## Faculty of Humanities

### Welcome to the Faculty of Humanities

The Faculty of Humanities is one of the oldest and most respected Humanities faculties in South Africa. Established more than 100 years ago, the Faculty of Humanities at the University of Pretoria has a long tradition of and extensive experience in providing undergraduate and postgraduate programmes in a wide range of disciplines in the languages, arts, and the social sciences.

### Faculty regulations and information

*The rules for the degrees published here are subject to change and may be amended after the publication of this information.*

*The General Regulations (G. Regulations) and General Rules apply to all faculties of the University of Pretoria. It is expected of all students to familiarise themselves well with these regulations and rules as well as all faculty-specific and programme-specific regulations and information as stipulated in the online yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression.*

#### 1. Transfer to the Faculty of Humanities

The closing date for application to be transferred to the Faculty of Humanities is 31 October.

##### 1.1 Internal application to transfer (from another Faculty to Humanities or from one Humanities degree to another)

- Students who apply to transfer to the Faculty of Humanities submit an application to transfer, as well as a letter of motivation, in order to be considered for admission.
- A student applying to transfer in the following year: the Committee considers the AP score according to the Faculty requirements, as well as the student's academic performance during the preceding year (as stipulated in Faculty Regulation 3.10.1 below).
- In the case of a selection programme, the application to transfer must be submitted directly to the relevant department.
- No mid-year applications will be considered.
- Applications requiring discretionary admissions must be considered by the Faculty Admission Committee.

##### 1.2 Application to be readmitted (after academic exclusion)

Students who apply to be readmitted after academic exclusion must submit an application online, as well as a letter of motivation and other supporting documents, in order to be considered for readmission.

- The Faculty Appeals Committee will consider the application based on overall academic performance, the student's letter of motivation and other supporting documents.
- Should the application to be readmitted be declined by the Committee, the student may request a review of the Faculty's decision by the Senate Review Committee.

In the absence of complete supporting documentation, the Committee will not be able to take a decision. It is the student's responsibility to provide all the required and relevant information. The Faculty is entitled to verify the documents or proof submitted, if necessary.

##### 1.3 Application to transfer from another university to UP

Process to be followed as above (1.1). In the case where the credit system differs from the one used by UP, students will be considered on the following criteria:

- Must have passed 50% of the modules/subjects equivalent to 60 credits or more if they were first years and at least 80 credits if they are senior students.
- Must have passed at least 2 full subjects (or the equivalent thereof) during their last year of enrolment at another university (2 year modules/4 semester modules/8 quarter modules).
- General Regulation G.3(4): Regulation G.3.2 applies with the necessary changes, to students from other tertiary institutions who register at the University.

## **2. Cancellation of modules**

Dates for cancellations and/or changing of modules are published annually. The dates published by the Faculty of Humanities, will be strictly adhered to.

## **3. Community engagement**

The Faculty of Humanities creates opportunities for community engagement in which students may actively participate in order to promote social responsibility.

### **Specific requirements for undergraduate programmes**

Prospective students must check which requirements apply to particular programmes and modules offered in the Humanities and other faculties. The details of the particular requirements for programmes are set out in the section on curricula.

Should a student wish to take a module offered by another faculty, he or she must determine the admission requirements for that module, as well as the subminimum required for examination papers, supplementary examinations, amount of credits etc. in the faculty concerned.

A student accepted for a bachelor's programme in the Faculty of Humanities and who does not make good progress in the first semester (at least pass the following modules: AIM 101 (6) plus 2 semester modules (24), a total of at least 30 credits), will have to complete UPO101 in the first year of study. This module must be completed before further admission will be considered. A student may be limited in the number of credits he/she is allowed to register for in the second semester.

Furthermore, at the end of a semester or a year of study, a student may be limited in the number of credits he/she is allowed to register for in the subsequent semester/year(s) of study, or the student may be transferred to the BA - Extended programme, pending the student's previous academic achievements. Please refer to Regulation 4 below.

### **1. Class attendance**

The study programmes of the Faculty of Humanities have been approved by the Department of Higher Education and Training and accredited by the Council on Higher Education. Programme managers and coordinators are thus compelled to comply with the minimum requirements set by the Department.

Since the Faculty places a high premium on the development of thinking skills and specific academic competencies, class attendance in all modules and for the full duration of a programme is compulsory for all students enrolled in degree programmes of the Faculty of Humanities.

Where the electronic media (such as clickUP) predominate in a module, it may be that class attendance is not a requirement. In these modules students are obliged to comply with all requirements as prescribed for the specific module.

Students may be refused admission to the examination in a particular module if they have failed to fulfil the published attendance requirements in that module.

At the beginning of a module, the study guide for that module will inform students about the requirements and monitoring of class attendance in that particular module.

## **2. Recognition of modules passed**

The maximum duration for the retention of credits after an interruption in studies is five (5) years. If a student wishes to continue with a specific module at a higher (second, third or fourth) year level after an interruption, he or she will have to repeat all previous modules within that discipline passed more than five years prior to the year in which they plan to re-register.

## **3. Assessment**

The regulations given below apply to the assessment of modules in the Faculty of Humanities, but departments may, in exceptional cases and in consultation with the Dean, make alternative arrangements for specific modules.

At the beginning of a module, the study guide for that module will inform students about all arrangements regarding assessment in that particular module.

### **3.1 Examinations**

- i. A minimum year/semester mark of at least 40% in a module is required for admission to the examination for that module.
- ii. In the calculation of the final mark for a module in which an examination is written, the year/semester mark will carry a weight of 50% and the examination mark a weight of 50%. The year/semester mark is calculated on the basis of at least two assessments in quarter modules, three assessments in semester modules and four assessments in year modules.
- iii. In order to pass a module, a final mark of at least 50% as well as a minimum examination mark of 40% must be obtained, except when a module is completed without a scheduled examination. Students will pass a module with distinction if a final mark of at least 75% is achieved.
- iv. A module may be completed without a scheduled examination\* provided that
  - a. the final mark is based on a student's performance in at least three assessments in quarter modules, four assessments in semester modules and five assessments in year modules;
  - b. a final mark of at least 50% is obtained; and
  - c. students are not provided with an additional opportunity for assessment.

**\*NB** In such cases the Dean's permission must be obtained beforehand.

- v. The final results for all modules will only be published after approval thereof by the external examiner/examiners/examination commission.

### **3.2 Supplementary examinations, extraordinary examinations and aegrotats**

- i. Both supplementary examinations and extraordinary examinations (including aegrotats) are written in the supplementary examination period. Extraordinary examinations (or aegrotats) have the same duration and format as the main examination for the module. The supplementary examination may differ in duration and format from the main examination.
- ii. Students who have been admitted to an extraordinary examination (or an aegrotat) will not be given the opportunity to write a supplementary examination in the module.
- iii. Students may be admitted to a supplementary examination in a module in the following cases:
  - a. if a final mark of between 40% and 49% was obtained; or
  - b. if a final mark of 50% or more was obtained, but not the required examination subminimum of 40%.

- iv. If the module, in which a final mark of between 40% and 49% has been obtained, is a first-semester module at first-year level, a supplementary examination must be granted.
- v. In the calculation of the final mark for the supplementary examination, the year/semester mark carries a weight of 50% and the supplementary examination mark a weight of 50% (ie the same as for the main examination in the module). The highest final mark that may be awarded following the supplementary examination is 50%. Students must obtain a subminimum of at least 40% in the supplementary examination to pass the module.
- vi. In the calculation of the final mark for an extraordinary examination (or an aegrotat), the same principle applies as for the main examination in the module (ie the year/semester mark carries a weight of 50% and the examination mark a weight of 50%).
- vii. No ancillary examinations are granted in the Faculty of Humanities.
- viii. No special supplementary examination will be granted to students who could not write the scheduled supplementary examination.

Students who did not write the main examination on the scheduled day may apply for an extraordinary examination (or an aegrotat) at the Student Administration office. Lecturers are not allowed to grant students access to such examinations. Applications for these must be handed in together with a valid medical certificate and/or supporting documentation/affidavits not later than three working days after writing the main examination.

A medical certificate will not be accepted where it states that students appeared ill or declared themselves unfit to write the examination. The medical practitioner must be consulted on or before the date on which the examination was scheduled.

A medical certificate will not be accepted if it does not contain the physical address and telephone number of the doctor/medical practice as well as the practice number. In cases where a reason other than sickness is given, students must submit an affidavit that reflects the reason for their absence from the examination. It is the responsibility of students to ascertain whether their requests have been successful or not.

Students who have been granted permission to write an extraordinary examination or an aegrotat and who then fail to write the examination will not qualify for any further extraordinary or aegrotat examinations.

### **3.3 Special examinations in the Faculty of Humanities**

Students who complied with all the requirements of a degree with the exception of at most a year module, or the equivalent thereof, in which they obtained a final mark of at least 40%, may with the approval of the Dean, on recommendation of the head(s) of department, be admitted to a special examination at the beginning of January. Students who obtained a final mark of less than 40% in any of the mentioned modules will not be considered. The maximum final mark that may be awarded is 50%. Students only qualify for a special examination if they have completed the prescribed examination in their final year of study.

### **3.4 Exemption from an examination (promotion)**

No promotions are allowed in any modules in the Faculty of Humanities.

### **3.5 Requirements to pass**

Unless otherwise indicated, General Regulation G.12.2 applies.

### **3.6 Perusal of examination answer scripts**

After the main examination, departments will give students the opportunity to peruse their examination answer scripts and give feedback about the criteria used by examiners. The date/time of the perusal and the manner in which feedback is given shall be determined by the department concerned and notices will be posted in departments about when perusal will take place. Students who are unable to attend the official perusal session may apply to the department for an opportunity to see the examination answer script. No lecturer is under any

obligation to grant any student such a perusal opportunity more than two weeks after the commencement of the following semester.

### **3.7 Re-marking of examination answer scripts**

Students may apply for re-marking of an examination answer script after perusal of such a script, but within 14 calendar days after commencement of lectures in the next semester. Students who wish to have their scripts re-marked must pay the prescribed fee and submit their request to the Dean of Humanities (Student Administration office), who will inform the department concerned if a re-mark is granted. The answer script will then be re-marked by an examiner appointed by the head of the department concerned. Marks will be adjusted according to the re-marking, but no supplementary examination will be granted.

### **3.8 Release of examination marks**

Final marks will be released by the Student Administration office.

Lecturers may destroy examination answer scripts once a period of one year has passed from the date on which the examination was written.

### **3.9 Departmental test policy**

Departmental test policy will be communicated to students by means of study guides and/or departmental guidelines.

Students who do not comply with the undermentioned requirements, may be excluded from the Faculty.

### **3.10 Promotion requirements**

In the case of full-time students, a three-year degree must be completed in a maximum of five years, and a four-year degree must be completed in a maximum of six years. In the case of students who follow an approved extended study programme, a three-year degree must be completed in a maximum of six years. Unless the Faculty Board has approved other regulations for a programme:

- i. **full-time students who are registered for a three-year degree** must obtain at least 60 credits during their first year of registration and at least 80 credits during each subsequent year;
- ii. **full-time students who are registered for a four-year degree** must obtain at least 80 credits during their first year of registration and at least 85 credits during each subsequent year; and
- iii. **in the case of a three-year degree, students who follow an approved extended study programme** must obtain at least 50 credits during their first year of registration and at least 80 credits during each subsequent year.

### **3.11 Exclusion**

- i. Exclusion after the first-semester examination:

- a. first-year students will be dismissed from the Faculty if they fail all modules in the first semester;
- b. senior students will be dismissed from the Faculty if they were registered at the beginning of the academic year under specific conditions after being excluded at the end of the previous year (ie registered only for the first semester, with the condition of passing all registered modules), and not fulfilling the set conditions.
- c. In the case of (a) students may appeal the decision with the Faculty Appeals Committee - should the appeal be denied, the student may request a review of the Faculty's decision by the Senate Review Committee.

- ii. Exclusion after the second-semester examination: Refer to Regulation 3.10.

### **3.12 Termination of registration**

The Dean may, on the recommendation of an appropriate faculty committee, cancel the registration of a student or the registration for a module during an academic year if the student fails to comply with the minimum requirements determined by the Faculty Board with regard to tests, examinations or any other work, with the

proviso that a student may request that the Dean reconsider the decision in terms of the set procedures.

### **3.13 Humanities Special**

This programme is designed for students who have completed their first degree wanting to register for non-degree purpose.

### **4. Maximum number of credits**

Any student who wishes to undertake additional credits above the 120 credits specified for the degree must seek the advice of programme coordinators and obtain their permission before being allowed to register.

If permission is granted:

- Students at first year level may take no more than 12 credits (ONE first year module) per semester (48 hours per week).
- Students at second year level may take no more than 20 credits (ONE additional 20 credit module or ONE additional 12 credit module) per semester (max. 53.3 hours per week).
- Students at third year level may take no more than 30 credits (ONE third year module or ONE second year module) per semester (max 60 hours per week).

Students who are granted permission to take additional credits must pass all courses in a semester before being given permission to take additional credits in the subsequent semester.

### **Specific regulations applicable to postgraduate qualifications**

#### **1. Academic literacy**

It could be required from new postgraduate students to provide proof of their academic literacy.

#### **2. Credit for modules**

No credit will be given for modules which form part of another degree programme where the student has already complied with the requirements of such a degree. The rule is also applicable in instances where the student is currently registered for more than one degree programme.

#### **3. Recognition of modules passed**

The maximum duration for the retention of credits after an interruption in studies is three (3) years. If a student wishes to continue his or her postgraduate studies after an interruption, he or she will have to repeat all modules passed more than three years previously.

#### **4. Renewal of registration**

##### **4.1 Honours degree**

Subject to exceptions approved by the Dean, on the recommendation of the head of the department, a student may not sit for an examination for the honours degree more than twice in the same module.

A student who is registered for an honours degree must complete his or her study, in the case of full-time students, within one year of registering for the degree and, in the case of part-time students, within two years of first registering for the degree. Under special circumstances, the Dean, on the recommendation of the head of the department, may give approval for a limited extension of this period.

##### **4.2 Master's degree**

- i. Students at the University are registered for one year of study. After a year has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are prescribed by Council from time to time.
- ii. Subject to exceptions approved by the dean, on the recommendation of the head of the department, a student may not enrol for the same module for a master's degree more than once. This applies to both modules and the dissertation.

- iii. Students who are given permission by the dean, on the recommendation of the head of the department, to present themselves more than once for an examination in the same department, must pay the full fees for this examination.
- iv. Students enrolled for a master's degree must complete their studies within two years after first registering for the degree, except for programmes which requires a longer period.
- v. Renewal of registration after the two year period is permitted only under special circumstances where the head of the department may give approval for a limited fixed extension of this period in terms of the set procedures.

### **4.3 Doctorate**

- i. Students at the University are registered for one year of study, or for a shorter period determined in general or in specific cases by Council. After a year or period of study has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are prescribed by Council from time to time.
- ii. Subject to other faculty regulations, a student for a doctorate must complete his or her studies within three years after first registering for the degree. Under special circumstances, the dean, on the recommendation of the head of department or the Postgraduate Committee, may give approval for a limited fixed extension of this period.

## **5. Minimum study periods and requirements for degrees**

### **5.1 Honours degree**

- i. An honours degree is only conferred on a student, if the student has complied with the following minimum periods of study:
  - a. One academic year after the qualification has been obtained by virtue of which admission to the study has been granted;
  - b. Where an honours degree is followed concurrently with a bachelor's degree, one academic year in addition to the minimum period prescribed for the bachelor's degree in question – with the proviso that in cases of exceptional merit, the University may, in agreement with the Joint Statute, shorten the minimum period of attendance.
- ii. In addition to the stipulations of G.22.1, an honours degree is only conferred on a student if the student has complied with all the requirements laid down in these faculty regulations.

### **5.2 Master's degree**

The master's degree is conferred on a student only if at least one year has expired after the qualifications by virtue of which admission to master's study has been obtained – with the proviso that the student is registered for at least 12 months for a master's degree at this University, although the Dean may approve a shorter period. A master's degree is conferred on a student only if he or she complies with all the requirements laid down in these faculty regulations.

### **5.3 Master's degree by coursework and mini-dissertation**

- i. A coursework master's degree is conferred on a student by virtue of examinations (per module) and a mini-dissertation or other research relevant output.
- ii. Decisions on the size (number of credits) of the research component of a master's degree by coursework are made keeping in mind that the University is an internationally recognised, research intensive South African institution of higher education.
- iii. Mini-dissertations or other relevant forms of research are prepared and examined according to the

instructions that are laid down in the faculty regulations.

