

University of Pretoria Yearbook 2016

Psychology 120 (SLK 120)

Qualification Undergraduate

Faculty [Faculty of Humanities](#)

Module content This module introduces the student to a basic knowledge and understanding of the biological basis of human behaviour. The module addresses the key concepts and terminology related to the biological subsystem, the rules and principles guiding biological psychology, and identification of the interrelatedness of different biological systems and subsystems. In this module various cognitive processes are studied, including perception, memory, thinking, intelligence and creativity. Illustrations are given of various thinking processes, such as problem solving, critical, analytic and integrative thinking.

Module credits 12.00
