
University of Pretoria Yearbook 2018

Faculty of Economic and Management Sciences

Welcome to the Faculty of Economic and Management Sciences

The Faculty of Economic and Management Sciences is one of the largest Faculties at the University of Pretoria. The Faculty aims to continuously strengthen its position as the leading institution in the fields of economic, financial and management sciences through its academic and research excellence. At the same time the Faculty remains committed to delivering competent, creative, responsible and productive citizens – the “Thought Leaders” of the University of Pretoria and South Africa’s future business leaders.

Faculty regulations and information

The rules for the degrees published here are subject to change and may be amended after the publication of this information.

The General Regulations (G. Regulations) and General Rules apply to all faculties of the University of Pretoria. It is expected of all students to familiarise themselves well with these regulations and rules as well as all faculty-specific and programme-specific regulations and information as stipulated in the online yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression.

Note: Due to the continuous restructuring of the Faculty and the accompanying phased-in introduction of modules and credits, some of the information displayed here may not fully reflect the most recent developments in the Faculty. Problems that are experienced as a result of this situation may be taken up with Student Administration.

Selection

A selection procedure takes place prior to admission to some of the degree programmes in this Faculty. Formal selection takes place for the BAdmin [Option: Public Administration], where work experience is a prerequisite.

Undergraduate programmes

The basic module unit of the Faculty has a duration of 14 weeks. Candidates for the BCom and BAdmin degrees who have not passed at least 50% of the modules enrolled for in a particular year of study at the end of an academic year, should apply for readmission to the degree programme. (Also consult General Regulation G. 3.2)

Permission to complete one year- or two semester modules on third year level at another institution

Permission may be granted to a student with a limited number of modules outstanding to complete one year or two semester modules on third year level at the University of South Africa (Unisa) with the proviso that the module content is similar to the module(s) offered at UP. This concession can only be granted if the student has already registered for and failed the relevant outstanding module(s) at UP and will be able to comply with all the requirements for the degree by passing the module(s) at Unisa. The concession will only be valid for one year and if the module(s) are not completed successfully, an extension will not be granted. A written application must be submitted to Student Administration before the final date for module changes.

General

The Dean has the right of authorisation regarding matters not provided for in the General Regulations or in the Faculty regulations.

The Senate may limit the number of students allowed to register for a degree programme, in which case the

Dean concerned may, at his/her own discretion, select from the students who qualify for admission those who may be admitted.

Transferring students from other institutions

The applications of candidates who have previously been registered at another tertiary institution are considered by the Admissions Committee of the Faculty on the basis of their Grade 12 results **and** tertiary academic achievements. An academic record, as well as the final school-leaving results is required for such applications.

NB: Candidates who are still registered at another university must submit an academic record of their studies to the faculty as soon as possible after their final examinations. The closing date for these applications is also **30 September**.

Academic literacy

Training in academic literacy is offered as part of the study programmes. Please refer to the curricula for more information.

Concurrent registration for two fields of study

With the permission of the dean/deans concerned, a student may register for a degree, diploma or certificate and another degree, diploma or certificate, whether undergraduate or postgraduate, simultaneously, subject to the regulations applicable to the fields of study in question and to any other stipulations the dean/deans may prescribe on the condition that there shall be no overlap in the course content of the first degree, diploma or certificate and the second degree, diploma or certificate. Such a concession may be withdrawn by the dean(s) concerned if the student does not perform satisfactorily. (See General Reg G.6.)

Minimum study periods and requirements for bachelor's degrees

A bachelor's degree is conferred on a student only if he or she complies with the minimum period of study and other requirements as stipulated in the Joint Statute and the regulations of the University pertaining to the acquisition of that degree. (See General Regulation G.7.)

Periods of attendance at and credits for modules which a student obtained at the University and which did not form part of the requirements for a degree already conferred on a student, may be accepted by the dean in consultation with the head of the department concerned, for a bachelor's degree, provided that the student complies with the stipulations in G.8.1 and G.9.4(a).

Subject to the stipulations of the Joint Statute, the dean may accept periods of attendance as a registered matriculated student at any other tertiary institution approved by Senate for this purpose, as part of the student's attendance record for a bachelor's degree.

Examinations

- a. A student is admitted to an examination only if the lecturer of that module in consultation with the head of the department, certifies that the student has prepared himself or herself satisfactorily by due performance in his/her work and has fulfilled the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.
- b. A student may be refused admission to the examination or promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- c. A student may be refused admission to the examination or promotion to a subsequent year of study if he/she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.
- d. In exceptional cases, where it is deemed appropriate, the Dean of a faculty may excuse a student from attending all or part of a module.
- e. The minimum semester mark to be admitted to an examination in a first-semester module on 100-level is 30%, and the semester/year mark for admission to an examination in all other modules is 40%.

- f. The examinations for first-semester modules take place in May/June, while all other examinations (second-semester modules and year modules) take place in October/November (also consult General Regulation G.12).

Pass requirements and subminima in examinations

A final mark of at least 50% is required to pass a module. The year or semester mark must fall within a range of 40%-60% and the examination mark must fall within a range of 40%-60% of the final mark. Deviations from this rule can be approved by the Dean. The formula that is used to determine the final mark will be specified in the study guide of the module.

Ancillary examinations

After completion of an examination and before the examination results are announced, the examiners may summon a student for an ancillary examination on particular aspects of the work of that module.

Re-marking of examination papers

After an examination, departments give feedback to students about the framework that was used by the examiners during the examination. The way in which feedback is given, is determined by the heads of department. Students may apply for remarking of an examination paper after perusal and within 14 calendar days of commencement of lectures in the next semester. The prescribed fee has to be paid. The paper will then be re-marked by an examiner appointed by the head of the department (also consult General Regulation G.14).

Supplementary examinations

(Also consult General Regulation G.12, par. 4.3, 4.4, 4.5)

- a. Supplementary examinations in first-semester modules take place after the May/June examinations, while those in second-semester and year modules take place after the October/November examinations.
- b. A student may be admitted to a supplementary examination in a module, in cases where
 - i. a final mark of between 40% and 49% has been obtained, or
 - ii. a pass mark has been obtained, but the required subminimum in the examination section of the module or divisions thereof has not been obtained.
- c. If the module, in which a final mark of between 40% and 49% has been obtained, is a first-semester module at 100-level, a supplementary examination must be granted. For all other modules, the Department has the discretion to allow a student to write a supplementary examination.
- d. To pass a supplementary examination, a student must obtain a final mark of 50% - the semester or year mark is not taken into consideration.
- e. The highest final percentage a student can obtain in a supplementary examination is 50%.
- f. Special supplementary examinations are not arranged for students who are unable to write the examination for whatever reason, at the scheduled times.
- g. Supplementary examinations cover the same subject matter as was the case for the examinations.

Aegrotat/extraordinary examinations

(Also consult General Regulation G.12, par. 5.1 and 5.2)

- a. A student who is prevented from preparing for an examination, or from sitting for it, owing to unforeseen circumstances or illness, may be granted permission by the Dean to write an aegrotat/extraordinary examination in the particular module(s).
- b. An application to sit for an aegrotat/extraordinary examination, supported by applicable corroborative proof (for example an original medical certificate), must be submitted to the Student Administration office, not later than 3 (three) days after the module should have been written, provided that an application that could not be

submitted in time may also be submitted for consideration, provided that there is a valid reason.

- c. Once a student has sat for an examination, he or she may not afterwards apply for an aegrotat/extraordinary examination on the basis of unforeseen circumstances or illness.
- d. A student who has been granted permission to write an aegrotat/ extraordinary examination, and then fails to write the examination will not be allowed another opportunity to write any further examination in the specific module.
- e. A student who wrote an aegrotat/extraordinary examination does not qualify for a supplementary examination.

Special examinations

(See General Regulation G.12, par. 6.1)

- a. A student registered for the BCom or BAdmin degree programme and who complies with all the requirements for the degree, with the exception of a maximum of two 14-week modules, or the equivalent, may be admitted to a special examination in the module(s) concerned at the end of the following semester or earlier.
- b. A student only qualifies for a special examination if he/she were admitted to and sat for the prescribed examination in the final (preceding) examination period.
- c. If the special examination is conducted before 31 January, such a student must not register again for the module/s concerned and the examination is treated as a supplementary examination.
- d. If the special examination is conducted after 31 January, the student must register again for the module/s concerned and a semester mark, examination mark and final mark must be obtained in an appropriate manner. In such a case, the result of the examination will not be taken into consideration with a view to the graduation ceremonies in March/April.
- e. All the regulations applicable to a supplementary examination, also apply to a special examination (Reg G.12.4).

Application of old and new regulations and validity of modules

(See General Regulations G.3 and G.5)

Subject to transitional measures laid down by the Faculty, a student must complete his or her degree in accordance with the regulations that were applicable when he or she first registered for a specific field of study or specialisation. If a student interrupts his or her studies or changes a field of study or specialisation, the regulations applicable in the year in which studies are resumed, or the field of study is changed, apply.

A student who fails to renew their registration for a degree or a module within the five years of first registration for the degree will need to apply for re-registration as outlined in General Regulation G.3.2 and obtain written permission from all Heads of Departments confirming acceptance of validity of previously passed modules.

Recognition of modules

(See General Regulations G.8 and G.9)

Credit for modules passed at other institutions is restricted to first-year (100-level) modules, provided that the date of the student's National Senior Certificate with admission to degree studies becomes effective before 2 April of the academic year in which such a module was completed. A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty.

Postgraduate programmes:

1. General selection principles for postgraduate study

In the Faculty of Economic and Management Sciences, all postgraduate applicants are subject to a selection process which differs from department to department and will be published in the departmental brochures and on the departmental webpages.

Selection is based on the content of and performance in the prior degree, bridging arrangements (where required), academic merit, prior work experience and research ability (For more detail, please refer to the departmental postgraduate selection criteria on the departmental website).

The HOD in consultation with the departmental Postgraduate Selection Committee reserves the right to request students to write an admission examination or to prescribe additional admission requirements or additional modules when deemed necessary (For more detail, please refer to the departmental postgraduate selection criteria).

Admission for all qualifications is subject to supervisory capacity in the field of specialisation in the relevant department and the department has the right to limit the number of students per year. The maximum number of students to be admitted per year will be published on the departmental website.

Research proposals for master's and doctoral applicants should be in line with the research focus of the Department which is published on the departmental website.

Only applicants who comply with the requirements set out in this document will be considered for selection. However, the achievement of the requirements does not guarantee admission as only a limited number of students can be accommodated.

2. Consideration will be given for the diversity profile of students in accordance with the University strategy.

Incomplete applications and applications that are received after the closing date will not be considered for selection.

Any false information provided by a student in his/her application will result in the exclusion of the application.

Selected applicants must, within 30 days from receiving the letter of admission, return the acceptance form and pay the prescribed deposit. Applicants, who comply with the minimum requirements but are not selected, will be placed on a waiting list and will be considered for admission when space becomes available.

A dean may, on the recommendation of a particular Postgraduate Committee, cancel the registration of a student if the student fails to comply with the minimum requirements determined by the faculty board – on condition that a student may request that the dean reconsider the decision in terms of the set procedures. The general rule is that a student for a doctorate must complete his or her studies within three years, with a possible limited fixed extension, after first registering for the degree.

3. Renewal of registration

Students of the University are registered for one year of study, or for a shorter period determined in general or in specific cases by the Council. After a year or period of study has expired, students wishing to continue their studies at the University must renew their registration and pay such fees for renewal of registration as are prescribed by the Council from time to time.

Re-registration for an honours degree or a postgraduate diploma is permitted only if the student has passed at least the equivalent of four semester or two year modules in a particular year of study – on condition that faculty boards may stipulate other requirements for progress that students must comply with in order to be readmitted.

Subject to exceptions approved by the Dean, on the recommendation of the head of the department, a student may not sit for an examination for a postgraduate qualification more than twice in the same subject. This applies to both modules and the dissertation.

4. Recognition of modules passed at this university

If a student wishes to continue his/her study after an interruption, the Dean, on the recommendation of the head of the department may require either that such a student should repeat certain modules already passed or that supplementary work in these modules be undertaken with a view to the continuation of his/her studies.

Periods of attendance at and credits for modules which a student obtained at the University and which did not form part of the requirements for a degree already conferred on a student, may be accepted by the Dean in consultation with the head of the department concerned, for an honours degree, provided that the student complies with the stipulations in G.8.1 and G.9.4(a).

5. Degree with distinction

In order to be awarded a postgraduate degree/diploma with distinction, a student must meet the following criteria:

- Obtain a Grade Point Average of at least 75% including at least 75% for the research component in the case of an Honours degree; 75% in the mini-dissertation in the case of a coursework Master's degree or 75% for a full dissertation Master's degree.
- Complete the degree/diploma within the minimum period prescribed.
- Only the final mark of the first attempt to pass the modules or dissertation will be considered.
- The GPA will be not be rounded up to a whole number.

Exceptional cases will be considered by the Dean.

Undergraduate Degree

BAdmin Public Management Public Administration (07131174)

Minimum duration of study 3 years

Contact Prof LP Malan lianne.malan@up.ac.za +27 (0)124202063

Programme information

Formal selection takes place and work experience is required.

The option is directed towards the candidates already active within the field of public administration. Candidates from national, provincial and local spheres of government will obtain entry into the programme. Candidates will gain in-depth knowledge of the administrative and management functions, from a South African and comparative perspective. Emphasis is placed on the three spheres of government with reference to aspects such as public resources management, policy studies, public sector ethics, organisation studies and the role of the state.

Admission requirements

- National Senior Certificate with admission to degree studies /age exemption certificate
- Departmental Selection
- Three years' working experience

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

Specialisation modules: PAD 312, 322

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the

Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.

- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BAdmin Public Management and International Relations (07131175)

Minimum duration of study 3 years

Programme information

This programme is directed towards the study of Public Administration that will equip the candidate for a career in the broad public sector. Candidates will gain in-depth knowledge of certain administrative and management practices in the South African and international public sectors. Emphasis is placed on the three spheres of government with reference to aspects such as resources management, international administration and management, policy, accountability and ethics, the role of the state, intergovernmental relations and

administrative justice.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Minimum requirements

Achievement level

English Home Language or English First Additional Language

English Home Language or English First Additional Language		Mathematics		APS
NSC/IEB	AS Level	NSC/IEB Mathematics	AS Level	
5	C	3 or Mathematics Literacy 4	D	28

* Cambridge A level candidates who obtained at least a D in the required subjects, will be considered for admission. International Baccalaureate (IB) HL candidates who obtained at least a 4 in the required subjects, will be considered for admission.

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

Language (German, English, French, Arabic, Mandarin, Russian, Spanish)

Please note: Candidates who did not obtain at least 4 (50-59%) in Mathematics in Grade 12, or who did not pass Statistics 113, 123, may not include EKN 120, 214, 234, 310, 320 and STK 110, 120 in their curriculum. Refer also to faculty prerequisites for these modules.

Specialisation modules for this degree are PAD 312 and 322

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. BCom (07130222)

Minimum duration of study 3 years

Programme information

The programme is aimed at the training of students in the Economic and Management Sciences, but it does not lead to a specific vocational outcome. However, students are able to compile their own curricula with a view to work opportunities in all sectors.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

NSC/IEB	HIGCSE	AS-Level	A-Level	NSC/IEB	HIGCSE	AS-Level	A-Level	
5	3	C	C	4	3	D	D	30

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.

- h. It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- i. The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- j. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level except for the modules offered at 200- and 300-level only.

Please note:

- If BER 210 and BER 220 are chosen as core modules at 200-level, the elective modules will total 40 credits and the core modules 93 credits at 100-level.
- If WTW or WST is chosen as core modules, the credits will be higher.
- If FRK 211 and FRK 221 are chosen, INF 281 (3 additional credits) is compulsory.
- FRK 122 is a terminating module. If FRK 122 is selected, a candidate will not be able to continue with Financial Accounting at the 200- and 300- level. Also note that FRK 121 may be a prerequisite for a number of other modules (eg BEL 200) and it is the responsibility of the candidate to ensure that he/she makes the appropriate choice between FRK 121 and 122.
- FBS 212 and 222 are terminating modules. Candidates will not be able to continue with Financial management at 300-level.
- BER 210 and 220 may not be included in the same curriculum as KRG 110, 120.
- Mathematical statistics and Mathematics are not mutually exclusive and may be taken simultaneously. WTW 114, 126, 128, 211, 218 must be taken if WST will be taken up to 300-level.
- OBS 310 may not be included in the same curriculum as BDO 319, 329 for degree purposes.
- Informatics 281 (INF 281) (with 3 additional credits), is compulsory if Financial Accounting 211, 221 (FRK 211, 221) are chosen.

Please consult the alphabetical list of modules for prerequisites of all applicable modules.

Specialisation modules: Any prescribed modules at 300-level which is preceded by the appropriate modules at 200-level.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-

level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

Curriculum: Year 1

Minimum credits: 140

([STK 113,123](#) or [STK 110](#) & STK 120) and (WST 111 & WST 121) cannot be included in the same curriculum. Choose only one set.

Minimum duration of study 3 years

Contact Prof JGI Oberholster johan.oberholster@up.ac.za +27 (0)124203788

Programme information

This degree programme (that is only presented on a full-time basis) is the specialised bachelor's degree for candidates who are preparing for the relevant qualifying examinations of the South African Institute of Chartered Accountants (SAICA) and the Independent Regulatory Board for Auditors (IRBA). The programme BCom (Accounting Sciences), together with (the full-time) BComHons (Accounting Sciences) and the Certificate in the Theory of Accountancy (CTA) is accredited by the SAICA as part of its education requirements for the chartered accountant qualification.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a

candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

- Life Orientation is excluded when calculating the APS.

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

- The specialisation modules on first to third year for the degree BCom (Accounting Sciences), may only be taken by students who are selected for this degree.
- A student who failed FRK 100 must repeat FRK 100 and is not allowed to register for FRK 101. A student who failed FRK 101 may only repeat FRK 101 if his/her final mark for this module was below 35%. If his/her final mark for FRK 101 was 35% or higher, the student must register for FRK 100.
- Note:* If second-year modules clash with FRK 101 periods, students are advised not to register for those modules as class attendance for FRK 101 is compulsory.
- Students are strongly advised to take KOB 183 in the third quarter of their second year as prescribed only and

not in their first year. KOB 183 presupposes a basic knowledge of second year Accounting, Auditing, Financial management and Taxation and first-year students have not been exposed to all four these subjects.

