<b>Language of tuition</b>	Both Afr and Eng
<b>Academic organisation</b>	Psychology
<b>Period of presentation</b>	Year

### Module content

\*Closed – admission to this module is subject to departmental selection for the MA in Clinical Psychology. This module is an investigation of behaviour in context. It trains the student towards a sensitive understanding of human action which exceeds the boundaries of culturally and socially accepted behaviour. Behaviour, which is usually defined as normal/abnormal, is critically discussed and studied from various paradigms. Behaviour as influenced by genetic and neurological processes is also studied.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