## 5.4 Doctorate

The doctorate is conferred on a student only if one of the following periods has expired:

- i. At least four years after complying with all the requirements for a three-year bachelor's degree.
- ii. At least three years after complying with all the requirements for a four-year bachelor's degree.
- iii. At least two years after complying with all the requirements for a bachelor's degree of five years or more.
- iv. At least two years after complying with all the requirements for a master's degree.
- v. With the exception of a shorter period that may be approved by the Dean, at least 12 months since registration for the doctorate at this University have expired.

In addition to the stipulations of the applicable G. Regulation a doctorate is conferred on a student only if he or she has complied with all the requirements laid down in faculty regulations.

## 6. Procedures with regard to registration for master's and doctoral degree programmes (by research)

*No interruption may occur in a postgraduate student's registration for a research-orientated postgraduate study programme. Should a student interrupt his/her studies, such a student will upon re-registration be liable for the full fees applicable to the degree programme.*

Postgraduate students, who fail to renew their registration annually, are regarded as having had an interruption in their studies.

### 6.1 Students for the master's degree (by research only) must:

Submit an approved research proposal before registration of a specific degree programme. The research proposal for the dissertation must be approved by the departmental research committee, after which it must be submitted to the Research Ethics Committee of the Faculty of Humanities for final approval before the research can be proceeded with.

### 6.2 Students for the PhD degrees must:

- i. submit an approved research proposal before registration of a specific degree programme. The research proposal for the thesis must be approved by the departmental research committee, after which it must be submitted to the Research Ethics Committee of the Faculty of Humanities for final approval before the research can be proceeded with;
- ii. submit a thesis on the approved topic for examination;
- iii. pass an oral doctoral examination before the degree can be conferred. The doctoral examination, which can also be in the format of a defence of thesis or seminar, is done before a panel of examiners appointed by the Dean, in collaboration with the head of department, supervisor and research coordinator.

**6.3** Students enrolling for a coursework master's degree programme must, in the case of ethical implications, submit a research proposal for a mini-dissertation beforehand to the Research Ethics Committee of the Faculty of Humanities for approval before the research can be proceeded with. Also see the applicable General Regulations.

## 7. Assessment

The regulations given below apply to the assessment of postgraduate modules for honours and master's degree programmes with coursework offered by departments in the Faculty of Humanities. Departments may, in exceptional cases and in consultation with the Dean, make alternative arrangements with regard to specific modules.

**At the beginning of a module,** students must be informed in the study guide about the arrangements regarding assessment in that particular module.

## 7.1 Examinations

- i. A minimum progress mark of 40% is required for admission to the examination.
- ii. In the calculation of the final mark for the module in which an examination is written, the progress mark will carry a weight of a minimum of 50% and the examination a weight of a minimum of 50%. The progress mark is calculated on the basis of two assessments done during the period that the module is presented.
- iii. In order to pass a module, a final mark of at least 50% and a minimum examination mark of 40% must be obtained, except when a module can be completed without a scheduled examination. A student will pass a module with distinction if a final mark of at least 75% is achieved.
- iv. A module may be completed without a scheduled examination\* provided that:
  - a. all the outcomes of the module have been evaluated by means of formative assessment;
  - b. the final mark is based on the student's performance in at least three assessment opportunities;
  - c. a final mark of at least 50% is obtained; and
  - d. students are not provided with an additional opportunity for assessment, such as a supplementary examination or a retest.

**\*NB** The Dean's permission must be obtained beforehand in such cases.

- v. The final results for all modules will only be published after condonation of the results by the examination commission of the Faculty of Humanities. No results will be released beforehand.

## 7.2 Supplementary and extraordinary examinations (including aegrotats)

Only where applicable.

## 7.3 Exemption from an examination (promotion)

No promotions are allowed in any modules in the Faculty of Humanities.

**7.4** A formal examination (written or oral) is a requirement for doctoral degrees in the Faculty of Humanities unless the Dean of the Faculty gives exemption. Also see the applicable G. Regulation.

## 8. Degree with distinction

Except where otherwise indicated for individual programmes, a student has to obtain a weighted average of at least 75% in order to pass the degree with distinction. The doctoral degree cannot be conferred with distinction.

## 9. Draft article for publication

A dean may require, before or on submission of a dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

A student, before or on submission of a thesis, must submit proof of submission of an article issued by an accredited journal, to the Head: Student Administration. The submitted article should be based on the research that the student has conducted for the thesis and be approved by the supervisor.

The supervisor shall be responsible for ensuring that the paper is taken through all the processes of revision and resubmission, as may be necessary.

### Programme information

This programme is directed at a general formative education in the humanities. It provides the student with a broad academic basis in order to continue with postgraduate studies and prepares the student for active involvement in a wide variety of career possibilities.

### Admission requirements

- Candidates are advised to apply early, due to limited space availability in all programmes. As soon as a programme reaches its full capacity, applications of the specific programme will be closed before the official closing date.
- The following candidates will be considered for admission:
  1. A candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another recognised tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria
  1. Candidates who have completed the National Senior Certificate with admission to degree studies or a certificate of conditional exemption on the basis of a candidate's non-South African ("foreign") qualifications, the so-called "Immigrant" or "Foreign Conditional Exemption". The only condition for the "Foreign Conditional Exemption" that is accepted is: 'completion of the degree course'. The exemption certificate is obtainable from Universities South Africa (USAf). Detailed information is available on the website at [mb.usaf.ac.za](http://mb.usaf.ac.za).
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The above-mentioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12, except BA (Speech-Language Pathology), BA (Audiology) and BSocSci (Philosophy, Politics and Economics). The required APS for these three programmes is 32 in order to retain admission. Prospective students who have already been granted conditional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admissions Committee should space be available. The Admissions Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space. The NBT is not applicable to selection programmes. Candidates who apply for selection programmes or BA (Law) are required to meet the minimum admission requirements.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Life Orientation is excluded when calculating the APS.
- The language of communication and correspondence is English only.
- For more information, please consult the Faculty yearbook on the UP website.

- **Note:** The A and IB HL levels are not included in the APS Conversion Table. Faculty requirements for admission based on these equivalent international qualifications are a D for the A level and 4 for the IB HL level.
- Non-NSC candidates who have already completed the equivalent of Grade 12, are advised to submit their Exemption certificates obtained from USAf ([www.usaf.ac.za](http://www.usaf.ac.za)) along with their applications.
- Non-NSC candidates who do not have English Language in Grade 12 are advised to write the NBT or submit their SAT results. Please note that English Literature is not considered as a substitute for English language.

Candidates will be expected to achieve an APS of at least 28 in Grade 12 to retain admission.

\* Cambridge A level candidates who obtained at least a D in the required subjects, will be considered for admission. International Baccalaureate (IB) HL candidates who obtained at least a 4 in the required subjects, will be considered for admission.

### Other programme-specific information

Students who are deemed to be at risk of their level of academic literacy are compelled to take ALL 110 and ALL 125.

Students who are deemed NOT to be at risk of their level of academic literacy are compelled to take language modules to the value of 12 credits from the list of language modules (see Academic literacy).

**In addition to the prescribed fundamental modules of 18 credits, the curriculum should be compiled as follows:**

#### First year of study

Select any 4 disciplines (subjects) and do 2 semester modules from each of these disciplines plus 1 other module.

#### Second year of study

Select any 3 of the 4 disciplines that you did at the first-year level and do 2 semester modules from each of these disciplines.

#### Third year of study

Select any 2 of the 3 disciplines that you did at the second-year level and do 2 semester modules (4 quarter modules) from each of these disciplines.

#### Please note:

- Students who want to pursue an occupation in Forensic Archaeology must include ANA 122, ANA 215 and ANA 315 in their BA degree programme and take Archaeology as one of their two majors up to third-year level.
- Students who want to continue with honours study in Psychology must include RES 210 and RES 320 in their programme.

**Note:** The following general principles for combining disciplines in this programme prevail:

- If a discipline (subject) does not offer two semester modules (4 quarter modules) per year level, students should consult the departmental head of the particular discipline regarding potential supplementing with other relevant modules.
- If any language disciplines (language subject) are selected, the module choices that are prescribed in the

language groups and in the alphabetical list of modules must be taken into account.

- This programme also provides for students who register for Humanities Special (Extended programme).
- Credits for 1st-year modules are [12 credits] at yr level 1 per semester, [20 credits] at yr level 2 per semester and [30 credits] at yr level 3 per semester, unless indicated otherwise.
- A few disciplines (subjects) from other faculties may be included in this programme but the following restrictions are applicable: only two of the four first-year subjects, one of the three second-year subjects, and one of the two third-year subjects may be selected from another faculty. Only the following disciplines from other faculties may be included in the programme:
  - Biblical and religious studies REL110,120
  - Education (OPV)
  - Geography ENV 101,301 GGY 156,166,252,266,356,361,366, GIS 221 WKD 164
  - Economics (EKN)
  - Information science (INL)
  - Mathematics (WTW)
  - Public administration (PAD)
  - Statistics (STK)
  - Consult the yearbook of the relevant faculty that offers these disciplines regarding the credit values, presentation modes and possible prerequisites.
- In order to continue with postgraduate studies in a specific discipline a student needs to do 6 semester modules or 12 quarter modules in the discipline over the three years of study.

## **LANGUAGE GROUPS FOR SELECTION IN PROGRAMMES**

Note: You should consult the alphabetical list of modules for full information on all the language modules listed below, as some of these modules have specific requirements/prerequisites.

### **Module group 1 - Afrikaans**

#### **Year level 1**

### Programme information

The purpose of this four-year degree package is to provide qualifying students with in-depth knowledge of the hearing process within the context of human communication, the causes and symptomatology of hearing and vestibular difficulties and the scientific basis of intervention with a person with a hearing or vestibular disorder or those at risk of developing such pathology, often due to the high burden of disease in South Africa. This intervention can occur in a one-to-one situation, in group therapy, by using a multidisciplinary team approach or by means of community-based intervention. The qualification includes applied competence such as practical skills to improve or enhance the aural, vestibular and/or communication abilities of those adversely affected by a hearing or vestibular disability or those at risk of developing such disabilities. The qualification furthermore complies with international academic requirements.

Closing date for application: 30 June annually

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- To retain admission, learners will be expected to obtain an APS of at least 32 in Grade 12.
- The NBT is not applicable to this programme.
- PLEASE NOTE: Only students who indicated this programme as their first choice on the Application Form, will be considered.
- Life Orientation is excluded when calculating the APS.

## Additional requirements

Departmental selection takes place.

Practising audiologists should have good speech production and language use to serve as a model for individuals with vestibular and hearing disorders. They should also have good hearing, vision, and motor ability in order to assess and treat individuals with a variety of vestibular disorders.

## Other programme-specific information

Students who are deemed to be at risk of their level of academic literacy are compelled to take ALL 110.

Students who are deemed NOT to be at risk of their level of academic literacy may substitute ALL 110 with SEP 110 or ZUL 110.

Please note:

- Change over from one programme to the other at the end of the first year of study will be subject to available space in the second year of study and to a selection process.
- To pass a module, a subminimum of 40% has to be achieved in each subsection of the following modules: Audiology (ODL), Human communication (KMP) and Speech-language pathology (SPP).

## Pass with distinction

In order to pass the degree with distinction a student has to obtain:

- a final mark of 70% or higher for *each* of the modules of the final year;
- an average of 75% or higher for the Audiology modules at fourth-year level; and also
- a final mark of 75% or higher for one of the theoretical modules, ODL 410 or ODL 420.

## BA Extended programme (01130014)

**Minimum duration of study** 4 years

## Programme information

This programme is directed at a general formative education in the humanities. It provides the student with a broad academic basis in order to continue with postgraduate studies and prepares the student for active involvement in a wide variety of career possibilities.

## Additional requirements

Prospective students cannot apply for this study programme. The Faculty's Admission Committee determines which students will be placed in this study programme. A limited number of places are available. Grade 12 applicants who have achieved an APS of 26-29 in Grade 11 will be considered for the BA (Extended programme), based on the results of the NBT.

## Other programme-specific information

Students who are deemed to be at risk of their level of academic literacy are compelled to take ALL 110 and ALL 125.

Students who are deemed NOT to be at risk of their level of academic literacy are compelled to take language modules to the value of 12 credits from the list of language modules (see Academic literacy).

**In addition to the prescribed fundamental modules, the curriculum should be compiled as follows:**

### **Core/Elective modules:**

#### **First year of study**

Select any 2 disciplines (subjects) at yr level 1 and do 2 semester modules from each of these disciplines plus 1 other module.

#### **Second year of study**

Select one discipline (subject) that you did in the first year and do both semesters at yr level 2.

Select any 2 additional disciplines at yr level 1 and do both semesters.

#### **Third year of study**

Select any 1 of the previous disciplines that you did at year level 1 and do it at yr level 2.

Select one of the disciplines that you did at yr level 2 and do it at yr level 3.

#### **Fourth year of study**

Select the other discipline that you did at yr level 2 and do it at yr level 3. Select any of the remaining modules you did at yr level 1 and do it at yr level 2.

The following general principles for combining disciplines in this programme prevail:

- If a discipline (subject) does not offer two semester modules per year level, students should consult the departmental head of the particular discipline regarding potential supplementing with other relevant modules.
- If any language disciplines (language subjects) are selected, the module choices that are prescribed in the language groups and in the alphabetical list of modules must be taken into account.
- A few disciplines (subjects) from other faculties may be included in this programme but the following restrictions are applicable: only two of the four first-year subjects, one of the three second-year subjects, and one of the two third-year subjects may be selected from another faculty. Only the following disciplines from other faculties may be included in the programme:
  - Biblical and religious studies (REL)
  - Information science (INL)
  - Education (OPV)
  - Geography (GGY)
  - Consult the yearbook of the relevant faculty that offers these disciplines regarding the credit values,

presentation modes and possible prerequisites.

- In order to continue with postgraduate studies in a specific discipline, a student needs to do six semester modules in the discipline over the three years of study.

## **LANGUAGE GROUPS FOR SELECTION IN PROGRAMMES**

## BA Fine Arts (01130103)

**Minimum duration of study** 4 years

**Contact** Dr A Sooful [avi.sooful@up.ac.za](mailto:avi.sooful@up.ac.za) +27 (0)124203111

## Programme information

This programme focuses on the main disciplines in fine arts, ie painting, sculpture, graphic printmaking, drawing and new media, as well as on the theories and concepts of art. Graduates qualify as professional artists. The programme is aimed at the promotion of aesthetic awareness and the broadening of visual, critical and creative thinking. The programme also incorporates art management, art communication and marketing, digital training and the use of a wide range of artists materials, media and techniques.

Closing date for applications: 30 June annually

## Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12.
- Life Orientation is excluded when calculating the APS.

### Additional requirements

Departmental selection is necessary prior to admission to this programme. Although Art as a Grade 12 subject is not a requirement, a candidate must be able to demonstrate his/her creative potential and commitment to the chosen field of study. Candidates are therefore required to submit a portfolio of work for a merit selection review and, if invited, undergo a series of tests and be interviewed by a selection committee. Contact the coordinator for more information. A student who chooses this programme must work in an appropriate design studio, approved by the coordinator, for at least six weeks during the third and fourth years.

### Other programme-specific information

Students who are deemed NOT to be at risk of their level of academic literacy, are exempted from ALL 110 and ALL 125.

## BA Languages (01130016)

**Minimum duration of study** 3 years

**Contact** Prof HJ Bosman [nerina.bosman@up.ac.za](mailto:nerina.bosman@up.ac.za) +27 (0)124203111

### Programme information

This programme is aimed at equipping the learner with communication skills as well as in-depth knowledge of the language, literature and culture of at least two languages. Through the study of language, students are guided towards critical reflection on and well grounded participation in (cultural) discourses, and they acquire perspectives on different aspects of people and their interaction with the world. By continuing with an honours degree in Translation and Professional Writing or an honours degree in Applied Language Studies on completion of the BA Languages programme, students are equipped to become researchers or practitioners (full-time or freelance) in any of the following professional domains: translation and interpreting, editing, lexicography, language planning and development, corporate communication, document design, advertising, creative writing, media work, community development, tourism and the diplomatic service. By continuing with a Postgraduate Certificate in Education on completion of the BA Languages programme, students are equipped to enter the teaching profession.

## Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

## BA Law (01130086)

**Minimum duration of study** 3 years

**Contact** Ms SB Baird [sophy.baird@up.ac.za](mailto:sophy.baird@up.ac.za) +27 (0)124203111

### Programme information

This programme provides graduates with specific knowledge of the law and law-related skills and schools them in selected language discipline(s) and selected social sciences. The skills acquired may be applied in either the private or public sectors. The programme serves as an alternative route for ultimately obtaining the LLB degree. The student is, however, enabled to continue with the LLB degree (which is career-specific) or a BAHons degree. The BA/LLB combination will take five to six years to complete.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12.
- Life Orientation is excluded when calculating the APS.

#### Minimum requirements

Achievement level				APS

### Other programme-specific information

**Advisory note:** BA (Law) students who intend to pursue an LLB degree must note that to obtain the LLB degree they will be required to obtain at least 12 credits from the following list of language modules: AFR 110, AFR 120, AFR 114, ENG 118, ENG 110, ENG 120. BA (Law) students who do not meet this requirement during their BA Law studies will be required to register for these module(s) when they enrol for the LLB.

**Please note:** Students whose aim it is to obtain the LLB degree after completion of the BA (Law) degree, are advised to register for additional modules.

However, please note that

- registration for additional modules will only be allowed as from the second year of registration for the BA (Law) degree and will be subject to academic performance;
- students will be allowed to register for a maximum of seven modules per semester; and
- are only allowed to take additional second-year modules that are prescribed for the third year of the BA (Law) degree programme.

### Concurrent registration

Permission will only be granted to students to register concurrently for BA (Law) and LLB:

- once a BA (Law) student has registered for the final year of study;
- with a maximum of 7 modules outstanding to complete the BA (Law) degree;
- on the condition that not more than 7 modules in total, per semester, may be registered for, for the BA (Law) and LLB; and
- once approval has been granted on the grounds of academic performance.

(BA (Law) students who wish to register for additional law modules do so in terms of the Faculty of Law yearbook of the academic year in which they registered for the first time.)

**Please note:** Students whose aim is to obtain the LLB degree after completion of the BA (Law) degree, is advised to contact the Student Administration of the Faculty of Law for advice on which additional modules may be taken whilst doing their undergraduate study.

The BA (Law) degree must be completed within a maximum of five years. Failure to do so, may result in exclusion from the Faculty of Humanities.

*NB Registration for additional modules will only be allowed if no timetable clashes are involved.*

### Programme information

The purpose of this four-year degree package is to provide qualifying students with in-depth knowledge of the speech- and language development and related processes in the context of human communication, the causes and symptomatology of speech, language and swallowing difficulties and the scientific basis of intervention with a person with a speech, language or swallowing disorder or those at risk of developing such pathology due to the high burden of disease in South Africa. This intervention can occur in a one-to-one situation, in group therapy, by using a multidisciplinary team approach or by means of community-based intervention. The qualification includes

applied competence such as practical skills to improve or enhance speech, language and swallowing abilities of those adversely affected by disability or those at risk of developing such a disability. The qualification furthermore complies with international academic requirements.

Closing date for application: 30 June annually

## BA Visual Studies (01130133)

**Minimum duration of study** 3 years

### Programme information

With the increasing importance of the visual medium in the communications and cultural media, informed interaction with all forms of visual culture has become imperative. This programme aims to promote visual literacy by offering instruction in the analysis, interpretation and evaluation of various aspects of visual culture, in both an historical and contemporary context.

Closing date for applications: 30 September annually.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an

appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.

- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

## Additional requirements

Prospective students from other universities, who successfully passed the first year of study, may only register at the beginning of the second year of study.

Admission is subject to the presentation of a programme, as well as the successful completion of a preliminary examination.

### Audition:

During August the Department conducts an audition (practical and theory) in order to admit the most eligible candidates to study for this degree. The Department will communicate the date for the audition directly to the prospective students. The Department reserves the right to exclude a candidate based on the outcome of the audition.

## Other programme-specific information

### Note:

- Choices within the particular third-year level modules will be made in consultation with the programme coordinators and the lecturers involved.
- Productions: Requirements will be determined by the head of department.

## Promotion to next study year

### Programme information

This programme is aimed at the acquisition of specialist music skills and knowledge. The programme can be compiled in such a way that, on its completion, students are qualified for a wide variety of music-related occupations, including the following: solo performer, orchestral or chamber musician, music teacher at all levels (for individual and group tuition), musicologist, music technologist, entrepreneur and impresario.

Closing date for applications: 30 June (late applications on request).

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12.
- Life Orientation is excluded when calculating the APS.

### Additional requirements

Departmental selection is required for this programme.

Admission is subject to tests in the first instrument, music theory and harmony. Level 4 in Music as a Grade 12 subject or Grade VII Practical and Grade V Theory (Unisa, Royal Schools, Trinity) serves as a guideline of the expected standard.

### Other programme-specific information

- Students who are deemed NOT to be at risk of their level of academic literacy, are exempted from ALL 110 and ALL 125.
- MME 400 can only be taken if the first instrument is piano, violin, jazz or classical voice.
- MEI 403 is performing art, with a public concert of 1 hour in the second semester.
- The choice of instrument is based on the availability of an appropriate teacher. The University does not accept responsibility for providing a lecturer of these instruments where teaching costs exceed the normal.
- In order to be admitted to MTI 100 (Second instrument) in any instrument other than percussion, organ, harpsichord or singing, a student should have reached at least Unisa Grade V or a comparable standard in that instrument; in the case of organ, harpsichord, percussion and singing, admission is at the discretion of the head of the department.

### Practical music

Students choose a first and a second instrument from the following: Voice, piano, keyboard, organ, harpsichord, violin, viola, cello, double bass, flute, oboe, clarinet, bassoon, French horn, trumpet, trombone, tuba, percussion, harp, guitar, recorder, saxophone and ensemble. Jazz and/or classical streams are allowed, according to availability.

### Attendance modules

- i. In addition to the modules mentioned in the learning programme, students are obliged to attend the weekly recital classes and seminars.
- ii. Students who play in the UP Symphony Orchestra can receive credits for a second instrument in the first, second and third year. In this case, students are expected to attend at least 80% of the orchestra rehearsals, must be available for the concerts, and play an examination of orchestral excerpts (to the discretion of the head of the department) in the Music Department in the first and second semester.
- iii. Unsatisfactory attendance at the performance classes, seminars and compulsory concerts may, at the discretion of the head of the department, lead to a lowering of the student's MEI/MPM year mark.

### Transitional measures

- Studente wat nie in terme van hul akademiese geletterdheid as risikogevallige geïdentifiseer is nie, word vrygestel van ALL 110 en ALL 125.
- MME 400 kan slegs geneem word as die eerste instrument klavier is.
- MEI 403 is uitvoerende kuns, met 'n publieke konsert van 1 uur in die tweede semester
- Die keuse van 'n instrument berus op die veronderstelling dat 'n geskikte dosent beskikbaar is. Die Universiteit aanvaar nie die verantwoordelikheid om so 'n dosent aan te stel waar die normale koste oorskry word nie.
- Om tot MTI 100 (Tweede instrument) in enige instrument behalwe perkussie, orrel, klavesimbel of sang toegelaat te word, moet 'n student minstens Graad V Unisa of 'n vergelykbare standaard in dié instrument bereik het; in die geval van orrel, klavesimbel, perkussie en sang, geskied toelating volgens die diskresie van die departementshoof.

### Praktiese musiek

Studente kies 'n eerste en 'n tweede instrument uit die volgende: sang, klavier, klavierbord, orrel, klavesimbel,

viool, altviool, tjello, kontrabas, fluit, hobo, klarinet, fagot, Franse horing, trompet, tromboon, tuba, slagwerk, harp, kitaar, blokfluit, saksofoon en ensemble. Jazz en/of klassieke rigtings word toegelaat, volgens beskikbaarheid.

### **Bywoningsmodules**

- i. Bo en behalwe die modules wat in die leerprogram genoem word, is studente verplig om die weeklikse voordragklasse en tweeweeklikse seminare by te woon.
- ii. Studente wat orkesinstrumente as eerste instrument bespeel, moet in die UP-orkester of in ander ensembles speel – dit is 'n akademiese deel van die praktiese module. Studente moet uittreksels uit die Orkester- of tersaaklike ensemble-repertoire speel tydens die Junie- en Novembereksamens, en dit sal 10% van die totale punt tel. Daar word van studente verwag om ten minste 80% van die repetisies by te woon en om beskikbaar te wees vir konserte. Sien ook die betrokke modulebeskrywing.
- iii. Onbevredigende bywoning van voordragklasse, seminare en orkesrepetisies kan volgens die diskresie van die departementshoof tot verlaging van studente se MEI-/MPM-jaarpunt lei.

### **Promotion to next study year**

#### **Admission to the second year of study**

Must obtain at least 108 credits for music modules at year level 1.

#### **Admission to the third year of study**

Obtain all credits at level 1 (142 credits), as well as at least 130 credits for music modules at yr level 2.

#### **Admission to the fourth year of study**

Must obtain all credits at level 2 (155 credits), as well as at least 110 credits for music modules at yr level 3.

### Programme information

The purpose of this programme is to provide students with an in-depth knowledge and understanding of contemporary world politics and related changes in the international system. This will enable them, once they are employed in the public or private sector, to respond in an innovative and proactive manner to the problems and challenges of globalisation.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

## Other programme-specific information

### First year of study - FUNDAMENTAL MODULES

Students who are deemed to be at risk of their level of academic literacy are compelled to take ALL 110 and ALL 125.

Students who are deemed NOT to be at risk of their level of academic literacy are compelled to take language modules to the value of 12 credits from the list of language modules mentioned under Academic literacy.

### Outline of credits for ELECTIVE MODULES (total = 188):

First year: 88/96

Second year: 40

Third year: 60

### Elective modules

#### Year level 1

Select four disciplines. Do two semester modules (or the credit value thereof) from each of these disciplines.

#### Year level 2

Select two semester modules (or the credit value thereof) from the same discipline as for yr level 1; or select two Economics semester modules at yr level 2 (on condition that EKN 120 was taken and that the prerequisites are complied with) together with one additional module at yr level 2 if the Economics modules' credit value is not 40.

#### Year level 3

Select two semester modules (or the credit value thereof) either from the same discipline as for yr level 2; or from Political Science or from Economics together with one additional module at yr level 3 if the Economics modules' credit value is not 60.

### Note:

- In collaboration with the coordinator, students can select any other appropriate modules as electives from the Faculty of Humanities.
- If Geography is taken as an elective at first-year level, a sufficient number of modules must be taken to ensure that the credit value for this subject is at least 24.
- Geoinformatics and Meteorology can only be taken in combination with Geography.

### Academic literacy

The academic literacy of all students who enrol at the University of Pretoria for the first time and all new students enrolling with the Faculty of Humanities for the first time will be assessed at the start of the academic year by means of their NSC marks.

Students following a degree programme : The NSC Grade 12 English mark will be used to determine whether students in the Faculty of Humanities should register for the academic literacy modules (ALL 110 and ALL 125 ):

- Home Language: Students with a 4 or lower register for ALL 110 and ALL 125.
- First Additional Language: Students with a 5 or lower register for ALL 110 and ALL 125.

All students in the Faculty of Humanities who are identified as being at risk in terms of their level of academic

literacy, are compelled to obtain at least 12 credits in the academic literacy modules ALL 110 and ALL 125. All students in the Faculty of Humanities who are not at risk in terms of their level of academic literacy, are compelled to obtain at least 12 credits in language modules:

### Programme information

This programme is aimed at the development of knowledge and skills to understand political developments and events and the impact thereof. This will enable the student, once employed in the public or private sector, to respond in an innovative and proactive manner to the problems and challenges of the political environment.

### Admission requirements

- The following candidates will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement ; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such a institution; and a candidate who is a graduate of another faculty of the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes , subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these study programmes but obtained at least an APS of 26 or 27 in Grade 12 will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the historically disadvantaged category of the

population.

- Applicants who meet the minimum APS requirements, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

### Programme information

This programme focuses on tourism as one of South Africa's largest and fastest growing industries. Students are trained to play an important role in tourism, especially as far as heritage and cultural tourism is concerned. Graduates can follow careers as tour guides, tour operators (entrepreneurs), heritage resource managers, and publicity agents.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

### Other programme-specific information

Students who are deemed to be at risk of their level of academic literacy are compelled to take ALL 110 and ALL 125.

Students who are deemed NOT to be at risk of their level of academic literacy are compelled to take language modules to the value of 12 credits from the list of language modules (see Academic literacy).

### **Elective modules in the first year:**

Select any three of the undermentioned disciplines and do two semesters or four quarters from each of these disciplines. If you select an elective discipline for which particular modules are prescribed as core modules, you must select enough other elective modules to obtain the required number of credits.

### **Elective modules in the second year:**

Select any one of the three disciplines that you did at the first-year level and do two semesters or four quarters from that discipline.

### **Elective modules in the third year:**

Take two semesters or four quarters from the discipline that you did at second-year level.

## BSocSci Industrial Sociology and Labour Studies (01130064)

**Minimum duration of study** 3 years

### Programme information

The increasing prominence of people in the workplace who possess the in-depth analytical skill and knowledge with respect to the evermore exacting challenge of the contemporary globalised *world of work* – both inside of South Africa and internationally – means that there is a growing demand for Industrial Sociology and Industrial Sociologists. This programme aims to equip graduates with understanding, critical knowledge and the thinking

abilities to respond to the many problems and challenges of and in the workplace, in a proactive, creative and useful fashion.

## Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

### Programme information

The purpose of this programme is to provide students with an in-depth knowledge and analytical understanding of contemporary political and economic issues. All three disciplines – political science, philosophy, and economics – focus on the social world and social phenomena, each from a different perspective. Economics focuses on the production of goods (why, how, and what is produced) and the consequences of such production to society (who benefits). Political Science focuses on political processes and governance issues such as decision-making. Philosophy equips students with analytical reasoning skills necessary to understand and solve complex moral problems related to economic and political decision-making. The result of combining these perspectives is that students are equipped with an understanding of the moral issues influencing human agency in economic and political contexts. A PPE qualification is an internationally recognised ‘brand’, respected for its rigorous training, that immediately gives students entrance into a variety of careers related to economic or political policy making, from journalism to diplomatic service. This qualification will enable students, once they are employed in the public or private sector, to respond in a sensitive, rational, and innovative manner to moral problems and challenges within their politico-economic context.

### Admission requirements

**Minimum duration of study** 4 years

**Contact** Prof LS Geyer [stephan.geyer@up.ac.za](mailto:stephan.geyer@up.ac.za) +27 (0)124202648

#### Programme information

The purpose of this integrated programme is to provide qualifiers with professional training for a career in social work. The theoretical training goes hand in hand with appropriate practical skills training.

#### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space.

- To retain admission, learners will be expected to obtain an APS of at least 30 in Grade 12.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.
- Departmental selection takes place at the end of the first year and is based on academic merit (i.e. GPA = 60%), aptitude tests and an interview.

**Minimum duration of study** 2 years

**Contact** Dr MS Makhubela [silas.makhubela@up.ac.za](mailto:silas.makhubela@up.ac.za)

## Programme information

This programme provides integrated professional and academic training equipping the candidate to function as a clinical psychologist. After completion, the candidate can apply to the Professional Board for Psychology of the Health Professions Council of South Africa for registration as a clinical psychologist. Such registration will be subject to the conditions stipulated by the Professional Board for Psychology at the time of registration.

Closing date for applications: 31 May annually.

The degree comprises one years of full-time study; 50% of the programme entails coursework and 50% entails a research component.

### A. Theoretical section

A core curriculum with coursework has to be followed and passed.

### B. Practical section

During the one years and as part of the practical component of the programme academic service training is done at institutions as organised by the Department of Psychology.

### C. Mini-dissertation (KLS 895)

A mini-dissertation on an appropriate topic as approved by the head of department and the Postgraduate and Research Ethics Committee of the Faculty of Humanities must be completed and passed before the MA degree in Clinical Psychology can be conferred. A pass mark of at least 50% must be obtained. A draft article for publication in a recognised scientific journal must be submitted together with the completed mini-dissertation.

## Admission requirements

- BSocSciHons or BAHons in Psychology or equivalent qualification accredited by the Council on Higher Education.
- Admission to the MA (Clinical Psychology) programme is subject to assessment and selection of the candidate based on requirements prescribed by the programme as applicable from time to time.

