Module content

Music research methodology provides for the necessary background knowledge on research methodology in order to identify, evaluate and select an appropriate topic for postgraduate research projects. It addresses research design, literature resources, compilation of literature reviews, referencing, plagiarism, the formulation of a problem statement, purpose statement and research objectives/research questions to guide the intended study. The study culminates in the compilation of a detailed research proposal for postgraduate study, which is the essential element of the examination. By completing this module, students should be able to initiate and conduct postgraduate research within a structured framework.
