

University of Pretoria Yearbook 2017

Integrated plant and animal production 783 (WDE 783)

Qualification	Postgraduate
Faculty	Faculty of Natural and Agricultural Sciences
Module credits	14.00
Prerequisites	No prerequisites.
Contact time	2 lectures per week, 1 practical per week
Language of tuition	Module is presented in English
Academic organisation	Plant and Soil Sciences
Period of presentation	Year

Module content

The role of crop rotations and ley crops in marginal cropping conditions to ensure sustained production. The integration of pastures and silvicultural/ horticultural crops (eg. Agro-forestry) to produce timber, firewood, fruits/nuts and livestock products. Provision of feed requirements for both commercial and communal livestock enterprises by combining livestock requirements and feed supply in a process of economic optimization and emphasizing the importance of records and responses in the process of implementation.