Please note: See the alphabetical list of modules for the prerequisites for individual modules.

Specialisation modules: FRK 300, FBS 300, BEL 300 and ODT 300.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

A candidate who has

- a. passed the Grade 12 examination in Mathematics with at least 5 (60-69%) obtains admission to the module COS 110 in Computer Science; or has passed COS 153 or COS 131 or COS 132 and WTW 133, obtains admission to the module COS 110 in Computer Science;
- b. passed the Grade 12 examination in Mathematics with at least 4 (50-59%), will be admitted to WTW 134, WTW 115 and WTW 152 and with at least 5 (60-69%) to WTW 114, WTW 126, WTW 158 and WTW 161 in Mathematics, and to WST 111 in Mathematical statistics. (For the degree programme in Actuarial and Financial Mathematics, 80% in Mathematics is required.)
- c. obtained at least 5 (60-69%) in Mathematics in the Grade 12 examination, or at least 50% in both Statistics 113, 123 will be admitted to Statistics (STK 110 and STK 120);
- d. been admitted to the degree BCom (Accounting Sciences), will be admitted to Financial accounting 100 (FRK 100) ONLY on achieving a result in the compulsory accounting proficiency test written before lectures commence, that is acceptable. Candidates who did not take Grade 12 Accounting will be admitted to Financial accounting 101 (FRK 101) irrevocably. Accounting in Grade 12 is not a prerequisite for admission to any BCom degree programme;
- e. obtained at least 4 (50-59%) in Mathematics in the Grade 12 examination, or at least 60% in both Statistics 113 and 123 will be admitted to Informatics 112 and Economics 120, and at least 6 (70-79%) in Mathematics or 60% in both Statistics 113 and 123 will be admitted to EKN 113 and 123;
- f. obtained at least 5 (60-69%) in Mathematics or 4 (50-59%) in Mathematics, will be admitted to Informatics 154, 164 and 171.

Note: "Grade 12 examination" refers to the final National Senior Certificate (NSC) examination.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally - with the proviso that the

Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.

- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Agribusiness Management (07130092)

Minimum duration of study 3 years

Contact Prof JF Kirsten johann.kirsten@up.ac.za +27 (0)823723131

Programme information

The purpose of this degree programme is to train students in the field of Economics and Business management

as applied to the agricultural and agribusiness sector. The degree prepares students for management careers in agricultural sales and marketing, brokerage, market research, international market development, finance, public relations, food manufacturing and distribution, and agricultural-input industry.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note: See the alphabetical list of modules for the prerequisites for all modules.

FRK 122 is a terminating module. Candidates will not be able to continue with Financial accounting in the

second or third year.

Specialisation modules: LEK 310, 320, 410.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Business Management (07130065)

Minimum duration of study 3 years

Contact Prof AF Grobler anske.grobler@up.ac.za +27 (0)124202306

Programme information

This qualification is aimed at management knowledge and skills as it applies to the private enterprise as value-adding unit in a changing environment with the necessary competitiveness to survive. The study field is introduced and management decision-making skills acquired. How to establish an enterprise and how to coordinate the different areas in management also receive attention. Although this package is intended to serve as a foundation for further study, and for the corporate environment, it also enables graduates to establish their own enterprises and to manage it.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- ?Life Orientation is excluded when calculating the APS.

Minimum duration of study 3 years

Contact Prof R Inglesi-Lotz roula.inglesi-lotz@up.ac.za +27 (0)124204504

Programme information

The purpose of this qualification is to provide graduates with knowledge on the working of economics and economic policy in South Africa and the foundations of econometric models. After completing this programme, candidates will be able to do a prognosis, analysis and forecast of the South African economy.

This degree will provide the graduate with the necessary practical skills for using economic and econometric models that management or government can apply in policy. Candidates will be able to do basic statistical analyses of economic trends and to apply the necessary computer and communication skills.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

BCom Economics (07130052)

Minimum duration of study 3 years

Contact Prof R Inglesi-Lotz roula.inglesi-lotz@up.ac.za +27 (0)124204504

Programme information

The purpose of this qualification is to provide graduates with knowledge on the working of economics and economic policy in South Africa and the influence exerted on it by the global economy and general markets conditions, related to government policy and regulation. This programme will provide students with the

necessary theoretical and applied principles of the instruments and effects of economic policy, such as fiscal policy, monetary policy and labour policy. Graduates will be able to do a prognosis and analysis of the South African economy and therefore be able to advise management in the private as well as public sectors. Candidates will also be provided with the necessary statistic, computer and communication skills.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

FRK 122 is a terminating module. Candidates will not be able to continue with Financial accounting in the second or third year.

Specialisation modules: EKN 310, 320, 314, 325.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally - with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees

(including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.

- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Extended programme (07139923)

Minimum duration of study 4 years

Contact Dr BM Simelane bridgette.simelane@up.ac.za +27 (0)124203632

Programme information

The programme is aimed at the training of students in the Economic and Management Sciences who do not meet the prescribed admission requirements for a BCom degree.

This is the ideal starting point for students who are interested in studying towards BCom degrees in Management or Financial sciences. Students must apply during October of their first year to transfer to the Faculty of Economic and Management Sciences (Hatfield Campus). Placement in BCom (Accounting Sciences) and BCom (Investment Management) cannot be guaranteed as these are selection programmes where numbers are limited. All modules must be passed in the first year to transfer to any of the BCom programmes.

The first year is presented on the Mamelodi Campus.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement.
- Life Orientation is excluded when calculating the APS.
- This programme is only offered in English. The first year of study is presented on the Mamelodi Campus. Admission is subject to selection and capacity.

Minimum requirements							
Achievement level							APS

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

- Students who want to do a non-numerical BCom degree only do a first-semester course in WTW 133 (Precalculus), and will not be required to do WTW 143 in the second semester. Students who want to continue with a numerical BCom degree programme (eg Economics, Econometrics, Accounting Science, Informatics, Financial Sciences and Investment Management) need to have obtained a level 4 or higher in Grade 12 Mathematics and will need to register for WTW 133 and WTW 143.
- Students who want to do a non-numerical BCom degree programme register for STK 133 and STK 143. Students who want to transfer to a numerical BCom degree programme must obtain 70% or more for STK 133 and STK 143 in order to be considered.
- Only students who have obtained a level 4 in Grade 12 Mathematics can register for WST 133 and WST 143 and mostly follow a numerical BCom degree programme (eg Economics, Econometrics, Accounting Science, Informatics, Financial Sciences, Investment Management and Statistics).

Selection from the second academic year onwards, to be discussed with the Student Administration of the Faculty.

- AIM 111 and AIM 121 – as currently presented on the Hatfield Campus.
- STK 133 and STK 143 – equivalent to STK 110.

- STK 133 and STK 143 will give BCom students entrance to STK 120.
- WST 133 and WST 143 will be equivalent to STK 110
- WST 133 and WST 143 will give BCom students entrance to either WST 153 or STK 120
- Students must register for STK 120 in the first semester of the second year.
- FRK 133 and FRK 143 – equivalent to FRK 111.
- OBS 133 and OBS 143 – equivalent to OBS 114.
- Students wishing to do a numerical BCom degree are strongly advised to enrol for FRK 111 in the first semester of their second year.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.

- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Financial Sciences (07130206)

Minimum duration of study 3 years

Contact [Dr E Louw elmarie.louw@up.ac.za](mailto:elmarie.louw@up.ac.za) +27 (0)124204423

Programme information

The purpose of this qualification is to equip students with detailed comprehensive knowledge and specific skills in a number of fields in the Financial Sciences which can be applied in private as well as the public sector. It provides learners with vocational training which prepares them to write the qualifying examinations of a number of professional qualifications in the Financial Sciences.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note:

- Please refer to the individual modules for prerequisites.
- At 300-level, any three of the following must be taken as majors: Financial accounting (FRK), Financial management (FBS), Internal auditing (IOK) or Taxation (BEL).
- Financial management 210 and 220 are required to take Financial management as a major in the third year. Financial management as a major is a prerequisite to apply for admission to the BComHons (Financial Management Sciences) degree.

Specialisation modules: FBS 310, 320, FRK 311, 321, IOK 311, 321, BEL 300

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);

BCom Human Resource Management (07130144)

Minimum duration of study 3 years

Contact Prof C Olckers chantal.olckers@up.ac.za +27 (0)124203435

Programme information

The purpose of this package is to equip learners with the required knowledge and practical skills to effectively manage human resources in any organisation. These include: perception (study, research); evaluation (appraisal, measuring, selection, placing, problem identification); optimal utilisation and influencing (change, training, development, motivation, negotiation and management) of human behaviour in its interaction with the environment (physical, psychological, social, organisational) as it manifests itself in the world of work.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is

deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

BCom Informatics Information Systems (07130173)

Minimum duration of study 3 years

Programme information

Informatics studies the application and use of the computer and information systems within the organisation. Our students' strength lies in their broad background of the economic and management sciences, which implies that the world of business is nothing sinister to them. The use of information technology by organisations is growing exponentially and new, more complex and challenging applications are explored and developed on a daily basis. It has the benefit that, in addition to the work of informatics specialists being extremely interesting, there will only be a very small chance that they will ever be without work.

The Informatics specialist has the knowledge to analyse the information needs of organisations, be that businesses, government departments, non-profit organisations or any other group where information is crucial. They not only analyse the needs but then address those needs by designing and implementing information systems. Information systems nowadays refer to computer-based systems (including mobile applications) which store and manipulate data such that people can understand, use, interpret and make decisions based on the information.

The BCom (Informatics) programme at UP is the only degree in South Africa that is internationally accredited by the Accreditation Board for Engineering and Technology (ABET) of the USA.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

- Life Orientation is excluded when calculating the APS.

Minimum requirements

Other programme-specific information

Please note:

- Elective modules can only be taken if they can be accommodated in the class, test and examination timetables. At year-level two students select two 14-week modules or the equivalent (at least 32 credits) of the same subject and continue with this subject on year-level three by selecting two 14-week modules or the equivalent (at least 40 credits).
- INF 301 is a module that combines INF 315, INF 324, INF 354 and INF 370. Students register for all these modules, but receive a calculated percentage for INF 301. Please refer to table below:

Module outstanding	Register for	Module in which student has to attend class	Examination	
			Exam paper	Write with
INF 315	INF 315	INF 315 + INF 301	INF 315	INF 315
INF 324	INF 324	INF 324 + INF 301	INF 324	INF 324
INF 354	INF 354	INF 354 + INF 301	INF 354	INF 354
INF 370	INF 370	INF 370 + INF 301	INF 370	INF 370

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally - with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- A degree may be awarded with distinction provided the candidate meets the following criteria:

- i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
 - c. The GPA will be not be rounded up to a whole number.
 - d. Exceptional cases will be considered by the Dean.

BCom Investment Management (07130205)

Minimum duration of study 3 years

Contact Ms MD Mabalane moira.mabalane@up.ac.za +27 (0)124203111

Programme information

The purpose of this degree programme is to expose students, specialising in Investment management, to the theoretical principles and practical application of investment decision-making at a high level. A multidisciplinary approach is followed and financial, economic and statistical principles are incorporated with the aim of improving the investment decision-making process. This well-structured degree has an analytic and scientific basis and is aimed at enabling students to cope with the demands of a rapidly changing local and international investment environment.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.
- A module passed may not be taken into account for more than one degree or field of specialisation.
- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she

intends taking can be accommodated in the class, test and examination timetables.

- i. The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- j. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

- To continue with BLB 200, a student must pass Financial accounting 111, 121, Statistics 110, 120 and Economics 110, 120.

Specialisation modules: BLB 300.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Law (07130152)

Minimum duration of study 3 years

Contact Prof H Coetzee hermie.coetzee@up.ac.za +27 (0)124204375

Programme information

The purpose of this package in law is to provide broad formative education but it does not lead to any specific career outcomes. The student is, however, enabled to continue with the LLB degree (which is career-specific) or a BComHons. The skills acquired may be applied in either the private or public sectors.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of

such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

- Life Orientation is excluded when calculating the APS.

- It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level except for the modules offered at 200- and 300-level only.

Credits will increase if Financial accounting is chosen as a major.

Advisory note: BCom (Law)-students whose aim it is to obtain an LLB degree, must note that one of the requirements for the LLB degree is a language module from the Faculty of Humanities to the value of 12 credits from the following list: AFR 110, AFR 120, AFR 114, ENG 118, ENG 110, ENG 120.

It is advisable for BCom (Law) students to combine Business management with Economics as a major, Financial accounting with Financial management or alternatively Financial accounting with Taxation.

Note: See the alphabetical list of modules for prerequisites of all modules

- FRK 122 is a terminating module. If FRK 122 is selected, a candidate will not be able to continue with Accounting at the 200- and 300-level. Also note that FRK 121 may be a prerequisite for a number of other modules (eg FBS 210 and 220) and it is the responsibility of the candidate to ensure that he/she makes the appropriate choice between FRK 121 and 122.
- BCom Law students will only be allowed to take Financial management 210, 220, 310 and 320 (FBS 210, 220, 310 and 320) if Financial accounting is also taken at 200- and 300-level.
- OBS 124 must be taken as an extra module if OBS is taken at 300-level.
- Informatics 281 (extra 3 credits) is compulsory if Financial accounting 311, 321 (FRK 311, 321) are chosen.
- Recommended that students taking If Taxation is taken at 300-level FRK 211 and FRK 221.

Please note: Students whose aim is to obtain the LLB degree after completion of the BCom in Law degree, is advised to contact the Student Administration of the Faculty of Law for advice on which additional modules may be taken whilst doing their undergraduate study. Please note, however, that permission must be obtained from the Dean of the Faculty of Economic and Management Sciences for extra modules to be taken.

BCom (Law) students who wish to register for additional law modules do so in terms of the Faculty of Law yearbook of the academic year in which they registered for the first time.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally - with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.

- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
- Completes the degree within three years;
 - Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

- Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
- Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

BCom Marketing Management (07130162)

Minimum duration of study 3 years

Contact Dr G van Heerden u02514486@tuks.co.za +27 (0)124204440

Programme information

This field of specialisation has as its aim the provision of a theoretical foundation of marketing principles complemented by practical projects. The student will be able to combine practice with theory through integration and application.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

Minimum Requirements								
Achievement level								APS
English				Mathematics				
NSC/IEB	HIGCSE	AS-Level	A-Level	NSC/IEB	HIGCSE	AS-Level	A-Level	
5	3	C	C	4	3	D	D	30

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides

otherwise.

- c. A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- d. A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- e. A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- f. A module already passed may only be repeated with the approval of the Dean.
- g. A module passed may not be taken into account for more than one degree or field of specialisation.
- h. It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- i. The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- j. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

- FRK 122 is a terminating module. Candidates will not be able to continue with Financial accounting in the second or third year.
- FBS 212 and 222 are terminating modules. Candidates will not be able to continue with Financial management at 300 level.
- BEM 256, BEM 356 and BEM 315 are presented in English only to BCom (Marketing Management) students exclusively.

Specialisation modules: BEM 314, 315, 321 and OBS 320.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the

requirements of the applicable regulations.

BCom Statistics (07130262)

Minimum duration of study 3 years

Contact Mr A Swanepoel andre.swanepoel@up.ac.za +27 (0)124203559

Programme information

Statistics is an independent discipline with interdisciplinary applications. The aim of this qualification is to prepare the candidates in totality with methods that can be applied for the gathering and interpretation of data and empirical information. Statistics lay the foundation for scientific accountable conclusions, planning and estimation. Candidates are at the same time equipped with the necessary computer and communication skills. Statistics is commissioned by all disciplines where it can contribute towards scientific and technological progress.

Admission requirements

The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.

Life Orientation is excluded when calculating the APS.

Minimum requirements								APS

Additional requirements

- General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- A module already passed may only be repeated with the approval of the Dean.

- g. A module passed may not be taken into account for more than one degree or field of specialisation.
- h. It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- i. The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- j. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

- Total credits refer to minimum as required by the programme, but can be more, depending on the elective modules.
- Alternative credits as indicated in brackets are based on choosing WST as a specialisation module instead of STK, while all elective modules are selected within the Faculty of Economic and Management Sciences.
- Only two 14-week modules on the 300-level, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level apart from the modules offered only at 200- and 300-level.
- The number of elective modules is influenced by the inclusion of modules from other faculties and their respective credit values.

With regard to choosing elective modules:

For example: Students in Mathematical statistics who also want to be trained for the insurance industry, select, among others, the following modules as part of their core and elective modules:

WST	Mathematical statistics (1)	111, 121	211, 221	311, 321 312, 322
WTW	Mathematics (1)	114, 126(4) 128(4)	211, 220 218, 221	
COS	Computer science	132(6), 110		
FBS	Financial management	132(6), 110		
EKN	Economics	112, 122		
IAS	Actuarial mathematics		211, 282	382

For example: Students in Mathematical statistics who also want to be trained in the Econometrics field select, among others, the following modules as part of their core and elective modules:

WST	Mathematical statistics (1)	111, 121	211, 221	311, 321 312, 322
WTW	Mathematics (1)	114, 124(3)	211, 220 218, 221	
COS	Computer science	132(6), 110		
EKN	Economics		214, 234	310, 320 314, 325

Other students may select among others, modules from any other subject/faculty according to their own specific career requirements as part of their core and elective modules:

Note: Please refer to the individual modules for prerequisites.

At least one of the two elective modules in which a candidate graduate must be selected from the available modules within the Economics and Management Sciences Faculty.

FRK 122 is a terminating module. Candidates will not be able to continue with Financial accounting in the second

or third year.

1. If WST modules are selected, notice must be taken of the relevant WTW prerequisites as stipulated in the yearbook.
2. Informatics 281 is compulsory if Financial accounting 211 and 221 (FRK 211, 221) are chosen.
3. WTW 124 is the equivalent of seven-week modules, with the exception of WTW 114 which is presented over a period of 14 weeks.
4. Students who register for Agricultural economics at 200 and 300 level as electives will have to pass extra modules to make up the credits.
5. It is recommended that COS 132 be taken as an elective by all students in this programme.

Specialisation modules: STK 310, 320 or WST 311, 312, 321, 322.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;

- ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
 - c. The GPA will be not be rounded up to a whole number.
 - d. Exceptional cases will be considered by the Dean.

