

University of Pretoria Yearbook 2017

Animal health management: high impact and emerging diseases 814 (AHE 814)

Qualification	Postgraduate
Faculty	Faculty of Veterinary Science
Module content	(elective) This module deals with the concepts and principles of basic animal health management for livestock production and trade in livestock and livestock commodities. There will be a special focus on the management of infectious diseases that have a high impact in terms of international trade because of their detrimental effects on livestock production and health and/or human health. The module will also examine the drivers for emerging and re-emerging diseases with special reference to the livestock/wildlife/human interface.
Module credits	12.00
Programmes	MSc Tropical Animal Health (Coursework)
Language of tuition	Module is presented in English
Academic organisation	Veterinary Tropical Diseases
Period of presentation	Semester 2
