

PNEUDRIVE CHALLENGE 2008

YOUR FUTURE . YOUR EMPLOYER.

... and the winner is...

The PneuDrive team would like to congratulate the University of Stellenbosch for winning the PneuDrive Challenge 2008.

Their project "A~DOT" which featured an Automated Dart Throwing Robot, won first prize with the judges.

The university will receive R 100 000's worth of equipment and the team members will be travelling to Germany as part of their prize. You can also look forward to seeing their design at Electra Mining in September 2008.

To view the design, visit SEW Eurodrive in Hall 6 Stand J20 during 8 - 12 September 2008. Special entertainment will be provided from 12:00 to 14:00.

The judges also wanted to make special mention of the projects by University of Pretoria (UAMP - Universal Autonomous Machining Platform) and University of Cape Town (Fruit Picking Robot) who followed with the second and third highest points.

Well done to all our participants!

We will send you judges feedback during the course of this week.

Kind Regards

The PneuDrive Team
