### Module content

This module is a continuation of Periodontology 171 and will provide the oral hygiene student with knowledge of:

- Periodontal diseases
- Pathogenesis of periodontal diseases
- Implantology
- Surgical procedures

The module will also enable the oral hygiene student to:

- Compile, exercise and evaluate a comprehensive and effective preventive, therapeutic and maintenance plan for the periodontal patient
- Actively participate in the prevention, treatment and maintenance of periodontal conditions

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
