1919

The Faculty of Humanities was established in 1919 and celebrated its century in 2019.

LEGACY OF EXCELLENCE

1908

The University of Pretoria was established in 1908. Today, it is one of the largest research universities in South Africa. UP has transformed into a dynamic university community of staff and students who come from a range of diverse backgrounds and cultures showcasing South African and global societies.

TEACHING & LEARNING

Our educational approach has a strong focus on inclusivity and equitable access to education, but ultimately on equity of outcomes.

UP effectively uses contact sessions in traditional lectures, seminars, laboratories and practical sites, together with online learning platforms. This has enabled access and success for an increasing number of students. The teaching and learning approach is based on inquiry-based learning, hybrid learning and community-based learning. This means that students can ask questions and do research in their field to learn and discover answers on their own; while also being taught in a classroom environment and accessing additional resources online.

VISION & GOALS

OUR VISION IS TO BE

A leading research-intensive university in Africa, recognised internationally for its quality, relevance and impact, and also for developing people, creating knowledge and making a difference locally and globally.

OUR GOALS ARE TO

1. Enhance access and successful student learning
2. Strengthen the University's research and international profile
3. Foster and sustain a transformed, inclusive and equitable University community
4. Optimise resources and enhance institutional sustainability
5. Strengthen the University's social consciousness and its impact on society

HYBRID LEARNING

Through UP's hybrid model of teaching and learning, part of the learning is dependent on access to the online learning management system known as ClickUP.

A system is in place for students to buy their own devices at very competitive rates but more than **6 000** computers are available in computer laboratories across all campuses and within residences for student use. There are Wi-Fi hot spots across all campuses for use by students with their own devices.

FACULTY OF HUMANITIES

The Faculty of Humanities is internationally recognised for its teaching, research and community work. Its coursework combines academic and practical skills – embracing innovative and entrepreneurial thinking.

This inspirational space hosts international award-winning artists, including a unique artist in residence programme that has hosted the following creators:

Mike van Graan (playwright and cultural activist),
Niq Mhlongo (novelist and journalist),
Helen Sebidi (internationally renowned sculptor)
Aubrey Lodewyk (accomplished baritone)

SCHOOL OF THE ARTS

The Faculty's School of the Arts strives to be the academic locus in South Africa that produces the most distinguished postgraduate researchers, prolific creative talent and performing artists, and provide access and opportunity across demographics to all talented students from all South African communities who wish to maintain standards of excellence.

The UP Way

It's as much about where UP comes
from as to **where we are headed**

It's about UP's excellence, innovation,
diversity, growth, kindness and
making a difference every day

It's about what we do to...