## Examinations and pass requirements

### Assessments

- i. In order to pass a module, a final mark of at least 50% must be obtained.
- ii. Progress in modules is assessed through a variety of activities in a process of continuous assessment. Assessment is designed to ensure that all the outcomes of the modules have been evaluated by means of informative assessment.
- iii. The final results for all modules will only be published after confirmation of the results by the examination commission of the Faculty of Humanities. No results will be released beforehand.

## Promotion to next study year

### Requirements for progress to year II of the programme

- i. In each programme all requirements for year I of the programme must be met before proceeding to year II of the programme.
- ii. Should all the requirements of year I not be met, year I may not be repeated and the student will have to leave the programme.
- iii. Should the student wish to continue, he or she will have to reapply for admission in accordance with the rules applicable to the selection process for all new applications.

iv. No module may be carried over from year I to year II.

### **Requirements for progress to internship**

- i. The rules and regulations as laid down by the Health Professions Council of South Africa (HPCSA) and as amended from time to time, will apply.
- ii. All programme requirements of the degree must be successfully completed and the assessment thereof processed through the necessary committees of the University.
- iii. The master's degree must be completed in two years.

### **Pass with distinction**

A student will pass a module with distinction if a final mark of at least 75% is achieved.

### **General information**

#### **Professional misconduct**

Enquiry with regards to possible professional misconduct within the programme:

Should a student be considered in breach of any professional rule, regulation or code of conduct as laid down by the Professional Board for Psychology or the HPCSA, the student may be required to present him/herself before the executive committee of the Department of Psychology for an enquiry in order to ascertain whether or not the matter should be referred to the Professional Board or the HPCSA for a further investigation.

#### **Discontinuation of participation in the programme:**

The dean may, on the recommendation of the head of the Department of Psychology, conduct an enquiry into the alleged conduct and/or fitness of the student to practice. Possible outcomes of this process could include, but will not be limited to, the discontinuation of the student's participation in the programme during an academic year. This decision will be considered by a committee within the Department and various aspects of the student's progress and conduct within the programme will be assessed. The student will have the opportunity to respond and make representations regarding the allegations brought against him/her.

### **MA Counselling Psychology (Coursework) (01250213)**

**Minimum duration of study** 2 years

**Contact** Prof TM Bakker [terri.bakker@up.ac.za](mailto:terri.bakker@up.ac.za) +27 (0)124204924

### **Programme information**

This programme offers integrated academic, practical and professional training in counselling psychology.

Closing date for applications: 31 May annually.

The programme is a one-year full-time programme and is based on the researcher(50%)-practitioner(50%) model. All courses within all the modules of the researcher and practitioner training need to be passed to obtain the MA (Counselling Psychology) degree.

Once a student has successfully completed the MA (Counselling Psychology) degree, such student can apply for registration as an intern counselling psychologist with the Professional Board for Psychology at the Health Professions Council of South Africa (HPCSA) to do a one year full-time internship in Counselling Psychology. After successfully completing the internship in counselling psychology and the board exam of the Professional Board for Psychology at the HPCSA, an intern counselling psychologist can apply for registration as a counselling psychologist with the Professional Board for Psychology at the HPCSA. Such registration is subject to the regulations of the Professional Board for Psychology at the time of registration.

### **A. Researcher training**

Researcher training entails 50% of the MA (Counselling Psychology) programme. During the two-year period, consisting of one-year academic training and one-year internship, students are expected to successfully write a research proposal, conduct a research project and to write a mini-dissertation (VOS 895).

### **B. Practitioner training**

Practitioner training entails 50% of the MA (Counselling Psychology) programme. During the first year of the course academic and practical training is done. The academic training is done through four core modules namely: Fundamentals of Psychology (SLK 801), Psychological assessment (SLK 806), Counselling Psychology (SLK 802) and Community Psychology (SLK 804). The training is delivered by means of didactic instruction and/or experiential learning. The practical training is arranged by the Department of Psychology on a yearly basis.

### **C. Professional development**

Besides the researcher and practitioner training, the professional development of the students is addressed on a continuous basis in all modules. The professional development of students entails professional practice and professional identity development. The professional practice component focuses on the ethical and legal framework in which counselling psychologists practice, while professional identity development focuses on the "person" of the prospective counselling psychologist, the student.

## **Admission requirements**

- BSocSciHons or BAHons in Psychology or equivalent qualification accredited by the Council on Higher Education.
- Admission to any of the MA programmes is subject to assessment and selection of the candidate based on requirements prescribed by the programme as applicable from time to time.

## MA Counselling, Exercise and Sports Psychology (Coursework) (01250214)

**Minimum duration of study** 2 years

### Programme information

The programme is based on the researcher-practitioner training model and must be completed in one year.

#### • Researcher training

Researcher training entails 50% of the Counselling, Exercise and Sports Psychology programme. During the one-year period a research process is facilitated by supervisors whereby the research competencies of (i) reflective practice, (ii) contextual practice, (iii) writing a research proposal, (iv) conducting a research project and (v) reporting the research findings in an independent research project of limited scope/mini-dissertation are developed and assessed.

#### • Practitioner training

Practitioner training entails 50% of the Counselling, Exercise and Sports Psychology programme. During the one-year period a training process is facilitated by facilitators whereby the practice competencies of (i) reflective practice, (ii) contextual practice, (iii) psychological assessments, (iv) psychological conceptualisation, (v) psychological interventions and (vi) professional communication are developed and assessed.

The training is focussed on developing an integrative approach to the practice competencies as set out above, within the Department of Psychology (on-site) and at organisations as determined by the Department of Psychology (off-site).

After successfully completing the programme, students can apply for registration as an intern counselling psychologist with the Professional Board for Psychology at the Health Professions Council of South Africa (HPCSA) to do a one-year full-time internship in Counselling Psychology.

Students can opt for internship programmes that are accredited with the Professional Board of Psychology at the HPCSA, or follow a tailor-made internship approved by the Professional Board of Psychology at the HPCSA. In consultation with students, the Department of Psychology takes the final decision as to the internship placements of students.

### Examinations and pass requirements

Students need to pass all the research competencies (CES 895), as well as all the practice competencies (CES 801-CES 806), to successfully complete the programme.

### Programme information

This programme provides integrated professional and academic training equipping the candidate to function as a specialist researcher in psychology.

Closing date for applications: 31 May annually.

The programme is a one year of full-time programme; and consists of a (50%) and a research (50%) component. Both components need to be passed to obtain the MA (Research Psychology) degree.

Once a student has successfully completed the MA (Research Psychology) degree, such student can apply for registration as an intern research psychologist with the Professional Board for Psychology at the Health Professions Council of South Africa (HPCSA) to do a one year full-time internship in Research Psychology. After successfully completing the internship in research psychology and the board exam of the Professional Board for Psychology at the HPCSA, an intern research psychologist can apply for registration as a research psychologist with the Professional Board for Psychology at the HPCSA. Such registration is subject to the regulations of the Professional Board for Psychology at the time of registration

#### A. Coursework training

Consists of one-year academic training during which a core curriculum will be followed.

#### B. Mini-dissertation (NSK 895)

The writing of the mini-dissertation coincides with the coursework training which consists of one-year academic training. Students are expected to successfully write a research proposal, conduct a research project and to write a mini-dissertation (NSK 895).

### Admission requirements

- BSocSciHons or BAHons in Psychology or equivalent qualification accredited by the Council on Higher Education.
- Admission to the MA (Research Psychology) programme is subject to assessment and selection of the candidate based on requirements prescribed by the programme as applicable from time to time.

### Examinations and pass requirements

#### Assessments

- i. In order to pass a module, a final mark of at least 50% must be obtained.
- ii. Progress in modules is assessed through a variety of activities in a process of continuous assessment. Assessment is designed to ensure that all the outcomes of the modules have been evaluated by means of informative assessment.
- iii. The final results for all modules will only be published after confirmation of the results by the examination commission of the Faculty of Humanities. No results will be released beforehand.

### Promotion to next study year

#### Requirements for progress to year II of the programme

- i. In each programme all requirements for year I of the programme must be met before proceeding to year II of

the programme.

- ii. Should all the requirements of year I not be met, year I may not be repeated and the student will have to leave the programme.
- iii. Should the student wish to continue, he or she will have to reapply for admission in accordance with the rules applicable to the selection process for all new applications.
- iv. No module may be carried over from year I to year II.

### **Requirements for progress to internship**

- i. The rules and regulations as laid down by the Health Professions Council of South Africa (HPCSA) and as amended from time to time, will apply.
- ii. All programme requirements of the degree must be successfully completed and the assessment thereof processed through the necessary committees of the University.
- iii. The master's degree must be completed in two years.

### **Pass with distinction**

A student will pass a module with distinction if a final mark of at least 75% is achieved.

### **General information**

#### **Professional misconduct**

Enquiry with regards to possible professional misconduct within the programme:

Should a student be considered in breach of any professional rule, regulation or code of conduct as laid down by the Professional Board for Psychology or the HPCSA, the student may be required to present him/herself before the executive committee of the Department of Psychology for an enquiry in order to ascertain whether or not the matter should be referred to the Professional Board or the HPCSA for a further investigation.

#### **Discontinuation of participation in the programme:**

The dean may, on the recommendation of the head of the Department of Psychology, conduct an enquiry into the alleged conduct and/or fitness of the student to practice. Possible outcomes of this process could include, but will not be limited to, the discontinuation of the student's participation in the programme during an academic year. This decision will be considered by a committee within the Department and various aspects of the student's progress and conduct within the programme will be assessed. The student will have the opportunity to respond and make representations regarding the allegations brought against him/her.

## MSocSci Tangible Heritage Conservation (Coursework) (01253115)

**Minimum duration of study** 2 years

### Programme information

This programme is directed at a general education in preventive conservation/preservation and general collections-based management of tangible cultural heritage (TCH) resources, with a view to specialise in the management of TCH, preservation of TCH or conservation of TCH.

### Admission requirements

A limited number of places are available. Selection for the programme is on an individual basis and requires an interview preceded by the completion of a standardised bench test for technical ability and dexterity. For admission, students who have completed the honours programme in Heritage and Museum Studies with an average of at least 70% in the approved major will be selected preferentially. For applicants who did not complete the honours programme in Heritage and Museum Studies, the foundation museum skills module MKD 712 may be required as a prerequisite for final admission into the programme.

A 3-6 week documented and supervised pre-programme internship in a museum, gallery or formal collection is mandatory prior to enrolment and demonstrates mastery over basic preventive conservation theory and practice.

If the student's honours degree did not cover subjects in heritage management and preservation/ museum studies, they may be admitted conditionally, upon completion of the pre-programme internship and enrolment in the foundation skills module MKD 712 and the submission of a research proposal where the intended mini-dissertation topic is theoretical, or builds on acquired knowledge in a particular field (e.g. architecture or chemistry) and is not aimed at remedial conservation.

There is provision for the recognition of prior learning (RPL) and for this students are requested to submit a recent CV and a portfolio of documented conservation work experience to be presented at an interview prior to admission.

### Other programme-specific information

The programme is offered over two years of which the first year is presented on the Hatfield Campus. All modules must be passed to progress to the second year of the programme on the Hatfield Campus or carried out under supervision in a partner institution or under supervision in private practice.

Students are required to attend relevant departmental seminars as well as local conferences to present aspects of their research project. A poster presentation of their research report is strongly recommended.

Students must conduct 5-6 months of conservation or collections-based research by the end of the master's programme and demonstrate mastery over basic conservation techniques.

The MSocSci (Tangible Heritage Conservation) by coursework can be completed in segments as part of continuing professional development.

### Examinations and pass requirements

A student must pass all the modules at the end of the first year of study. Students who do not successfully complete the first year of the programme will not be admitted to the second year.

In addition to the successful completion for all modules, all the students – irrespective of specialisation – are required to perform the following as part of their continuous assessment:

- Perform on outreach activities
- Participate in the departmental seminar series when in residence
- Submit an article to an accredited publication at the end of their study
- Demonstrate mastery over basic and intermediate preservation and conservation interventions
- Complete a 5 to 6 month full-time (or 9–10 month part-time) supervised and documented internship
- Submitting a mini-dissertation of 20 000–30 000 words on an approved conservation topic.

<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Centre for Augmentative and Alternative Communicat
<b>Period of presentation</b>	Year

#### Module content

The module covers planning for data collection, field work, analysing data collected and writing up the results and discussion of the results in the form of a complete research report. On completion of the module, the student will be expected to complete a research report on an approved topic in the field of augmentative and alternative communication.

### Theoretical constructs in AAC 811 (AAK 811)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	45.00
<b>Programmes</b>	<a href="#">MA Augmentative and Alternative Communication (Coursework)</a>
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	3 other contact sessions per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Centre for Augmentative and Alternative Communicat
<b>Period of presentation</b>	Year

## Module content

Theories of communication, information processing, language development and literacy acquisition are dealt with as related to persons in need of or using augmentative and alternative communication (AAC). The role of AAC within a bioecological, social constructivist view of disability is explored. Current research issues in the field are explored in relation to different contexts and different populations. At the end of this module the student must be able to:

- discuss the influence of AAC on communication, information processing, language development and literacy acquisition in relation to specific cases;
- Identify and review current research focus areas in the field

## Implementation science in AAC 812 (AAK 812)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	45.00
<b>Programmes</b>	<a href="#">MA Augmentative and Alternative Communication (Coursework)</a>
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	3 other contact sessions per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Centre for Augmentative and Alternative Communicat
<b>Period of presentation</b>	Year

## Module content

This module will discuss the participation model (based on a bioecological, social constructivist approach) as a framework for AAC assessment and intervention. The following aspects will furthermore be dealt with in more detail:

- Appropriate assessment approaches;
- Intervention approaches specific to selected populations with specific reflection upon the evidence base for these approaches;
- The use of communication aids with specific focus on devices, as well as considerations for appropriate selection, design and programming;
- Appropriate positioning for maximising participation of persons with physical disabilities.

At the end of this module the student should be able to apply this knowledge to devise, justify and critically reflect upon an appropriate assessment and intervention plan for a given client.

## Dissertation: AAC 890 (AAK 890)

Throughout the year, students will work on their research report, developing a research proposal and question, conducting relevant data collection, and writing up the results into a 10,000 word research report. Students will meet regularly with their supervisor, who will be identified at the beginning of the year.

## Dissertation: Archaeology 890 (AGL 890)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	180.00
<b>Programmes</b>	MA Archaeology
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Anthropology and Archaeology

**Period of presentation** Year

### Module content

A detailed and in-depth examination and discussion of a topic of archaeological relevance based on a Faculty-approved research proposal and ethical clearance. A 30 000–50 000 word dissertation based on primary field research and other relevant research sources that demonstrates a specialised knowledge of the archaeological research process. While research findings can be negative, the master's dissertation must be methodologically detailed and replicable. The dissertation must demonstrate the candidate's ability to formulate strategies and responses to contextual and abstract problems. The research process must be fully accountable and demonstrate a sensitivity to working in a postcolonial context. A version or section of the dissertation must be submitted for publication in an accredited journal.

## Thesis: Archaeology 990 (AGL 990)

**Qualification** Postgraduate

**Module credits** 360.00

**Programmes** [PhD Archaeology](#)

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Anthropology and Archaeology

**Period of presentation** Year

### Module content

A comprehensive and original contribution to archaeological knowledge based on an approved research proposal and ethical clearance. The research must be expert and show the ability to work within and beyond disciplinary boundaries. Thesis must be between 50 000–100 000 words and must substantively advance the state of knowledge in the discipline. The thesis must show mastery over advanced field and analytical techniques as well as sophisticated grasp and application of relevant archaeological theory. The entire project must be institutionally, socially and intellectually accountable, demonstrating an advanced grasp of what conducting archaeological research in a postcolonial context entails.

## Module content

Students are required to develop a clearly defined research proposal on a topic of the student's own choice within one of the research fields/research projects in the department. The proposal should reflect a clear understanding of the different components of the research process (identification of a research problem, formulation of a hypothesis, choice of an appropriate research approach, formulation of clear research objectives, choice and application of an appropriate research methodology). The proposal should reflect that students understand the different types of research methodologies that can be used in investigating the Ancient World.

## Module content

(NB In consultation with the field mentor in the student's selected field of specialisation)

Field 1: Narratives, visual worlds, symbolic spaces.

This field deals with stories people tell themselves to make sense of their existence, as well as with symbols and imaginary reality constructions. It leads to a critical re-evaluation of truth granting processes.

