### Module content

\*Closed – requires departmental selection

The focus of this field of study is on skill acquisition with primary consideration given to the learning process, and the cognitive and motor processes underlying the learning of skills. The factors that influence skill learning are also studied. Students preparing for a career in Physical education or as sports coaches, dance instructors, physiotherapists and occupational therapists will receive the necessary foundation to develop effective instructional strategies. Instructors in military and industrial training settings will also benefit from this field of study.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
