MEDIUM OF INSTRUCTION

In conducting its business, the University uses two official languages, namely Afrikaans and English. The medium of instruction in formal education is either Afrikaans or English or both languages in accordance with the demand and its academic and economic justification.

However, it remains the student's responsibility to determine each year in which language and at which levels modules are presented. This information is published annually in the Timetable Book. The University reserves the right to change the language of instruction on short notice, depending on the size of the groups and the availability of lecturers. In respect of administrative and other services, a student may choose whether the University should communicate with him or her in Afrikaans or English.

GENERAL REGULATIONS

The regulations for degrees, diplomas and certificates here published are subject to change and may be amended prior to the commencement of the following academic year.

Definition of terms

For the purposes of these General Regulations, and unless interpreted differently from the context,

- (i) the term "module" also includes the following: semester module and year module; and
- (ii) the term "semester mark" includes the mark awarded/achieved in respect of a module of seven weeks' duration, as it is normally examined at the end of the semester in which it is presented.

I. FIRST AND ADVANCED BACHELOR'S DEGREES

G.1 ADMISSION

1. In order to register for a first bachelor's degree at the University a candidate should
 - (a) be in possession of a matriculation exemption certificate issued by the Matriculation Board;
 - (b) comply with the particular requirements, prescribed in the admission procedures and faculty regulations of the respective faculties and departments, for admission to particular modules and fields of study.
2. A candidate, who does not comply with the requirements in G.1.1(a) above, may also be considered for admission, provided that the candidate
 - (a) is in possession of a certificate deemed by the University to be equivalent to any of the certificates mentioned in G.1.1(a);
 - (b) is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; or
 - (c) passes an admissions examination prescribed by the University from time to time.
3. The Senate may limit the number of students allowed to register for a field of study, in which case the dean concerned may, at his or her own discretion, select from the students who qualify for registration those who may be admitted.
4. Subject to other faculty regulations and the stipulations of G.1.3 and G.62, a candidate is admitted to a postgraduate bachelor's degree only if he or she is already in possession of a recognised bachelor's degree.

ADDENDUM

Admission requirements for candidates with a National Senior Certificate (NSC) from 2009

The National Senior Certificate (NSC – a 130 credit certificate at level 4 on the NQF) will first be issued at the end of 2008. A learner must pass seven subjects (4 subjects from Group A and 3 subjects from Group B) to be issued the National Senior Certificate.

National Senior Certificate generic requirements to pursue degree studies at any university:

The minimum statutory requirement to obtain university entrance is a National Senior Certificate (NSC) certified by Umalusi with an achievement rating of 4 (50-59%) in **four** recognised 20-credit subjects from the designated subject list. Please note that Life Orientation is a 10-credit subject.

To be able to gain access to a Faculty and specific programmes prospective students require the appropriate combinations of recognised NSC subjects as well as certain levels of achievement in the said subjects.

In this regard the determination of an admission point score (APS) is explained and a summary of the faculty specific requirements, i.e. the admission point score (APS) per programme and the specific subjects required per programme is provided. Take note that there may be additional subject requirements under "Regulations" in the Rules and Syllabi of each Faculty.

Determination of an Admission Point Score (APS, old M-Score)

The calculation is simple and based on a candidate's achievement in six 20-credit recognised subjects, by using the NSC ratings, that is the "1 to 7 scale of achievement". Thus, the highest APS that can be achieved is 42.

Life Orientation is excluded from the calculation determining the APS required for admission per faculty, but the University requires that this subject must be passed at a higher rating than the 3 required to obtain an NSC: For example, the Faculty of Health Sciences requires an achievement level of 5 and the other faculties require an achievement level of 4.

Rating code	Rating	Marks %
7	Outstanding achievement	80-100%
6	Meritorious achievement	70-79%
5	Substantial achievement	60-69%
4	Adequate achievement	50-59%
3	Moderate achievement	40-49%
2	Elementary achievement	30-39%
1	Not achieved	0-29%

Preliminary admission is based on the results obtained in the final Grade 11 examination. Final admission is based on Grade 12 results.

Please note: The final Grade 12 results will be the determining factor with regard to admission.

Alternative admission channels: Candidates with an APS lower than required, or without Mathematics where required, could be considered for admission to a faculty if they meet the additional assessment criteria specified by the University from time to time. Preference will, however, be given to students who comply with the regular admission requirements of the University.

