

As a leader in Public Management and Administration, the SPMA offers degrees that are competitive on a global scale but with local relevance. The School is proud to be part of the distinguished Faculty of Economic and Management Sciences at the University of Pretoria. Future initiatives include the development of an e-governance and advanced strategic policy programme that promises to revolutionise the way citizens and governments cooperate. Our success results from our commitment to excellence in higher education and well thought out training programmes that are responsive to the needs of a dynamic South Africa, Southern Africa and a competitive world.