Core modules

- Statistics 310 (STK 310) - Credits: 25.00
- Statistics 320 (STK 320) - Credits: 25.00
- The science of data analytics 353 (STK 353) - Credits: 25.00
- Multivariate analysis 311 (WST 311) - Credits: 18.00
- Stochastic processes 312 (WST 312) - Credits: 18.00
- Time-series analysis 321 (WST 321) - Credits: 18.00
- Actuarial statistics 322 (WST 322) - Credits: 18.00

Elective modules

- Economics 310 (EKN 310) - Credits: 20.00
- Economics 314 (EKN 314) - Credits: 20.00
- Economics 320 (EKN 320) - Credits: 20.00
- Economics 325 (EKN 325) - Credits: 20.00
- Financial accounting 311 (FRK 311) - Credits: 20.00
- Financial accounting 321 (FRK 321) - Credits: 20.00
- Actuarial modelling 382 (IAS 382) - Credits: 20.00
- Agricultural economics 310 (LEK 310) - Credits: 12.00
- Agricultural economics 320 (LEK 320) - Credits: 16.00
- Analysis 310 (WTW 310) - Credits: 18.00
- Financial engineering 354 (WTW 354) - Credits: 18.00
- Dynamical systems 382 (WTW 382) - Credits: 18.00
- Numerical analysis 383 (WTW 383) - Credits: 18.00

BCom Supply Chain Management (07130067)

Minimum duration of study 3 years

Contact Mr W Niemann wesley.niemann@up.ac.za +27 (0)124204635

Programme information

The purpose of this option is to equip learners of Supply chain management with the ability to participate in functional management within an integrated supply chain. This includes the disciplines of supply management, production and operations management, warehousing, transport management and supply chain strategy.

Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Life Orientation is excluded when calculating the APS.

NSC/IEB	HIGCSE	AS-Level	A-Level	NSC/IEB	HIGCSE	AS-Level	A-Level	
5	3	C	C	4	3	D	D	30

Additional requirements

- a. General Regulations G.1 to G.15 (with the exception of Regulation G.11.2(c)) apply to a bachelor's degree.
- b. A student may not take more than the prescribed number of modules per semester unless the Dean decides otherwise.
- c. A student may take a module not listed as an elective module only if the prior approval of the Dean has been obtained.
- d. A student who is in possession of a bachelor's degree may not present any modules passed for that degree for another field of specialisation or degree in this Faculty. (See General Regulations G.8 and G.9)
- e. A module passed at 300-level shall only be recognised for degree purposes if the corresponding prescribed module(s) at 200-level has/have been passed, unless the Dean decides otherwise, with the proviso that the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320) and International business management 359 and 369 (OBS 359 and 369); only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.
- f. A module already passed may only be repeated with the approval of the Dean.
- g. A module passed may not be taken into account for more than one degree or field of specialisation.
- h. It remains the student's responsibility to ascertain, prior to registration, whether all the modules he/she intends taking can be accommodated in the class, test and examination timetables.
- i. The Faculty of Economic and Management Sciences supports an outcomes-based education system and places a high premium on the development of specific academic competences. Class attendance in all modules and for the full duration of all programmes is therefore compulsory for all students.
- j. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty Regulations.

Other programme-specific information

Note: See the alphabetical list of modules for prerequisites of all modules.

FRK 122 is a terminating module. Candidates will not be able to continue with Financial accounting in the second or third year.

FBS 212 and 222 are terminating modules. Candidates will not be able to continue with Financial management at 300-level.

Specialisation modules: OBS 316 and 326.

"Major subject"

To be considered a "major subject" the equivalent of four 14-week modules, including two at 300-level, must be passed provided that:

- the following modules which are offered at 300-level only, are also considered "major subjects": Labour law 311 (ABR 311), Labour relations 320 (ABV 320), and International business management 359 and 369 (OBS 359 and 369);
- only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only.

Promotion to next study year

According to General Regulation G.3 students have to comply with certain requirements as set by the Faculty Board.

- a. A student must pass at least 4 core semester or 2 core year modules to be admitted to the subsequent year of study.
- b. If a student has passed less than the required minimum of 4 core semester or 2 core year modules, he/she will not be readmitted to the Faculty of Economic and Management Sciences. Such a student may apply in writing to the Faculty's Admissions Committee to be readmitted conditionally – with the proviso that the Admissions Committee may set further conditions with regards to the student's academic progress. The Faculty's Admissions Committee may deny a student's application for readmission.
- c. If a student has been readmitted conditionally, his/her academic progress will be monitored after the first semester examinations to determine whether he/she has complied with the requirements set by the Admissions Committee. If not, his/her studies will be suspended.
- d. A student whose studies have been suspended because of his/her poor academic performance has the right to appeal against the decision of the Faculty's Admissions Committee.
- e. A student may be refused promotion to a subsequent year of study if the prescribed tuition fees are not paid.
- f. A student may be refused admission to the examination, or promotion to a subsequent year of study or promotion in a module (if applicable) if he/ she fails to fulfil the attendance requirements. Class attendance in all modules and for the full duration of all programmes is compulsory for all students.

Pass with distinction

- a. A degree may be awarded with distinction provided the candidate meets the following criteria:
 - i. Completes the degree within three years;
 - ii. Obtains a Cumulative Grade Point Average (CGPA) of 75%;
 - iii. Repeated passed modules will not be considered. The initial pass mark of module will be used when calculating the GPA.
- b. Transferees from other faculties and from other universities who still complete their bachelor degrees (including credits transferred and recognised from the degrees they registered for originally) within three years will be considered as exceptional cases by the Dean.
- c. The GPA will be not be rounded up to a whole number.
- d. Exceptional cases will be considered by the Dean.

General information

Minimum requirements for bachelor's degrees; semester and year modules; new regulations

1. Students who commenced their studies before 2015 must complete the programme in terms of the curriculum of the year in which they commenced their studies, or in terms of the curriculum of the year in which they switched to their current field of specialisation. Students who prefer to do so may, however, apply to change over to the latest curriculum, but then they should comply with all the requirements thereof and they may not revert to the regulations of an earlier year.
2. Students who are registering for a degree programme for the first time in 2015 must take the modules indicated under the particular field of specialisation.

Please note: Only two 14-week modules, or the equivalent thereof, that are not preceded by the 100- and 200-

level modules, may be taken for degree purposes. In other words, at least four 14-week modules must be taken at 300-level that are preceded by the 100- and 200-level, except for modules offered on 200- and 300-level only. It is thus the responsibility of students to ensure before registration, that their curricula comply with all the requirements of the applicable regulations.

Postgrad Diploma/Certificate

Certificate Theory of Accountancy (07210011)

Minimum duration of study 1 year

Programme information

Candidates will be awarded the Certificate in the Theory of Accountancy if all four honours modules are passed at this University during the same examination session. For this purpose “the same examination session” includes the supplementary session immediately following the examination session, but excludes any subsequent special examinations.

Admission requirements

Only selected candidates will be allowed to register for the Certificate in the Theory of Accountancy.

Examinations and pass requirements

The Certificate in the Theory of Accountancy will only be issued to postgraduate candidates who have passed the following modules for the specialisation in Accounting Sciences at the University of Pretoria (or equivalent modules accepted by the programme manager of the CA Programme):

1. Financial accounting 100 or 101, 201, 300, 700
2. Auditing 200, 300, 700
3. Financial management 200, 300, 700
4. Taxation 200, 300, 700
5. Informatics 112, 181/281 and 264
6. Commercial law 110, 120, 200
7. Statistics 110, 120
8. Business management 155/114
9. Economics 110, 120
10. Professional ethics 210
11. Communication management 183
12. Industrial and organisational psychology 181
13. Marketing management 162

The Certificate is also issued to other postgraduate candidates who have passed similar undergraduate modules at the University of Pretoria or elsewhere, as required by the programme manager of the CA programme, as well as Financial accounting 700, Auditing 700, Financial management 700 and Taxation 700.

Curriculum: Final year

Minimum credits: 40

Core modules

Applied accountancy 701 (RMP 701) - Credits: 40.00

PGDip Accounting Sciences (07220036)

Minimum duration of study 1 year

Contact Prof JGI Oberholster johan.oberholster@up.ac.za +27 (0)124203788

Programme information

This full-time diploma is the specialised qualification for candidates who are preparing for the relevant qualifying examinations of the South African Institute of Chartered Accountants and the Independent Regulatory Board for Auditors. Entrance requirements for the various modules are detailed in the departmental brochure.

Admission requirements

For UP graduates:

- BCom (Accounting Sciences) or equivalent SAICA-accredited degree with an average of 57% for Auditing, Financial Accounting, Financial Management and Taxation on 3rd year level, and
- At least 53% for Auditing Financial Accounting Financial Management and Taxation on 3rd year level.
- The above to be passed in the year immediately preceding the postgraduate diploma year.

Other criteria apply to applicants from other SAICA-accredited universities, and only top students from other universities will be considered for the postgraduate diploma.

Please note that the Department of Accounting reserves the right to limit the number of students admitted to the Postgraduate Diploma and CTA programmes, taking cognisance of available capacity in respect of teaching infrastructure and human resources.

Only selected candidates will be allowed to register for the Postgraduate Diploma (Accounting Sciences).

1. Registration for a second field of study: With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree or postgraduate diploma at this or another university, may, with the permission of the Dean, register for another degree or postgraduate diploma, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree or postgraduate diploma and the second degree or postgraduate diploma. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

Additional requirements

Please note that the Department of Accounting reserves the right to limit the number of students admitted to the Hons and CTA programmes, taking cognisance of available capacity in respect of teaching infrastructure and human resources.

Only selected candidates will be allowed to register for the PG Dip.

1. Registration for a second field of study

With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

- a. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.
- b. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the PGDip examinations in his/her department will take place, provided that:
 1. PGDip examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 2. PGDip examinations which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations;
- NB: For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department.

NB: Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which is available from the head of department concerned.

Curriculum: Final year

Minimum credits: 160

Core modules

Taxation 705 (BEL 705) - Credits: 40.00

Financial management 705 (FBS 705) - Credits: 40.00

Financial accounting 705 (FRK 705) - Credits: 40.00

Auditing 705 (ODT 705) - Credits: 40.00

PGDip Communication Management (07220038)

Minimum duration of study 1 year

Admission requirements

- A relevant B degree or equivalent qualification.
- The Coordinator of the Division may set additional requirements for admission.

Program outline

The content of each module will consist of formal lectures, assignments and an examination. The examination for all modules will contribute 50% towards the final mark of a module. Students must pass all the modules. The corporate communication report module will consist of a minimum of two (2) reports.

A student will not be allowed to register more than twice for the same module.

There are no supplementary examinations for any of the modules.

Examinations and pass requirements

- All the required reports must be submitted for the report module. A student will need an average of 50% for each report to pass the module.
- An average of 50% is required in each of the examinations.
- A maximum of two (2) years will be allowed for the completion of the diploma.
- In order to obtain the diploma with distinction an average of 75% must be obtained in each of the modules individually.

Curriculum: Final year

Minimum credits: 120

Core modules

Local, regional and international issues in communication management 780 (IKO 780) - Credits: 40.00

The corporate communication report 700 (KOB 700) - Credits: 40.00

Corporate communication 781 (KPK 781) - Credits: 40.00

PGDip Digital Innovation (07220031)

Minimum duration of study 1 year

Contact Prof MC Matthee machdel.matthee@up.ac.za +27 (0)124203365

Programme information

The duration of the programme is 12 months. The programme is presented by means of contact sessions and online delivery.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Subject to the provisions of the General Regulations, the following is required for admission:
 - A relevant bachelor's degree and/or appropriate prior learning approved by the Head of the Department of Informatics;
 - Basic computer literacy is a requirement;
 - Access to the Internet;

- At least 60% average for the modules of the final year of the bachelor's degree.
- ii. The candidates are selected, subject to the provisions of General Regulation G.1.3.
- iii. The Head of Department may set additional admission requirements. Only selected candidates will be allowed to register for the Postgraduate Diploma – Digital Innovations. The Faculty of Economic and Management Sciences reserves the right not to present the programme during a specific period or to limit the number of candidates admitted.

Additional requirements

1. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or Faculty Regulations.
2. Only selected candidates will be allowed to register for a Postgraduate Diploma.
3. The Department concerned reserves the right not to present a programme during a specific period or to limit the number of candidates admitted.
4. The presentation of the programme is subject to the admission of a minimum number of candidates.

Examinations and pass requirements

An examination is written in each of the modules and a minimum of 50% should be obtained in each of the modules to pass.

There are no supplementary examinations in this programme.

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the examinations for the Postgraduate Diploma in his/her department will take place, provided that:
 - i. examinations for the Postgraduate Diploma which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. examinations for the Postgraduate Diploma which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations; **NB:** For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department. **NB:** Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which are available from the head of department concerned.

Pass with distinction

The Postgraduate Diploma is conferred with distinction if an average of at least 75% for all the modules is obtained.

Curriculum: Final year

PGDip Entrepreneurship (07220033)

Minimum duration of study 1 year

Contact Prof JJ Janse van Vuuren jurie.vanvuuren@up.ac.za +27 (0)124203401

Programme information

The duration of the programme is 12 months. The programme is presented by means of contact sessions. During each semester, there will be six contact sessions of two days each. Attendance of these contact sessions is compulsory.

Admission requirements

A relevant bachelor's degree and/or appropriate prior learning.

Additional requirements

The Head of Department may recognise modules completed in respect of an uncompleted MPhil degree in Entrepreneurship in partial or full fulfilment of this Postgraduate Diploma.

1. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or Faculty Regulations.
2. Only selected candidates will be allowed to register for a Postgraduate Diploma.
3. The Department concerned reserves the right not to present a programme during a specific period or to limit the number of candidates admitted.
4. The presentation of the programme is subject to the admission of a minimum number of candidates.

Examinations and pass requirements

A semester mark of 40% is required to write examination. The semester mark will be made up of assignments, written tests and a research colloquium mark.

Candidates are finally evaluated during the periods of May to June and October to November for the first and second semesters respectively. The examinations will take the form of written evaluations.

An examination paper is written in each of the six modules and a minimum of 50% should be obtained in each of

the six modules. A subminimum of 40% in each module is required.

There are no supplementary examinations in this programme.

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the examinations for the Postgraduate Diploma in his/her department will take place, provided that:
 - i. examinations for the Postgraduate Diploma which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. examinations for the Postgraduate Diploma which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations; **NB:** For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department. **NB:** Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which are available from the head of department concerned.

 - ii. examinations for the Postgraduate Diploma which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations; **NB:** For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department. **NB:** Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which are available from the head of department concerned.

Curriculum: Final year

Minimum credits: 120

Core modules

Contemporary management and leadership 700 (OBS 700) - Credits: 20.00

Integrated reporting: Assurance 701 (OBS 701) - Credits: 20.00

Integrated reporting: Frameworks 702 (OBS 702) - Credits: 40.00

Strategic management 700 (SBE 700) - Credits: 20.00

Strategic communication management 700 (SKO 700) - Credits: 20.00

PGDip Investigative and Forensic Accounting (07220035)

Minimum duration of study 1 year

Contact Mrs L van Tonder lynne.vantonder@up.ac.za +27 (0)124203407

Programme information

The duration of the programme is 12 months. The programme is presented by means of the Web and contact sessions. Each contact session will be 5 (five) days and will deal with each of the respective modules.

A number of credit bearing short courses on are offered by the Unit for Forensic Accounting within the Department of Auditing which hold articulation possibilities towards the postgraduate programmes offered by the Unit.

Admission requirements

Subject to the university's admission requirements, applicants must be in possession of a BCom degree with Accounting or Auditing at 300-level or a Bachelor's degree in Law. Other relevant Bachelor's degrees may be considered subject to the applicant's work experience and the approval of the Postgraduate Committee of the Department of Auditing.

Additional requirements

1. The Dean has the right of authorisation regarding matters not provided for in the General Regulations or Faculty Regulations.
2. Only selected candidates will be allowed to register for a Postgraduate Diploma.
3. The Department concerned reserves the right not to present a programme during a specific period or to limit the number of candidates admitted.
4. The presentation of the programme is subject to the admission of a minimum number of candidates.

Other programme-specific information

Credits from short courses. (For credit-bearing short courses completed at Enterprises University of Pretoria)

A maximum of 50% of the course content of the Postgraduate Diploma in Investigative and Forensic Accounting could be substituted by equivalent credit bearing short courses. This means that a short course delegate can utilise up to three credit-bearing short courses to substitute modules in the Postgraduate Diploma in Investigative and Forensic Accounting. The rest of the programme, (in other words the other three modules), must be taken as formal modules in the Postgraduate Diploma in Investigative and Forensic Accounting.

Successful completion of these short courses, therefore entail that a student - who would otherwise qualify and be selected for the Postgraduate Diploma in Investigative and Forensic Accounting programme receives 20 credits in respect of each equivalent module offered in the said Postgraduate Diploma in Investigative and Forensic Accounting.

The said initiative is geared towards delegates who already have a University degree and who successfully complete the relevant short courses and additional assessments.

The following short courses presented or to be presented at Enterprises University of Pretoria, as set out in Column A of the following schedule, may bear credit in respect of the corresponding module set out in Column B:

Column A

Short course (Enterprises University of Pretoria)

Economic Crime Schemes
Fraud Risk Management
Investigation of Financial Crime
Law for Commercial Forensic Practitioners
Money Laundering Detection and Investigation
Investigation of Civil Disputes
Investigation and Management of Cyber and Electronic Crime
Interviewing Skills for Fraud Examiners and Auditors

Prevention and Detection of Corruption and Procurement Fraud

Basic Financial Investigation

Column B

Module (Postgraduate Diploma)

FRA 701 Economic Crime Schemes
FRA 702 Fraud Risk Management
FRA 703 Investigation of Financial Crime
FRA 704 Law for Commercial Forensic Practitioners
FRA 705 Money Laundering Detection and Investigation
FRA 706 Investigation of Civil Disputes
FRA 707 Investigation and Management of Cyber and Electronic Crime
FRA 708 Interviewing Skills for Fraud Examiners and Auditors
FRA 709 Prevention and Detection of Corruption and Procurement Fraud
FRA 710 Basic Financial Investigation

Students may transfer credits towards three selected modules of the Postgraduate Diploma in Investigative and Forensic Accounting, if they comply with the following prerequisites:

- Meet the admission requirements of the Postgraduate Diploma in Investigative and Forensic Accounting programme.
- Completed a research report and passed an examination in the specific module.
- Completed the equivalent credit-bearing short course within three (3) years of registration for the Postgraduate Diploma in Investigative and Forensic Accounting.

Please note: For more information concerning the Postgraduate Diploma in Investigative and Forensic Accounting, please consult the departmental brochure available on request from Mrs Lynne van Tonder, tel: 012 420 3407, lynne.vantonder@up.ac.za.

