

Celeste Combrinck

Position in company: Project Coordinator

Highest Qualification: MA Research Psychology (University of Pretoria)

Celeste joined the CEA in February 2012 as a project coordinator. At the centre Celeste is involved in quantitative data analysis, project management and planning, report and proposal writing as well as client communication. Celeste has a Master's Degree in Research Psychology from the University of Pretoria (Cum Laude) and has more than 6 years of experience in planning, executing and managing a wide variety of research projects, both qualitative and quantitative. At the CEA Celeste is involved in projects for the Michael and Susan Dell Foundation, the Zenex Foundation, the Progress in International Reading Literacy Study and many more. Furthermore, Celeste is passionate about instrument design and development, with a focus on using Rasch Analysis. Celeste has developed her expertise in data analysis with special emphasis on a wide range of inferential statistical techniques, including Structural Equation Modeling, Rasch Analysis and Regression modelling.