G.2 REGISTRATION

1. (S.34) A student registers at the University at the time and in a manner determined by the Council from time to time. By virtue of such registration, the student subjects himself or herself to the rules of the University.

2. Registration takes place in accordance with the regulations applicable to the particular degree for which the student registers, and on condition that compliance with the requirements of that degree is the student's responsibility.
3. Subject to exceptions approved by the dean concerned, a student may register for a module only if the official class timetable allows the student to attend all the classes and if there are no test or examination timetable clashes: Provided that this does not apply to students who register for telematic tuition.
4. Subject to exceptions approved by the dean in consultation with the head of the department concerned, a student is not permitted to register for a module later than 15 days after lectures in that quarter or semester have commenced.
5. After the closing dates for amendment to the selection of modules and fields of study, changes may be made only on the recommendation of the head of the department and with the approval of the dean.
6. Registration for a module taken for non-degree or non-diploma purposes may take place only with the approval of the dean.
7. After registration, a student is obliged to pay the fees due on or before the date stipulated by the Council; and a student who cancels his or her registration, is not entitled to any refund and remains liable for the full amount.

G.3 RENEWAL OF REGISTRATION

1. Students of the University are registered for one year of study, or for a shorter period determined in general or in specific cases by the Council. After a year or period of study has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are prescribed by the Council from time to time.
2. Re-registration is permitted only
 - (a) in the case of full-time students, if the student has passed at least the equivalent of four semester modules in a particular year of study, and, in the case of after-hours students and students who follow an approved extended study programme, if they have passed at least the equivalent of two semester modules – with the proviso that faculty boards may stipulate other requirements for progress that students must comply with in order to be readmitted;
 - (b) in the case of full-time students, if the student completes the degree for which he or she is still registered within the prescribed minimum period plus two years and, in the case of after-hours students, telematic-tuition students and students who follow an approved extended study programme, if such students still complete their studies within the prescribed minimum period plus three years: with the proviso that faculty boards may stipulate other requirements for progress that students must comply with in order to be readmitted.
3. A student who does not comply with the requirements in G.3.2 and who seeks readmission to the faculty, may submit a written request to the dean that his or her application for readmission to the faculty be considered in terms of the set procedure.
4. Regulation G.3.2 is *mutatis mutandis* applicable to students from other tertiary institutions who register at the University.

G.4 TERMINATION OF REGISTRATION

A dean may, on the recommendation of a particular faculty committee, cancel the registration of a student or the registration for a module during an academic year, if the student fails to comply with the minimum requirements determined by the faculty board with regard to tests, examinations or any other work – with the proviso that a student may request that the dean reconsider the decision in terms of the set procedures.

G.5 APPLICATION OF OLD AND NEW REGULATIONS

1. Should a regulation, according to which a curriculum has been compiled, be amended, a student who has started his or her curriculum under the old regulation and who has not interrupted his or her study, may complete such a curriculum in accordance with the old regulation – on condition that a faculty board may formulate special transitional requirements in order to enable that student to complete his study in accordance with the new regulation.
2. A student who has been registered for a degree programme and
 - (a) who has failed to renew his or her registration for such a degree programme in the ensuing calendar year;
 - (b) who has failed a year of study; or
 - (c) who has not complied with the prescribed requirements for progress in accordance with faculty regulations,is deemed to have interrupted his or her study and forfeits the right to continue studies under the old regulation.
In exceptional cases, a dean may grant such a student permission to continue his or her study in terms of such stipulations as the dean may determine.

G.6 CONCURRENT REGISTRATION FOR TWO FIELDS OF STUDY

With the permission of the dean/deans concerned, a student may register for a degree, diploma or certificate and another degree, diploma or certificate, whether undergraduate or postgraduate, simultaneously, subject to the regulations applicable to the fields of study in question and to any other stipulations the dean/deans may prescribe on the condition that there shall be no overlap in the course content of the first degree, diploma or certificate and the second degree, diploma or certificate. Such a concession may be withdrawn by the dean/deans concerned if the student does not perform satisfactorily.

G.7 MINIMUM STUDY PERIODS AND REQUIREMENTS FOR BACHELOR'S DEGREES

(J.S.16) A bachelor's degree is conferred on a student only if he or she complies with the minimum period of study and other requirements as stipulated in the Joint Statute and the regulations of the University pertaining to the acquisition of that degree.

