<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	<a href="#">Ancient and Modern Languages and Cultures</a>
<b>Period of presentation</b>	Semester 1 and Semester 2

### Module content

The acquisition of a basic medical orientated vocabulary compiled from Latin and Greek stem forms combined with prefixes and suffixes derived from those languages. The manner in which the meanings of medical terms can be determined by analysing the terms into their recognisable meaningful constituent parts, is taught and exercised. The functional use of medical terms in context as practical outcome of terminological application is continually attended to.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of each student to familiarise himself or herself well with these regulations as well as with the information contained in the [General](#)

[Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
