- Bachelor of Arts [BA] 3-year programme

More students choose a Bachelor of Arts degree than any other programme. Its adaptability enables students to explore disciplines and proceed with those best suited to their interests and abilities.

At the first-year level, Academic information management (AIM) and Academic literacy (ALL) are fundamental (compulsory) modules. In compiling their programmes, students have an extraordinarily wide choice. Since the programme allows for two core disciplines, students have more than one option for postgraduate study. They therefore have an alternative, should they not comply with the selection requirements for postgraduate study in one of the disciplines. With good planning, students who complete the Bachelor of Arts programme have the same chance of being selected for postgraduate studies in a particular discipline as those who enrol for the more specialised programmes.

For more information, please consult the Faculty webpage.

Career Opportunities

There is a range of career options for students who complete the Bachelor of Arts programme. Since the Bachelor of Arts programme is relatively flexible, students can choose the same majors and elective modules as students studying in more structured programmes.

Note: Students who wish to become psychologists must complete a Bachelor of Arts majoring in Psychology, the BSocSciHons (Psychology), and the MA (Clinical, Counselling or Research Psychology). **Careers:** Clinical, counselling (sports and community) and research psychologist, registered counsellor or registered psychometrist.