G.8 RECOGNITION OF MODULES PASSED AT THIS UNIVERSITY

1. (J.S.16) Modules may be recognised for degree purposes only if the date of the student's matriculation exemption certificate, as specified in G.1.1,

becomes effective before 2 April of the academic year in which such a module was completed.

2. If a student wishes to continue his or her study after an interruption, the dean, on the recommendation of the head of the department, may require either that such a student should repeat certain modules already passed or that supplementary work in these modules be undertaken with a view to the continuation of his or her studies.
3. Periods of attendance at and credits for modules which a student obtained at the University and which did not form part of the requirements for a degree already conferred on a student, may be accepted by the dean in consultation with the head of the department concerned, for a bachelor's degree, provided that the student complies with the stipulations in G.8.1 and G.9.4(a).
4. Periods of attendance at and credits for modules which a student acquired at the University and which formed part of the requirements for a degree already conferred on the student, may be accepted by the dean in consultation with the head of the department concerned for a degree in another faculty, or for a second bachelor's degree in the same faculty, provided that there shall be no overlap in the course content of the first degree and the degree in the other faculty or the second degree in the same faculty and furthermore that the student complies with the stipulations in G.9.4(b).

G.9 RECOGNITION OF MODULES/STUDY UNITS PASSED AT OTHER TERTIARY INSTITUTIONS AND THE ADMISSION OF SUCH STUDENTS

1. (J.S.17) A student who was registered at another tertiary institution, must, on application for admission to this University, submit a certificate of conduct from that tertiary institution, as well as a comprehensive official academic record from the tertiary institution concerned and any other documents that may be required by the head of the department or the dean.
2. (J.S.18) Subject to the stipulations of the Joint Statute, the dean may accept periods of attendance as a registered matriculated student at any other tertiary institution approved by the Senate for this purpose, as part of the student's attendance record for a bachelor's degree. Subject to the stipulations of G.9.3, the dean may, furthermore, accept certificates of competence in any module issued by another tertiary institution, and may recognise such modules by means of exemption from class attendance and the examination – with the proviso that such a certificate of competence be accepted only with regard to a module which is recognised by the tertiary institution where it was taken for approved study programmes, and on condition that the student complies with the stipulations in G.8.1. The head of the department concerned may prescribe supplementary requirements if a student wishes to continue with subsequent modules in the subject in question.
3. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred by another tertiary institution, the dean may not accept certificates of competence in any module and may not recognise such modules that form part of the degree already conferred.
4. A bachelor's degree is conferred on a student in terms of subparagraph (2) only if
 - (a) the period of the student's attendance is at least equivalent to the full period that is prescribed for the degree;

- (b) the student, subject to differently worded requirements approved by the Senate on the grounds of previously approved accredited programmes, has attended, at this University, the modules required by the University
 - (i) for a degree for which the period of attendance is three academic years, at least two academic years – on condition that the student has attended at least half the modules prescribed for that degree, as a registered student for that degree;
 - (ii) for a bachelor's degree for which the period of attendance is four academic years, at least during the final two academic years;
 - (iii) for a bachelor's degree for which the period of attendance is four and a half academic years, at least during the final two and a half academic years;
 - (iv) for a bachelor's degree for which the period of attendance is five academic years, at least during the final two academic years;
 - (v) for a bachelor's degree for which the period of attendance is five and a half academic years, at least during the final two and a half academic years;
 - (vi) for a bachelor's degree for which the period of attendance is six academic years, at least during the final three academic years, with the exception of the Bachelor of Arts (Theology) degree, in which case the student must have attended modules at least during the final two academic years.

G.10 REQUIREMENTS FOR ADMISSION TO EXAMINATIONS, PROMOTION TO A SUBSEQUENT YEAR OF STUDY OR IN A MODULE AS WELL AS ATTENDANCE MODULES

1. Satisfactory attendance, preparation and payment of tuition fees

- (a) A student is permitted to enter an examination or to be promoted in a module only if the lecturer of that module, in consultation with the head of the department, certifies that the student has prepared himself or herself satisfactorily by due performance in his or her work and has fulfilled the attendance requirements.
- (b) A student may be refused admission to the examination, or promotion to a subsequent year of study, or promotion in a module if the prescribed tuition fees are not paid.
- (c) A student may be refused admission to the examination, or promotion to a subsequent year of study, or promotion in a module if he or she fails to fulfill the attendance requirements.
- (d) In exceptional circumstances, where it is deemed appropriate, the Dean of a faculty may excuse a student from attending all or part of a module.

