Programminligting

Hierdie inligting is slegs in Engels beskikbaar.

The programme is based on the researcher-practitioner training model and must be completed in one year.

• Researcher training

Researcher training entails 50% of the Counselling, Exercise and Sports Psychology programme. During the one-year period a research process is facilitated by supervisors whereby the research competencies of (i) reflective practice, (ii) contextual practice, (iii) writing a research proposal, (iv) conducting a research project and (v) reporting the research findings in an independent research project of limited scope/mini-dissertation are developed and assessed.

• Practitioner training

Practitioner training entails 50% of the Counselling, Exercise and Sports Psychology programme. During the one-year period a training process is facilitated by facilitators whereby the practice competencies of (i) reflective practice, (ii) contextual practice, (iii) psychological assessments, (iv) psychological conceptualisation, (v) psychological interventions and (vi) professional communication are developed and assessed.

The training is focussed on developing an integrative approach to the practice competencies as set out above, within the Department of Psychology (on-site) and at organisations as determined by the Department of Psychology (off-site).

After successfully completing the programme, students can apply for registration as an intern counselling psychologist with the Professional Board for Psychology at the Health Professions Council of South Africa (HPCSA) to do a one-year full-time internship in Counselling Psychology.

Students can opt for internship programmes that are accredited with the Professional Board of Psychology at the HPCSA, or follow a tailor-made internship approved by the Professional Board of Psychology at the HPCSA. In consultation with students, the Department of Psychology takes the final decision as to the internship placements of students.

Eksamens en slaagvereistes

Students need to pass all the research competencies (CES 895), as well as all the practice competencies (CES 801-CES 806), to successfully complete the programme.
