Module content

Part 1: The individual and society

An introduction to sociology, the classical sociological paradigm and the principles of sociological research.

Part 2: *The making of the South African order*

This section explores key factors involved in the making and shaping of the contemporary South African social order and considers the sociological implications thereof. Students will be introduced to the political economy of South Africa, with an emphasis on the nature of South Africa's industrialisation, the process of proletarianisation and the introduction of the migration labour system. In addition, the racial state, the foundations of its social project, and the spatial form of its 20th century racial modernity will be considered.
