

University of Pretoria Yearbook 2016

Basic anatomy 151 (BGN 151)

Qualification Undergraduate

Faculty [Faculty of Humanities](#)

Module credits 6.00

Prerequisites No prerequisites.

Contact time 1 practical per week, 3 lectures per week

Language of tuition Double Medium

Academic organisation Sport and Leisure Studies

Period of presentation Semester 1

Module content

*Closed – requires departmental selection

This module introduces the student to basic anatomical concepts regarding body areas, levels, axes of motion and anatomical terminology. Development anatomy forms the first part of the module. From there the student continues to the study of osteology, arthrology, skeletal-muscular system, nerve innervation, anatomy of the brain and the cardio-respiratory system. An important aspect of the module is movement anatomy and its application.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
