This module focusses on developing students' critical competencies and research skills. Students are familiarised with the broader streams of contemporary thinking in Fine Arts and critical approaches to form linkages between contemporary and historical art discourses and practices within both international and local cultural paradigms. Opportunities are provided for students to hone their analytical skills through conducting research into such discourses within art practice and theory. The module provides opportunities to develop competencies in research methodology; reading and writing skills; and critical, creative and generative thinking skills through class discussion, critical engagement, and written argumentation.
