

University of Pretoria Yearbook 2017

MChD Orthodontics (10252020)

Duration of study 4 years

Total credits 904

Admission requirements

Each candidate for admission to the study for the MChD degree programme must:

- either hold the BChD degree of the University of Pretoria or an equivalent qualification, or be admitted to master's degree studies in terms of the stipulations of General Regulations G.1.3 and G.62;
- be registered as a dentist with the Health Professions Council of South Africa in the category Independent Practice.

Examinations and pass requirements

Examination in the basic subjects

A student must pass all the basic subjects [University of Pretoria or the Colleges of Medicine of South Africa] before he or she may be admitted to the first year of study. Refer to regulation D3(b)(iii).

Examination and evaluation in the major subject

Admission to the examination in the major subject is determined by the head of department.

- a. The final exit examination of the major subjects will be administered by the Colleges of Medicine of South Africa. Only candidates who have met all the requirements for the MChD degree except for the major subject (final examination), i.e. passed all the prerequisite subjects; completed all applicable training as prescribed by the Head of Department concerned; and completed the required research component for the degree, will be allowed to write the College examination (exit examination) after which they will obtain both the College qualification and the MChD as specialist qualifications.
- b. The student must submit and pass a dissertation on an approved topic related to the major subject and submit a manuscript for publication as required.
- c. Costs or fees for any examination(s) and registration at the Colleges of Medicine of South Africa have to be met by the student.

Also consult the General Regulations.

- i. Examinations in the basic and subsidiary subjects (with the exception of KGM 803):
- a. A student must pass these subjects prior to admission to the examination in the major subject. A minimum of at least 50% is required to pass.
- b. Examinations in the basic and subsidiary subjects must be passed before the end of the third year of study, or at a time as determined by the head of department.
- ii. **Examinations in the major subject**: Admission to the examination in the major subject is determined by the head of department.

iii. If a student fails one or more of the basic subjects, subsidiary subjects or the major subject, the head of department may recommend to the examination moderating meeting, that he or she be admitted to a supplementary examination. A student who has been admitted to a second examination in a basic subject must write the examination during the next examination period. Second examinations in the major subject may only take place after a minimum period of six months has elapsed since the examination in which the student failed.

NB:

- a. In view of the fact that a postgraduate student may repeat an examination in any subject only once, a student who fails a second examination will have to discontinue the programme. In this event, a student who has been holding a registrarship, will have to vacate the position as soon as possible after one calendar month's notice to the University of Pretoria and/or other recognised training institution, where applicable.
- b. If a student is admitted to a second examination in the major subject, the head of department will determine whether he/she has to vacate the registrarship at the end of the training period, or immediately after the second examination.
- iv. **Subminimum**: In order to pass in the major subject a student must obtain a subminimum of 50% in all the sections of the examination, with a final mark of at least 50%.
- v. The stipulations of the General Regulations are applicable with regard to attendance courses.
- vi. In addition to the stipulations already mentioned, a dissertation on a topic related to the major subject must also be submitted. In order to pass in the final examination, a pass mark must also be obtained for the dissertation.

Exemption

Exemption may be granted by the Dean, on the recommendation of the Head of Department by virtue of comparable training and/or experience in terms of the requirements of School Regulations, with the proviso that exemption from the examination and evaluation in the major subject may not be granted.

Please note: The regulations of the Health Professions Council of South Africa, as published in the Government Gazette No. 4631 of 11 January 1991 – Notice No. R.40 (as amended), will be used as a criterion in determining the period of exemption.

Pass with distinction

A student who obtains a final mark of at least 75% (with the first attempt) in the major subject qualifies to obtain the degree with distinction.

An MChD student, who has obtained at least 75% with the first attempt in both his major subject and the dissertation, will receive the degree with distinction.

Curriculum: Year 1

Minimum credits: 724

Core modules

Anatomy 871 (ANA 871)

Module credits 36.00

Prerequisites No prerequisites.

Contact time 1 discussion class per week, 1 lecture per week

Language of tuition Afrikaans and English is used in one class

Academic organisation Anatomy

Period of presentation Year

Physiology 806 (FSG 806)

Module credits 36.00

Prerequisites No prerequisites.

Language of tuition Separate classes for Afrikaans and English

Academic organisation Physiology

Period of presentation Year

Maxillo-facial and oral surgery 800 (KGM 800)

Module credits 24.00

Prerequisites No prerequisites.

Contact time 1 discussion class per week, 1 practical per week

Language of tuition Separate classes for Afrikaans and English

Academic organisation Maxillo-Facial + Oral Surgery

Period of presentation Year

Human genetics 802 (MGN 802)

Module credits 24.00

Prerequisites No prerequisites.

Contact time 14 lectures per week

Language of tuition Separate classes for Afrikaans and English

Academic organisation Human Genetics and Dev Biology

Period of presentation Semester 1

Oral pathology 801 (MPG 801)

Module credits 24.00

Prerequisites No prerequisites.

Contact time 1 discussion class per week

Language of tuition Separate classes for Afrikaans and English

Academic organisation Oral Pathology and Oral Biolog

Period of presentation Year

Orthodontics 803 (ORD 803)

Module credits 464.00

Prerequisites No prerequisites.

Contact time 20 discussion classes per week

Language of tuition Separate classes for Afrikaans and English

Academic organisation Orthodontics

Period of presentation Year

Periodontics and oral medicine 801 (PMG 801)

Module credits 24.00

Prerequisites No prerequisites.

Language of tuition Separate classes for Afrikaans and English

Academic organisation Periodontics and Oral Medicine

Period of presentation Year

Prosthodontics 801 (PRD 801)

Module credits 24.00

Prerequisites No prerequisites.

Contact time 1 discussion class per week

Language of tuition Separate classes for Afrikaans and English

Academic organisation Prosthodontics

Period of presentation Year

Radiography 800 (RAD 800)

Module credits 24.00

Prerequisites No prerequisites.

Language of tuition Separate classes for Afrikaans and English

Academic organisation Oral Pathology and Oral Biolog

Period of presentation Year

Speech therapy 800 (SKT 800)

Module credits 20.00

Prerequisites No prerequisites.

Language of tuition Module is presented in Afrikaans

Academic organisation Speech-Language Pathlgy + Aud

Period of presentation Year

Pedodontics 801 (PDD 801)

Module credits 24.00

Prerequisites No prerequisites.

Language of tuition Separate classes for Afrikaans and English

Academic organisation Odontology

Period of presentation Year

Ethics and human rights 800 (EHR 800)

Module credits 0.00

Language of tuition Module is presented in English

Academic organisation School of Dentistry

Period of presentation Year

Applied research methodology 802 (TNM 802)

Module credits 0.00

Language of tuition Module is presented in English
