* Hierdie module word slegs in Engels aangebied.

In this course students will be introduced to models and principles of leadership. They will examine case studies where entrepreneurs have effectively and ineffectively utilised leadership principles in launching and growing a new business. Students will be required to critically evaluate their own leadership competencies and they will put processes and plans in place to play to their strengths and develop their weaknesses or find ways of overcoming their weaknesses. At the conclusion of this course, students should feel reasonably confident that they can lead a new growing organisation.
