| <b>Academic organisation</b>  | Psychology                             |
| <b>Period of presentation</b> | Year                                   |

### Module content

The execution of a mini-dissertation tests students' ability to practice and conduct independent research. The research project is based on a topic in the field of clinical psychology and is completed under supervision of a study leader (a registered clinical psychologist) or an approved expert on the subject of choice. The students are also trained in research methodology during the process of the development of the research proposal.
