GEHALTEONDERRIG VIR ALMAL - SUID-AFRIKA SE SOEKE NA DIE "HEILIGE GRAAL"?

aangebied deur prof Sarah Howie

Internasionale agentskappe fokus die afgelope twee dekades op "onderwys vir almal". Op 'n vasteland waar "onderwys vir almal" tot nog toe onhaalbaar was, het Suid-Afrika die grootse doel gestel om dit teen die internasionale keerdatum, 2015, te bereik. "Onderwys vir almal" behels die voorsiening van onderwys aan almal in die regte ouderdomsgroep, wat dan ook voldoen aan elke mens se universele reg op onderwys. Die uitdaging was om tegelykertyd die gehalte van onderwys in alle skole regoor Suid-Afrika vol te hou en te verbeter. Na dekades van ontneming in talle kontekste is dit belangrik om nie net te praat en te dink oor die haalbaarheid van gehalte-onderwys vir almal nie, maar ook oor die prys wat betaal sal word as dit nie gebeur nie.

Prof Howie is vir die afgelope twee dekades betrokke by die monitering van die kwaliteit van onderrig in Suid-Afrika en in die res van die wêreld. Sy sal die jongste inligting voorhou oor die status van Suid-Afrika se onderrigvoorsiening vir almal asook die land se prestasie met betrekking tot die jongste kwaliteit-in-onderrig-aanwysers. Sy sal ook haar siening deel van Suid-Afrika se uitdagings rakende gehalteonderrig en enkele aanbevelings doen vir die moontlike bestuur daarvan.

Die **UP-EKSPERT LESINGREEKS** het ten doel om 'n openbare platform vir akademici van die Universiteit van Pretoria daar te stel waar 'n algemene gehoor kennis kan neem van belangrike ontwikkelings in hul vakgebiede.

Ons nooi u om aan UP se 60-minute **EKSPERTLESINGREEKS** deel te neem en sodoende by UP se navorsingsuitnemendheid te baat.

UP EXPERT LECTURE SERIES

QUALITY EDUCATION FOR ALL - SOUTH AFRICA'S QUEST FOR THE "HOLY GRAIL"?

presented by Prof Sarah Howie

"Education for all" has been the focus of international agencies for the past two decades. On a continent where "education for all" has been unattainable to date, South Africa has set itself the ambitious goal of attaining this by the internationally stipulated deadline of 2015. "Education for all" involves providing education to everyone of appropriate age, thereby satisfying everyone's universal right to access education. The challenge has been to simultaneously maintain and enhance the quality of education in all schools across South Africa. After decades of deprivation in many contexts, it is important to not only discuss and reflect on how achievable quality education for all is, but also, what the cost is of not doing so.

Prof Howie has been involved in monitoring the quality of education in South Africa and internationally over the past two decades. She will present the latest information about the status of South Africa's provisioning for education for all, as well as its performance relative to the latest quality in education indicators. She will also give her perspectives on the challenges that South Africa faces regarding the quality of education and make some recommendations on how these could be managed.

The **UP EXPERT LECTURE SERIES** provides a public platform for researchers of the University of Pretoria to engage with a general audience on significant developments in their fields of expertise that are likely to have an impact in future.

We invite you to share in UP's 60-minute **EXPERT LECTURE SERIES** and become a beneficiary of UP's research excellence.
