

Expert contact list for the media

Faculty of Natural and Agricultural Sciences

Fakulteit Natuur- en Landbouwetenskappe
Lefapha la Disaense tša Tlhago le Temo

Make today matter

Staff member	Field/s of expertise	Contact details
Prof Barend Erasmus Faculty dean	Global warming, food security	barend.erasmus@up.ac.za

Department of Actuarial Science

Staff member	Field/s of expertise	Contact details
Prof Conrad Beyers	South Africa's credit rating	conrad.beyers@up.ac.za

Department of Agricultural Economics, Extension and Rural Development

Staff member	Field/s of expertise	Contact details
Dr Moraka Makhura	Contribution of agriculture and farmworkers to SA's economy Agriculture and rural finance, food security and rural livelihoods	moraka.makhura@up.ac.za

Dr Danie Jordaan	Agricultural supply chain analysis and agribusiness management	danie.jordaan@up.ac.za
Dr Selma Karuaihe	Natural resource and environmental economics, mainstream economics	Selma.Karuaihe@up.ac.za

Department of Biochemistry, Genetics and Microbiology

Staff member	Field/s of expertise	Contact details
Prof Lyn-Marie Birkholtz Professor	Drug discovery, malaria, malaria control, protein structure-function relationship, functional genomics, antimalarial compounds, gene expression and regulation	lynmarie.birkholtz@up.ac.za
Prof Vinet Coetzee Senior lecturer	Cross-cultural studies, behavioural sciences, genetics, face perception, non-invasive measures of health	vinet.coetzee@up.ac.za
Prof Pedro Crous Associate professor	Phytopathology, mycology, microbiology, plant pathology	p.crous@cbs.knaw.nl
Prof Anabella Gaspar Head of Biochemistry Division	Enzymes, antioxidants, antimicrobial peptides, protease inhibitors, proteomics	anabella.gaspar@up.ac.za
Prof Jaco Greeff Professor	Evolutionary genetics, evolutionary ecology, behavioural ecology, sex ratio evolution, breeding system evolution	jaco.greeff@up.ac.za
Prof Zander Myburg Professor	Systems genetics, plant molecular genetics, forest genomics, DNA markers	zander.myburg@up.ac.za
Dr Jandeli Niemand Senior lecturer	Cell transport, malaria – cell biology, functional genomics, antimalarial compounds, biochemistry, malaria, phenomics	jandeli.niemand@up.ac.za
Prof Louis Nel Professor	Rabies, virology	louis.nel@up.ac.za
Prof Wolf-Dieter Schubert Professor	Bacterial adhesion, bacterial diseases, protein interaction, enzyme structure function, host-pathogen interaction, innate immunity, protein biochemistry, X-ray crystallography, structural biology	wolf-dieter.schubert@up.ac.za
Prof Brenda Wingfield Professor	Fungal genomics, fungal genetics, fungal population biology	brenda.wingfield@up.ac.za
Prof Teresa Coutinho Professor	Phytopathology	teresa.coutinho@up.ac.za
Prof Emma Steenkamp	Fungal genetics, microbial genetics, evolution and systematics	emma.steenkamp@up.ac.za

Prof Fanus Venter Professor	Bacterial diversity, systematics and evolution	fanus.venter@up.ac.za
--------------------------------	--	-----------------------

Department of Chemistry

Staff member	Field/s of expertise	Contact details
Prof Marietjie Potgieter Professor	Student success, science education, student assessment	marietjie.potgieter@up.ac.za
Prof Emil Roduner Visiting professor	Catalysis, hydrogen storage, fuel cells, nanomaterials zeolites, renewable energy and energy efficiency, soft matter chemistry, muon spin rotation and relaxation, chemical kinetics, electron paramagnetic resonance spectroscopy	emil.roduner@up.ac.za
Prof Egmont Rohwer Professor	Chromatography, air pollution, aroma, environmental chemistry, mass spectrometry, fuel, semiochemistry, renewable energy technologies, computer assisted diagnosis, African malaria vectors	egmont.rohwer@up.ac.za

Department of Consumer and Food Sciences

Staff member	Field/s of expertise	Contact details
Prof Elna Buys Professor	Listeriosis, food-borne diseases, dairy and meat microbiology	elna.buys@up.ac.za
Prof John Taylor Professor	Cereal chemistry	john.taylor@up.ac.za

