BScHons Applied Science Applied Science: Architecture (12242000)

Duration of study 1 year

Total credits 120

Programme information

This degree is for those students intending hereafter to pursue a master's degree by research and coursework in applied science in the fields of architecture, landscape architecture or interior architecture or generally in the built environment.

Refer to G Regulations G.16 to G.29 and G.54.

Admission requirements

A candidate for the degree programme Bachelor of Science Honours in Applied Science :

(1) must be a graduate with a BSc degree or an equivalent university degree;

or

(2) must have an appropriate recognised tertiary qualification.

Such a candidate may be required, at the discretion of the head of Head of Department to take:

(i) an academic literacy test;

(ii) a computer skills test;

or

(3) must have a qualification deemed adequate by the Head of Department in consultation with the Dean and obtain (where necessary) the approval of Senate, and comply with any other prescribed requirements.

Candidates mentioned in (2) and (3) above may, at the discretion of the Head of Department, be required to be evaluated in prerequisite fields of knowledge and/or register for additional modules for non-degree purposes.

Candidates mentioned in (1), (2) and (3) above

(i) should preferably have had practical experience and/or have done and recorded an extended study excursion;

(ii) are interviewed for selection;

(iii) must present a portfolio and/or journal which demonstrates the requisite level of proficiency and competency and is a record of their experience within the field they intend to do research;

(iv) are selected on merit.

Please note: A limited number of candidates are admitted to this programme.

Other programme-specific information

Students who follow modules presented by other schools or faculties must first obtain permission for such registration(s) from those schools or faculties and must familiarise themselves with the admission requirements of the specific module(s), and the examination rules and regulations pertaining to such a module(s).

(Please Note: it is the students' responsibility to have their projects approved by the specific research field coordinator)

Students may register for other honours (700) level modules presented in the Department of Architecture with the approval of the Head of Department.

Awarding of degree

The degree is awarded to those students who have obtained the prescribed credits. Those students admitted with conditions must comply with all of these before all the 700 series module credits and the degree are awarded.

Examinations and pass requirements

The minimum pass mark is 50%. A minimum of 40% is required in the examination, with a minimum final mark of 50% to pass. If a module is not evaluated by examination a minimum coursework mark of 50% is required. If the module is not evaluated by coursework a minimum examination mark of 50% is required.

Research information

The G Regulation G.39.12 applies.

Pass with distinction

The degree is conferred with distinction if students registered for the degree for the first time, complete the degree within the minimum prescribed time and pass all modules with a weighted average of 75%.

Curriculum: Final year

Minimum credits: 120

Core modules

Theory component (Capita selecta) 700 (RFS 700)

Module credits	20.00
Prerequisites	No prerequisites.
Contact time	1 discussion class per week, 2 lectures per week
Language of tuition	English
Academic organisation	Architecture
Period of presentation	Year

Module content

A capita selecta from one of the following departmental research fields:

- Environment potential
- Housing and urban environments
- Heritage and cultural landscapes.

Project component (Capita selecta) 700 (RFP 700)

Module credits	40.00
Prerequisites	No prerequisites.
Contact time	1 seminar per week
Language of tuition	English
Academic organisation	Architecture
Period of presentation	Year

Module content

A capita selecta of the various modules related to the research field that the student is advised to follow by the research field coordinator. Research fields:

- Environment potential
- Housing and urban environments
- Heritage and cultural landscapes.
