Module-inhoud

Overall, this module examines the macro-economic and political forces that influence the development and functioning of global economic governance. Of particular interest is the development of international organisations and their role in influencing and regulating the global business environment; the formation and development of international regimes such as those governing multilateral trade and development; trade and international labour standards; alternatives to intergovernmental regulation such as voluntary Codes of Conduct, Codes of Business Principles and their efficacy. In essence, this module offers an in-depth understanding of the complex international environment in which managers, business organisations and governments operate.