Mentors: Prof Amanda du Preez (Visual Arts), Prof Fraser McNeill (Anthropology)

Field 2: Socio-historical dynamics

This field deals with the chronology and dynamics of (power) relations, encounters, counter-encounters and its effects. This can include sociological, political, historical or other approaches towards such dynamics.

Mentors: Prof Alois Mlambo (Historical and Heritage Studies), Prof Janis Grobbelaar (Sociology)

Field 3: African-European relations underlining our beliefs and values.

This can include studies of the history of human rights in Africa, of gender, class or race driven norms, of how such norms and traditions change, what we imagine as "our" norms, how norms are codified or what we take for granted.

Mentors: Prof Karin van Marle (Philosophy of Law), Prof Dirk Human (Religion Studies)

Field 4: Political constructions.

This refers to political constructions in public, private and market institutions on communal, national or inter- and transnational levels. It refers to the cultural practices and habits of agency, to how people make things happen, how to negotiate habits and social actions, how power or representation is created, organised, distributed and subverted.

Mentor: Prof Maxi Schoeman (Political Science)

Field 5: Languages, cultures, translations.

This refers to specific language-oriented approaches on the dynamics of African-European relations and refers to "language" as meaning making mechanism beyond mere communicative competences.

<b>Contact time</b>	Block: 6 weeks per semester, 3 discussions per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Department of Plant and Soil Sciences
<b>Period of presentation</b>	Semester 1

#### Module content

This module will provide students with the skills to use biophysical information and data obtained by undertaking a natural resource inventory. This will be supported by taught methods of critically evaluating data and information obtained through assessment methodologies and an understanding of sampling design (choosing reference sites, spatial replication) and monitoring methods (e.g. recording biomass vs vegetation cover vs species richness; aspects of seed biology etc.). Through the additional understanding of ecological and agricultural concepts (e.g. productivity, decomposition rate, carbon uptake, pollinator abundance, erosion protection, dust reduction) students will acquire the skills to provide reclamation and restoration solutions to land degradation challenges in South Africa.

A site visit or field trip during which students will get exposed to the realities of reclamation and restoration and apply their knowledge and skills will be a compulsory component of this module.

### Professional ethics 211 (BPE 211)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	6.00

**Programmes** BCom Accounting Sciences

**Service modules** Faculty of Engineering, Built Environment and Information Technology  
Faculty of Economic and Management Sciences

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week

**Language of tuition** Separate classes for Afrikaans and English

**Department** Philosophy

**Period of presentation** Semester 1

**Module content**

In the first quarter of this module students are equipped with an understanding of the moral issues influencing human agency in economic and political contexts. In particular philosophy equips students with analytical reasoning skills necessary to understand and solve complex moral problems related to economic and political decision making. We demonstrate to students how the biggest questions concerning the socio-economic aspects of our lives can be broken down and illuminated through reasoned debate. Examples of themes which may be covered in the module include justice and the common good, a moral consideration of the nature and role of economic markets on society, issues concerning justice and equality, and dilemmas of loyalty. The works of philosophers covered may for instance include that of Aristotle, Locke, Bentham, Mill, Kant, Rawls, Friedman, Nozick, Bernstein, Dworkin, Sandel, Walzer, and MacIntyre. In the second quarter of the module the focus is on professionalism, careers and ethics. Codes of ethics in business and professions, professional codes, as well as ethical issues in the accountancy profession are discussed.

**Professional ethics and practice 451 (BPE 451)**

**Qualification** Undergraduate

**Module credits** 8.00

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week, 2 tutorials per week

**Language of tuition** Separate classes for Afrikaans and English

**Department** Systematic and Historical Theology

**Period of presentation** Semester 1

**Module content**

The module has a twofold goal:

- (i) to make students aware of the moral dimension of the engineering profession, and
- (ii) to enhance the development of their ethical skills in dealing with moral issues in this practice. Attention is given to important concepts and approaches in professional ethics and to suitable methods in moral problem solving. A number of major issues engineers are confronted with are also dealt with: What does it take to be a responsible and honest engineer? To what extent does the engineer have the obligation to avoid risks and promote safety? How should engineers solve the tension between their professional obligations and expectations employers have? How far does the responsibility of engineers for the natural environment go? How can engineers act morally responsibly in an international context? During discussion classes a number of case studies illustrating these moral issues are thoroughly analysed.

#### Module content

An introduction and advanced analysis is provided of global diplomatic practice, one of the most important institutionalised activities within the international system. The focus is predominantly state-centric, although the growing impact of non-state entities on the form and substance of diplomacy is accommodated. Aspects such as the evolution, modes, styles, legal framework and institutions of diplomacy are investigated, as well as the specific roles and functions of diplomats and emerging areas of diplomatic specialisation. An African perspective on all of the above is prioritised, and in this regard specific emphasis is placed on mediation - a diplomatic mode and specialisation that is crucial within the context of African diplomatic practice.

### Diplomacy and international studies 876 (DIP 876)

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week

**Language of tuition** Module is presented in English

**Department** Political Sciences

**Period of presentation** Semester 1 or Semester 2

### Module content

The holistic nature and interdisciplinary scope of diplomacy, as an institution, practice and area of academic study and research, are introduced and contextualised within the broad framework of international studies, incorporating aspects of international relations, international law and international political economy. Subsequently, the focus shifts to the theoretical and practical relationship between international relations, foreign policy and diplomacy as a tool of foreign policy. Accordingly, South Africa's diplomacy, at a global and regional level, is critically analysed using the comparative method amongst others.

## Diplomatic theory 877 (DIP 877)

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week

**Language of tuition** Module is presented in English

**Department** Political Sciences

**Period of presentation** Semester 1 or Semester 2

### Module content

An introduction to and analysis of diplomatic theory, defined as systematic reflection on diplomatic ideas, activities and issues. Such reflection has historical, conceptual and normative elements that by nature pertain to diplomatic practice as empirical referent. This involves the critical examination of key assumptions on diplomacy. On the one hand, since diplomatic ideas inevitably reflect broader international relations theories and since the modern diplomat should have some understanding of the latter, attention is given to these. On the other hand, on a capita selecta basis, attention is paid to theoretical perspectives on issues that appear on the global diplomatic agenda.

## Methodology of diplomatic studies 878 (DIP 878)

**Language of tuition** Module is presented in English

**Department** Political Sciences

**Period of presentation** Semester 1 or Semester 2

## Module content

Using appropriate methodological approaches and research methods, aspects of the diplomatic theory and diplomatic practice modules are applied to specific diplomatic case studies and issues of international and transnational importance. In addition to the emphasis of methodology and selected research methods, attention is also paid to the development, structure and writing of research reports in the field of diplomatic studies. The outcome of this module is an approved research proposal on a diplomatic theme for the mini-dissertation, that also complies with ethical guidelines.

## Module content

This module introduces the student to the reading and appreciation of Old and Middle English art forms in which the emphasis falls on aesthetic and moral issues, rather than on psychological ones. The module is an integrated one beginning with the study of the Old English epic, Beowulf, and includes Anglo-Saxon models as well as homiletic or heroic poems. The Middle Ages witness the reintroduction of English as the language of court, in preference to French, and the growth of narrative and lyrical poetry. Representations of both types of poetry are studied.

Introduction to Philosophy

The two semester modules at first-year level introduce students to the four main subfields of Philosophy, namely epistemology and metaphysics, ethics and political philosophy. This module introduces students to two of these subfields. Students must contact the Department of Philosophy to ascertain which two subfields are covered in each semester as the choice may change from time to time due to availability of teaching staff. Students will become acquainted with the nature of philosophical reflection by exploring a number of classical philosophical themes in each subfield. Throughout the module there is an emphasis on developing those critical thinking, reading and writing skills that are required in Philosophy, while students become acquainted with the power of critique as critical judgment and discernment.

#### *History of modern philosophy I and II*

A concise history of modern philosophy. The following are examples of themes that may be explored: The Renaissance, the Scientific Revolution, the foundations of the modern worldview (in contrast to the premodern), the European Enlightenment, Romanticism, German Idealism (Kant and Hegel), Marx and Marxism, Kierkegaard and Existentialism, the philosophy of Nietzsche. A selection of contemporary critical responses to modern philosophy may be explored; these may include for example African philosophy, analytical (Anglo-American) philosophy, postmodernism, neo-Marxism, etc.

#### *Political philosophy and ethics*

In this module the ways in which human reality is reflected on in practical philosophy, are examined. Both the analytical, interpretative perspective and the normative perspective are covered. This is done with the aid of a selection of key themes and texts from the history of philosophy, but with special attention to their contemporary relevance. The first of the two foci of this semester module will be on political philosophy. Among the issues that may be covered are justice, power, ideology, authority, the social contract, law, legitimacy, recognition, etc. The second focus of this semester module will be on ethics. Among the issues that may be covered are the formation of rules, principles, ideal, dispositions and the capability to judge that regulate such diverse phenomena as freedom, equality, rights, distribution, oppression. pluralism, and others. The classical approaches to ethics - virtue ethics, deontology, consequentialism - will form the backdrop against which moral philosophy will be discussed. In this module, in general, the student can expect to be exposed to the work of Plato, Aristotle, Augustine, Aquinas, Machiavelli, Hobbes, Locke, Kant, Hegel, Marx, Sidgwick, Nietzsche, Weber, Mead, Arendt, Habermas, Rawls, Ricoeur, Walzer, Young, Sen, Honneth, and others.

### Module content

In this module students are equipped with an understanding of the moral issues influencing human agency in economic and political contexts. In particular philosophy equips students with analytical reasoning skills necessary to understand and solve complex moral problems related to economic and political decision making. We demonstrate to students how the biggest questions concerning the socio-economic aspects of our lives can be broken down and illuminated through reasoned debate. Examples of themes which may be covered in the module include justice and the common good, a moral consideration of the nature and role of economic markets on society, issues concerning justice and equality, and dilemmas of loyalty. The works of philosophers covered may for instance include that of Aristotle, Locke, Bentham, Mill, Kant, Rawls, Friedman, Nozick, Bernstein, Dworkin, Sandel, Walzer, and MacIntyre.

### Module content

Philosophical anthropology and cognitive philosophy

In this module the focus is on the quest to understand humankind and its relations to reality and knowledge. Both the analytical, interpretative perspective and the normative perspective are covered. This is done with the aid of a selection of key themes and texts from the history of philosophy, but with special attention to their contemporary relevance. The first of the two foci of this semester module is philosophical anthropology or contemporary metaphysics. Themes covered may include: Is a human more than the sum total of its properties?; the relation between consciousness, self-consciousness and the human unconscious; the meaning of life; the nature of personal identity; the issue of free will, and others. The second focus of the semester module is the cognitive disciplines of philosophy, such as philosophy of science, philosophy of mind and epistemology. In philosophy of science, themes covered may include the types of reasoning in science, the nature and role of explanations in science, the scientific realism debate, the nature of scientific progress, justification of scientific theories, the role of truth in science, and others. In philosophy of mind, themes covered may include the relation between spirit, psyche and body - the mind-body problem, the nature of consciousness and qualia, dualism, materialism, functionalism, physicalism, supervenience, intentionality, and others. In epistemology themes covered may include rationalism, empiricism, transcendental, idealism and Kant foundationalism coherentism, epistemic internalism and externalism, radical scepticism, and others.

Philosophical hermeneutics and social philosophy

The first of the two foci of this semester module is a discussion and analysis of philosophical perspectives on the hermeneutical problem (the problem of understanding and interpretation), with particular attention to contemporary thinkers such as Nietzsche, Heidegger, Gadamer and Derrida. The second focus of the semester module is social philosophy where philosophical questions on social forms, structures, institutions, practices, habitus and ethos will be raised. A range of themes may be investigated, such as structure and agency, social imaginaries, new social formations, institutional cultures, gender and sexuality, subject constitution, and others. Furthermore, the framing of these themes in a spectrum of approaches including Critical Theory, Theory of Ideology, Constructivism, Social Action Theory, Metaphorology, Critical Race Theory, Genealogy, and others will be analysed and explored.

<b>Department</b>	Sociology
<b>Period of presentation</b>	Semester 1

### Module content

Gender is an important concept in our everyday encounters as it informs part of our identity. National identity documents, for instance, place a major significance on our gender status. Gender differences define how women and men are treated by different institutions in society. This programme is therefore aimed at exposing students to different theories as well as literature on gender and gender inequalities. In addition, the course explores our everyday experiences of gender to develop a better understanding of gender and the meanings it takes on in society, including the ways in which race, class and geographical location influence these experiences.

#### Module content

This module examines debates on gender with an emphasis on the historical and social context and forces that have given shape to the character and form of gender inequalities and stratification on the African continent. The module is aimed at developing a critical perspective on the position and status of women in Africa, and to introduce students to a wide-ranging set of authors – many of whom are writing from the continent – and provocative debates about the contested nature of gender emancipation and/or empowerment and its imbrications with broader social questions.

**Prerequisites** No prerequisites.

**Language of tuition** Module is presented in English

**Department** Sociology

**Period of presentation** Semester 1

### Module content

This module provides an overview of the theoretical and conceptual apparatuses that underpin the field of critical gender studies. As such, it reviews the academic genealogies of gender studies as well as trajectories of social and political struggles for rights, recognition, representation and resources and the fault lines that have been become evident in the process. Therefore, the module integrates into the gender studies paradigm emerging bodies of work on sexuality and intersectionality. The theoretical component of the study is applied in relation to thematic discussions of contemporary concerns and recent research, with a particular focus on Southern Africa.

## Module content

The module provides a critical analysis of contemporary development themes currently dominating development debates and the world of development practice. Particular attention is given to development strategies and practices in the post-development theory impasse era, as well as development challenges and their manifestation in the 21st century. The module will take students through a journey in post-1980s/1990s development, and explores in depth the future prospect of development. Topical themes include grassroots development, gender and development, democracy and governance, food security, climate change and local adaptation, migration and development, disaster and humanitarian emergencies. It will also cover initiatives like the MDGs and the SDGs to demonstrate changing emphasis in development practice.

## Module content

The module adopts an applied approach. It takes learners through a journey in the world of development practice since the 1950s, and provides a critical analysis of the different ideological positions influencing post-WW II development. With a bias towards grandiose schemes that dominated the world of development practice in the postcolonial era, it draws the attention of the student to the role of a range of organisations and institutions involved in developing country development process, and the challenges associated with the development culture of the time. The module will look at classic case studies like the Ujamaa, development projects in Lesotho, colonial betterment schemes, and contemporary cases including indigenisation policies, policies promoting migration, gender mainstreaming, land and tenure reforms, etc.

Social sciences: Perspectives on contemporary society

An introduction to long-standing questions about the nature of human societies and contemporary challenges. Topics to be discussed include globalisation and increasing connectedness; rising unemployment, inequality and poverty; rapid urbanisation and the modern city form; transformations in the nature of work; environmental degradation and tensions between sustainability and growth; shifts in global power relations; the future of the nation-state and supra-national governance structures; and possibilities for extending human rights and democracy. Critical questions are posed about modern selfhood, sociality, culture and identity against the background of new communications technologies, ever more multicultural societies, enduring gender, class and race inequities, and the emergence of new and the resurgence of older forms of social and political identity. These issues are approached from the vantage of our location in southern Africa and the continent, drawing on social science perspectives.

Humanities: Text, culture and communication

Successful communication of ideas, values and traditions depends on understanding both the literal and implied meanings of texts. In this module students are introduced to a variety of texts, including original literary and visual texts, with a view to developing an understanding of how textual meanings have been constructed and negotiated over time. Students are encouraged to understand themselves as products of – and participants in – these traditions, ideas and values. Appropriate examples will be drawn from, among others, the Enlightenment, Modernism, Existentialism, Postmodernism and Post-colonialism.

Information seeking and retrieval. This module explores the theory and practice of effective information seeking and retrieval. It builds on supporting research paradigms such as the systems, user-centred, cognitive and socio-cognitive paradigms. The focus is on the complexities of effective information seeking and retrieval within the context of information behaviour on a personal level, as well as in the context of professional, academic or everyday information needs.

### Information science 220 (INL 220)

## Module content

User studies and dissemination. This module focuses on the individual as seeker, user, reader and communicator of information. Various user groups are identified and their information use and communication patterns and requirements are analysed and investigated. This module covers methods of service provision to facilitate and enhance the use and dissemination of information in accordance with the user's needs.

