## Programme information

This programme provides graduates with specific knowledge of the law and law-related skills and schools them in selected language discipline(s) and selected social sciences. The skills acquired may be applied in either the private or public sectors. The programme serves as an alternative route for ultimately obtaining the LLB degree. The student is, however, enabled to continue with the LLB degree (which is career-specific) or a BAHons degree. The BA/LLB combination will take five to six years to complete.

## Admission requirements

- Candidates are advised to apply early, due to limited space availability in all programmes. As soon as a programme reaches its full capacity, applications of the specific programme will be closed before the official closing date.
- The following candidates will be considered for admission:
  1. A candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another recognised tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria
  1. Candidates who have completed the National Senior Certificate with admission to degree studies or a certificate of conditional exemption on the basis of a candidate's non-South African ("foreign") qualifications, the so-called "Immigrant" or "Foreign Conditional Exemption". The only condition for the "Foreign Conditional Exemption" that is accepted is: 'completion of the degree course'. The exemption certificate is obtainable from Universities South Africa (USAf). Detailed information is available on the website at [mb.usaf.ac.za](http://mb.usaf.ac.za).
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The above-mentioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12, except BA (Speech-Language Pathology), BA (Audiology) and BSocSci (Philosophy, Politics and Economics). The required APS for these three programmes is 32 in order to retain admission. Prospective students who have already been granted conditional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admissions Committee should space be available. The Admissions Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space. The NBT is not applicable to selection programmes.

Candidates who apply for selection programmes or BA (Law) are required to meet the minimum admission requirements.

- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Life Orientation is excluded when calculating the APS.
- The language of communication and correspondence is English only.
- For more information, please consult the Faculty yearbook on the UP website.
- **Note:** The A and IB HL levels are not included in the APS Conversion Table. Faculty requirements for admission based on these equivalent international qualifications are a D for the A level and 4 for the IB HL level.
- Non-NSC candidates who have already completed the equivalent of Grade 12, are advised to submit their Exemption certificates obtained from USAf ([www.usaf.ac.za](http://www.usaf.ac.za)) along with their applications.
- Non-NSC candidates who do not have English Language in Grade 12 are advised to write the NBT or submit their SAT results. Please note that English Literature is not considered as a substitute for English language.

International theory and organisation

What causes war and peace? Can international order and justice be reconciled? Does the international structure matter? The answers depend on the theoretical lenses through which world politics are viewed. An overview is provided of competing theoretical perspectives of international relations. It includes mainstream and alternative perspectives, as well as the underlying ideas, theories and variants of each. These theories also propose different approaches to global peace, amongst others peace through international organisation. A comprehensive analysis is made of selected international organisations with a universal or regional scope, such as the United Nations, the African Union and the Southern African Development Community, and of international law that underpins these organisations and their activities.

In each case study the policy environment, the formulation and implementation processes, as well as the substance of the particular state's foreign policy are covered. Thereafter the focus narrows to diplomacy: the oldest, most versatile and universally used instrument of foreign policy. The nature, history, modes of diplomacy and legal framework of the institution are explored. Examples are drawn from global practice, with specific consideration of the evolution of diplomatic practice within the African and South African context.

Students will be introduced to the work of some of the key thinkers in the field, and will be provided with the opportunity to write an independent essay on a theme in cultural sociology.
