Module content

The purpose of this module is to prepare 4th year students to present Life orientation during their 4th year practice. The emphasis will be on teaching methods with the focus on the purpose of Life orientation: "Equipping learners with knowledge, skills and values for self fulfillment and meaningful participation in society as citizens of a free country." In addition to the 3rd year "Skills to assist youth in Crisis", the focus will turn here on the risk factors that may occur or surface in the school and community that the Life orientation teacher may need to address pro-actively and/or reactively through educational, skills development and the setting of values within the school and community.
