### Module content

In psychocriminology attention is given to psychological disorders that may lead to the committing of crime, or that are regarded as criminal in nature by the legal system and psychological disorders that may occur as a result of having been the victim of crime. Specific themes to which attention are given include the following: defence and criminal liability with regard to mental disorders, personality disorders, suicide; sexual offences and substance abuse.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