International theory and organisation

What causes war and peace? Can international order and justice be reconciled? Does the international structure matter? The answers depend on the theoretical lenses through which world politics are viewed. An overview is provided of competing theoretical perspectives of international relations. It includes mainstream and alternative perspectives, as well as the underlying ideas, theories and variants of each. These theories also propose different approaches to global peace, amongst others peace through international organisation. A comprehensive analysis is made of selected international organisations with a universal or regional scope, such as the United Nations, the African Union and the Southern African Development Community, and of international law that underpins these organisations and their activities.

Foreign policy and diplomacy

A short introduction to the study of foreign policy is followed by an explanation of the use of the comparative method and a framework for foreign policy analysis and evaluation. This allows for a comparative study of the foreign policies of selected states from the major regions of the world, amongst others of South African foreign policy. In each case study the policy environment, the formulation and implementation processes, as well as the substance of the particular state's foreign policy are covered. Thereafter the focus narrows to diplomacy: the oldest, most versatile and universally used instrument of foreign policy. The nature, history, modes of diplomacy and legal framework of the institution are explored. Examples are drawn from global practice, with specific consideration of the evolution of diplomatic practice within the African and South African context.

Security and strategic studies

A study of traditional and contemporary approaches to security and strategy. Attention is paid to new theories on war, security and strategy; military and non-military security issues and threats; the national security of developing states; as well as the relationship between policy, strategy and tactics. The latter includes an introductory overview of the nature, levels, patterns, forms and instruments of strategy, and the laws of war. The national, regional and continental security situation in Africa and modes of multilateral security cooperation in particular are analysed, also in relation to extra-continental trends. Regarding the aforesaid, emphasis is placed on the legal and institutional framework, national security policy and strategic posture of South Africa.

### Module content

\*Closed - admission to this module is subject to departmental selection for the MA in Clinical Psychology. In this module various psychotherapeutic models and their underlying principles are studied. These paradigms do not only deal with the individual as an isolated being, but give insight and understanding with regard to family, group and social contexts. Module KLS 872 Psychotherapy (Practice) deals with the application of the theory and principles.

## Psychotherapy: Practice 872 (KLS 872)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Programmes</b>	<a href="#">MA Clinical Psychology (Coursework)</a>
<b>Prerequisites</b>	DS: MA Clinical Psychology programme

**Contact time** 1 discussion class per week, 1 practical per week, 4 other contact sessions per week

**Language of tuition** Separate classes for Afrikaans and English

**Department** Psychology

**Period of presentation** Year

#### Module content

\*Closed – admission to this module is subject to departmental selection for the MA in Clinical Psychology. This module is interdependent on modules KLS 871 Psychotherapy (Theory) and KLS 803 Psychodiagnostics, namely as the application of psychotherapeutic paradigms and psychometric tests at various clinical/psychological institutions under supervision of senior clinical psychologists. The module also deals with analysis/diagnosis and the description of the applied processes. Critical evaluation of the psychotherapeutic process forms part of a scientific approach to the practice of psychotherapy. Professional and ethical principles are also addressed in the practice of psychotherapy.

### Psychopathology 874 (KLS 874)

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Psychology

**Period of presentation** Year

## Module content

The execution of a mini-dissertation tests students' ability to practice and conduct independent research. The research project is based on a topic in the field of clinical psychology and is completed under supervision of a study leader (a registered clinical psychologist) or an approved expert on the subject of choice. The students are also trained in research methodology during the process of the development of the research proposal.

<b>Period of presentation</b>	Quarter 4

### Module content

The culture of materialism and financial success that currently prevail in South Africa gives rise to an increasing number of economic related crimes being committed. These offences and more specifically the characteristics, causes, cost and various types of economic crimes will receive attention in this module. Considering that a large number of offenders employ their skills within group context to obtain political power, organised crime is regarded as an important component of this module. The structure, characteristics and forms assumed by organised crime activities are addressed. In addition, some of the economic crimes that are committed exclusively for their economic benefits are also studied.

The dissertation should demonstrate creative achievement in one of the genres of

- poetry (including song-writing (texts) for musicals or cabaret),
- drama (including musicals/musical theatre, film scripts and radio/TV drama),
- prose (fiction),
- prose (creative non-fiction: biography or autobiography), or
- literary translation/adaptation.

In itself it should be a complete work, or set of complete shorter works and should in substance be the equivalent of at least (in fiction) a short novel or a collection of short stories, or (in poetry) a book-length collection of poems, or (in drama) a full-length play or a collection of at least three one-act plays. The dissertation should then consist of a substantial piece of creative writing, accompanied by a theoretical section (a dissertation of limited scope) in which the candidate reflects upon contexts and influences, and/or upon the process of composition and revision that has taken place in the production of the creative text and/or upon theoretical aspects (eg symbolism, textual and intertextual strategies) of the work. This section accounts for 50% of the final mark.

The module aims to equip students with the ability to cope with the reading and writing demands of scientific disciplines.

### Academic literacy: Capita selecta (1) 711 (LTS 711)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Afrikaans
<b>Period of presentation</b>	Semester 1

#### Module content

Characterisation of academic literacy and the importance thereof in the South African context; the identification of levels of academic literacy; variables that influence levels of academic literacy; interlanguage; symptoms of inadequate academic literacy; language remediation; central issues to be considered.

### Academic literacy: Capita selecta (2) 712 (LTS 712)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Afrikaans
<b>Period of presentation</b>	Semester 2

#### Module content

Testing and remediation as two central aspects in the study of academic literacy; discussion of studies according to which academic literacy is determined; components of measuring instruments for academic literacy; generalisations that can be made from knowledge about the components of measuring instruments; standardisation of measuring instruments; measuring procedures; characteristics of an ideal measuring instrument; evaluation of existing academic literacy measuring instruments; data processing. Practical work: a determination of academic literacy for a specific group of learners.

### Academic literacy: Capita selecta (3) 811 (LTS 811)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Afrikaans
<b>Period of presentation</b>	Semester 2

## Module content

Discussion of studies on language remediation; causes of problems related to academic literacy; principles of curriculum design; methods and approaches towards the development of language support courses; evaluation of different remedial programme; goals for successful remediation; language courses for specific target groups; the prediction value of academic literacy; data management. Practical work: the development of an academic literacy programme for a specific target group.

### General music studies 301 (MAM 301)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	15.00
<b>Prerequisites</b>	Admission into relevant programme

**Language of tuition** Separate classes for Afrikaans and English

**Department** Music

**Period of presentation** Year

#### Module content

\* Closed – requires departmental selection

Practically (on a keyboard) and theoretically display skills in the reading, writing and practical application of structured melodies, basic four-part harmony and its underlying structure, as well as contrapuntal techniques in two parts.

### Sports psychology (1) 151 (MBK 151)

**Qualification** Undergraduate

**Module credits** 6.00

**Service modules** Faculty of Economic and Management Sciences

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Quarter 2

#### Module content

\*Closed – requires departmental selection

Sports psychology at first-year level is a general introductory module that orientates the student in sport psychology as a science. The module focuses on psychological principles and human behaviour in an exercise and sport context. This includes the study of sport and exercise behaviour, the psychology of coaching and exercise psychology.

### Recreation and sports management (1) 152 (MBK 152)

**Qualification** Undergraduate

**Module credits** 6.00

**Service modules** Faculty of Economic and Management Sciences

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Quarter 1

#### Module content

\*Closed – requires departmental selection

This module orientates students to the role and importance of scientific management of recreation and sport. Functions, roles, methods and techniques of the recreation or sports manager are studied.

The management functions of planning and organising are applied in detail to the recreation and sports industry.

### Philosophy of sport 153 (MBK 153)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	6.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 3

#### Module content

\*Closed – requires departmental selection

Philosophy of sport is a study of the theoretical frame of reference (nature) of the phenomenon and also a practical application to sport: the Olympic Games is used as exemplar.

### Biokinetics (1) 154 (MBK 154)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	6.00
<b>Prerequisites</b>	Admission into relevant programme
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 4

#### Module content

\*Closed – requires departmental selection

Biokinetics first-year level is an introductory module with the aim to orientate the student for Biokinetics as profession. In essence the module focuses primarily on the necessity of evaluation, how the tests must be selected so that they are valid and reliable, the tests that can be used for the different physiological parameters and how the data must be analysed by way of statistical methods.

### Sports psychology (2) 251 (MBK 251)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	8.00
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 2

## Module content

\*Closed – requires departmental selection

Sports psychology in this module focuses on the application of psychology in practical sports settings. The student is orientated in psychological sports questionnaires that determine motivation, activation levels as well as sports psychological techniques. The psychology of injuries and burnout form part of this module.

## Sports didactics 253 (MBK 253)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	8.00
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 1

## Module content

\*Closed – requires departmental selection

The sports didactics module aims to improve the student's knowledge and insight in the teaching, coaching or instruction of sport, physical education and biokinetics. The student learns how to analyse a situation, formulate objectives, select content, set training programmes, plan lessons, present and assess teaching or training sessions and give feedback.

## Biokinetics (2) 254 (MBK 254)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	8.00
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 3

## Module content

\*Closed – requires departmental selection

This module focuses primarily on practice directed health care to prepare the student for Biokinetics as profession. In the first place the focus is on carbohydrate and fat as energy source, the health implications for obesity and exercise as modality for the treatment of obesity. Secondly, the focus is on growth and development of the baby and adult and how exercise can influence the growth and development.

## Recreation and sports management (2) 255 (MBK 255)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	8.00
<b>Prerequisites</b>	No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Quarter 2

#### Module content

\*Closed – requires departmental selection

Applied management tasks (leading and controlling) in the recreation and sports industry.

### Sociology of recreation and sport 351 (MBK 351)

**Qualification** Undergraduate

**Module credits** 10.00

**Prerequisites** Admission into relevant programme

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Quarter 4

#### Module content

\*Closed – requires departmental selection

Most people in contemporary societies are involved in sport and leisure, which has led to it becoming an integral part of society. As an institution of social life it has impact on culture, values, norms and standards but in return is also influenced by these aspects. Behaviour patterns of involvement in leisure and sport are studied which include status, relationships and economic activity. A darker side has also been exposed which include disparities, discrimination, scandals and even violence. The aim of the study of human behaviour in these settings is to refute concepts, adjust policies and programmes and to expand the field of study.

### Motor learning 352 (MBK 352)

**Qualification** Undergraduate

**Module credits** 10.00

**Prerequisites** Admission into relevant programme

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Quarter 1

#### Module content

\*Closed – requires departmental selection

The focus of this field of study is on skill acquisition with primary consideration given to the learning process, and the cognitive and motor processes underlying the learning of skills. The factors that influence skill learning are also studied. Students preparing for a career in Physical education or as sports coaches, dance instructors, physiotherapists and occupational therapists will receive the necessary foundation to develop effective instructional strategies. Instructors in military and industrial training settings will also benefit from this field of study.

### Exercise science 353 (MBK 353)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	10.00
<b>Prerequisites</b>	Admission into relevant programme
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 3

#### Module content

\*Closed – requires departmental selection

Exercise science in this module focuses on exercise principles that can be applied in the exercise industry. The student is exposed to the latest international trends regarding total wellness programmes, design and evaluation of exercise programmes, applying well researched training principles, together with latest recommendations regarding isokinetic exercise and testing, women and exercise and other relevant exercise science themes.

### Biokinetics (3) 354 (MBK 354)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	10.00
<b>Prerequisites</b>	Admission into relevant programme
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Quarter 2

#### Module content

\*Closed – requires departmental selection

This module focuses primarily on preparing the student for specialisation in Biokinetics at postgraduate level. The focus is primarily on the anatomical position, symptoms and identification of the most important soft tissue injuries in sport and the use of exercise as a rehabilitation modality in the final phase of rehabilitation.

### First-aid certificate 403 (MBK 403)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	1.00
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

#### Module content

Students must hand in a First-aid certificate.

### Exercise physiology 701 (MBK 701)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

#### Module content

The module examines exercise physiology from a biokinetics perspective and includes the normal and pathophysiology of bio-energetics, adaptation of the body systems, environmental influences, ergogenic aids and special considerations such as aging, gender, genetics and fatigue. (1 hour contact time per week with work assignments for the following week.)

### Applied physiology 702 (MBK 702)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

#### Module content

The module examines exercise physiology as applied in a sport science context and includes the normal and performance enhancement physiology of bio-energetics, adaptation of the body systems, environmental influences, ergogenic aids and special considerations such as aging, gender, genetics and fatigue. (1 hour contact time per week with work assignments for the following week. )

### Biokinetics 703 (MBK 703)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 practical per week, 2 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

## Module content

Biokinetics is the practical application of the biological contents that are discussed in other modules in the programme. It deals with preventive medicine, the rehabilitation of abnormal health situations as well as the maintenance of a healthy lifestyle after rehabilitation. (3 hour contact time per week with work assignments for the following week.)

## Exercise science 704 (MBK 704)

**Qualification** Postgraduate

**Module credits** 27.00

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Year

## Module content

The line of thought in exercise science is to include the basic principles of physiology and exercise science so that it is useful to both the sportsman as well as the person who exercises on a regular basis in the planning of exercise programmes for various sports or situations. (3 hour contact time per week with work assignments for the following week.)

## Biomechanics 705 (MBK 705)

**Qualification** Postgraduate

**Module credits** 27.00

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week, 1 practical per week

**Language of tuition** Afrikaans and English are used in one class

**Department** Sport and Leisure Studies

**Period of presentation** Semester 2

## Module content

In any type of sport there are important techniques to accomplish success. To understand these techniques it is essential to be acquainted with the basic mathematics and physics (Newtons Physics). These principles together with the rules of sports (that can impede the mechanical benefits), the limitations of human anatomy and physiology (to develop a mechanical edge) are presented in this module. Aspects of sport management. (1 hour contact time per week with work assignments for the following week.)

## Theory of sport 706 (MBK 706)

**Qualification** Postgraduate

**Module credits** 28.00

**Prerequisites** No prerequisites.

<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

#### Module content

The contents of motor learning, sport psychology, podiatry, optometry, sport injuries (2 submodules), sports tourism, sports law, sports didactics, sports psychology, exercise science, sport facility management, event management are important for the coach. In this module these facets of human movement sciences are concentrated upon so that they can be of use to the coach. (1 hour contact time per week with work assignments for the following week.)

### Recreation and sport management 707 (MBK 707)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Programmes</b>	<a href="#">BAHons Sport and Leisure Studies Sport and Recreation Management</a>
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 2

#### Module content

Aspects of visionary recreation management, entrepreneurship, human resource management and marketing are applied to the sport and recreation industry.  
(1 hour contact time per week with work assignments for the following week.)

### Sport facility and event management 709 (MBK 709)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Programmes</b>	<a href="#">BAHons Sport and Leisure Studies Sport and Recreation Management</a>
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 2

#### Module content

The management of the natural environment with reference to sport and recreation use is explained. Facility management is studied completely as a cardinal duty of the sport and recreation manager. Sport tourism as a growing component of the industry is also touched upon from a spatial management viewpoint. (1 hour contact time per week with work assignments for the following week.)

## Psychosocial aspects of recreation and sport 711 (MBK 711)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

### Module content

The sociology of sport and recreation service delivery is studied in a national and international context. Motivations for desirable sport and recreation conduct are explained from a sport psychology perspective. (1 hour contact time per week with work assignments for the following week.)

## Advanced therapeutic recreation 712 (MBK 712)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 1

### Module content

Advanced therapeutic recreation serves as an extension of the undergraduate module “therapeutic recreation”. The module addresses the theory, as well as the practical side regarding the value of recreation for the disabled and the aged (elderly). The module has as central theme “Facilitation Techniques in Therapeutic Recreation”.

## Adventure-based experiential learning (AEL) 713 (MBK 713)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

## Module content

Facilitating and managing adventure-based activities as intervention strategy for corporate behavioural change.

## Recreation and sports philosophy 714 (MBK 714)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	30.00
<b>Programmes</b>	<a href="#">BAHons Sport and Leisure Studies</a> <a href="#">Sport and Recreation Management</a>
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 1

## Module content

The philosophy of sport and recreation examines the following themes: The history and basic philosophical principles of sport and recreation. Philosophic approaches to sport and recreation management. The future of and career perspectives on sport and recreation in the 21st century. Sportsmanship. Cheating and fair play in sport. Good competition and drug-enhanced performance. Sport and the technological image of man. Human dimensions of bodylines and their embodiment in sport and recreation. The nature of play and sport.