Department of Geography, Geoinformatics and Meteorology

Staff member	Field/s of expertise	Contact details
Prof Liesl Dyson Associate professor	Weather forecasting and phenomena	liesl.dyson@up.ac.za
Prof Rebecca Garland Associate professor	Climate change and air pollution	rebecca.garland@up.ac.za
Prof Willem Landman Professor	Modelling and forecasting, atmospheric seasonal forecasting, forecast verification	willem.landman@up.ac.za
Prof Greg Breetzke (he is still with UP)	Effects of temperature and weather on crime in South Africa	greg.breetzkea@up.ac.za

Department of Mathematics and Applied Mathematics

Staff member	Field/s of expertise	Contact details
Prof Jacek Banasiak Professor	Partial differential equations, non-linear analysis, functional analysis, biomathematics, dynamical systems	jacek.banasiak@up.ac.za
Prof Ansie Harding Professor	Tertiary education	ansie.harding@up.ac.za
Prof Mamadou Sango Professor	Stochastic differential equations, non-linear partial differential equations	mamadou.sango@up.ac.za
Prof James Raftery Professor	Algebraic logic, universal algebra, mathematical logic, algebra	james.raftery@up.ac.za

Department of Physics

Staff member	Field/s of expertise	Contact details
Prof Danie Auret Professor	Compound semi-conductors, defects in semi-conductors, semi-conductor characterisation, electron beam radiation modification, wide bandgap semi-conductors, thin film technology, semi-conductor devices, metallisation, Laplace deep-level transient spectroscopy	danie.auret@up.ac.za
Prof Roger Deane Extraordinary professor	Astrophysics/astronomy	roger.deane@up.ac.za
Prof Johan Malherbe Professor	Semi-conductor surfaces, surface analysis, advanced materials, nuclear solid state physics, ion-solid interactions	johan.malherbe@up.ac.za
Prof Konstantinos Zoubos Associate professor	Theoretical physics, elementary particle physics, string theory, quantum field theory	kzoubos@up.ac.za

Department of Plant and Soil Sciences

Staff member	Field/s of expertise	Contact details
Prof Dave Berger Professor	Molecular plant pathology, bioinformatics	dave.berger@up.ac.za
Prof Lise Korsten Professor	Post-harvest technology, food safety, biological control	lise.korsten@up.ac.za
Prof Marion Meyer Professor	Phytochemistry, phytomedicines	marion.meyer@up.ac.za
Prof Braam van Wyk Professor	Plant taxonomy, alpha-taxonomy, palynology, natural history, plant anatomy, plant biology, plant ecology, biosystematics, ethnobotany, plant systematics and biogeography	braam.vanwyk@up.ac.za

Department of Zoology and Entomology

Staff member	Field/s of expertise	Contact details
Prof Armanda Bastos Head of department	Wildlife infectious disease epidemiology, wildlife conservation	armanda.bastos@up.ac.za
Prof Nigel Bennett Professor	Zoologist – mole rat, animal physiology, behavioural ecology	ncbennett@zoology.up.ac.za
Prof Marthán Bester Professor	Polar biology, marine top predators, seal ecology	mnbest@zoology.up.ac.za
Dr Jackie Dabrowski Extraordinary professor	Dung beetle mining project – possible use of dung beetles to help in mine rehabilitation	jackie@confluent.co.za
Prof André Ganswindt Professor (Director of the Mammal Research Institute)	Zoology, reproduction, animal behaviour, behavioural physiology, behavioural ecology, endocrinology	andre.ganswindt@up.ac.za
Prof Andrew McKechnie Professor	Climate change, comparative physiology, ecophysiology, ornithology, stable isotope ecology, evolutionary physiology	aemckechnie@zoology.up.ac.za ; andrew.mckechnie@up.ac.za
Prof Susan Nicolson Professor	Honeybees being at risk of herbicide, pollination biology, nectar-feeding birds, honeybee nutrition	sue.nicolson@up.ac.za
Prof Mark Robertson Professor	Community ecology, macro-ecology, biological invasions	mrobertson@zoology.up.ac.za
Prof Clarke Scholtz Professor	Biosystematics	chscholtz@zoology.up.ac.za
Prof Catherine Sole Associate professor	Mango flies	catherine.sole@up.ac.za
Prof Rudi van Aarde Professor	Ecological restoration	rjvaarde@zoology.up.ac.za
Prof Chris Weldon Associate professor	Behaviour, ecology and physiology of flies	chris.weldon@up.ac.za
Prof Abdullahi Yusuf Associate professor	Behavioural and chemical ecology, entomology	abdullahi.yusuf@up.ac.za

