(ix) **Certified copy of ID**

## PROFILE SAMPLE

*Note: The sample serves the purpose of providing a guide for the critical information required for your profile to be published in a newspaper supplement. You may use a different choice of words from those in the samples.*

### **DISTINGUISHED RESEARCHERS (NOT MORE THAN 500 WORDS)**

### **DISTINGUISHED YOUNG RESEACHERS (NO MORE THAN 400 WORDS)**

**NB: All acronyms must be written in full at first usage.**

XXX is full professor of YYY and the South African Research Chair Initiative chair in the TTT (research area/specialisation), hosted by the UUUU (Unit or Division) at TTT (university/institution). XXX is also the Director of the YYY (entity/programme), and Vice President of the JJJJ (society/organisation).

XXX's research focus is on CCC (expand on the research area focus/purpose). XXX formally established BBBB (institution or programme) as Founding Director in CCC (year), where she led some of the first prospective multidisciplinary studies in this field in Africa. Her research findings have contributed to ZZZ (state impact of research focussing on the theme of the Awards).

With a National Research Foundation WW (A1/B2 or C3?) rating, XXX is the author of nearly FF (number) peer-reviewed publications, including papers in leading international journals such as GGGG and HHHH. She is a frequent keynote speaker for international audiences, and has received several national and international scientific awards. (Expand and name the awards separating the international and national awards). XXX has successfully mentored TT (number) postdoctoral fellows, supervised AA (number) PhD, RR (number) master's and ZZ (number) BSc honours students, and currently supervises FF (number) PhD and GG (number) master's students.

A medical/engineering/(whichever is applicable) research scientist, registered with the KKK (relevant professional/voluntary association), XX is a Fellow of the Royal Society of South Africa, and a member of the South African Young Academy of Sciences. She serves on the editorial board of established journals like the VVVV (*state journals*).

## PROFILE SAMPLE

*Note: The sample serves the purpose of providing a guide for the critical information required for your profile to be published in a newspaper supplement. You may use a different choice of words from those in the samples.*

### **FELLOWSHIPS /TATA SCHOLASHIPS (NOT MORE THAN 300 WORDS)**

**NB: All acronyms must be written in full at first usage**

Ms XXX obtained a BA Politics, Philosophy and Economics (2015) and a BA Honours in Philosophy cum laude (2016) from the XXX (University). She is currently enrolled for a Master of Arts in Philosophy at the same institution, with a focus on GGG (state research area focus).

In her current research, XXX is investigating/exploring or looking atBBBBBBB (elaborate on the research). XXX hopes that her research will help (expand on its impact and relevance in relation to the Awards theme).

XXX was named the best (state all academic achievements and awards, and the years obtained).

XXX has published TT papers in renowned journals such as TTT (name journals) has presented her research at the following international conferences (name them) and national conferences (name them).
