<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	3 practicals per week, 3 lectures per week
<b>Language of tuition</b>	English
<b>Academic organisation</b>	Information Science
<b>Period of presentation</b>	Semester 2

### Module content

Information and Knowledge Management. This module focuses on information and knowledge management at an operational level and introduces information and knowledge management at a corporate strategic level. It deals with the management of information and knowledge, which enables the organisation to be competitive. In this module the focus is on four aspects, namely: the 21st century organisation, the external and internal stakeholders that have an interest in information products, as well as the infrastructure that should be in place in organisations to manage information products. The module concludes with a few topics relating to information management at a corporate strategic level.
