This module will focus on the integration of skills and knowledge acquired thus far, with emphasis on finding a synthesis between ideas, materials, process and theory through a studio-based research approach. Opportunities are provided for students to hone their artistic expression with a focus on experimentation towards their final year of study. Through lectures, consultations and self-study, students will explore concepts and methods in historical and contemporary art practices and their application within personal art practices. Studio projects will gradually merge into a continuous investigation of a self-motivated theme that is grounded in a theoretical understanding of concepts and methods in art. Students will reflect and write on their practice; different modes of presentation will be utilised to provide opportunities for critical reflection and debate.