2. Admission to examination

Subject to other stipulations in faculty regulations, no minimum year mark or minimum semester mark is required for admission to the examination: Provided that all year and semester modules in a faculty need not be dealt with in the same way, although a large degree of uniformity is desirable.

3. Promotion to a subsequent year of study and promotion in a module

- (a) Students who have reached the required standard in a module as stipulated in G10.3(b), may be promoted, in accordance with authorised faculty regulations, to the next semester or level in a module without

writing the prescribed examination, provided that a student receives credit for such promoted modules only if study in those modules is concluded by successfully completing a prescribed examination.

- (b) Subject to other faculty regulations, a student reaches the required standard of progress in a module as intended in G.10.3(a) if he or she has satisfactorily prepared himself or herself by due performance of his or her work and, in addition, has obtained a year/semester mark of at least 65% in the particular module, as composed and calculated in terms of G11.1(a) and (b).
- (c) Students, who have been promoted in a module at another university or who have been promoted without writing the examination therein, may be admitted to a subsequent semester or level in the subject, as the case may be, at this University, on condition that a student can obtain credit for a promoted module only after an examination in the subsequent module has been passed at this University.

4. Attendance modules

Subject to other faculty regulations, a student receives credit for an attendance module only if he or she has attended classes to the satisfaction of the lecturers concerned and has obtained a year or semester mark of at least 50% for their work.

G.11 YEAR AND SEMESTER MARKS AND REPETITION OF MODULES

1. Year and semester marks

- (a) Each faculty should, by way of faculty regulations, determine the manner in which year and semester marks are compiled: Provided that all year modules and semester modules in a faculty need not be dealt with in the same way, although a large degree of uniformity is desirable.
- (b) At the beginning of an academic year or a semester, the head of the department informs the students in his or her department in an appropriate manner concerning the formula for the calculation of the year or semester marks in modules in that department. Before each test, he or she also informs the students of the weight that will be allocated to the results of that test in the calculation of the year or semester mark. Each head of department announces the year or semester marks to the students in his or her department at the latest at the official conclusion of lectures.

2. Repetition of modules

- (a) A student who fails a particular examination, is obliged to attend the module(s) concluded by that examination again, unless the dean, on the recommendation of the head of the department concerned, grants exemption from class attendance, in which case the year or semester mark of the student has to be taken into consideration; and exemption in a specific module will be allowed only once.
- (b) Application for exemption from class attendance must be submitted within 14 days after the commencement of lectures – with the proviso that deans may consider justifiably late applications.
- (c) A student who has failed a module, may be exempted by the dean, in consultation with the head of the department, from the examination in such a module and receive credit for it by virtue of the achievement in a subsequent semester in the module concerned.

G.12 EXAMINATIONS

1. **Examinations and essays**

An examination in a module may be oral and/or written. Essays are prepared and examined as stipulated in faculty regulations.

2. **Pass requirements**

2.1 In order to pass a module, a student must

2.1.1 obtain the minimum examination mark prescribed for that module;

2.1.2 obtain a final mark of at least 50%;

2.1.3 comply with the subminimum in subdivisions of modules, as stipulated in the regulations of the particular faculties.

2.2 Each faculty should, by way of faculty regulations, determine the weight that is allocated to the year or semester mark and the examination mark in the calculation of the final mark of the student: Provided that all year modules and semester modules in a faculty need not be dealt with in the same way, although a large degree of uniformity is desirable.

2.3 Subject to other faculty regulations, a student passes a module with distinction if he or she obtains a final mark of at least 75%.

3. **Ancillary examinations**

After writing an examination, the examiners may summon a student for an ancillary examination on particular aspects of the work in a module, with a view to awarding a final examination mark.

4. **Supplementary examinations**

4.1 Subject to other faculty regulations, a student may be admitted to a supplementary examination in a module, in cases where

(a) a final mark of between 40% and 49% has been obtained; or