## Complementary disciplines 715 (MBK 715)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	Admission into relevant programme
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

## Module content

\*This module replaces MBK 714 and is only available to BA(HMS)(Hons) students specialising in biokenetics. After completion of this module the student will be educated in the following disciplines and will be able to apply them in practice: sport vision, podiatry, ethics and financial management.

- Sport vision: The student will have a general knowledge regarding the different sport vision tests, the interpretation of the tests and the prescription of training programmes.
- Podiatry: The student will have a general knowledge regarding gait analysis, the identification of different foot problems and the prescription of correct shoes and rehabilitation training programmes.
- Ethics: The future and career opportunities in sport and biokinetics, sportsmanship, sport and ethics, sport and drugs, sport and technology.
- Financial management: When the biokinetic student starts with a practice, he/she will become a businessman in the economic sector. This module will give general knowledge to the student regarding operations management, financial management and income tax that will be applicable in practice.

## Sport tourism management 716 (MBK 716)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Programmes</b>	<a href="#">BAHons Sport and Leisure Studies Sport and Recreation Management</a>
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Separate classes for Afrikaans and English
<b>Department</b>	Division of Tourism Management
<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

This module aims to clarify the relationship between sport and recreation events and activities and tourism. The role of sport and recreation in the development of tourism will be clarified. The multi-dimensional impact of sport tourism on communities will be analysed from both a sport management and event management perspective.

## Exercise science 717 (MBK 717)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	27.00
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Separate classes for Afrikaans and English
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

### Module content

Purpose, planning and risk management in exercise testing and prescription. Physical activity in life, health and performance. Exercise testing and prescription of physical fitness components. Advanced exercise science considerations for the elite athlete.

### Dissertation: Sport sciences 892 (MBK 892)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	240.00
<b>Prerequisites</b>	*An honours degree in Biokinetics or Sport Sciences.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Year

### Module content

A dissertation of at least 120 pages.

### Thesis: Human movement science 990 (MBK 990)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	480.00
<b>Prerequisites</b>	No prerequisites.
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies

This module provides an overview of basic elements of museums, their missions, history and their characteristics. It is organised around key activities of museums, viz history, structure, management, collections, display, interpretation, education and civil engagement. Students will be introduced to multidisciplinary inherent in museum work, and will be exposed to various fields including history of art, curation, archaeology, anthropology and South African history. They will engage critically with existing material at museums and will pay attention to the relationship between these institutions and the publics they serve in an attempt to understand epistemologies and genealogies. In addition, they will gain an appreciation of the range of skills and knowledge required for succeeding in the museum practice.

### Heritage and museum development 711 (MKD 711)

<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	2 lectures per week
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Historical and Heritage Studies
<b>Period of presentation</b>	Semester 1

## Module content

This module takes a varied approach in order to examine a set of critical issues in the field of heritage studies, as they are currently unfolding. In addition to understanding what it means to work in the heritage sector, students will look at currently breaking issues in heritage theory, policy and practice through an engagement with a series of public spaces and heritage sites, including sites of burial, consumption and the South African city. Students will be introduced to basic financial management, grant writing and heritage and environment legislation. We are interested in those points at which heritage forms a cutting edge in broader contestations around culture, identity and history. In addition, as a way of making sense of heritage management discourses, we examine some of the intellectual histories and genealogies of formulations of heritage in South Africa.

## Module content

This module will introduce students to the practices in museums including collecting, collections management, conservation and curation. In addition to mainstream museum collections, students will work with 'ordinary' and hidden archives found beyond the museum walls. This module is strongly focused on developing a familiarity and confidence when working with heritage objects including appropriate handling, housing and mounting for storage and exhibition; risk assessment and mitigation and general collections care theory and practice. In addition, students will be exposed to contemporary curatorial practices necessary for the practicalities of conceptualising and mounting of exhibitions and displays in a public space. They will as well be introduced to the growing field of digital curation.

\*Subject to departmental assessment based on evidence of prior learning or a practical test

Demonstrate individual and advanced technical skills and performance ability on an instrument of your choice. It is an academic requirement either for students whose First Instrument is an orchestral instrument, to play in the UP Symphony Orchestra, and for those who cannot be accommodated in the Orchestra, or who do not audition successfully for inclusion in the Orchestra, to play in other ensembles as determined by the Music Department. Students will have to play two excerpts (selected by the conductor) during the June and November examination periods as part of their repertoire for the examination, and this will count 10% of the final mark. An 80% attendance of orchestral rehearsals is also expected, and students should be available for the concerts of the Orchestra and ensembles.

Bodied Spaces

This module explores the ways in which the elements of scenography engage with the body to make meaning in a theatrical performance. The course demonstrates how visual codes can be used as narrative devices and how components of the spatial field can be used to support the primacy of the body as a maker of meaning in theatrical performance.

Performance: body/ voice studies

There are many points of convergence between the foundational principles of various voice and body movement pedagogies for performers. These commonalities pivot around the organic principles of kinesiology and vocology (function) that can be applied to performance (expression). This module will identify these common principles across a range of voice and body movement pedagogies and explore the ways in which they inform performance.

\*This module offers a choice between writing for stage and film and intermediate body, voice and movement studies

Performance: intermediate body/voice studies

This module investigates selected voice and body movement pedagogies related to physical theatre, dance, theatre voice, acting and music theatre in depth. Referring to the common principles amongst these pedagogies, the module further explores the differing ways in which each pedagogical approach engages with these common principles in a performance context.

or

Writing for stage and film

Writing allows a choice between writing for stage and screenwriting. These options are exclusive from one another.

Admission requirements: to register for this option of SBT 311 you need to have successfully completed DFK 110, 120, 210 and 220.

Screenwriting (one quarter) introduces students to narrative construction and narrative theory that draws mostly on classical dominant story modes. Certain film and television texts will be studied in order to guide discussions and analyses of the narrative modes and genres under discussion.

Intermediate screenwriting (one quarter) immediately follows basic screenwriting and explores alternative narrative modes that deviate from and subvert dominant storytelling modes. Critical theory will guide students in explorations of seminal film movements and their positions in film studies with direct relevance for screenwriting.

The writing for stage component of this module takes on the notion of play and improvisation as a key to activate creative impulses within the practice of writing for stage. Theatre Sport's improvisational skills will be explored along with other methods of writing that articulate ideas of „play?. Improvisation is the key dramaturgical focus of method and practice that suggests ways of unleashing creativity, play and observational skills as a fundamental to the world of storytelling. The module then moves to writing as and from the self as in autobiographical and testimony writing/theatre. Themes of obsession, witnessing, time, space and identities will be explored. The module will culminate in written and performed monologues.

### Module content

Emanating from the need for common security and the pursuance of order and justice through security communities, security regimes involve those aspects of international politics designed to minimise threats to security, promote mutual trust, and create institutional frameworks for dialogue and cooperation. The post-cold war era is characterised by the demise of certain alliances and the emergence of several new regimes in the areas of arms control, peace support, defence planning and security communities. The nature, scope, role, practical manifestations, outcomes and development possibilities of these security regimes at global and regional level, including Southern Africa, are analysed and explained.

## Security and strategic theory 877 (SEC 877)

### Module content

A critical analysis of the development of security theory and competing perspectives of security, in response to changing power configurations and security threats in the contemporary international system. This includes alternative frameworks for security cooperation at a regional and global level. Against this background, the evolution of strategic thought, the nature and role of principles of strategy and the concept of strategic doctrine are analysed. The contemporary application of the principles of strategy is discussed, and post-cold war thinking on strategy, security and war is addressed including the use of non-military coercion such as economic sanctions.

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week

**Language of tuition** Module is presented in English

**Department** Political Sciences

**Period of presentation** Semester 1 or Semester 2

## Module content

National security is closely related to threat perception, and threat analysis is in turn largely dependent on sound strategic intelligence. Attention is given to contemporary theory and practice as far as strategic intelligence is concerned; questions of policy on, agencies for an control over the intelligence process; and the current processes, focus, value and utilisation of strategic intelligence in a changing world. Strategic forecasting (with the inclusion of risk analysis and scenario construction) is linked to threat perception and national security to the extent that it forms an important part of planning for the future - hence the study of the nature, methodology and use of forecasting in the security environment.

### Module content

This module introduces the student to a basic knowledge and understanding of the biological basis of human behaviour. The module addresses the key concepts and terminology related to the biological subsystem, the rules and principles guiding biological psychology, and identification of the interrelatedness of different biological systems and subsystems. In this module various cognitive processes are studied, including perception, memory, thinking, intelligence and creativity. Illustrations are given of various thinking processes, such as problem solving, critical, analytic and integrative thinking.

## Module content

This module deals with a community psychological perspective on human behaviour and psychological interventions and also critically explores the contribution of various perspectives in psychology. The module focuses on themes such as definitions of key concepts, principles and aims of community psychology, and the role of the community psychologist as well as the impact of earlier thought frameworks on contemporary perspectives. The implications of these ideas for practical initiatives focussed on mental health in communities, are discussed. The module further focuses on critical psychology. Critical psychology is an orientation towards psychology that is critical towards the assumptions and practices of psychology as it is practiced in the mainstream. It attempts to address power issues as they manifest in the practice of mainstream psychology. The focus is on examining how the practice and theories of mainstream psychology contribute to these power issues impacting on marginalised groups.

Part 1: *Sociology of work: Globalisation*

The contemporary process of globalisation at a world level impacts on the process of change and economic development. This section will discuss processes and debates associated with economic globalisation and the global dominance of finance capital in the late 20th and early 21st century. We will review contemporary debates associated with these issues.

Part 2: *Gender, family and households*

This section focuses on theories and issues relevant to the understanding of households, families and gender. It addresses thematics such as dynamic family structures, poverty, the survival strategies of poor households, gender-based violence and the ways in which the aforementioned affect family life and forms as well as children and youth in particular. A special emphasis is placed on exploring these issues in a Southern African context.

### Module content

#### Part 1: *Demography, health and society*

This section explores the dynamic relationship between demography and health, with examples drawn from South African and international case studies. The substantial increase in world population during the past century compounds key issues faced by contemporary societies. Interplay between demographic processes, such as morbidity, mortality, fertility and mobility, impact on the size of a population. In turn, these are to an extent shaped by the structure of a population as well as the cultural context of a society. Central to this are concerns around health and disease.

#### Part 2: *Cultural Sociology*

This section explores themes in cultural sociology, with an emphasis on the ways in which meaning is constructed in everyday life by individuals as well as collectives, on the one hand, and the intersection between culture and institutional forms and social structure on the other. Students will be introduced to the work of some of the key thinkers in the field, and will be provided with the opportunity to write an independent essay on a theme in cultural sociology.

### Part 1: *Social theory*

This section focuses on contemporary social theory, in order to extend and broaden students' understanding of social theory beyond the classical canon. Students will be introduced to key conceptual vocabularies, theoretical paradigms and contemporary bodies of work in social theory. In addition, the way in which scholars who work on South Africa have drawn on social theory to inform and enrich their work is emphasized.

### Part 2: Labour studies

The section addresses sociological approaches to the workplace. It will critically assess labour market policy and examine issues such as management practice, employment and unemployment, and discrimination and flexibility in the labour market in South Africa.

## Module content

### Part 1: *Rural and urban sociology*

This section considers the relationship between the rural and urban, against the backdrop of the emergence and development of both capitalism in its various guises and globalisation within the twentieth and twenty-first centuries in the global North and South. Questions on the nature of social interaction in communities, changing ways of relating, inequality and livelihoods, collective action, local cultures and modernities are considered.

### Part 2: *Sociology of religion*

This section looks at religion and secularism in social context. Specific emphasis is placed on religion and secularism as forces for social change.

## Sociology of work and organisations 730 (SOC 730)

<b>Department</b>	Sociology
<b>Period of presentation</b>	Semester 1

#### Module content

The module focuses on debates about, as well as the practice of, research. The idea of science, the role of theoretical conceptualisations, and the epistemological assumptions underpinning research are introduced with reference to competing paradigms, including positivism, interpretivism and realism. With regard to research practice, general principles of planning such as identifying a topic, delineating a problem area, selecting sites, sampling participants and addressing ethical questions are considered. Thereafter the use of methods through which data can be collected and/or constructed are introduced and ways in which evidence can be interpreted and analysed are discussed.

### Module content

In this module students are expected to produce a research paper under weekly supervision. In the first instance, the paper ought to demonstrate a student's ability to conduct empirical research. However, with the necessary permission a student may also base the paper on the analysis of secondary data or draw on archival and/or documentary sources. The research paper needs to demonstrate students' understanding of and competence in all aspects of the research process, including making an argument, writing a report, analysing data, integrating research findings with the literature, and research ethics.

## Module content

This module examines theoretical explanations of globalisation. In doing so its primary goal is to explore ways in which capital in the era of the end of history is compelling us to rethink sociology as a science of the present. The module begins with theoretical discussions in order to lay the ground for talk about development as a process of incorporating (in this case) Africa into the global world system. The module further studies changes brought about by globalisation to the nation-state system, work and gender relations. It also examines nationalism and ethnicity as specific features of capitalism in the era of the end of history.

**Period of presentation** Semester 1

## Module content

This course takes a macro-level perspective and introduces students to scholarly accounts of the changing historical trajectory of gender relations, marriage as an institution, family forms, and household composition and livelihoods and the implications thereof for understanding gender as a social relation. As such, it adopts a historical and comparative perspective, with a specific focus on Southern Africa. In addition, the module explores the role and impact of supra-state organisations, the state and the market in mediating and regulating gender identities and relations, as well as family and household forms, against the backdrop of the nation-state form and in the context of capitalism and neo-liberalism particularly.

**Period of presentation** Semester 1

## Module content

This module focuses on the relationship between the personal and social and how these two domains are intricately related, simultaneously implying sameness and difference in the process of identification. It considers how societal structures and institutions shape and construct identities historically, whilst being shaped by individual agency, in turn. Human experience reveals a range of cross-cutting affiliations, based on ethnicity, race, religion, gender, sexuality and generation, amongst others, implying a multiplicity in belonging, suggesting a relational process, rather than an essence. The social, contingent and constructed nature of identities is highlighted against experiences of dislocation within a context of globalisation.

<b>Period of presentation</b>	Semester 1

#### Module content

This module is a broad introduction to sport and recreation as products in the market. Students discover the nature of sport and recreation, the difference between the concepts and policies, plans, strategies and structures of sport and recreation in South Africa and Zone VI in Africa. The dynamic scope and nature of recreation and sports management are introduced and discussed. Emphasis is placed on basic management tasks and functions in sport and recreation contexts, interpersonal skills, leadership and control systems and techniques in sport and recreation. The module establishes a foundation of management knowledge and skills on which subsequent sport and recreation management modules are built.

### Leadership in sport and recreation 120 (SRM 120)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	12.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	SRM 110
<b>Contact time</b>	3 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 2

## Module content

This module explores the difference between sports and recreation management and leadership and their application in sport and recreation. Selected classic and modern management and leadership theories are identified, described and compared in sport and recreation contexts. Students are guided towards selecting and demonstrating appropriate leadership styles and skills related to cross-cultural sport and recreation situations. Emphasis is placed on building leadership capacity through sport and recreation. This module establishes leadership competencies and confidence for subsequent academic service learning and community engagement activities.

## Sports facility and event management 210 (SRM 210)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	16.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	SRM 120
<b>Contact time</b>	3 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 1

## Module content

In this module the scope of sport and recreation facilities and events is identified and explored. Knowledge of basic management tasks acquired in previous modules is applied to plan and maintain sports facilities. Project management techniques are described and applied to managing sport and recreation events. The Act on Safety at Sport and Recreation events is analysed and applied to sport and recreation events. Special attention is given to the synergy between facilities and events, safety and risk management of sports facilities and events.

## Business and governance of sport 220 (SRM 220)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	16.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	SRM 220
<b>Contact time</b>	3 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 2

## Module content

In this module sports business models are investigated and integrated with governance principles, legislation and business structures and applied in diverse sport and recreation contexts. Sports agencies, sports facilities as income generators and the role of women in the business of sport are debated. Relationships between financial decisionmaking and sports business effectiveness are explored and discussed.

### Economics of sport and leisure 310 (SRM 310)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	30.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	SRM 220
<b>Contact time</b>	3 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 1

## Module content

This module builds on the business and governance principles applied to sport and leisure industries and explores the basics of economic analysis and decision-making. It aims to explain and apply the supply-demand economic module underpinning individual and organisational leisure and sports behaviour. The economics of professional sports teams and sports franchises are examined. The module develops ability and techniques to calculate GDSP and economic impact of sport and recreation events, facilities, professional sports teams and sports franchises.