Candidates who do not have an honours degree in the Financial Management Sciences, or an LLB degree, but who successfully complete this programme, will be considered for admission to the MPhil in Accounting Sciences with an option in Fraud Risk Management. Such applicants must, however, meet the other criteria for admission to the MPhil degree programme.

Examinations and pass requirements

- A total of six assignments (one in each of the three compulsory modules and one in each of the three elective modules) are submitted during the duration of the programme. The assignment will contribute 40% of the final mark for each module.
- Six examinations (in each of the three compulsory modules and in each of the three elective modules) are written. The examination will contribute 60% of the final mark for the module. A subminimum of 40% must be obtained in each examination. A minimum of 50% should be obtained in each of the six modules to pass.

iii. Students must complete all modules within two (2) years of the date of registration for the said Postgraduate Diploma.

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the examinations for the Postgraduate Diploma in his/her department will take place, provided that:
 - i. examinations for the Postgraduate Diploma which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. examinations for the Postgraduate Diploma which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations; **NB:** For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department. **NB:** Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which are available from the head of department concerned.

PGDip Tourism Management (07220039)

Minimum duration of study 1 year

Programme information

The Dean has the right of authorisation regarding matters not provided for in the General or the Faculty regulations.

Examinations and pass requirements

- i. Students must achieve at least 50% for all the required modules.
- ii. A maximum of two (2) years will be allowed for the completion of the diploma.
- iii. In order to obtain the diploma with distinction an average of 75% must be obtained in each of the modules individually.

The content of each coursework module will consist of formal lectures, assignments and an examination. The examination may take the form of a written examination or a written assignment and oral examination. The research methodology module will culminate in a research proposal.

A student will not be allowed to register more than twice for the same module.

There are no supplementary examinations for any of the modules.

Honours

BAdminHons Public Administration and Management (07241113)

Minimum duration of study 1 year

Contact Dr NT Nhede norman.nhede@up.ac.za +27 (0)12420814140

Admission requirements

A relevant Bachelor's degree with Public Administration on 1st, 2nd and 3rd year level passed with an average of at least 65%.

Additional requirements

1. Registration for a second field of study

With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

- a. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.
- b. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the honours examinations in his/her department will take place, provided that:
 - i. honours examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. honours examinations which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations;

- NB: For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department.

NB: Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which is available from the head of department concerned.

- 3rd year Economics or equivalent

Please note that Capacity Limitations apply.

1. Registration for a second field of study With reference to General Regulation G.6, a student who has already

completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

2.1. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.

2.2. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Additional requirements

1. Registration for a second field of study

With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

- a. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.
- b. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Other programme-specific information

- Please consult the individual modules for applicable prerequisites.
- All prescribed modules are compulsory; no elective module may be substituted for a compulsory module.
- A minimum of at least 120 credits must be obtained, 90 from compulsory modules and 30 from the research component.
- The Econometrics programme is a one year programme, and, therefore, students cannot fail any modules. Failure of any module will lead to expulsion from the programme.

All honours candidates are required to attend the department's orientation and welcome programme, which orientates candidates with respect to the requirements and demands of the postgraduate programme, and deals with critical administrative and academic requirements necessary to succeed in the postgraduate programme.

The Department of Economics is serious about the need to develop students from previously disadvantaged

backgrounds, and accepts that it has a responsibility to provide its own students with a seamless educational experience.

Capacity limitations

- The supervision of postgraduate students is a time-consuming process, and, therefore, the Department reserves the right to limit entry into programmes.
- Please consult the department for the most recent information on enrolment expectations.
- All reasonable measures will be taken to ensure that those students who meet the minimum requirements, are enrolled.
- In the event that departmental capacity cannot accommodate the number of students who meet the minimum requirements, the students will be ranked according to the above averages, and only the top performing students will be admitted to the programme, in accordance with the number of students that the departmental teaching capacity and supervision can accommodate.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the honours examinations in his/her department will take place, provided that:
 - i. honours examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. honours examinations which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations;
- NB: For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department.

NB: Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which is available from the head of department concerned.

General information

All honours candidates are required to attend the department's orientation and welcome programme, which orientates candidates with respect to the requirements and demands of the postgraduate programme, and deals with critical administrative and academic requirements necessary to succeed in the postgraduate programme.

BComHons Informatics (07240173)

Minimum duration of study 1 year

Admission requirements

Relevant BCom degree with 60% for Informatics on 3rd year level or equivalent IT courses.

Preparatory work for the honours degree, as determined by each Head of Department, with an assessment thereof, is compulsory for all candidates. Candidates can be exempted from this requirement if they pass an exemption assessment as determined by the head of the department concerned.

A candidate may be refused admission to an honours degree by the Head of Department if he or she does not comply with the level of competence required in the subject as determined by the department – with the proviso

that a candidate, who fails to comply with the level of competence required, may be admitted if additional study assignments, as agreed upon, are completed and/or examinations are written.

A candidate, who is refused admission to an honours degree, may request that the Dean reconsiders his or her application for admission in terms of the set procedures.

Other programme-specific information

NB: The department reserves the right not to present a module if the particular expertise is not available in the department in that year.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

BComHons Marketing Management (07240162)

Minimum duration of study 1 year

Contact Dr G van Heerden u02514486@tuks.co.za +27 (0)124204440

Programme information

The department can only accommodate 60 students in the honours programme.

The degree programme can be completed within one year, but must be completed within two years. Lectures are presented in English during week evenings. Full particulars of the degree programme are contained in a brochure which is available on the departmental website.

Admission requirements

Relevant BCom degree with at least 65% for Marketing modules on 3rd year level (excluding BEM 356 and BEM 315).

1. Registration for a second field of study With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

2.1. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.

2.2. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the honours examinations in his/her department will take place, provided that:
 - i. honours examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. honours examinations which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year

module;

- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations;
- NB: For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department.

NB: Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which is available from the head of department concerned.

Curriculum: Final year

Minimum credits: 125

Core modules

Marketing in practice 783 (BEM 783) - Credits: 20.00

Research report: Marketing management 795 (BEM 795) - Credits: 30.00

Marketing of services 780 (BVD 780) - Credits: 25.00

Research methodology 703 (NME 703) - Credits: 25.00

Strategic marketing management 781 (SBB 781) - Credits: 25.00

BComHons Mathematical Statistics (07240244)

Minimum duration of study 1 year

Contact Prof IN Fabris-Rotelli inger.fabris-rotelli@up.ac.za +27 (0)124205420

Admission requirements

- Relevant BCom degree with with an average of at least 65% in Mathematical Statistics or equivalent on 3rd year level.
- Student numbers are limited to a maximum of 40 collectively over all honours programmes in the Department of Statistics.
- Historical performance during prior studies will also be considered in selecting students. Specific attention will be given to modules repeated and duration of study.
- The progress of all honours candidates is monitored biannually by the postgraduate coordinator/head of department. A candidate's study may be terminated if the progress is unsatisfactory or if the candidate is unable to finish his/her studies during the prescribed period.

1. Registration for a second field of study

With reference to General Regulation G.6, a student who has already completed a bachelor of honours degree at this or another university, may, with the permission of the Dean, register for another degree, subject to the regulations applicable to the field of study in question and to any other stipulations the Dean may prescribe on the condition that there shall be no overlap in the course content of the first degree and the second degree. Such a concession may be withdrawn by the Dean/Deans if the student does not perform satisfactorily.

2. Acknowledgement of modules

2.1. Subject to the stipulations of G.22.1, G.23.2 and the Joint Statute, a Dean may acknowledge modules passed at another tertiary institution or at this University in a department other than that in which the honours study is undertaken for the honours degree – provided that at least half of the required modules for the degree in question are attended and passed at this university.

2.2. If there is overlap in the course content of the degree for which the student wishes to enrol or is enrolled and a degree already conferred, the Dean may not acknowledge any modules that form part of the degree already conferred.

Examinations and pass requirements

In calculating marks, General Regulation G12.2 applies.

Subject to the provisions of General Regulation G.26, a head of a department determines, in consultation with the Dean

- when the honours examinations in his/her department will take place, provided that:
 - i. honours examinations which do not take place before the end of the academic year, must take place no later than 18 January of the following year, and all examination results must be submitted to the Student Administration by 25 January; and
 - ii. honours examinations which do not take place before the end of the first semester, may take place no later than 15 July, and all examination results must be submitted to the Student Administration on or before 18 July.
- whether a candidate will be admitted to a supplementary examination, provided that a supplementary examination is granted, only once in a maximum of two prescribed semester modules or once in one year module;
- supplementary examinations (if granted) cover the same subject matter as was the case for the examinations;
- NB: For the purpose of this provision, the phrase "not sit for an examination more than twice in the same subject" as it appears in General Regulation G.18.2, implies that a candidate may not be admitted to an examination in a module, including a supplementary examination, more than three times.
- the manner in which research reports are prepared and examined in his department.

NB: Full details are published in each department's postgraduate information brochure, which is available from the head of department concerned. The minimum pass mark for a research report is 50%. The provisions regarding pass requirements for dissertations contained in General Regulation G.12.2 apply mutatis mutandis to research reports.

Subject to the provisions of General Regulation G.12.2.1.3, the subminimum required in subdivisions of modules is published in the study guides, which is available from the head of department concerned.

Curriculum: Final year

Minimum credits: 135

Master's

MAdmin Public Management and Policy (07251162)

Minimum duration of study 1 year

Contact Mrs OF Steyn odile.steyn@up.ac.za +27 (0)124204198

Programme information

There will not be an intake of new students for each degree every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission requirements

- Subject to the provisions of General Regulations G.1.3 and G.54, a related BAdmin Honours degree or equivalent with an average of at least 65% is a requirement for admission to the master's degree study. A research proposal must also be submitted. Note: Students to choose topics only from the research focus of the School of Public Management and Administration.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department - a candidate who does not comply with the required level of competence may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department or director of the school concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.
- A BAdmin Honours degree in Public Administration or equivalent with an average of at least 65%.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head:

Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Admission requirements

- CA(SA) or
- CTA or
- BCom Honours degree in Accounting Sciences or equivalent
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as

approved by the Executive.

- Allowance will be made for the diversity profile of students.
- A completed Postgraduate Diploma in Economic and Management Sciences (07220026) can also be considered for admission to the Master's programme in Entrepreneurship. All MCom candidates need to have adequate knowledge of Management, Financial and Economic Sciences as well as Statistics, as determined by the head of department concerned, in consultation with the Dean.
- A pass mark in the following modules: Financial accounting 1 (FRK 111 and FRK 121/122); Economics 1 (EKN 110 and EKN 120); Statistics 1 (STK 110 and STK 120) and one of the following: Business management 1 (OBS 114 and OBS 124); or Marketing management 1 (BEM 110 and BEM 122); or Public administration 1 (PAD 112 and PAD 122); or Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.
- Candidates who have not yet passed a module in research methodology that is acceptable to the head of department, must pass the designated Research methodology module (NME 806). The module does not carry any credits.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.

A pass mark in the following modules is considered to be adequate knowledge. Anyone not meeting this expectation will only be considered for admission in exceptional circumstances.

- Financial accounting 1 (FRK 111 and FRK 121/122);
- Economics 1 (EKN 110 and EKN 120);
- Statistics 1 (STK 110 and STK 120) and one of the following:
- Business management 1 (OBS 114 and OBS 124); or
- Marketing management 1 (BEM 110 and BEM 122); or
- Public administration 1 (PAD 112 and PAD 122); or
- Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Other programme-specific information

Candidates, who have not yet passed a module in research methodology that is acceptable to the head of department, must pass the designated Research methodology module (NME 806). The module does not carry any credits.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass

requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.

A pass mark in the following modules is considered to be adequate knowledge. Anyone not meeting this expectation will only be considered for admission in exceptional circumstances.

- Financial accounting 1 (FRK 111 and FRK 121/122);
- Economics 1 (EKN 110 and EKN 120);
- Statistics 1 (STK 110 and STK 120) and one of the following:
- Business management 1 (OBS 114 and OBS 124); or
- Marketing management 1 (BEM 110 and BEM 122); or
- Public administration 1 (PAD 112 and PAD 122); or
- Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation

of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.

- Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
- A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
- Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Admission requirements

- Relevant BCom Honours degree with an average of at least 60% (includes MPhil in Responsible Leadership, Risk Management, Strategic Management and Supply Chain Management).
- Candidates must be in possession of a recognised BComHons degree to register for an MCom in Business Management. It is also important to note that candidates who have not yet passed a module in research methodology that is acceptable to the head of department, must enrol for Research methodology (NME 804) and obtain a pass mark. The module does not carry any credits.
- Candidates must apply online to be admitted to the University of Pretoria. Selection is not guaranteed as the intake is limited due to resource limitations.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.

Admission requirements

- Relevant BCom Honours degree with an average of at least 65%.
- A candidate may be refused admission to a master's degree by the postgraduate committee of the department if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive. However, a candidate may also be refused admission by the postgraduate committee of the department if the department does not have adequate capacity to instruct and supervise the student.
- Allowance will be made for the diversity profile of students.
- All MCom candidates need to have adequate knowledge of Management, Financial and Economic Sciences as well as Statistics, as determined by the Faculty of Economic and Management Sciences, as well as the head of department concerned, in consultation with the Dean.

Additional requirements

A pass mark in the following modules is considered to be adequate knowledge. Anyone not meeting this expectation will only be considered for admission in exceptional circumstances.

- Financial accounting 1 (FRK 111 and FRK 121/122);
- Economics 1 (EKN 110 and EKN 120);
- Statistics 1 (STK 110 and STK 120) and one of the following:
- Business management 1 (OBS 114 and OBS 124); or
- Marketing management 1 (BEM 110 and BEM 122); or

- Public administration 1 (PAD 112 and PAD 122); or
- Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Capacity limitations

- The supervision of postgraduate students is a time-consuming process, and, therefore, the Department reserves the right to limit entry into programmes.
- Please consult the department for the most recent information on enrolment expectations.
- All reasonable measures will be taken to ensure that those students who meet the minimum requirements, are enrolled.
- In the event that departmental capacity cannot accommodate the number of students who meet the minimum requirements, the students will be ranked according to the above averages, and only the top performing students will be admitted to the programme, in accordance with the number of students that the departmental teaching capacity and supervision can accommodate.

Other programme-specific information

Research methodology 801 (EBW 801) is a prerequisite for the mini-dissertation. The module does not carry any credits.

Any other module on master's level approved by the head of department can constitute an elective.

Candidates who consider pursuing a doctoral degree are required to complete the MPhil (Economics).

A minimum number of at least five candidates are required to register before a module is presented.

The department furthermore reserves the right not to present a module if the particular expertise in that module is not available in the department for that year.

Each candidate is only allowed to register twice for a particular module. Exam entry in all subjects requires a minimum 40%. In order to continue on the programme, all students must receive exam entry in every module. Students cannot be registered on the programme more than two years.

The Department of Economics is serious about the need to develop students from previously disadvantaged backgrounds, and accepts that it has a responsibility to provide its own students with a seamless educational experience.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The research component comprises the writing of a mini-dissertation. The postgraduate programme manager will appoint a supervisor, based on the mutual interests of the candidate and the supervisor. Once a supervisor agrees to work with a candidate, the candidate will continue to work under the guidance of his/her supervisor to complete the research and to develop and finalise a mini-dissertation according to departmental guidelines and regulations.

The dissertation contributes 67% towards the total requirements for the degree.

Dissertations/mini-dissertations/research reports, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation/research article must be submitted in a

field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.

2. Information on modules, credits and syllabi is available, on request, from the head of department concerned and the postgraduate committee.
3. A module in Research Methodology is compulsory in the programme, although it is incorporated into the mini-dissertation mark. The Dean may, on the recommendation of the head of department concerned, waive the prerequisites.
4. Sufficient number of bound copies of the thesis/dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor. The mini-dissertation should be written in consultation with the supervisor, and is to be submitted either by December 15 to graduate in April or May 31 to graduate in September. The mini-dissertation should be submitted to the postgraduate administrator in the department, and should be submitted with the approval of the supervisor. If the supervisor does not approve, the student should approach the postgraduate committee of the department. That committee will make a final recommendation on submission.

Article for publication

There is no expectation that an article be published from the research conducted in the mini-dissertation. Students interested in pursuing a PhD, however, should work with their supervisor to submit an article.

Curriculum: Year 1

Minimum credits: 180

A minimum of 180 credits are required, 170 from the core modules and 10 from the elective modules.

The mini-dissertation should be written in consultation with the supervisor, and is to be submitted either by December 15 to graduate in April or May 31 to graduate in September. The mini-dissertation should be submitted to the postgraduate administrator in the department, and should be submitted with the approval of the supervisor. If the

supervisor does not approve, the student should approach the postgraduate committee of the department. That committee will make a final recommendation on submission.

Article for publication

There is no expectation that an article be published from the research conducted in the mini-dissertation. Students interested in pursuing a PhD, however, should work with their supervisor to submit an article.

Curriculum: Final year

Minimum credits: 180

A minimum of 180 credits are required, 140 from the core modules and 40 from the elective modules.

Core modules

Microeconomics 812 (EKN 812) - Credits: 10.00

Macroeconomics 813 (EKN 813) - Credits: 10.00

Mini-dissertation: Economics 895 (EKN 895) - Credits: 120.00

Elective modules

International trade 804 (EKN 804) - Credits: 10.00

International finance 805 (EKN 805) - Credits: 10.00

Monetary economics and banking 816 (EKN 816) - Credits: 10.00

Computable general equilibrium modelling 819 (EKN 819) - Credits: 10.00

Capita selecta economics 821 (EKN 821) - Credits: 10.00

Environmental economics 825 (EKN 825) - Credits: 10.00

Health economics 864 (EKN 864) - Credits: 10.00

Financial economics 865 (EKN 865) - Credits: 10.00

Econometrics 813 (EKT 813) - Credits: 10.00

Econometrics 814 (EKT 814) - Credits: 10.00

Econometrics 815 (EKT 815) - Credits: 10.00

Econometrics 816 (EKT 816) - Credits: 10.00

Economic development 880 (EOG 880) - Credits: 10.00

Public economics 880 (OWE 880) - Credits: 10.00

MCom Financial Management Sciences (07250205)

Minimum duration of study 1 year

Contact Prof E du Toit elda.dutoit@up.ac.za +27 (0)124203818

Admission requirements

- BCom Honours Financial Management Sciences degree or equivalent.
- Financial management 884 is a prerequisite for the dissertation.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.

- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.
- A completed Postgraduate Diploma in Economic and Management Sciences (07220026) can also be considered for admission to the Master's programme in Entrepreneurship. All MCom candidates need to have adequate knowledge of Management, Financial and Economic Sciences as well as Statistics, as determined by the head of department concerned, in consultation with the Dean.
- A pass mark in the following modules: Financial accounting 1 (FRK 111 and FRK 121/122); Economics 1 (EKN 110 and EKN 120); Statistics 1 (STK 110 and STK 120) and one of the following: Business management 1 (OBS 114 and OBS 124); or Marketing management 1 (BEM 110 and BEM 122); or Public administration 1 (PAD 112 and PAD 122); or Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Other programme-specific information

Financial management 884 is a prerequisite for the dissertation.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Before registration a candidate must submit a research outline of approximately 1 000 words to the Research Committee of the department. If the research outline is officially approved, the candidate will be allowed to register and a supervisor will be appointed. The candidate will work under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

MCom Marketing Management (07250024)

Minimum duration of study 1 year

Contact Prof T Maree rania.maree@up.ac.za +27 (0)124203418

Programme information

The degree comprises the writing of a dissertation and a draft article for publication in a recognised scientific journal.

Full particulars of the degree programme are contained in a brochure which is available from the departmental

website.

Admission requirements

- BCom Honours degree in Marketing Management with an average of at least 65%.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.
- A completed Postgraduate Diploma in Economic and Management Sciences (07220026) can also be considered for admission to the Master's programme in Entrepreneurship. All MCom candidates need to have adequate knowledge of Management, Financial and Economic Sciences as well as Statistics, as determined by the head of department concerned, in consultation with the Dean.
- A pass mark in the following modules: Financial accounting 1 (FRK 111 and FRK 121/122); Economics 1 (EKN 110 and EKN 120); Statistics 1 (STK 110 and STK 120) and one of the following: Business management 1 (OBS 114 and OBS 124); or Marketing management 1 (BEM 110 and BEM 122); or Public administration 1 (PAD 112 and PAD 122); or Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The weight of the research component (dissertation and draft article for publication) contributes 100% towards the total requirements for the degree.

The research proposal has to be approved by all relevant committees before the candidate can commence with the dissertation. The candidate will then work under supervision of his/her supervisor(s) to complete the research and to develop and finalise a dissertation according to departmental guidelines and regulations. A candidate, before or on submission of the dissertation, must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the dissertation and be approved by the supervisor(s). Submission of the draft article is a requirement for the degree to be conferred on the candidate. The candidate has to give advance notice in the appropriate format of his/her intent to submit the dissertation.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-

dissertation/research article.

- Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
- A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
- Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Admission requirements

- Relevant honours degree in Mathematical Statistics or equivalent with an average of at least 65% in Mathematical Statistics.
- Student numbers are limited to a maximum of 20, collectively over all master's programmes in the Department of Statistics.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.
- A completed Postgraduate Diploma in Economic and Management Sciences (07220026) can also be considered for admission to the Master's programme in Entrepreneurship. All MCom candidates need to have adequate knowledge of Management, Financial and Economic Sciences as well as Statistics, as determined by the head of

department concerned, in consultation with the Dean.

- A pass mark in the following modules: Financial accounting 1 (FRK 111 and FRK 121/122); Economics 1 (EKN 110 and EKN 120); Statistics 1 (STK 110 and STK 120) and one of the following: Business management 1 (OBS 114 and OBS 124); or Marketing management 1 (BEM 110 and BEM 122); or Public administration 1 (PAD 112 and PAD 122); or Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Other programme-specific information

As long as progress is satisfactory, renewal of registration of a master's student will be accepted for a second year of study in the case of a full-time student. Renewal of registration for a third and subsequent years for a full-time student will only take place when Student Administration of the Faculty receives a written motivation (the required form can be obtained from the Head of Department) that is supported by the Head of Department and Postgraduate Studies Committee. (See Regulations G.32 and G.36.)

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the

dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Curriculum: Final year

Minimum credits: 180

This degree is phased out and will not be offered as from 2019.

Programme information

Contact: Department of Taxation 012 420 4983

The MCom Taxation is a research degree, requiring the completion of a supervised as well as independent research resulting in a dissertation.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant BCom Honours degree or equivalent postgraduate diploma (NQF level 8, with a minimum of 120 credits at this level) and
- Relevant taxation module(s) (minimum of 40 credits) at honours level and
- Relevant work experience in a tax environment.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence,

- may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
 3. Specific departments have specific requirements for admission.
 4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
 5. Allowance will be made for the diversity profile of students.

A pass mark in the following modules is considered to be adequate knowledge. Anyone not meeting this expectation will only be considered for admission in exceptional circumstances.

- Financial accounting 1 (FRK 111 and FRK 121/122);
- Economics 1 (EKN 110 and EKN 120);
- Statistics 1 (STK 110 and STK 120) and one of the following:
- Business management 1 (OBS 114 and OBS 124); or
- Marketing management 1 (BEM 110 and BEM 122); or
- Public administration 1 (PAD 112 and PAD 122); or
- Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the

dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Curriculum: Final year

Admission requirements

- Relevant BCom Honours degree or equivalent with an average of at least 60%.
- **NB:** The head of division has the right to prescribe any of the following additional modules for a candidate until he/she complies with the requirements.
- A candidate may be refused admission to a master's degree by the Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The Postgraduate Committee concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department concerned may set additional admission requirements.

3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.
6. A completed Postgraduate Diploma in Economic and Management Sciences can also be considered for admission to the Master's programme in Entrepreneurship.

A pass mark in the following modules is considered to be adequate knowledge. Anyone not meeting this expectation will only be considered for admission in exceptional circumstances.

- Financial accounting 1 (FRK 111 and FRK 121/122);
- Economics 1 (EKN 110 and EKN 120);
- Statistics 1 (STK 110 and STK 120) and one of the following:
- Business management 1 (OBS 114 and OBS 124); or
- Marketing management 1 (BEM 110 and BEM 122); or
- Public administration 1 (PAD 112 and PAD 122); or
- Industrial and organisational psychology (BDO 110 and BDO 120) or equivalent modules passed at another institution as approved by the head of the department concerned in consultation with the Dean.

Other programme-specific information

NB: The head of division has the right to prescribe any additional modules for a candidate until he/she complies with the requirements.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The research component comprises the writing of a dissertation and a draft article for publication. A short proposal has to be submitted to the head of the division. Upon approval of the proposal, a supervisor(s) will be appointed. The candidate will work under the guidance of his/her supervisor to develop a detailed research proposal according to the departmental guidelines and regulations. The proposal must be approved by the relevant committees before the candidate can commence with the dissertation. The candidate will then continue to work under supervision of his/her supervisor to complete the research and to develop and finalise a dissertation according to departmental guidelines and regulations.

Before or on submission of the dissertation, a candidate must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the dissertation and be approved by the supervisor. The draft article is a necessary condition for the degree to be conferred on the candidate.

The research component (dissertation and draft article for publication) contributes 100% towards the total requirements for the degree.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required

dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.

2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the thesis/dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation

A dissertation is submitted to the Head: Student Administration, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies of the dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration. Permission to submit the dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation to the Head: Student Administration in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Admission requirements

- A completed bachelor's degree or equivalent (eg BTech, B.Soc, BEd) with an average of at least 60%.
- Administrative and managerial experience, preferably in the public sector, as deemed adequate and appropriate by the Director of the School of Public Management and Administration.
- A maximum of 50 students can be admitted by the Departmental Postgraduate Committee.

- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.

Additional requirements

1. A candidate may be refused admission to a master's degree by the Director of the School of Public Management and Administration if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.

Other programme-specific information

Seven prescribed modules as well as a mini-dissertation must be completed. The programme must be completed within two years after the first registration for the degree. The Dean may, at the recommendation of the Postgraduate Committee, cancel the registration of a student during any academic year if his/her academic progress is not satisfactory.

Examinations and pass requirements

- A subminimum of 45% is required in the examination in each of the modules.
- Credit is obtained for each module in which a final mark of at least 50% has been achieved.
- Only one supplementary examination in a maximum of two modules is permitted.
- A candidate may not present himself/herself for an examination in the same module more than twice, except with the approval of the Dean, on the recommendation of the Director of the School of Public Management and Administration. In the context of this regulation the phrase "may not sit an examination more than twice in the same module" as it appears in General Regulation G.32(b).2, implies that a candidate may not sit for an examination in a module, including one supplementary examination, more than three times.
- Supplementary examinations cover the same subject matter as was the case for the examinations.

Research information

Mini-dissertations, curricula and modules

1. The degree programme requires that a mini-dissertation must be submitted for examination.
2. Information on modules, credits and syllabi is available, on request, from the head of department concerned.
3. The mini-dissertation must be submitted to the MPA Administrator Coordinator for examination after permission is granted by the supervisor.

Submission of mini-dissertation

The mini-dissertation is submitted to the MPA Administrator Coordinator, as per Research flow Diagram approved

by the SPMA Research Committee.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies of the mini-dissertation, printed on good quality paper and of good letter quality, to the MPA Administrator Coordinator. Permission to submit the dissertation in unbound form may be obtained from the supervisor concerned.

In addition to the copies already mentioned, each successful student must submit a final bound paper copy as well as an electronic copy of the approved dissertation to the MPA Administrator Coordinator in the format specified by the SPMA Postgraduate Committee.

Curriculum: Final year

Minimum credits: 180

This degree is offered over a maximum of two years. All coursework modules to be completed in Year 1 of registration and the mini-dissertation to be registered in Year 2 of study. Degree must be completed within two years.

Core modules

Financial resource management 800 (FHB 800) - Credits: 20.00

Human resource management 801 (HPB 801) - Credits: 20.00

Research methodology 801 (NME 801) - Credits: 20.00

Admission requirements

- A completed bachelor's degree or equivalent (eg BTech, BSoc, BEd) with an average of at least 60%.
- Administrative and managerial experience, preferably in the public sector, as deemed adequate and appropriate by the Director of the School of Public Management and Administration.
- A maximum of 25 students can be admitted by the Departmental Postgraduate Committee.
- A candidate may be refused admission to a master's degree by the head of the department if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The head of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.

Other programme-specific information

Ten prescribed, compulsory modules as well as a mini-dissertation must be completed. Candidates must pass the module NME 801 before registering for the mini-dissertation (PAD 898). The curriculum is compiled in consultation with the Director of the School of Public Management and Administration.

The programme extends over a minimum period of two years, but must be completed within four years after the first registration for the degree. The Dean may, at the recommendation of the Postgraduate Committee, cancel the registration of a student during any academic year if his/her academic progress is not satisfactory.

Examinations and pass requirements

- A subminimum of 45% is required in the examination in each of the modules.
- Credit is obtained for each module in which a final mark of at least 50% has been achieved.
- Only one supplementary examination in a maximum of two modules is permitted.
- A candidate may not present himself/herself for an examination in the same module more than twice, except with the approval of the Dean, on the recommendation of the Director of the School of Public Management and Administration. In the context of this regulation the phrase "may not sit an examination more than twice in the same module" as it appears in General Regulation G.32(b).2, implies that a candidate may not sit for an examination in a module, including one supplementary examination, more than three times.
- Supplementary examinations cover the same subject matter as was the case for the examinations.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.

- Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
- A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
- Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Curriculum: Final year

Minimum credits: 180

Core modules

Research methodology 804 (NME 804) - Credits: 20.00

Strategy and leadership 811 (OBS 811) - Credits: 20.00

Supply chain management 817 (OBS 817) - Credits: 25.00

Contemporary issues in supply chain management 818 (OBS 818) - Credits: 25.00

Mini-dissertation: Research article 898 (OBS 898) - Credits: 90.00

MPhil Communication Management (07255242)

Minimum duration of study 1 year

Contact Prof E de Beer estelle.debeer@up.ac.za +27 (0)124205082

Programme information

The degree comprises the writing of a dissertation and a draft article for publication in a recognised scientific

journal.

There will not be an intake of new students for each degree every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission requirements

- A relevant Honours degree or equivalent qualification.
- A BTech degree is not recognised as an equivalent honours degree.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The research proposal has to be approved by all relevant committees before the candidate can commence with the dissertation. The candidate will then work under supervision of his/her supervisor(s) to complete the research and to develop and finalise a dissertation according to departmental guidelines and regulations. A candidate, before or on submission of the dissertation, must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the dissertation and be approved by the supervisor(s). Submission of the draft article is a requirement for the degree to be conferred on the candidate. The candidate has to give advance notice in the appropriate format of his/her intent to submit the dissertation.

The weight of the research component contributes 100% towards the total requirements for the degree.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.

4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

MPhil Development Practice (Coursework) (07255374)

Minimum duration of study 2 years

Program outline

The programme will take two years to complete and will consist of three elements, spread across two phases. The three elements are: theory, practice and leadership.

The first phase is called foundations and is aimed at equipping students with the foundational knowledge and skills needed to design and implement transformative development practices. During this phase attention will be given to two elements of the programme, namely coursework and leadership theory.

The second phase is called specialisation. During this phase students will be required to specialise, albeit in a limited sense, in a chosen developmental field. During this phase students will be embark on an internship in their chosen sector of specialisation and they will conduct a sector-specific research project. Students will in addition be embedded into service learning programme.

Five prescribed, compulsory modules, a leadership service learning course, a case study methods course and a mini-dissertation must be completed.

Students should register for all the modules. Students will only be allowed to register for Module 7 after 4 (four) coursework modules have been completed, thus with only 1 (one) coursework module and 1 (one) service learning module outstanding. Module 7 will comprise an internship and the documentation of a case study of development policy implementation. Students will be assigned to an internship institution according to their field of specialisation. Students will be equipped with the relevant theory and research skills to document and interpret a case study on policy implementation. Before embarking on the specialisation phase students will be required to reach a number of milestones, including a specified number of face-to-face meetings with supervisors, completion of a research methodology course, submission of a draft research design and literature review, submission of an updated research design and literature review and subsequent research proposal. In the specialisation phase of this track students will use their foundational knowledge and skills as basis to do fieldwork for the documentation of a particular case of development policy implementation. Students will be required to complete the case study in the months that follow their internship.

Other programme-specific information

Presentation method

- The duration of the programme is two years, and is presented every year.
- The modules that constitute the first year of the programme are presented on a weekly basis for the duration of the year.
- During the second year of the programme students will be required to attend weekly on-site modules during the first term, after which they are expected to embark on off-site internships. At least three months, or one

term, of the completion of their case study should take place in Pretoria.

Examinations and pass requirements

Promotion requirements

- Candidates must obtain at least 80 credits in the first year to register for the second-year modules.
- Candidates will not be allowed to register more than twice for the same module.
- Candidates must pass five modules before the case study may be submitted for evaluation by the study leader.

A maximum of two years after first registration will be allowed for the completion of the degree provided that the Dean may, in exceptional cases, and on recommendation of the head of the department concerned, approve a fixed limited extension of the period of study.

Curriculum: Year 1

Minimum credits: 90

Mini-dissertation 895 (DVP 895) - Credits: 15.00

MPhil Economics (Coursework) (07255171)

Minimum duration of study 1 year

Contact Miss SC Magwaza sindi.magwaza@up.ac.za +27 (0)124202423

Programme information

The MPhil in Economics programme is designed to prepare students to enter into a research-based PhD degree programme in Economics. The programme focuses primarily on the core microeconomic and macroeconomic theory principles, as well as the theoretical econometric fundamentals necessary for the student to understand the extant economic literature and to contribute to the international economic debate.

Admission requirements

- Relevant BCom Honours degree or Postgraduate Diploma with an average of at least 65%.

Additional requirements

- A candidate may be refused admission to a master's degree by the postgraduate committee of the department

if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.

- The postgraduate committee of department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive. However, a candidate may also be refused admission by the postgraduate committee of the department if the department does not have adequate capacity to instruct and supervise the student. Students are encouraged to check the department's website for the most up-to-date information or to inquire with the department.
- Allowance will be made for the diversity profile of students.

Capacity limitations

- The supervision of postgraduate students is a time-consuming process, and, therefore, the Department reserves the right to limit entry into programmes.
- Please consult the department for the most recent information on enrolment expectations.
- All reasonable measures will be taken to ensure that those students who meet the minimum requirements, are enrolled.
- In the event that departmental capacity cannot accommodate the number of students who meet the minimum requirements, the students will be ranked according to the above averages, and only the top performing students will be admitted to the programme, in accordance with the number of students that the departmental teaching capacity and supervision can accommodate.

Other programme-specific information

EBW 801 is a prerequisite for the mini-dissertation (EKN 895). Although the module does not carry any credits, the module mark makes up 20% of the mini-dissertation mark.

The Department of Economics is serious about the need to develop students from previously disadvantaged backgrounds, and accepts that it has a responsibility to provide its own students with a seamless educational experience.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The weight of the mini-dissertation (EKN 895) contributes 57% towards the total requirements for the degree. Where possible, the mini-dissertation for the MPhil should be a fully-fledged PhD proposal.

Dissertations/mini-dissertations/research reports, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation/research article must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department concerned and the postgraduate committee.

3. A module in Research Methodology is compulsory in the programme, although it is incorporated into the mini-dissertation mark. The Dean may, on the recommendation of the head of department concerned, waive the prerequisites.
4. Sufficient number of bound copies of the thesis/dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor. The mini-dissertation should be written in consultation with the supervisor, and is to be submitted either by December 15 to graduate in April or May 31 to graduate in September. The mini-dissertation should be submitted to the postgraduate administrator in the department, and should be submitted with the approval of the supervisor. If the supervisor does not approve, the student should approach the postgraduate committee of the department. That committee will make a final recommendation on submission.

Article for publication

There is no expectation that an article be published from the research conducted in the mini-dissertation. Students interested in pursuing a PhD, however, should work with their supervisor to submit an article.

Curriculum: Final year

Programme information

There will not be an intake of new students for each degree every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission requirements

- A relevant bachelor's degree and the Postgraduate Diploma with an option in Entrepreneurship.
- Subject to the provisions of General Regulations G.54 and G.55, both of the following degrees are required for admission:
 - A relevant bachelor's degree and the Postgraduate Diploma with an option in Entrepreneurship or a relevant honours degree.

Candidates are selected subject to the provisions of General Regulation G.1.3. (The presentation of the programme is subject to the admission of a minimum number of candidates.)

Only selected candidates will be allowed to register for the MPhil in Entrepreneurship. The Department of Business Management reserves the right not to present the programme during a specific period or to limit the number of candidates admitted.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.

