

University of Pretoria Yearbook 2017

MSc Public Health (10253290)

Duration of study 2 years

Total credits 180

Admission requirements

Subject to the stipulations of the General Regulations, a four-year bachelor's degree is required or an honours degree or in the case of a three-year bachelor's degree also applicable practical (work) experience as prescribed by the University plus any other additional work deemed necessary by the head of department: With the proviso that the head of department will have the discretion to decide whether the prerequisite qualification or the qualification plus work experience would be acceptable for admission to the proposed field of study.

All MSc students must register for, and attend (TNM 800) Applied research methodology 800 satisfactorily. (Exemption may be granted if the module has already been passed for the BScHons degree.) Also consult General Regulations.

Contact department before application.

Additional requirements

All MSc students must register for, and attend (TNM 802) Applied research methodology 802 satisfactorily. (Exemption may be granted if the module has already been passed for the BScHons degree.) However, MSc(Pharmacology) students must register for FAR 872 instead of TNM 802.

Also consult General Regulations.

Other programme-specific information

Please note: The choice of elective modules has to be approved by the supervisor.

Subject to the stipulations of the General Regulations, the Chairperson of the School may, in consultation with the head of department, approve a fixed limited extension of the period on the grounds of extraordinary circumstances.

Examinations and pass requirements

- i. The minimum pass mark for a module is 50%.
- ii. The prescribed modules must be passed independently of each other.
- iii. Second examinations in the modules are arranged by the head of department, within a period of time specified by him or her.
- iv. No second examinations will be granted in modules in which less than 40% has been obtained. Instead, the

- module must be repeated in its entirety.
- v. Only with the approval of the Chairperson of the School, on the recommendation of the head of department, will a student be allowed to continue his or her studies after having failed two modules (or the same module twice).

Research information

Research protocol

After registration, a student is required to submit a complete research protocol regarding the proposed dissertation to the Academic Advisory Committee and if necessary, also to the Ethics Committee for approval.

Dissertation

A dissertation on an approved research project must be passed in addition to the coursework. The stipulations of the General Regulations regarding the preparation and submission, the technical editing and the résumé of the dissertation apply.

A systematic literature review (Cochrane type) on an approved subject, which is undertaken in such a manner that bias is minimised, may be presented as an alternative to the dissertation for awarding the MSc degree, provided that the module CLI 870 Principles of clinical epidemiology has been successfully completed. It requires, inter alia, a research protocol with clearly formulated objectives and methods. Inclusion and exclusion methods for the study must be determined. Where applicable, the data must be summarised (meta analysis), with applicable statistical methods.

Pass with distinction

The average mark of the modules, weighted in respect of the number of credits acquired for each individual module, will be the final mark (%) of the coursework.

The degree is conferred with distinction on a student who obtains an average mark of at least 75% in the coursework, as well as a final mark of at least 75% for the dissertation.

Curriculum: Year 1

Fundamental modules

Applied research methodology 802 (TNM 802) - Credits: 0.00

Learning in public health 873 (PHM 873) - Credits: 0.00

Scientific writing 873 (HMS 873) - Credits: 0.00

Scientific writing 873 (HMS 873) - Credits: 0.00

Core modules

Dissertation: Public health medicine 890 (GGS 890) - Credits: 100.00

Biostatistics (1) 874 (BOS 874) - Credits: 10.00

Biostatistics 2 875 (BOS 875) - Credits: 10.00

Epidemiology 1 874 (HME 874) - Credits: 10.00

Elective modules

Health risk assessment 871 (EHM 871) - Credits: 10.00

Methods in exposure assessment 872 (EHM 872) - Credits: 10.00

Epidemiology 2 870 (EPM 870) - Credits: 10.00

Conducting surveys 873 (EPM 873) - Credits: 10.00

Disease surveillance 874 (EPM 874) - Credits: 5.00

Qualitative research methods 870 (QHR 870) - Credits: 10.00

Principles of clinical epidemiology 872 (CLI 872) - Credits: 10.00

Monitoring and evaluation 875 (HME 875) - Credits: 15.00

Environmental epidemiology 871 (EOM 871) - Credits: 10.00

Environmental chemical pollution and health 874 (EHM 874) - Credits: 5.00

Introduction to toxicology 872 (EOH 872) - Credits: 5.00

Curriculum: Final year
