

Second Trustees Report University of Pretoria Pension Fund 2023

Introduction

It is the privilege of the Board of Trustees to present the second report on the Fund's operations for 2023. You are encouraged to read the report carefully since developments in the report may affect your personal retirement planning.

The purpose of this report is to reflect on the main developments in the operations of the Fund since the previous report, which includes the following:

- Feedback on the audited financial statements as at 31 December 2022.
- Feedback on the statutory actuarial valuation as at 31 December 2022.
- Feedback on amendments to the rules of the Fund.
- Feedback on the pension increase from 1 July 2023.
- Feedback on risk management processes implemented by the Board.

Important notice

We urge you to review your **beneficiary nomination form** regularly to ensure that it reflects the correct beneficiary information. A copy of the form can be obtained from the Human Resources Department: Benefits section by emailing a request to hr-remuneration-benefits@up.ac.za.

You are reminded that the University bears the cost associated with administering your Pension Fund.

Board of Trustees

Ms Marli Venter retired from the University on 31 July 2023 and she also resigned as Employer Appointed Trustee at the same date. The University has appointed Professor Conrad Beyers to fill the position from 1 August 2023.

We thank Ms Venter for her valuable contribution to the management of the Fund for many years and wish her well in her retirement.

Financial Statements as at 31 December 2022

The audit of the Fund's financial statements for the year ended 31 December 2022 has been completed and the Auditors issued an unqualified audit report. The Board reviewed and approved the audited financial statements and submitted the statements to the Commissioner of Pension Funds within the period prescribed by the Pension Funds Act 24 of 1956.

The audited financial statements confirm that the Fund's Administrators have maintained sound financial controls and accounting practices during the financial year.

Actuarial valuation as at 31 December 2022

The Board reviewed the Fund's actuarial valuation as at 31 December 2022. The actuarial valuation was conducted by the Fund's Valuator and he reported that the Fund remains fully funded and in a sound financial condition.

Pension increase as from 1 July 2023

Annual pension increases are not guaranteed and are based on the Fund's ability to afford increases. The Trustees' ability to grant increases mainly depends on the performance of the investments underlying the pensions paid by the Fund. The Board granted pension recipients an increase of 7.1% from 1 July 2023, which was equal to the inflation rate of 31 March 2023.

The above pension increase was the third pension increase since the Board adopted a Liability Driven Investment (LDI) strategy in 2020 and the Board can confirm that the strategy has allowed the granting of pension increases equal to inflation for the past three years.

Risk management

The Trustees' risk management process entails identifying and evaluating actual and potential risk areas applicable to the Fund, followed by a process of mitigation, acceptance, transfer or avoidance of each risk. These risks include, amongst others, risks associated investments, governance, cyber security, administrators, etc, but also include extreme event risks such as pandemics, wars and increasing pressure on electricity supply. While the Trustees cannot avoid or mitigate these extreme event risks, a sound risk management process can mitigate the impact of these risks. The Trustees therefore dedicate significant time and expertise to the risk management process to safeguard members' and pensioners' retirement benefits.

Rules

The Trustees have consolidated the registered rules and ten (10) registered rule amendments into one (1) set of consolidated rules. The consolidated rules do not include any changes to the registered rules or amendments and serve to simplify reading the rules. The consolidated rules have been submitted to the FSCA for registration.

Information about the Fund and your benefits

A detailed member guide and information about the options available to members at retirement are available on the Retirement Fund "Intranet Microsite" on the UP Staff Portal.

The member guide provides essential information about your benefits. The Board also recognises the importance of you making informed decisions before and at retirement, given the options available to you in terms of the Fund's rules. The Board therefore makes individual retirement benefit counselling available to you within five (5) years of retirement at no cost to you.

It is important to note that the Retirement Benefit Counsellor is not a financial adviser and the purpose of the session is not to provide financial advice to you. The retirement benefit counselling sessions focus on the following:

1. The options that are available to you at retirement.
2. Different types of annuities and the risk and cost considerations associated with each type of annuity, which includes the Fund's annuity strategy.
3. Tax and other cost considerations
