Module content

The holistic nature and interdisciplinary scope of diplomacy, as an institution, practice and area of academic study and research, are introduced and contextualised within the broad framework of international studies, incorporating aspects of international relations, international law and international political economy. Subsequently, the focus shifts to the theoretical and practical relationship between international relations, foreign policy and diplomacy as a tool of foreign policy. Accordingly, South Africa's diplomacy, at a global and regional level, is critically analysed using the comparative method amongst others.