Other programme-specific information

Presentation method

The programme is presented by means of contact and online sessions. During each semester, there will be six contact sessions. Attendance at these contact sessions is compulsory.

Examinations and pass requirements

An examination paper is written in each of the modules and a minimum of 50% should be obtained. A subminimum of 40% in each module is required. Candidates must pass all modules, including the research article to qualify for the MPhil Entrepreneurship degree.

There are no supplementary examinations.

Research information

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor

should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department – with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as

approved by the Executive.

5. Allowance will be made for the diversity profile of students.

Other programme-specific information

1. A number of short courses on an NQF level 8 are being offered by the Unit for Forensic Accounting within the Department of Auditing which could hold articulation possibilities towards the postgraduate programmes offered by the Unit.
2. The programme is presented by means of the Web and five (5) day contact sessions. For the Research methodology module (FRM 809) a two (2) day contact session will be held. Attendance of these contact sessions is compulsory.

Articulation and accreditation (For short courses completed at NQF LEVEL 8 at Enterprises University of Pretoria)

Candidates who have completed a corresponding short course at Enterprises University of Pretoria at a NQF level 8, may articulate towards the MPhil (Fraud Risk Management) and will receive 15 credits in respect of the equivalent module offered in the MPhil (Fraud Risk Management) degree programme.

Articulation is only possible where the following requirements have been met:

- The candidate must have obtained at least a final mark of 60% in the corresponding short course.
- The candidate must have completed the corresponding short course within a period of 3 (three) years before date of enrolment for the MPhil (Fraud Risk Management).

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Promotion to next study year

- Candidates must obtain at least 80 credits in the first year to register for the second-year modules.
- Candidates will not be allowed to register more than twice for the same module.
- Candidates may register for a maximum of two outstanding modules (other than Research methodology (FRM 809)) together with FRM 808 (Research article).
- Candidates must pass five modules before the research article may be submitted for evaluation by the study leader.
- A maximum of two years after first registration will be allowed for the completion of the degree provided that the Dean may, in exceptional cases, and on recommendation of the head of the department concerned, approve a fixed limited extension of the period of study.

Research information

Research methodology (FRM 809) is a prerequisite for the Research article (FRM 808). Students will only be allowed to register for the Research article (FRM 808) after 4 (four) coursework modules, and the module on Research methodology (FRM 809) have been completed, thus with only 2 (two) coursework modules outstanding. For each of the modules FRM 801 – 806, a student will be required to submit one research report in each of the modules. The research reports will contribute 40% of the final mark for the module. An examination in each of

the modules (FRM 801 - 806) will constitute the remaining 60% towards the final mark. For FRM 809 an acceptable research proposal is required.

The MPhil candidate must submit and present a research proposal. The module FRM 809 will prepare the student in writing a research proposal. A candidate will work under the guidance of a supervisor to develop a detailed research proposal according to faculty and departmental guidelines and regulations.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

Curriculum: Final year

Minimum credits: 180

Core modules

Fraud risk management 801 (FRM 801) - Credits: 15.00

Economic crime schemes 802 (FRM 802) - Credits: 15.00

Law for commercial forensic practitioners 803 (FRM 803) - Credits: 15.00

Investigation of financial crimes 804 (FRM 804) - Credits: 15.00

Investigation and management of cyber and electronic crime 805 (FRM 805) - Credits: 15.00

Money laundering detection and investigation 806 (FRM 806) - Credits: 15.00

Research article 808 (FRM 808) - Credits: 70.00

Research methodology 809 (FRM 809) - Credits: 20.00

MPhil Human Resource Management (07255262)

Minimum duration of study 1 year

Programme information

There will not be an intake of new students for each degree every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission requirements

- A cognate Honours degree in a relevant field as approved of Human Resource Management or Industrial Psychology as approved by the Head of the Department.
- A minimum pass mark of at least 65% in the Honours degree.
- All applications are subject to a selection process. The following selection criteria will be taken into consideration
 - Academic achievement
 - Work experience
 - Research ability
- The Head of the Department may, however, set additional admission requirements.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.
3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.

Other programme-specific information

NB: *All modules are compulsory.* Candidates must pass all the modules, including the dissertation, to qualify for the MPhil degree.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-

dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

After being selected for the specific degree applied for, students are allowed to register **CONDITIONALLY** for the MPhil. The following modules, however, have to be completed successfully before **FULL** registration takes effect:

- EBW 801 Research methodology 801
- EBW 802 Research proposal 802
- MHB 890 Dissertation: Human resource management 890 (240 credits)

The MPhil candidate must submit and present a research proposal. The subject EBW 801 will prepare the student in writing a research proposal. A candidate will work under the guidance of a supervisor to develop a detailed research proposal according to faculty and departmental guidelines and regulations. The proposal must be presented to the departmental Postgraduate Committee and must be officially approved by all relevant committees before the candidate can commence with his/her formal research for completion of the dissertation. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University of Pretoria and Faculty of Economic and Management Sciences.

The submission of a high-quality scientific article for publication in a recognised scientific journal is a compulsory condition for the degree to be conferred on the candidate.

The research component contributes 100% towards the total requirement for the degree.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that

a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

MPhil Internal Auditing (Coursework) (07255231)

Minimum duration of study 1 year

Contact Dr B Steyn blanche.steyn@up.ac.za +27 (0)124203111

Programme information

- Entrance to the programme is based on internal audit experience, and the tertiary and professional qualifications of each individual.
- The programme will be offered over a two-year period within four semesters.
- The method of teaching will consist of a virtual classroom as well as contact sessions comprising of two block sessions per semester.
- Contact sessions will be held at either the GIBS or UP campuses.
- It is recommended that a research article be submitted during the final semester to an accredited academic journal.

There will not be an intake of new students for each degree every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission requirements

Honours degree or equivalent qualification in an audit-related field with a recognised audit-related professional qualification and a minimum of two years' internal audit experience in a senior position.

Entrance to the programme is based on the individual's internal audit experience, tertiary as well as professional qualifications.

- A candidate may be refused admission to a master's degree by the postgraduate committee of the department if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
- The postgraduate committee of the department concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-

Minimum duration of study 2 years

Contact Prof ML van Oordt marius.vanoordt@up.ac.za +27 (0)124203470

Programme information

This interdisciplinary master's programme, offered in English only, is aimed at developing capacity in the areas of tax policy, governance and administration and is focused on attracting students from the public sector.

Admission requirements

- A BCom Honours degree; or
- any other appropriate honours degree; or
- a LLB (at least a four-year LLB) degree; as well as
- relevant work experience acceptable to the head of department.

Additional Requirements:

- Successful completion of the African Tax Institute's ([click here](#)) selection process, which includes an entrance exam.
- The head of department has the right to prescribe any additional modules at honours level to ensure that a candidate complies with all the requirements. All additional modules serve as prerequisite for acceptance into the degree programme.

Additional requirements

The head of department has the right to prescribe any additional modules at honours level to ensure that a candidate complies with all the requirements. All additional modules serve as prerequisite for acceptance into the degree programme.

Examinations and pass requirements

The pass mark for each module and the mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations.

Research information

The weight of the mini-dissertation (EKN 895) contributes 50% towards the total requirements for the degree.

Mini-dissertations, curricula and modules

1. The degree programme requires that a mini-dissertation must be submitted in a field of study.
2. Information on modules, credits and syllabi is available, on request, from the head of department concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department concerned, waive the prerequisites.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The research component comprises the writing of a dissertation and a draft article for publication. A short proposal has to be submitted to the Postgraduate Committee. Upon approval of the proposal, a supervisor(s) will be appointed. The candidate will work under the guidance of his/her supervisor to develop a detailed research proposal according to the departmental guidelines and regulations. The proposal has to be approved by all relevant committees before the candidate can commence with the dissertation. The candidate will then continue to work under supervision of his/her supervisor to complete the research and to develop and finalise a dissertation according to departmental guidelines and regulations.

Before or on submission of the dissertation, candidates must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the dissertation and be approved by the supervisor. The draft article is a necessary condition for the degree to be conferred on the candidate.

The research component (dissertation and draft article for publication) contributes 100% towards the total requirements for the degree. All prescribed modules are prerequisites to the dissertation.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that

a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

- The Postgraduate Committee concerned may set additional admission requirements.
- Specific departments have specific requirements for admission.
- The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
- Allowance will be made for the diversity profile of students.

Additional requirements

1. A candidate may be refused admission to a master's degree by the head of the department/Postgraduate Committee if he/she does not comply with the standard of competence in the subject as determined by the department - with the proviso that a candidate who does not comply with the required level of competence, may be admitted, provided that he/she completes additional study assignments and/or examinations.
2. The head of department/Postgraduate Committee concerned may set additional admission requirements.

3. Specific departments have specific requirements for admission.
4. The number of students will be determined in line with the growth strategy of the University of Pretoria as approved by the Executive.
5. Allowance will be made for the diversity profile of students.

Other programme-specific information

There are no electives and all modules must be passed.

Examinations and pass requirements

The pass mark for both a dissertation and a mini-dissertation is 50%. The provisions regarding pass requirements for dissertations, contained in General Regulation G.12.2, apply mutatis mutandis to mini-dissertations. A pass mark of at least 50% is required in the examination of each module.

Research information

The weight of the research article for publication contributes 56% towards the total requirements of the degree.

Dissertations/mini-dissertations, curricula and modules

1. The degree programme requires that a dissertation/mini-dissertation must be submitted in a field of study chosen from the fields covered for the honours degree, provided that the Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, approve the replacement of the required dissertation by the successful completion of a prescribed number of module credits and a mini-dissertation/research article.
2. Information on modules, credits and syllabi is available, on request, from the head of department/Postgraduate Committee concerned.
3. A module in Research Methodology is compulsory in all programmes. The Dean may, on the recommendation of the head of department/Postgraduate Committee concerned, waive the prerequisites.
4. Sufficient number of bound copies of the dissertation/mini-dissertation must be submitted to the Head: Student Administration for examination, after permission is granted by the supervisor.

Article for publication

A dean may require, before or on submission of a dissertation/mini-dissertation, the submission of a draft article for publication to the supervisor. The draft article should be based on the research that the student has conducted for the dissertation/mini-dissertation and be approved by the supervisor concerned. The supervisor should then have the opportunity to take the paper through all the processes of revision and resubmission as may be necessary and/or appropriate in order to achieve publication.

Submission of dissertation/mini-dissertation

A dissertation/mini-dissertation is submitted to the Head: Student Administration/Departmental Postgraduate Office, before the closing date for the various graduation ceremonies as announced annually.

For examination purposes, a student must, in consultation with the supervisor, submit a sufficient number of bound copies and/or e-copies of the dissertation/mini-dissertation, printed on good quality paper and of good letter quality, to the Head: Student Administration/Departmental Postgraduate Office. Permission to submit the dissertation/mini-dissertation in unbound form may be obtained from the supervisor concerned on condition that a copy of the final approved dissertation/mini-dissertation is presented to the examiners in bound format or electronic format.

In addition to the copies already mentioned, each successful student must submit a bound paper copy as well as two electronic copies of the approved dissertation/mini-dissertation to the Head: Student

Administration/Departmental Postgraduate Office in the format specified by the faculty and in accordance with the minimum standards set by the Department of Library Services, before 15 February for the Autumn graduation ceremonies and before 15 July for the Spring graduation ceremonies, failing which the degree will only be conferred during a subsequent series of graduation ceremonies.

PhD Agricultural Economics (07267091)

Minimum duration of study 2 years

Contact Prof LC Machethe charles.machethe@up.ac.za +27 (0)124203280

Programme information

The PhD programme in Agricultural Economics consists of a thesis and an oral examination.

Admission requirements

- Relevant Master's degree with an average of at least 65%.

All students need to follow a preparatory programme for the thesis which is not part of the degree programme. This preparatory programme should at least cover the following modules or their equivalents:

- Any two modules in economic or applied economic theory (e.g. Micro-economics or Macro-economics)
- One module in quantitative methods (Econometrics, Applied econometrics, Quantitative methods, or Partial equilibrium modeling)
- One module in the field of specialization (institutional economics, science and technology policy, food policy, etc)

If these modules or their equivalents are successfully completed and a PhD proposal has been successfully presented and approved by the Department's postgraduate committee, the student may proceed to the research phase and the thesis. Students can be exempted from this programme if equivalent course have been completed at other universities and students could provide evidence that these prerequisites have been met.

The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations. Due to capacity constraints, there may not be an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Admission is additionally dependent on availability of supervisor/s and/or projects within the department.

PhD Auditing (07267082)

Minimum duration of study 2 years

Contact [Dr B Steyn](#) blanche.steyn@up.ac.za +27 (0)124203111

Programme information

The degree comprises the writing of a thesis and a draft article for publication in a recognised scientific journal.

Admission requirements

- Relevant Master's degree with an average of at least 60%.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or in the Faculty Regulations. A candidate must also pass a compulsory module in Research methodology if it has not been completed on master's level. However, the Dean may, in exceptional cases and with recommendation of the head of department concerned, waive this prerequisite.
- Adequate knowledge of Management, Financial and Economic Sciences as well as Statistics as determined by the head of department concerned in consultation with the Dean (Also refer to "presentation on the thesis").
- A pass mark in Mathematics at Grade 12 level or another qualification in Mathematics, Statistics or Mathematical Statistics deemed adequate by the head of department concerned.
- Exemption assessment on preparatory work, as determined by the head of department concerned.
- A candidate who has acquired adequate knowledge of these basic modules through other means, may be exempted from the examinations in the prescribed capita selecta by the Dean, on the recommendation of the head of department/director.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a

compulsory module in Research Methodology.

Research information

The weight of the research component contributes 100% towards the total requirements for the degree.

PhD Business Management (07267074)

Minimum duration of study 2 years

Contact Prof AJ Antonites alex.antonites1@up.ac.za +27 (0)124203119

Programme information

The PhD degree is conferred by virtue of a thesis.

The head of department reserves the right to prescribe any additional modules/seminars for a candidate.

A candidate must also pass the compulsory module in EBW 801 Research methodology 801 if it has not been completed at master's level. However, the Dean may, in exceptional cases and on the recommendation of the head of department/director concerned, waive this prerequisite.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 60%.
- A prospective candidate has to apply online to be admitted to the University.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.
- Due to capacity constraints, there may not be an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Other programme-specific information

The curriculum must be compiled in consultation with the head of the department.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a

compulsory module in Research Methodology.

Research information

The candidate will complete his/her research under the guidance of his/her supervisor, and submit the thesis as soon as it complies with the regulations of the University. A public defence of the thesis and an article for publication is part of the prerequisites of completing the degree. The research component (thesis and draft article for publication) contributes 100% towards the total requirement for the degree.

PhD Communication Management (07267282)

Minimum duration of study 2 years

Contact Prof RS Rensburg ronel.rensburg@up.ac.za +27 (0)124203395

Programme information

The degree comprises the writing of a thesis and a draft article for publication in a recognised scientific journal. Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- A relevant master's degree or equivalent qualification.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.
- It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Other programme-specific information

The head of department reserves the right to prescribe additional modules/seminars for a candidate.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Research information

The weight of the research component (thesis and draft article for publication) contributes 100% towards the

total requirement for the degree. All prescribed modules are prerequisites for the thesis.

The proposal has to be approved by all relevant committees before the candidate can commence with the thesis. The candidate will then continue to work under supervision of his/her supervisor(s) to complete the research and to develop and finalise a thesis according to departmental guidelines and regulations. A candidate, before or on submission of the thesis, must submit at least one draft article for publication in a recognised scientific journal. The draft article should be based on the research the candidate has conducted for the thesis and be approved by the supervisor(s). The draft article is a requirement for the degree to be conferred on the candidate. The candidate has to give advance notice, in the appropriate format, about his/her intent to submit the thesis.

If a candidate fails any of the exemption assessments, the head of the department reserves the right to specify additional modules and to register him/her for EBW 900 (Research proposal) until he/she has met the specified requirements.

The research component comprises the writing of a thesis and a draft article for publication. A two-page outline proposal has to be submitted to the head of the department. Upon approval of the proposal, a supervisor(s) will be appointed. The candidate will work under the guidance of his/her supervisor to develop a detailed research proposal according to the departmental guidelines. The proposal has to be approved by all relevant committees before the candidate can commence with the thesis. The candidate will then continue to work under supervision of his/her supervisor to complete the research and to develop and finalise a thesis according to departmental guidelines and regulations. A public defence of the final thesis is required as part of the examination process.

A candidate, before or on submission of the thesis, must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the thesis and be approved by the supervisor. The draft article is a necessary condition for the degree to be conferred on the candidate.

The weight of the research component (thesis and draft article for publication) contributes 100% towards the total requirement for the degree (thesis 80%, article 20%). All prescribed modules are prerequisites for the thesis.

PhD Economics (07267052)

Minimum duration of study 2 years

Programme information

The PhD (Economics) programme is a research degree, requiring the completion of supervised as well as independent research resulting in peer-reviewed publication. Students interested in pursuing the PhD (Economics)-degree programme are expected to have completed the equivalent of the MPhil (Economics)

programme, including advanced topics courses. Students who have not completed the required courses, can still be considered for the degree, but will be required to either complete the necessary courses, as part of a bridging arrangement, or register for the MPhil in Economics.

All postgraduate programmes are not offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 65%.
- EBW 801 is a prerequisite for the thesis (EKN 995) and the module does not carry any credits. The thesis contributes 100% towards the total requirements for the degree.

Additional requirements

Capacity limitations

- The supervision of postgraduate students is a time-consuming process, and, therefore, the Department reserves the right to limit the amount of students accepted into the programmes.
- All reasonable measures will be undertaken to ensure that students who meet the minimum requirements are accepted.
- In the event that department capacity cannot accommodate the number of students who meet the minimum requirements, the Department will rank students according to the above averages, and the top performing students will be admitted to the programme, up to the limit of department teaching and supervision capacity.