Centre for Microbial Ecology and Genomics (CMEG)

Staff member	Field/s of expertise	Contact details
Prof Don Cowan Director	Metagenomics, microbial enzymes, applied and environmental microbiology, microbial ecology, comparative genomics	don.cowan@up.ac.za
Prof Thulani Makhalanyane Deputy Director	Oceans and microbiomes	thulani.makhalanyane@up.ac.za

Centre for Environmental Studies (CFES)

Staff member	Field/s of expertise	Contact details
Prof Abel Ramoelo (Director of CFES)	Mapping vegetation health assessment, species (including invasive), biochemistry, and productivity as well as water quality and quantity using optical (hyperspectral and multispectral) and active (LiDAR, and SAR) remote sensing data at various scales, for informing decision pertaining to natural resource and environmental management (i.e. biodiversity conservation, land degradation, climate change impact, water resources) and food security	abel.ramoelo@up.ac.za

Forestry and Biotechnology Institute (FABI)

Staff member	Field/s of expertise	Contact details
Prof Irene Barnes Associate professor (Also with Department of BGM)	Molecular taxonomy, forest pathology, fungal population biology, mycology, microbiology, plant pathology	irene.barnes@fabi.up.ac.za
Dr Trudy Paap Research fellow	Pest beetle in the Pietermaritzburg Botanical Gardens	trudy.paap@fabi.up.ac.za
Prof Bernard Slippers Director (also with BGM)	Forestry	bernard.slippers@up.ac.za
Prof Cobus Visagie Associate professor (also with the Department of BGM)	Fungal biosystematics, fungal identification, fungal taxonomy, mycology, fungal detection, microbial phylogenetics	cobus.visagie@fabi.up.ac.za
Prof Mike Wingfield Founding director	Entomology, diagnostic microbiology, mycology, forest pathology	mike.wingfield@fabi.up.ac.za
Prof Fanus Venter Professor (also with the Department of BGM)	Bacterial diversity, systematics and evolution	fanus.venter@up.ac.za

Animal Science

Staff member	Field/s of expertise	Contact details
Prof Este van Marle-Köster	Applied animal breeding and genetics/livestock genomics Beef and Dairy cattle	evm.koster@up.ac.za
Dr Linde du Toit	Ruminant nutrition, pasture & veld management, environmental impact of livestock production systems – GHG emissions	linde.dutoit@up.ac.za
Prof Abubeker Hassen	Ruminant Nutrition, Forage and Pasture Crop Evaluation, Forage Conservation, Grazing Management, Mitigation of Enteric Methane Emission, Climate Smart Forage & Animal Production	abubeker.hassan@up.ac.za
Dr Ayanda Maqhashu	Animal reproduction	ayanda.maqhashu@up.ac.za
Prof Carina Visser	Applied animal breeding and genetics/livestock genomics Small stock	carina.visser@up.ac.za
Prof Edward Webb	Production animal physiology and Meat Science Fats and fatty acids in animal source foods Growth promotants and steroid hormones in production animals. Reproduction and use of AI and synchronisation of estrus in livestock. Beef cattle production systems.	edward.webb@up.ac.za
Dr Thobela Nkukwana	Poultry nutrition: use of phytogenic additives, prebiotics, and exogenous enzymes, and non-conventional agro-processing by-products in poultry nutrition. Can provide technical advice on poultry production management, welfare, productivity, and assurance of product quality especially for emerging producers of both commercial and indigenous poultry breeds	thobela.nkukwana@up.ac.za
Dr Christine Jansen van Rensburg	Poultry nutrition and production management. Pig nutrition and production management. Feed ingredients and formulation for monogastric animals. Alternative feed additives to replace antibiotic growth promoters	christinejvr@up.ac.za
Prof Hettie Schönfeldt (also with ARUA CoE for Food Security)	Food composition	hettie.schonfeldt@up.ac.za
