

University of Pretoria Yearbook 2016

Multimedia: Project 300 (IMY 300)

Qualification Undergraduate

Faculty [Faculty of Engineering, Built Environment and Information Technology](#)

Module content *Closed - requires departmental selection. The module enables students to combine all their knowledge gained through out their studies to create a functional game. The course consists of extensive game design theory teaching. The students create a game by following an iterative design process, extensive documentation and in depth play testing and usability testing. The final product is a creative, innovative and complete game.

Module credits 45.00

Programmes [BIS Multimedia](#)

[BIT Information Technology](#)
