Faculty of Economic and Management Sciences
Fakulteit Ekonomiese en Bestuurswetenskappe
Lefapha la Disaense tša Ekonomi le Taolo

A career in economics entails uncovering and forecasting economic trends as well as the effects of policy changes on our society and the global economy. This is supported by econometrics, which is the collection, measurement and analysis of economic and social phenomena.

Are you?

- Logical and analytical
- Curious and creative
- Motivated and open-minded

Then you should consider a career in economic sciences!

What is the difference between Economics and Econometrics?

Economics

An understanding of how the world works through concepts such as: growth in production (output); money, prices and inflation; international trade; unemployment; inequality and social infrastructure.

Econometrics

Econometrics is concerned with the measurement of economic behaviour, economic outcomes and the impact of economic policies. This is done using economic theory, data and statistical techniques. Econometricians are statistically and mathematically inclined.

Programmes	Minimum requirements for 2020				
	Achievement level*				APS
	English Home Language or English First Additional Language		Mathematics		
	NSC/IEB	AS Level	NSC/IEB	AS Level	
BCom (Econometrics) [3 years] Closing dates: SA – 30 September, Non-SA – 31 August	5	C	6	B	32
Careers: Econometricians are employed by government, the central bank, private and commercial banks, leading stockbrokers and consultancies, both locally and internationally. Positions include analysts, consultants, researchers, traders or brokers, and academics. The work mostly entails statistical analysis (forecasting, structural and policy analysis) of economic and financial markets and interrelationships.
