Faculty	Faculty of Veterinary Science
Module credits	9.00
Programmes	MSc Tropical Animal Health (Coursework)
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Academic organisation	Veterinary Tropical Diseases
Period of presentation	Semester 2

Module content

Skills training

This module provides an introduction to the control of helminth infections of economic or public health importance in the tropics. The focus is on transmission of helminths of livestock and on sustainable methods to break the lifecycles. Practical study includes common parasitological techniques and interpretation of parasitological parameters.
