University of Pretoria Yearbook 2017

MMed Internal Medicine (10250052)

Duration of study	4 years
Total credits	624
Contact	Prof GR Tintinger gregory.tintinger@up.ac.za +27 (0)123542287

Programme information

Please note:

i. All MMed students must register for, and attend (TNM 802) Applied research methodology 802 satisfactorily, preferably during the intermediate phase/ after completion of Part 1 and before sitting for Part 2 of the MMed.
ii. All MMed students must submit a dissertation (MMS 890) which must be assessed as satisfactory by an external examiner, or a research article that has been accepted for publication in a subsidised periodical. The student must be the first author of the article. An ordinary literature review will not be accepted.The research proposal must be approved by the MMed Protocol Committee prior to the intermediate exam (surgical disciplines) or otherwise within two years of enrolment (other disciplines). It is in the best interest of the candidate to complete the research component prior to the exit exam and if not possible, preferably to postpone the exam. If the exam is to be written in Semester 2 of the 4th year the dissertation should be submitted 1 September of the 4th year. If this is not the case, the supervisor should complete and sign the necessary documentation, stipulating that the candidate will complete the project within the next 3 to 6 months. The dissertation must be submitted prior to the taking of the CMSA fellowship examination.
iii. A systematic literature review (Cochrane type) on an approved subject, which is undertaken in such a manner that bias is minimised, may be presented as an alternative to the dissertation for awarding the MMed (Public Health Medicine) degree, It requires, inter alia, a protocol with clearly formulated objectives and methods. Inclusion and exclusion methods for the study must be determined. Where applicable, the data must be summarised (meta analysis), with applicable statistical methods. This alternative is in special cases applicable to other MMed degrees.

Registrarship:

- Inquire at the Head of Department regarding the availability of registrarships for the specialisation Medical Oncology.
- Inquire at the Head of the Department of Family Medicine regarding the availibility of registrarships for the specialisation Emergency Medicine.

Each student must prove to the University that he or she

i. has successfully filled the required full-time training post for a period of four or five years according to the requirements of the department in question at the Steve Biko Academic Hospital, (in case of pathology registrars) or Kalafong Hospital or at an institution recognised by the University as equivalent;
ii. has completed the theoretical, practical, clinical and applicable training as stipulated;
iii. has passed the prescribed written, oral, practical and/or clinical university examinations, and
iv. has successfully completed the research component of the degree.

Admission requirements

- A prospective student for the MMed degree programme must be in possession of the MBChB degree of this University or a qualification deemed by the University to be equivalent to the MBChB degree for at least two years. In addition such a student must be registered as a physician with the Health Professions Council of South Africa for at least one year.

International students must have qualifications verified by SAQA. Contact department before applying for government positions. Contact department before application.

Other programme-specific information

A certificate issued by the Head of Department must be submitted as proof that the student is well qualified in research methodology before the degree is conferred.

"Major subject" refers to the recognised field of study in Medicine in which the student specialises. The study of the major subject extends over four or five years, as prescribed by the department in question.

Examinations and pass requirements

i. The sequence of the examinations in the prerequisite subjects will be determined by the head of the department under which the major subject falls.
ii. The nature, duration and time of the examinations in the prerequisite subjects are determined in cooperation with the heads of the departments under which the prerequisite subjects fall – with the proviso that, except in cases where stipulated otherwise, the examinations in the prerequisite subjects may be held at any time prior to or concurrently with the major subject. The examinations in the major subjects are held as follows:
iii. In the case of four-year programmes: not before the end of the third year.
iv. In the case of five-year programmes: not before the end of the fourth year.
v. A minimum final mark of 50% is required by all departments to pass in a subject and in the clinical section of the examination, a subminimum of 50%. General Regulations apply.
vi. A student is not admitted to the examination in a prerequisite subject (second examinations excluded) more than twice, nor is he or she admitted to the examination in the major subject more than twice.

Note: Certificates of satisfactory preparation and progress are required in respect of the fourth year of four-year programmes in which an examination is held at the end of the third year.

Second examinations

Second examinations for MMed students will only be held after at least six months have elapsed since the conclusion of the examination in which the student had failed.