Additional information

- All students accepted into the programme will be required to attend an intensive Mathematics and Statistics session. At the end of this session, students will be required to write an exam. Those students who fail the exam and those who did not attend the abovementioned session will be deregistered from the programme. The Department will also reserve the right to request that those students who have failed or did not attend the Mathematics and Statistics session enrol for appropriate modules before they will be allowed to continue with the doctoral programme.
- Students who have not completed a full year of Microeconomics, Macroeconomics and Econometrics as part of their master's studies, may be considered for the programme, but they will be required to complete additional modules, as recommended by the Department of Economics.
- All students will be expected to work in a research area that is relevant to current staff capabilities. The Department of Economics reserves the right to not admit suitable candidates, should their research interests can not be accommodated by staff supervision capacity.
- The Department of Economics is serious about the need to develop students from previously disadvantaged backgrounds, and, therefore, the Department will allocate additional marks, allowing for an increase in the average of up to two percentage points, to South African students from previously disadvantaged backgrounds.
- The Department of Economics also accepts that it has a responsibility to provide its own students with a seamless educational experience, and, therefore, the Department will allocate additional marks, allowing for an increase in the average of up to one percentage point, to students who previously studied at the University of Pretoria.

The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Other programme-specific information

EBW 801 is a prerequisite for the thesis (EKN 995) and the module does not carry any credits. The course can be waived for students who have already completed it, or a similar course. The thesis contributes 100% towards the total requirements for the degree.

Continuation Policy

Students are expected to complete the degree within three years. Thus, significant progress must be made each year. Each student and supervisor will sign an MOU regarding expectations, and at the end of each year, student progress will be assessed by the department's postgraduate committee, which reserves the right to recommend that a student not be allowed to continue with their program of study.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Research information

At least one chapter from the thesis must (at the very least) be submitted for publication before the degree can be awarded. Furthermore, students are expected to defend their proposal; they are also expected to present their findings on a continuous basis within the department's seminar series.

PhD Financial Management Sciences (07267204)

Minimum duration of study 2 years

Contact Prof HP Wolmarans hendrik.wolmarans@up.ac.za +27 (0)124203381

Programme information

The PhD Financial Management Sciences is a research degree requiring supervised and independent research resulting in a unique scientific contribution to existing knowledge and culminating in a thesis and peer-reviewed publication. The research component weighs 100% towards the degree requirements.

All postgraduate programmes are not offered every year due to capacity and other constraints. Applicants are encouraged to contact the programme coordinator to determine the status of this programme for a specific year.

Admission requirements

- A relevant Master's degree **with an average of at least 65%**.
- A **Research Outline** of about 1 000 words must be submitted to the course coordinator in order to be evaluated by the departmental Research Committee.

- The planned research must be aligned with the departmental research focus areas.
- Applications are subjected to a selection process taking into account, amongs others an applicant's previous academic performance, work and research experience and the submitted research outline.
- Approval of an application by the departmental Research Committee is crucial before a student may register.
- Once the research outline is officially approved the candidate may register and a supervisor will be appointed. The candidate will work under the guidance of the supervisor until the research is completed according to the rules and regulations of the university.
- Candidates with international degrees need to submit an accreditation certificate from the South African Qualifications Authority (SAQA) with their application. SAQA can be contacted at [click here](#)

Additional requirements

The module FBS 884 (Financial Management 884) in Research Methodology is prescribed. However, under special circumstances, the Dean may give exemption from this module. Overall, the Head of Department may prescribe additional seminars for a candidate.

Other programme-specific information

The Dean has authorisation regarding matters not provided for in the General Regulations. The Dean may also, during any academic year and at the recommendation of the Postgraduate Committee, cancel the registration of any student whose academic progress is not satisfactory.

Examinations and pass requirements

No written examinations or coursework are required. However, the thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2. The faculty's requirements for PhDs, for instance with respect to Ethical Clearance, also have to be adhered to.

Research information

These research components contribute 100% of the total requirements for the degree.

PhD Fraud Risk Management (07267332)

Minimum duration of study 2 years

Contact [Prof K Barac](#) karin.barac@up.ac.za +27 (0)124205439

Programme information

The PhD with the option in Fraud Risk Management is a research degree, requiring the completion of supervised as well as independent research resulting in a thesis.

All postgraduate programmes are not offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 60%.
- MPhil in Fraud Risk Management University of Pretoria, or a similar degree
- Master's degree in the Financial Sciences
- Master's degree in associated disciplines such as Criminology, Computer Sciences and Law
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations. Due to capacity constraints, there are not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Additional requirements

- a. MPhil in Fraud Risk Management University of Pretoria, or a similar degree
- b. Master's degree in the Financial Sciences
- c. Master's degree in associated disciplines such as Criminology, Computer Sciences and Law

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Research information

The research component comprises a thesis from which a research article for publication follows. A candidate will work under the guidance of a supervisor to develop a detailed research proposal in accordance with departmental guidelines and regulations. The proposal must be presented to the departmental PhD committee and must be officially approved by all relevant committees before the candidate can commence with his/her research. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University. A public defence of the final thesis is compulsory and forms part of the final examination. A research article, approved by the study leader, based on the candidate's research must be submitted for publication to a recognised accredited journal. The submission of an article is a compulsory pre-condition for the degree to be conferred.

PhD Informatics (07267174)

Minimum duration of study 2 years

Contact Prof MC Matthee machdel.matthee@up.ac.za +27 (0)124203365

Programme information

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 65%.

Important: Students will only be allowed to register for the PhD in Informatics if the Department of Informatics has the necessary expertise.

The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations. Due to capacity constraints, there may not be an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Additional requirements

Important: Students will only be allowed to register for the PhD in Informatics if the Department of Informatics has the necessary expertise and the candidate complies with all the prerequisites as described below:

Additional information

INF 830/INF 833/INF 834 (or INF 823) must have been passed for the master's degree. If not, a student has to register for INF 830/INF 833/INF 834 (Fundamentals of Informatics Research (FIR) programme) in the first year of the PhD (Informatics) registration. An average of at least 65% must be attained in order to be considered for the PhD programme. However, note that acquisition of the required 65% average for these modules does not automatically ensure admittance to the PhD programme. This will depend on the acceptance of the research

proposal by the Postgraduate Committee of the Department of Informatics.

A research proposal (three to five pages) must be submitted. This proposal will be considered by the Postgraduate Committee of the Department of Informatics in terms of feasibility and the availability of expertise. If the proposal is acceptable, a student may register for PhD (Informatics).

In addition, a one-page summary of discussions with at least two lecturers in the department about the proposed topic must be submitted. (The Informatics website contains information on the research teams and topics within the department.)

In the module INF 830 a detailed proposal is developed. Once the FIR programme (with 65% average) is passed, a supervisor will be appointed and the student will be informed by the Postgraduate coordinator of the Informatics Department and will then allowed to register for the PhD and be entitled to receive study guidance from the appointed study leader.

The FIR programme consists of the following modules:

- INF 833 Thinking about IS thinking 833
- INF 834 IS theories 834
- INF 830 Research methodology and proposal 830

Note, if one of these preparatory is failed modules, or the 65% average is not met, a student will not be allowed to enrol for the PhD, or to repeat any of the abovementioned modules.

While attending the FIR programme a student has to travel to Pretoria at least once a month from February to May and again from July to November 2015.

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Thesis 995 (INF 995) - Credits: 360.00

PhD Labour Relations Management (07267064)

Minimum duration of study 2 years

Programme information

The PhD degree is conferred by virtue of a thesis.

The head of department reserves the right to prescribe any additional modules/seminars for a candidate.

A candidate must also pass the compulsory module in EBW 801 Research methodology 801 if it has not been completed at master's level. However, the Dean may, in exceptional cases and on the recommendation of the head of department/director concerned, waive this prerequisite.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 65%.

Additional requirements

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Research information

A candidate will work under the guidance of a supervisor to develop a detailed research proposal according to departmental guidelines and regulations. The proposal must be presented to the departmental PhD committee and must be officially approved by all relevant committees before the candidate can commence with his/her research. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University. A public defence of the final thesis is compulsory and forms part of the final examination. Furthermore, a research article based on the candidate's research must be submitted for publication to a recognised accredited journal. The article is a compulsory condition for the degree to be conferred on the candidate. The research component contributes 100% towards the total requirement for the degree.

PhD Leadership (07267075)

Minimum duration of study 2 years

Contact Prof D de Jongh derick.dejongh@up.ac.za +27 (0)124293386

Programme information

The PhD in Leadership is a research degree, requiring the completion of supervised as well as independent research resulting in a thesis.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree.

Additional requirements

- i. Research methodology module (unless exemption is granted)
- ii. Research proposal
- iii. The Director of the Centre may, however, set additional admission requirements.

Selection for admission will require the submission by candidates of a written pre-proposal which briefly outlines their intended research topic supported by a short motivation. In addition to this the candidate is expected to present his/her understanding of the key academic articles in the field of leadership to an internal panel.

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Research information

The research component comprises a thesis and two research articles submitted for publication. Once the student has registered for the PhD, the candidate will work under the guidance of a supervisor to develop a detailed research proposal in accordance with Centre guidelines and regulations. The proposal must be defended during a formal presentation presented to the Centre PhD committee and must be officially approved by all relevant committees before the candidate can commence with his/her research. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules

and regulations of the University. A public defence of the final thesis is compulsory and forms part of the final examination. Two research articles, based on the candidate's research, must be submitted for publication to a recognised accredited journal. At least one of these must be accepted for publication. These articles are a compulsory condition for the degree to be conferred on the candidate. The research component contributes 100% towards the total requirement for the degree.

Minimum duration of study 2 years

Contact Prof L van der Westhuizen liezl-marie.vanderwesthuizen@up.ac.za +27 (0)124203004

Programme information

Full particulars of the degree programme are contained in a brochure which is available from the departmental website.

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Relevant master's degree with an average of at least 65%.
- The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations. Due to capacity constraints, there are not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Additional requirements

Prospective students who meet the requirements as set out will be invited to a selection and evaluation process where psychometrics tests and interviews will be completed.

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Examinations and pass requirements

It is a requirement that all provisionally admitted Doctoral students write a research proposal and present their proposals at a Doctoral Colloquium by the end of the year following their application to the Department's Doctoral programme.

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

PhD Public Administration and Management (07267113)

Minimum duration of study 2 years

Programme information

All postgraduate programmes are not offered every year. Please consult the relevant faculty concerning the presentation of this programme.

(See General Regulations G.42 to G.54)

Admission requirements

- An accredited master's degree in Public Administration or a related discipline from an accredited tertiary educational institution.
- A minimum of 65% for the master's dissertation which must have been externally examined.

Additional requirements

Candidates will only be considered for admission to the PhD (Public Administration and Management) if the Postgraduate Committee of the School of Public Management and Administration is convinced that the applicant has the necessary expertise to complete the required seminar in the field of Public Administration successfully and has gained sufficient research knowledge on the master's level to conduct research for and complete a doctoral thesis.

The Dean has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations. Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Other programme-specific information

PAD 990: Thesis Public Administration and Management in accordance with the General Regulations of the

University of Pretoria applying at the time of registration.

Research information

Proof of submission of an article to an accredited journal on the thesis topic is required as part of the graduating process.

A thesis is submitted to the Head: Student Administration, before the closing date for the various graduation ceremonies as announced annually.

Curriculum: Year 1

Minimum credits: 360

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Programme information

The PhD with the option in Tax Policy is a research degree, requiring the completion of supervised as well as independent research resulting in a thesis.

All postgraduate programmes are not offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- A relevant master's degree with an average of at least 60% and
- Relevant work experience acceptable to the Director of the African Tax Institute.

Additional Requirements

- Successful completion of the African Tax Institute's ([click here](#)) selection process; and
- Successful completion of the MPhil: Taxation module Comparative Tax Policy and Administration 835 (EKM 835).

Additional requirements

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Examinations and pass requirements

The thesis should be passed in accordance with the stipulations of Regulations G.52 and G.60.2.2, as well as a compulsory module in Research Methodology.

Research information

The research component comprises a thesis and three research articles submitted for publication. A candidate will work under the guidance of a supervisor to develop a detailed research proposal in accordance with departmental guidelines and regulations. The proposal must be presented to the departmental PhD committee and must be officially approved by all relevant committees before the candidate can commence with his/her research. The candidate will continue his/her research under the guidance of his/her supervisor until the research is completed according to the rules and regulations of the University. A public defence of the final thesis is compulsory and forms part of the final examination. Three research articles, based on the candidate's research, must be submitted for publication to a recognised accredited journal. At least one of these must be accepted for publication. These articles are a compulsory condition for the degree to be conferred.

Programme information

Not all postgraduate programmes are offered every year. Please consult the relevant faculty concerning the presentation of this programme.

Admission requirements

- Subject to the provisions of the General Regulations, an appropriate master's degree is required.
- The Postgraduate Committee reserves the right to prescribe additional modules/seminars for a candidate until he/she has met the specified requirements.

Additional requirements

The Postgraduate Committee reserves the right to prescribe additional modules/seminars for a candidate until he/she has met the specified requirements.

The Dean or Postgraduate Committee has the right of authorisation regarding matters not provided for in the General Regulations or the Faculty regulations.

Due to capacity constraints, there is not an intake of new students every year. It remains the applicant's responsibility to ensure that the degree they wish to apply for, will indeed be offered.

Research information

The research component comprises the writing of a thesis and a draft article for publication. A short proposal has to be submitted to the postgraduate programme manager. Upon approval of the proposal, a supervisor(s) will be appointed. The candidate will work under the guidance of his/her supervisor to develop a detailed research proposal according to the departmental guidelines and regulations. The proposal has to be approved by all relevant committees before the candidate can commence with the thesis. The candidate will then continue to work under supervision of his/her supervisor to complete the research and to develop and finalise a thesis according to departmental guidelines and regulations. A public defence of the final thesis is required as part of the examination process.

Before or on submission of the thesis, the candidate must submit at least one draft article for publication in a recognised academic journal. The draft article should be based on the research the candidate has conducted for the thesis and be approved by the supervisor. The draft article is a necessary condition for the degree to be

conferred on the candidate.

The research component (thesis and draft article for publication) contributes 100% towards the total requirement for the degree. All prescribed modules are a prerequisite for the thesis.

An approved module from other programmes in other faculties can also be included with the consent from the Postgraduate Committee and the Postgraduate Committee of the other department concerned.

The theoretical basis of Labour Relations

In this section the basic concepts, historical context and theoretical approaches to the field of labour relations will be discussed. The institutional framework in which labour relations operates, will be addressed with particular emphasis on the structural mechanisms and institutional processes. The service relationship that forms the basis of labour relations practices, will also be analysed.

Labour Relations practice

In this section students are taught the conceptual and practical skills related to practice aspects such as handling of grievances, disciplining, retrenchments, collective bargaining, industrial action and dispute resolution.

Introduction to industrial and organisational psychology

Industrial and Organisational Psychology is an applied field of Psychology that is involved with employee and organisational behaviour, and which has become a study field and professional speciality in its own right. This module aims to introduce the student to:

- the history and development of psychology and industrial and organisational psychology,
- the different sub-fields in psychology with special emphasis on the sub-fields of industrial and organisational psychology,
- how the different theoretical approaches in psychology view the human psyche and their views on human behaviour,
- genetics and the biological basis of human behaviour, to better understand the differences between people and to lay the foundation for ergonomical principles,
- how scientific research can be used to understand and handle human problems and to facilitate the optimal functioning of people in their work environments.

Individual processes

This section consists of the principles of learning as found in the work context. The role of perception in the work environment will be discussed by considering aspects such as shape, depth, distance and colour perceptions. Cognition, thought, reasoning, memory, creativity and decision-making will be included. Intelligence will be addressed and placed in an industrial and organisational psychology perspective.

Human development and personality

This module consists of a discussion of the life span and important periods in human development with emphasis on their meaning in the work context. With regard to personality, the following themes will be addressed: the cultural context of personality, its formation and determinants of personality; personality as determinant of behaviour as well as the development and maintenance of self-image. Attention will be given to the basic methods of personality measuring and personality assessment.

Motivation and employee well-being

One of the many factors that form part of individual processes is Motivation and Emotion. An understanding of individual processes will contribute to an understanding of how and why employees perform in their workplaces. The first part of this semester course aims to introduce the student to the foundational theories of motivation and emotion. The second part of this semester course is concerned with the recognition and classification of psychological disorders and the management and promotion of psychological well-being in organisations. A positive view of psychological health aims at facilitating people's inner resources or strengths and resiliencies so that they stay healthy and cope effectively.

Module content

Capita selecta

This module will provide an introduction to personnel psychology, organisational behaviour and labour relations. It will refer to the selection of employees and the training and development of human resources in order to adapt to changing circumstances. The role of leadership in group utilisation and motivation will be treated both theoretically and practically. Labour relations will be studied in terms of institutional processes and the service relationship and will include practical aspects such as the handling of grievances, disciplining and dispute resolution.

Group behaviour and leadership

This module will focus on organisational behaviour with specific reference to the principles of group behaviour and the role of work teams in the organisation. Particular attention will be paid to group development, group interaction, group structures, group processes and the promotion of team performance in the organisation. Leadership and the effect of power and politics in the organisation will be studied. The function of leadership in individual, group and task-oriented behaviour will also be addressed.

Organisational behaviour

The behavioural basis for organisational structuring and organisation design will be addressed. This will include organisational culture as an important facet in any organisation. The dynamics and approaches to organisational change will be addressed with specific reference to the role of change agents, resistance to change and organisational development with a practical discussion of the contemporary problems of organisational change, personnel turnover, fatigue, boredom, absenteeism, conflict accidents.

Performance management, training and development

This section will address the main characteristics of a performance management system and will focus on the strategic and motivational value of the process and will address the following: the basic concepts in performance management, the performance management process, performance management methods, and the performance appraisal interview. This module will also address training and development in the workplace and will specifically emphasise the training process. This will include: basic concepts in training and development, the training process, needs assessment, design and implementation of a training programme and legislation related to training and development in SA.

People and career development

This section will address current methods that can be used to develop human resources and to present career development programmes in order to promote performance at both an individual and organisational level. Emphasis will be on the implications of changes in organisations to careers, career concepts, career management models, life and career stages, career issues, organisational choice, career development support practices, and emerging human resource practices. The integration of individual career expectations with the organisation's requirements and strategies will be illustrated using the career management literature.

The module is principally concerned with the taxes and duties levied in terms of the following six statutes:

- Income Tax Act, 1962 (Act 58 of 1962);
- Value-Added Tax Act, 1991 (Act 89 of 1991);
- Estate Duty Act, 1995 (Act 45 of 1995);
- Sections 2(1)(b) and 9(15) of the Transfer Duty Act, 1949 (Act 49 of 1949);
- Section 2 of the Securities Transfer Tax Act, 2007 (Act 25 of 2007); and
- Certain sections of the Tax Administration Act, 2011 (Act 28 of 2011).

