## Department of Mining Engineering

### 1961 – 2011 Celebrating 50 years of excellence in Mining Engineering Education

Our broad-based curriculum emphasises the international engineering education model of conceptualising, designing, implementing and operating mines. The undergraduate programme is accredited by the Engineering Council of South Africa (ECSA).

We offer a range of programmes:

- Undergraduate
- Postgraduate
- Research
- Continued Professional Development (CPD) courses

A degree at the University of Pretoria covers all aspects of mining engineering from pre-feasibility assessments

to closure of mines, whether it be hard rock or coal deposits, surface or underground operations. The development of management/people skills is incorporated in some of the final year modules in the undergraduate programme.

Our portfolio of undergraduate, postgraduate and research degree programmes provides an excellent basis for a rewarding career in mining.

For more information contact the head of department, Prof Ronny Webber-Youngman on 012 420 3763 or e-mail [daleen.gudmanz@up.ac.za](mailto:daleen.gudmanz@up.ac.za) or visit our website [www.up.ac.za](http://www.up.ac.za).