### Value-based decision-making in sport and recreation 320 (SRM 320)

<b>Qualification</b>	Undergraduate
<b>Module credits</b>	30.00
<b>Service modules</b>	Faculty of Economic and Management Sciences
<b>Prerequisites</b>	SRM 310
<b>Contact time</b>	3 lectures per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Sport and Leisure Studies
<b>Period of presentation</b>	Semester 2

## Module content

This module examines the theory and reality of cross-cultural value-based decision-making in sport and recreation. Relationships and potential conflict between diverse value paradigms and responsible decision-making are argued in mega sports events and specific sport and recreation contexts.

### Period of presentation

Semester 1

### Module content

Descriptive statistics:

Sampling and the collection of data; frequency distributions and graphical representations. Descriptive measures of location and dispersion.

Probability and inference:

Introductory probability theory and theoretical distributions. Sampling distributions. Estimation theory and hypothesis testing of sampling averages and proportions (one and two-sample cases). Identification, use, evaluation and interpretation of statistical computer packages and statistical techniques.

\*On its own, STK 113 and 123 will not be recognised for degree purposes, but exemption will be granted for STK 110.

Data operations and transformations:

Introductory concepts, the role of statistic, various types of data and the number system. Concepts underlying linear, quadratic, exponential, hyperbolic, logarithmic transformations of quantitative data, graphical representations, solving of equations, interpretations. Determining linear equations in practical situations. Characteristics of logarithmic functions. The relationship between the exponential and logarithmic functions in economic and related problems. Systems of equations in equilibrium. Additional concepts relating to data processing, functions and inverse functions, sigma notation, factorial notation, sequences and series, inequalities (strong, weak, absolute, conditional, double) and absolute values.

Descriptive statistics – Univariate:

Sampling and the collection of data, frequency distributions and graphical representations. Descriptive measures of location and dispersion. Introductory probability theory. Identification, use, evaluation and interpretation of statistical computer packages and statistical techniques.

The weekly one hour practical is presented during the last seven weeks of the semester.

Political dynamics (Macro)

A theoretical basis and framework is provided for the description, analysis and classification of political and policy problems. The emphasis is on the nature of the state, governance and conflict in Africa. Amongst others a study is made of the issues of colonialism and post-colonialism, democratisation, authoritarianism and the development of the state in Africa, in the context of a globalising world.

### Module content

Political theory

A theoretical and normative study of political ideas. This includes the study of key political thinkers such as Plato, Thomas Hobbes and John Rawls as well as the contemporary manifestations of ideologies such as liberalism, socialism, conservatism and nationalism. This normative assessment of politics concludes with a critical evaluation of the development, nature and practical value of prominent democratic theories including participatory, legal, and deliberative democracy.

## Module content

### Part 1: Democratic studies

A high level critical analysis of democratic theory and practice. The analysis of democratic theory will include themes such as classical, radical, deliberative and feminist perspectives. The analysis of democratic practice will include aspects such as democratisation, democratic consolidation, democratic citizenship and society, the role and importance of civil society, the institutions and procedures for democracy and “good governance”.

### Part 2: Political analysis

The methods and practice of political analysis is the focus of study. The principles and problems underpinning different approaches and methods of political analysis are described and explained. This includes the nature, methods and use of comparative analysis, forecasting, risk analysis, performance evaluation and the political audit. These analytical methods are positioned in a political and policy context, with emphasis on practical application. Applicable examples and case studies are used throughout.

### Tourism Industry Sector Management I

This module covers the management of two industry sectors: tourism attractions (including events) and hospitality. Visitor attractions (including events), which are at the core of successful tourism is addressed at three levels: the key role of visitor attractions/events in the tourism industry; the overall development process (feasibility studies, financial and design aspects, etc.) relating to visitor attractions/events; and finally the strategic management and operational aspects of visitor attractions/events.

Hospitality management covers all the operational and management functions of the “guest cycle” from the moment a potential guest contacts an accommodation establishment to the time that he or she departs. A distinction is drawn between revenue centres and support centres. Food and beverage management forms an essential ingredient of this section. As financial management and costing are critical to the success of any hospitality organisation, the policies, principles and procedures pertaining to financial operations and financial management in such establishments are also covered.

Tourism Industry Sector Management II

This module covers the management of two industry sectors as they relate to tourism: transport and distribution channels. Transport is integral to understanding tourism. This section covers how transport affects tourism and examines the supply of and demand for transport from a tourism perspective. It also introduces the various modes of transport and their impact on the tourism system and industry. Tourism distribution management provides an overview of distribution theory as it relates to tourism and describes the integral nature of information in the tourism industry. Distribution channels are analysed and the special nature of tour wholesaling, travel retailing, business and corporate travel management and incentive travel are introduced. This section also introduces the concept of eTourism.

Please note: Various practical and industry-interaction activities support the theoretical component of the TBE 110, 120, 210, 220, 310, and 320 syllabi and take place during vacations, over weekends and after hours to develop practical and industry skills.

A student should, in consultation with the head of the division, obtain

1 000 "credits" for the practical component (which includes satisfactory class attendance, approved practical work and appropriate practical short courses as determined by the head of the division) before such student will be allowed to sit for the examination in TBE 320.

### Responsible ecotourism management 714 (TBE 714)

**Qualification** Postgraduate

**Module credits** 20.00

**Programmes** [BSocSciHons Heritage and Cultural Tourism](#)

**Prerequisites** No prerequisites.

**Contact time** 1 lecture per week, 1 other contact session per week

**Language of tuition** Module is presented in English

**Department** Division of Tourism Management

**Period of presentation** Semester 1

### Module content

This module focuses on managing ecotourism (including the natural and cultural resource base) following eco-principles and guidelines in order to provide a framework for sustainable/responsible tourism development in response to community needs within the Southern African context. The concepts of ecotourism, alternative tourism, responsible tourism and geotourism are debated. The management of ecotourism is studied from a theoretical perspective addressing issues such as the planning, design and sustainable development of eco-facilities and spaces; co-creation and the experienced tourist; the greening of the environment; and managing sustainable events; against the backdrop of climate change using local, national and international case studies. The aim is to provide students with a holistic perspective of ecotourism and to hone their entrepreneurial view to issues within this arena in order to apply sustainable eco-principles to various situations, ranging from green architectural structures and spaces to sustainable community and pro-poor tourism projects.

**Period of presentation** Semester 1

### Module content

This module explores the physical, mechanical and chemical properties of organic, inorganic and synthetic base materials. It explores the technology and manufacturing processes involved in creating or assembling a variety of heritage objects. Each material type is explored in dedicated block sessions where individual objects are discussed according to material types and properties, potential risks and weaknesses identified, and appropriate storage, exhibition and handling guidelines examined. This module has both theoretical and practical components where students will learn to differentiate between material types, isolating different component parts of composite objects and learning about examination, documentation and record keeping in conservation.

#### Module content

Practice forms an integral part of interventive conservation to apply theoretical knowledge on treatment evaluation and development, decision-making and to hone bench skills. This is a compulsory module for training in interventive/remedial conservation in the field of specialisation of the students choosing, dependant on the availability of the particular field of specialisation available at the University. Training is carried out under supervision within a museum collection or in private practice with an approved conservator-restorer and contains the practical component of the mini-dissertation.

**Programmes** [BDram](#)

**Prerequisites** No prerequisites.

**Contact time** Twelve times per week

**Language of tuition** Afrikaans and English are used in one class

**Department** Drama

**Period of presentation** Year

### Module content

\*Closed – only for BDram students

\*Students have to pass all components of this module in order to be promoted to the next year level

Basic techniques of acting will be introduced. Aspects of self, other and space will be explored and applied by means of acting exercises, theatre games, improvisation and interpretation of applicable material. The notions of storytelling/narrative/playmaking/construction and interpretation/recreation will be explored.

The module further introduces experiential somatics for the actor and performer. Students will engage with the building blocks of body/voice integration towards the safe, interactive and heightened use of the body and voice in performance. Students will apply these building blocks in discipline-specific skills training and in performance, including acting.

Live performance and digital performance

This module employs the notions of making, appreciating and performing to explore selected modes of contemporary live theatrical performance as well as performance for the digital media.

This module further offers discipline specific skills training in relation to selected voice and body movement pedagogies in the context of making, appreciating and performing. Students need to select two of the four available skills training options (physical theatre/dance; singing voice, theatre voice, movement for the actor) in consultation with lecturers.

This module consolidates the conceptual, vocal and physical skills acquired in the previous two years and focuses on the application of heightened physicality and vocality in performance.

NOTE:

? students will have to align their TNP 310 praxis choices with their choices within each third-year level theory module

? choices within TNP 310 are:

- o Performance (Acting)
- o Theatre voice
- o Singing
- o Movement for the actor
- o Physical theatre and dance
- o Digital media
- o Directing/Theatre making
- o Writing for stage and film
- o Music theatre (musical theatre and cabaret)
- o Radio
- o Camera acting

? Students who want to proceed to the Drama department's honours programme need to consider the following:

- o DRA 702 (Performance studies) needs Performance (Acting), Theatre voice and Movement for the actor as entry level requirements
- o DRA 705 (Physical theatre) needs Performance (Acting), Physical theatre and Theatre voice as entry level requirements
- o Musical theatre needs Physical theatre and dance, Performance (Acting) and Singing as entry level requirements
- o Cabaret needs Performance (Acting), Movement for the actor and Singing. (TNT 211 and TNT 311 [Directing] will be favourable)

Performing arts management

In this module students will be introduced to the current state of the performing arts in South Africa. Students will explore the language and technical aspects of theatre. It includes the processes involved with creation and performance of theatre productions. Focus will be placed on the ways in which the creative vision of the director is supported and manifested, to consolidate the aesthetical quality and conceptual framing of the production. The skills and responsibilities of the technical and creative theatre practitioners will be explored and put into context.

### Theatre studies: Theory 122 (TNT 122)

Theatre and performance studies

In this module students will explore the fundamental principles of role play and important elements are identified and described. The framing of a role play in various social, cultural and political arenas and the strategies applied forms the point of departure for this investigation. Students develop the skills to draw lines from the duality of text as well as life during the process of character development.

### Theatre studies: Theory 211 (TNT 211)

### Directing

In this module students will interrogate the ritual mode of performance as the embodiment of self-expression versus role-play as a representational mode of performance. The purpose of the course is to explore the dialectical notion between these differentiated modes of performance and directing. The aim is also to conceptualise the dynamic position of the director in the application of a multidimensional approach to the process of directing.

<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	Drama
<b>Period of presentation</b>	Semester 1

## Module content

\*This module offers a choice between Applied drama and Theatre and constructed identities.

### Applied drama

The module investigates the use of drama as methodology in educational and community contexts. Elements of drama and aesthetic processes are used as an instrument to teach across the curriculum. The interface between applied theatre and applied drama will be explored. The module culminates in practical projects.

### Theatre and constructed identities

The analyses of selected theatre texts and the creation of a visual interpretation thereof for the director by means of elements of costume and make-up design. The interaction between the constructed space (TNT 210) and identities will be explored in the light of various theories and modalities of performance.

## Theatre studies: Theory 311 (TNT 311)

**Qualification** Undergraduate

**Module credits** 20.00

**Programmes** BDram

**Prerequisites** TNT 211 or TNT 222

\*This module offers a choice between Applied drama and Intermediate directing

### Applied drama

The module investigates the use of drama as methodology in educational, community and corporate contexts. The interface between applied theatre and applied drama will be explored. The module culminates in a practical project.

or

### Intermediate directing

This module investigates the notions of concept, space, style, method and aesthetic in order to harness a praxis in directing. The module aims to activate conceptualisation skills and refers to contemporary directing methodologies in its aim to develop a directorial praxis. The module further provides the opportunities to begin to develop a distinctive directing style and voice while studying contemporary directing methods and concepts. The module culminates in a short directing scene.

## Theatre studies: Theory 320 (TNT 320)

\*This module offers a choice between intermediate performance studies and intermediate performing arts management

Intermediate performing arts management: Managing the production and managing the artist

Being subjected to constant flux and change, the current state of the performing arts industry in South Africa (as introduced in TNT 111), will be reconsidered in this module. Aspects of production management, including organisation and administration, the writing of proposals and budgeting for productions/performances will be investigated. To enable students to secure a career in the industry, they will be introduced to the notion of managing the self/the artist as a business/product. This will include, amongst others, negotiating contracts, compilation of CVs and portfolios and preparation for interviews and auditions (interacting with TNP 310).

or

Intermediate theatre and performance studies

In this module students will explore and interrogate selected western and non-western theories, paradigms and practices of actor and performer training with particular emphasis on embodiment by the performer. The work of key contemporary practitioners will be examined in order to establish how their training systems and approaches relate to performance traditions and how they have changed our perception of the artist's body/instrument in contemporary performance.

### Module content

\*Students are encouraged to take undergraduate modules from the political sciences and international studies programmes for non-degree purposes.

Introduction to interpreting practice

This first-semester module aims at familiarising students with the skills involved in oral translation. Lectures will focus on the theory and practice of various interpreting techniques including oral summaries, sight translations and reformulations of oral texts and speeches and the practice of liaison interpreting in professional situations. Students will also be expected to split up in groups according to the working languages of their choice which, besides English, may consist of any language(s) offered at MA level. Students will be subject to an oral exam to test their mastery of these techniques.

### Consecutive interpreting 812 (TRL 812)

**Qualification** Postgraduate

**Module credits** 20.00

**Programmes** [MA African Languages \(Coursework\)](#)

**Prerequisites** TRL 811

**Contact time** 1 practical per week

**Language of tuition** Module is presented in English

**Department** African Languages

**Period of presentation** Semester 2

### Module content

Students who have passed the TRL 811 module may specialise in interpreting in the second semester. The focus of this second-semester module is on practising the notetaking technique required for professional interpreting. Students attend both general TRL lectures primarily presented in English and practical group sessions according to their various working languages. Students will be evaluated through an oral exam.

### Simultaneous interpreting 813 (TRL 813)

**Qualification** Postgraduate

**Module credits** 20.00

**Programmes** [MA African Languages \(Coursework\)](#)

**Prerequisites** TRL 811 and TRL 812

**Contact time** 1 lecture per week, 1 practical per week

**Language of tuition** Module is presented in English

**Department** African Languages

**Period of presentation** Semester 1

## Module content

\*Students specialising in interpreting may take this module if they have passed the module TRL 812. Lectures include the theory and practice of simultaneous conference interpreting of oral texts and speeches. This technique will be mastered through various techniques and practice in an interpreting booth (in the student's working languages) will conclude this module. Students will be evaluated through an oral exam.

### Court interpreting 814 (TRL 814)

<b>Qualification</b>	Postgraduate
<b>Module credits</b>	20.00
<b>Prerequisites</b>	TRL 811
<b>Contact time</b>	1 lecture per week
<b>Language of tuition</b>	Afrikaans and English are used in one class
<b>Department</b>	African Languages
<b>Period of presentation</b>	Semester 2

## Module content

This module aims at familiarising students with the skills involved in court interpreting. Lectures will include the theory and practice of court interpreting, as well as some ethical aspects related to the profession. In addition to contact hours, students will also be expected to work in groups according to the working languages of their choice which, besides English, may consist of any language(s) offered at honours level. Students will be subject to an oral examination at the end of the module to ascertain their mastery of these skills.

### Translation theory 851 (TRL 851)

<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

\*This module is compulsory for students who wish to do their mini-dissertation with a focus on translation. Study of the main characteristics of, and comparison between various translation models, such as text-oriented, functional, process-centred and reception-based translation. The shift from prescriptive theory to descriptive work in the field of translation studies. Corpus-based translation studies (CTS); theory and practice; the use and application of HLT (human language technology) in CTS.

### Mini-dissertation: Translation and interpreting 895 (TRL 895)

<b>Qualification</b>	Postgraduate
----------------------	--------------

**Module credits** 100.00

**Prerequisites** No prerequisites.

**Language of tuition** Afrikaans and English are used in one class

**Department** African Languages

**Period of presentation** Year

### Module content

The mini-dissertation should be the product of independent research on translation and/or interpreting. Apart from an analysis and interpretation of research results, the mini-dissertation should include a thorough overview of the literature on the selected topic and a synthesis of existing views as reflected in the literature. Length: 18 000-20 000 words/approximately 80-100 typed pages.

## Academic writing skills 751 (TTS 751)
