

University of Pretoria Yearbook 2016

Principles of veld management 310 (WDE 310)

Qualification Undergraduate

Faculty Faculty of Natural and Agricultural Sciences

Module credits 14.00

Programmes BSc Chemistry

BSc Environmental and Engineering Geology

BSc Environmental Sciences

BSc Geography

BSc Geoinformatics

BSc Meteorology

BScAgric Animal Science

BScAgric Animal Science: Pasture Science

BScAgric Option: Applied Plant and Soil Sciences

Prerequisites No prerequisites.

Contact time fortnightly practicals, 2 lectures per week

Language of tuition Double Medium

Academic organisation Plant Production and Soil Sc

Period of presentation Semester 1

Module content

The influence of biotic and abiotic factors on the productivity of different strata and components of natural pastures. This will enable the student to advise users, with the necessary motivation, on the appropriate use of these strata and components and will form a basis for further research on this system. The principles of veld management s and the influence of management practices on sustainable animal production from natural pastures. This will enable the student to advise users on veld management and veld management principles. It will also form a basis for further research on veld management.
