

Available scholarships for postgraduate research in transportation engineering 2024

The Centre for Transport Development will fund two scholarships for full-time MEng students in 2024. Covers fees and living allowance.

Available research topics:

- Optimisation of electric vehicle deployment in public transport
- Passenger satisfaction measurement for Gautrain using choice models
- Simulation of minibus-taxi operating practices for improved efficiency

About the Centre for Transport Development (CTD)

The CTD is a collaborative research entity within the Faculty of Engineering, Built Environment and Information Technology at the University of Pretoria (UP). Its purpose is to coordinate research and continuing education in the transportation field across multiple departments (e.g. Civil Engineering, Industrial and Systems Engineering, Information Science, Town and Regional Planning, Computer Science) within UP.

See <http://www.up.ac.za/centre-for-transport-development> for more information, and application forms. Deadline for applying for scholarship is 10 November 2023. Contact Prof Christo Venter.
