- BCom Supply Chain Management

Supply Chain Management (SCM) is a systems approach to managing the entire flow of materials, information, services and finance from raw materials suppliers through factories and warehouses to the end user.

BCom (Supply Chain Management) is a three-year full-time programme. This degree aims to equip students in supply chain management with the ability to participate in functional management in an integrated supply chain. This includes the disciplines of supply management, production and operations management, warehousing, transport management and supply chain strategy. With this qualification opportunities exist in the following careers: supply chain analysts, supply chain strategists, customer service managers, inventory managers, warehousing managers, distribution managers, transport managers, operations managers, supply chain planners and logistics managers.

The University of Pretoria's Department of Business Management is the only European Logistics Association (ELA) National Certification Centre (NCC) in Sub-Saharan Africa. The goal of ELA is to provide an international forum for networking, promotion and development of the logistics and supply chain profession through its network of NCCs.

UP's association with ELA translates to the following benefits to students:

- A degree accredited at Level 4: Candidate European Junior Logistician (cEJLog), based on the European Logistics Association Qualifications Framework Standards agreed by industry.
- ELA candidates stand out from the crowd with a certificate that is a global mark of competence and promotes mobility in an international market place.
- Offers graduates a smooth path to full ELA Certification once relevant experience is obtained