Rules governing the writing of the examinations of the College of Medicine of South Africa [CMSA]

i. Only candidates who have met all requirements for the MMed degree except for the major subject (final examination), i.e. passed all prerequisite subjects (the latter to be interchangeable; can be passed either at the University or as primary and intermediary examinations at the College of Medicine of South Africa [CMSA], completed all practical, clinical and applicable training of four or five years as prescribed by the relevant academic department (continuous evaluation of the candidate, in an approved registrar post, by the Head of department of the candidate); and completed the required research component for the degree in accordance with the Faculty Yearbook regulations, i.e. Applied research methodology 800 (TNM 800) and the dissertation (MMS 800) or an article (not an ordinary literature review) that has been accepted for publication in a subsidised periodical, will be allowed to write the college examination (exit examination), after which they will

obtain both the CMSA fellowship and the MMed as specialist qualifications.

ii. The rules have been effective as from 1 January 2011. As a transitional measure, cases will be considered on an individual basis where necessary.

Exemption

Exemption

i. The Faculty Board may grant partial exemption from the training and work mentioned under par. (b) and (c)(i) and (ii) above on the grounds of comparable training and experience completed in another post or at another recognised institution – with the proviso that exemption from a maximum period of 18 months may be granted with regard to four-year and five-year programmes.

ii. Exemption from a maximum of three years may be granted by the Department of Medical Oncology for the MMed in Medical Oncology [MMed(MedOnc)] on the grounds of the MMed(Int) or MMed(Paed) degree of this University, or experience recognised by the University as equivalent.

iii. Specific prerequisite subjects must be passed within 24 months after commencement of the programme.

Pass with distinction

The degree is conferred at the end of the prescribed training period (i.e. three, four or five years, respectively). The degree is conferred with distinction on a student who has obtained a final mark of at least 75% in his or her major subject.

General information

Registrars

Departments expect registrars to participate increasingly in the examining and treatment of patients in the hospital, both in-patients and out-patients, as well as performing and interpreting tests in the laboratory (where applicable); initially under supervision and later increasingly at their own responsibility. Lectures/symposia with closely related departments are organised, as well as discussions of literature, etc.

Curriculum: Year 1

Minimum credits: 624

Core modules

Anatomy 800 (ANA 800)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 1 discussion class per week
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Anatomy
Period of presentation	Year

Pharmacology 806 (FAR 806)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 discussion class per week
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Pharmacology
Period of presentation	Year

Module content

*Attendance module only

Physiology 801 (FSG 801)

Module credits	36.00
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Physiology
Period of presentation	Year

Internal medicine 800 (IGK 800)

Module credits	300.00
Prerequisites	ANA 800, FSG 801, FAR 806, PAG 808
Language of tuition	Separate classes for Afrikaans and English
Academic organisation	Internal Medicine
Period of presentation	Year

Pathology 808 (PAG 808)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 discussion class per week, 2 other contact sessions per week
Language of tuition	Separate classes for Afrikaans and English
Academic organisation	Anatomical Pathology
Period of presentation	Year

Applied research methodology 802 (TNM 802)

Module credits	0.00
Language of tuition	Module is presented in English
Academic organisation	Health Sciences Dean's Office
Period of presentation	Year

Module content

*Attendance module only.

Dissertation 890 (MMS 890)

Module credits	180.00
Language of tuition	Module is presented in English
Academic organisation	School of Medicine
Period of presentation	Year

Curriculum: Year 2

Minimum credits: 624

Core modules

Anatomy 800 (ANA 800)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 1 discussion class per week
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Anatomy
Period of presentation	Year

Pharmacology 806 (FAR 806)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 discussion class per week
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Pharmacology
Period of presentation	Year

Module content

*Attendance module only

Physiology 801 (FSG 801)

Module credits	36.00
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English is used in one class
Academic organisation	Physiology
Period of presentation	Year

Internal medicine 800 (IGK 800)

Module credits	300.00
Prerequisites	ANA 800, FSG 801, FAR 806, PAG 808
Language of tuition	Separate classes for Afrikaans and English
Academic organisation	Internal Medicine
Period of presentation	Year

Pathology 808 (PAG 808)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 discussion class per week, 2 other contact sessions per week
Language of tuition	Separate classes for Afrikaans and English
Academic organisation	Anatomical Pathology
Period of presentation	Year

Applied research methodology 802 (TNM 802)

Module credits	0.00
Language of tuition	Module is presented in English
Academic organisation	Health Sciences Dean's Office
Period of presentation	Year

Module content

*Attendance module only.

Dissertation 890 (MMS 890)

Module credits	180.00
Language of tuition	Module is presented in English
Academic organisation	School of Medicine
Period of presentation	Year

Curriculum: Year 3

Minimum credits: 624

Core modules

Anatomy 800 (ANA 800)

Module credits	36.00
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 1 discussion class per week
Language of tuition	Afrikaans and English is used in one class
