

University of Pretoria Yearbook 2016

BScHons Medical Physics (10243011)

Duration of study 1 year

Contact Mr MR Mlambo roy.mlambo@up.ac.za +27 (0)123541033

Programme information

The following requirements are set for completing the programme:

- Advanced instruction by means of self-tuition and four compulsory seminars of which at least one must be read to and defended before the department in question, on topics assigned to the student.
- Practical experience of the laboratory techniques used in the particular subsections of the subject.
- Attendance at the compulsory faculty module (TNM 800) Applied research methodology 800.
- Attendance at the prescribed module (MBS 800) Medical biostatistics 800.
- Taking part in a research project and presentation of an independent research report.
- Satisfactory attendance at a library-user course.

Admission requirements

- A candidate must hold a bachelor's degree deemed acceptable by the head of department for the proposed field of study or an equivalent qualification deemed acceptable by the Senate of the University for the proposed field of study with at least one applicable biological subject as major subject.
- Admission to the study for an honours degree is subject to the approval of the head of department: with the proviso that a candidate who has obtained an average of less than 60% in the modules of his or her major subject in the final year of the bachelor's degree study may only be admitted with the **Dean's approval** on the recommendation of the head of department. Additional requirements may be set by the head of department.

Additional requirements

The prerequisites for admission to the honours degree in certain fields of study are indicated in the syllabuses of the specific department.

Also consult General Regulations.

Other programme-specific information

- **Modules to be taken in the Department of Physics, Faculty of Natural and Agricultural Sciences:**

FSK 710 Mathematical methods 710

FSK 711 Classical dynamics 711

FSK 713 Quantum mechanics 713

FSK 714 Electrodynamics 714

- **Modules to be taken in the School of Medicine:**

GNF 700 Medical physics: Practical work 700

GNF 701 Medical physics: Nuclear medicine 701

GNF 702 Medical physics: Diagnostic radiology 702

GNF 703 Medical physics: Radiation physics 703

GNF 704 Medical physics: Radiotherapy 704

GNF 705 Medical physics: Radiation protection 705

Examinations and pass requirements

- i. The examination at the end of the programme will consist of two written papers of three hours each as well as an oral examination of 30 minutes.
- ii. For the field of specialisation Medical Physics, one examination of three hours is required in each of the theoretical modules. The mark awarded to the practical work will also be taken into account when the final mark is calculated.
- iii. The maximum period for completion of the honours degree, is two years in the case of full-time students and three years in the case of part-time students. In exceptional circumstances, a student may apply, in writing, to the head of department for an extension of the period of study.
- iv. To comply with the pass requirements for the degree, a student must obtain a final mark of at least 50% in each division as indicated, as well as a pass mark of at least 50% for the essay/work assignment (if applicable). The stipulations regarding pass requirements for dissertations in the General Regulations apply mutatis mutandis to essays.

Pass with distinction

The degree is conferred with distinction on a student who has obtained an average of at least 75% in the examination (written, oral, practical, etc).

Curriculum: Final year

Minimum credits: 205

Core modules

Mathematical methods 710 (FSK 710) - Credits: 15.00

Classical dynamics 711 (FSK 711) - Credits: 15.00

Quantum mechanics (I) 713 (FSK 713) - Credits: 15.00

Electrodynamics (I) 714 (FSK 714) - Credits: 15.00

Medical physics: Practical work 700 (GNF 700) - Credits: 24.00

Medical physics: Nuclear medicine 701 (GNF 701) - Credits: 24.00

Medical physics: Diagnostic radiology 702 (GNF 702) - Credits: 24.00

Medical physics: Radiation physics 703 (GNF 703) - Credits: 24.00

Medical physics: Radiotherapy 704 (GNF 704) - Credits: 24.00

Medical physics: Radiation protection 705 (GNF 705) - Credits: 24.00

Medical biostatistics 800 (MBS 800) - Credits: 20.00

Applied research methodology 800 (TNM 800) - Credits: 5.00

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