The purpose of the module is to enable the learner to integrate all the above taxes and to prepare tax calculations and to advise on tax matters in accordance with legal requirements. The content and knowledge levels of this module are revised annually based on the examinable taxation pronouncements for SAICA's Initial Test of Competence.

Module content

This module will be principle based and a lot of attention will be given to ensuring students have grasped and can apply the core principles, with emphasis on developing lifelong learners. Our aim is to equip students with sufficient base knowledge about tax to further upskill themselves as tax legislation changes or as they move into a tax specialist role in future.

Provisions from the following Acts are included in the syllabus:

- The Income Tax Act, 1962 (Act 58 of 1962);
- The Estate Duty Act, 1955 (Act 45 of 1955);
- The Value-Added Tax Act, 1991 (Act 89 of 1991);
- The Tax Administration Act, 2011 (Act 28 of 2011).
- The Transfer Duty Act, 1949 (Act 49 of 1949); and
- The Securities Transfer Tax Act, 2007 (Act 25 of 2007).

Module content

This module equips the student to conduct independent research by executing a research project on a relevant topic, of which the findings are reported in an academic article.

Marketing theory 813 (BEM 813)

Qualification Postgraduate

Module credits 18.00

Prerequisites Only for students admitted to the MPhil degree in Marketing Research

Contact time 1 full contact day 5 times per semester

Language of tuition Module is presented in English

Department Marketing Management

Period of presentation Semester 1 or Semester 2

Module content

Practical marketing research implications of the latest issues, trends and applications in the theory and practices in the field of marketing management.

Quantitative research for marketing decisions 814 (BEM 814)

Qualification Postgraduate

Module credits 18.00

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Marketing Management

Period of presentation Semester 2

Module content

The role of quantitative methods in marketing research; Exploratory research design: Secondary data; Descriptive research design: Survey and Observation; Causal research design: Experimentation; Measurement and Scaling: Fundamentals and Comparative scaling; Measurement and Scaling: Non-comparative scaling; Sampling: Final and Initial sample size determination; Frequency distribution, Cross-tabulation, and Hypothesis testing.

Qualitative research for marketing decisions 815 (BEM 815)

Qualification Postgraduate

Module credits 18.00

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Marketing Management

Period of presentation Semester 2

Module content

The role of qualitative methods in marketing research; Observation techniques; Focus groups; Depth interviews; Protocol analysis; Projective techniques; Content analysis; Ethnographic research; Physiological measurement; other qualitative research techniques; analysis of qualitative data.

Multivariate statistical methods 816 (BEM 816)

Qualification Postgraduate

Module credits 20.00

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Marketing Management

Period of presentation Semester 1

Module content

Overview of multivariate statistical analysis in the marketing context; multivariate analysis of marketing research data; analysis of variance and covariance; correlation and regression; discriminant and logit analysis; factor analysis; cluster analysis; multidimensional scaling and conjoint analysis; structural equation modelling and path analysis.

Advanced cases in market research 817 (BEM 817)

Qualification Postgraduate

Module credits 18.00

Prerequisites Appropriate courses in Statistics and Research Methodology in the preceding qualification.

Contact time 2 hours per week

Language of tuition Module is presented in English

Department Marketing Management

Period of presentation Semester 1

Module content

Advanced cases in market research demonstrating the broad range of qualitative, quantitative and statistical applications in market research within the various sectors of business and industry.

Strategic issues in marketing 822 (BEM 822)

Qualification Postgraduate

Department Statistics

Period of presentation Semester 2

Module content

Simple statistical analysis: Data collection and analysis: Samples, tabulation, graphical representation, describing location, spread and skewness. Introductory probability and distribution theory. Sampling distributions and the central limit theorem. Statistical inference: Basic principles, estimation and testing in the one- and two-sample cases (parametric and non-parametric). Introduction to experimental design. One- and two-way designs, randomised blocks. Multiple statistical analysis: Bivariate data sets: Curve fitting (linear and non-linear), growth curves. Statistical inference in the simple regression case. Categorical analysis: Testing goodness of fit and contingency tables. Multiple regression and correlation: Fitting and testing of models. Residual analysis. Computer literacy: Use of computer packages in data analysis and report writing.

Biometry 210 (BME 210)

Qualification	Undergraduate
Module credits	24.00
Programmes	BSc Biotechnology
Service modules	Faculty of Natural and Agricultural Sciences
Prerequisites	BME 120
Contact time	1 practical per week, 4 lectures per week
Language of tuition	Module is presented in English
Department	Statistics
Period of presentation	Semester 1

Module content

Analysis of variance: Multi-way classification. Testing of model assumptions, graphics. Multiple comparisons. Fixed, stochastic and mixed effect models. Block experiments. Estimation of effects. Experimental design: Principles of experimental design. Factorial experiments: Confounding, single degree of freedom approach, hierarchical classification. Balanced and unbalanced designs. Split-plot designs. Analysis of covariance. Computer literacy: Writing and interpretation of computer programmes. Report writing.

Statistics for biological sciences 780 (BME 780)

Programmes	BCom Accounting Sciences BCom Accounting Sciences
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Separate classes for Afrikaans and English
Department	Philosophy
Period of presentation	Semester 1

Module content

In the first quarter of this module students are equipped with an understanding of the moral issues influencing human agency in economic and political contexts. In particular philosophy equips students with analytical reasoning skills necessary to understand and solve complex moral problems related to economic and political decision making. We demonstrate to students how the biggest questions concerning the socio-economic aspects of our lives can be broken down and illuminated through reasoned debate. Examples of themes which may be covered in the module include justice and the common good, a moral consideration of the nature and role of economic markets on society, issues concerning justice and equality, and dilemmas of loyalty. The works of philosophers covered may for instance include that of Aristotle, Locke, Bentham, Mill, Kant, Rawls, Friedman, Nozick, Bernstein, Dworkin, Sandel, Walzer, and MacIntyre. In the second quarter of the module the focus is on professionalism, careers and ethics. Codes of ethics in business and professions, professional codes, as well as ethical issues in the accountancy profession are discussed.

Management philosophy 800 (BSF 800)

Qualification	Postgraduate
Module credits	20.00
Programmes	MPhil Communication Management (Coursework) MPhil Communication Management (Coursework)

Module content

The work of management and the need for managerial accounting information. The changing business environment. Cost terms, concepts, and classification. Job order costing. Process costing. Activity-based costing and quality management. Cost-volume-profit relations. Variable and fixed costing. Budgeting and control. Standard costs and flexible budgets. Segment reporting and decentralisation. Relevant costs for decision-making. Allocations of service departments cost to operating departments.

Marketing of services 780 (BVD 780)

Qualification	Postgraduate
Module credits	25.00
Programmes	BComHons Marketing Management BComHons Marketing Management
Prerequisites	Only for BComHons (Marketing Management) students
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Marketing Management
Period of presentation	Semester 1 or Semester 2

Module content

Marketing of services gives the student an opportunity to study a speciality area of marketing, which has become a necessity in the South African marketing world. The module aims at studying important concepts of the basic theory of marketing of services with specific reference to the practical use thereof in the daily business situation. In addition the student is given the opportunity to apply the speciality area of marketing of services in practice and is simultaneously exposed to the latest developments in marketing of services. Topics which will be handled include the difference between products and services, the expanded marketing services mix, the philosophy of service quality and the measuring of quality service. Evaluation is in the format of short seminars within group context, progress tests, and assignments.

Program design: Introduction 110 (COS 110)

Qualification	Undergraduate
Module credits	16.00
Programmes	BSc Extended programme - Mathematical Sciences BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Economic and Management Sciences Faculty of Natural and Agricultural Sciences
Prerequisites	COS 132 , COS 151 and Maths level 5
Contact time	1 practical per week, 1 tutorial per week, 3 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Computer Science
Period of presentation	Semester 2

Module content

The focus is on object-oriented (OO) programming. Concepts including inheritance and multiple inheritance, polymorphism, operator overloading, memory management (static and dynamic binding), interfaces, encapsulation, reuse, etc. will be covered in the module. The module teaches sound program design with the emphasis on modular code, leading to well structured, robust and documented programs. A modern OO programming language is used as the vehicle to develop these skills. The module will introduce the student to basic data structures, lists, stacks and queues.

Imperative programming 132 (COS 132)

Qualification Undergraduate

Module credits 16.00

Programmes BSc Mathematical Statistics
BCom Statistics

Service modules Faculty of Economic and Management Sciences
Faculty of Natural and Agricultural Sciences

Prerequisites APS of 30 and level 5 (60-69%) Mathematics

Contact time 1 practical per week, 1 tutorial per week, 3 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Computer Science

Period of presentation Semester 1

Module content

This module introduces imperative computer programming, which is a fundamental building block of computer science. The process of constructing a program for solving a given problem, of editing it, compiling (both manually and automatically), running and debugging it, is covered from the beginning. The aim is to master the elements of a programming language and be able to put them together in order to construct programs using types, control structures, arrays, functions and libraries. An introduction to object orientation will be given. After completing this module, the student should understand the fundamental elements of a program, the importance of good program design and user-friendly interfaces. Students should be able to conduct basic program analysis and write complete elementary programs.

Communication writing skills 831 (CWR 831)

Qualification Postgraduate

Language of tuition Module is presented in English

Department Business Management

Period of presentation Year

Module content

An internship and the documentation of a case study of development policy implementation will expose students to the practice of development policy implementation in Africa. Students will be assigned to an internship institution according to their field of specialisation. In addition to exposing students to the everyday realities of policy development and implementation the internship will provide students with the opportunity to document the implementation of a particular development policy. This will provide students with the opportunity to relate their foundational knowledge acquired in the theory track with the practice and complexity of policy implementation. Students will be equipped with the relevant theory and research skills to document and interpret a case study on policy implementation. Before embarking on the specialisation phase students will be required to reach a number of milestones, including a specified number of face-to-face meetings with supervisors, completion of a research methodology course, submission of a draft research design and literature review, submission of an updated research design and literature review and subsequent research proposal. In the specialisation phase of this track students will use their foundational knowledge and skills as basis to do fieldwork for the documentation of a particular case of development policy implementation. Students will be required to complete the case study in the months that follow their internship.

Research methodology 801 (EBW 801)

Module content

This module deals with the core principles of economics. A distinction between macroeconomics and microeconomics is made. A discussion of the market system and circular flow of goods, services and money is followed by a section dealing with microeconomic principles, including demand and supply analysis, consumer behaviour and utility maximisation, production and the costs thereof, and the different market models and firm behaviour. Labour market institutions and issues, wage determination, as well as income inequality and poverty are also addressed. A section of money, banking, interest rates and monetary policy concludes the course.

This module deals with the core principles of economics, especially macroeconomic measurement the private and public sectors of the South African economy receive attention, while basic macroeconomic relationships and the measurement of domestic output and national income are discussed. Aggregate demand and supply analysis stands core to this course which is also used to introduce students to the analysis of economic growth, unemployment and inflation. The microeconomics of government is addressed in a separate section, followed by a section on international economics, focusing on international trade, exchange rates and the balance of payments. The economics of developing countries and South Africa in the global economy conclude the course.

Module content

Evidence over the last fifty years has shown that trade remains the engine for growth and development across the world and for almost each individual country. This module comprises a thorough analysis of international trade with an emphasis on trade theory, growth and development. It exposes students to the critical issues that policymakers grapple with on a day-to-day basis (WTO issues) and extends the international trade theory to policymaking. Furthermore, an understanding of the circumstances within which international trade policy is made in developing countries with particular reference to South Africa.

Language of tuition	Module is presented in English
Department	Economics
Period of presentation	Semester 1 or Semester 2

Module content

This module presents an advanced treatment of critical topics in monetary economics and the models economists use to investigate the interactions between real and monetary factors. It provides extensive coverage of general equilibrium (DSGE) models, models of the short-run real effects of monetary policy, and game-theoretic approaches to monetary policy. Among the topics covered are models of time consistency, monetary policy operating procedures, interest rates and monetary policy.

Throughout, this module focuses on the implications of interest rate control for monetary policy. The module is designed for advanced graduate students in monetary economics, economic researchers and economists working in policy institutions and central banks.

The module includes discussions of empirical evidence on the new Keynesian model, inflation forecast targeting models, optimal policies in forward-looking models, stability and the Taylor principle, and open economy new Keynesian models. It explicitly treats policy analysis in new Keynesian models and their underlying DSGE foundations for both a closed economy, a small open economy and a two-country world economy; the discussion includes the derivation of the policy objective function, optimal commitment and discretionary outcome, targeting rules and instrument rules.

Language of tuition	Module is presented in English
Department	Economics
Period of presentation	Semester 1 or Semester 2

Module content

Selected topical issues in the areas of tax policy, tax administration and tax governance, such as international taxation and tax treaties, taxation and development, tax analysis and aspects of revenue forecasting will be considered.

Introduction to the tax environment 840 (EKN 840)

Qualification	Postgraduate
Module credits	15.00
Programmes	MPhil Taxation (Coursework) MPhil Taxation (Coursework)
Prerequisites	No prerequisites.
Contact time	5 days 08h00 to 16h00
Language of tuition	Module is presented in English
Department	Economics
Period of presentation	Semester 1

Module content

This module will review and analyse the impact of tax systems and different tax instruments on the allocation and mobilisation of resources, economic stability and growth, as well as the distribution of income and wealth, as well as the appropriate role and design of different taxes. It will further cover taxation in the context of constitutional and administrative law, procedural law, an appropriate constitutional and legal environment for a well-functioning tax system, as well as the theoretical and practical aspects of drafting and interpreting tax legislation.

Health economics 864 (EKN 864)

Qualification	Postgraduate
Module credits	10.00
Programmes	MCom Economics (Coursework) MCom Econometrics (Coursework) MCom Economics (Coursework)

Prerequisites Registered for MCom Economics.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Economics

Period of presentation Semester 1

Module content

EKN 864 is dedicated to health economics. The course will examine Grossman's model of health capital, markets for health insurance, physician-patient agency problems. We will also examine a number of issues related to access to care, quality of care, financing and health inequality.

Financial economics 865 (EKN 865)

Qualification Postgraduate

Module credits 10.00

Programmes [MCom Economics \(Coursework\)](#)
[MCom Economics \(Coursework\)](#)

Prerequisites Registered for MPhil Economics.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Economics

Period of presentation Semester 1

Module content

EKN 865 is dedicated to financial economics, which includes models of pricing in markets for financial instruments, as well as imperfect information in financial markets, financial contracts, and the relationship between preferences and financial decisions.

Economics 882 (EKN 882)

Qualification Postgraduate

Module credits 10.00

Prerequisites Registered for MPhil Economics or PhD Economics

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Economics

Period of presentation Semester 1

Module content

EKN 882 is a research topics module focusing on microeconomic issues. The content will change from year to year, as the research frontier in microeconomics is extended.

Economics 883 (EKN 883)

Qualification	Postgraduate
Module credits	10.00
Prerequisites	Registered for MPhil Economics or PhD Economics

Econometrics 713 (EKT 713)

Qualification	Postgraduate
Module credits	15.00
Programmes	BComHons Agricultural Economics BComHons Agricultural Economics BComHons Economics
Service modules	Faculty of Natural and Agricultural Sciences
Prerequisites	Only for BComHons: Agricultural Economics, Econometrics or Economics students
Contact time	2 lectures per week
Language of tuition	Module is presented in English
Department	Economics
Period of presentation	Semester 1

Module content

An introductory yet comprehensive course in econometrics, encompassing an in-depth examination of elementary statistics and regression analysis. This includes the fundamentals of simple and multiple regression analyses, as well as estimation, inference and hypothesis testing. Considerable attention is devoted to practical applications on current economic issues and examples drawn from the applied economic literature.

Econometrics 714 (EKT 714)

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 2

Module content

The emphasis is on the theoretical understanding and practical application of advances in statistical modelling. The following topics are covered: Single equation models: Nonparametric regression. Bootstrap procedures within regression analysis, k-nearest neighbour classification. Modelling categorical dependent variables - Logit/Probit models. Multiple outputs. Linear regression of an indicator matrix. Ridge regression. Non-linear regression modelling. Some new developments in regression and classification.

Simultaneous equation models: Specification, identification and estimation of simultaneous equation models.

Prerequisites	Only for students in relevant programme
Language of tuition	Module is presented in English
Department	Economics
Period of presentation	Semester 1 or Semester 2

Module content

In this module, “panel data” refers to the pooling of observations on a cross-section of countries, households, firms, etc. over a number of time periods. We use panel data techniques for example to control for individual heterogeneity or to study the dynamics of adjustment. Panel data allows for more informative results, more variability, more degrees of freedom and more efficiency. This module focuses on statistical theory and empirical estimation, interpretation and evaluation of economic relationships, within a panel data context. The module covers both techniques applicable to stationary and non-stationary panel data sets, and begins with an introduction to one-way error component models (either including individual-specific or period-specific (time) effects), followed by two-way error component models (including individual-specific and time effects simultaneously). Estimation techniques include fixed effects (LSDV or “Within” estimation) and random effects estimation. Hypothesis testing includes tests for poolability (pooled vs. individual regressions), tests for fixed effects, random effects, and specification (exogeneity of the X-regressors). It also includes various tests for serial correlation and heteroscedasticity and the correction thereof. The section on stationary panel data techniques concludes with a discussion of seemingly unrelated regression (SUR) models. In the non-stationary panel data section we discuss unit root testing in the panel context, estimation of non-stationary panels and tests for co integration.

Language of tuition Separate classes for Afrikaans and English

Department Unit for Academic Literacy

Period of presentation Semester 1

Module content

An introduction to academic literacy that considers various learning styles and strategies, and provides an initial exploration of the characteristics of academic language. The module focuses initially on academic listening and speaking. Practice in collecting information for academic tasks, as well as in the processing of academic information. In addition, the module has a focus on the enhancement of academic vocabulary, and some initial and elementary academic writing is attempted.

Academic literacy (2) 120 (EOT 120)

Qualification Undergraduate

Module credits 6.00

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences
Faculty of Health Sciences
Faculty of Natural and Agricultural Sciences
Faculty of Theology and Religion
Faculty of Veterinary Science

Prerequisites No prerequisites.

Contact time 1 other contact session per week, 2 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Unit for Academic Literacy

Period of presentation Semester 2

Module content

While retaining an emphasis on the collection and processing of academic information, this module also provides sustained practice in academic reading. Similarly, we concentrate on building up an academic vocabulary specific to certain fields of study. The final part of the module brings together academic listening, reading and writing. The production of academic information in the form of argumentative writing is the focus here, i.e. we concentrate on producing academic discourse that is rational, coherent, clear and precise.

Module content

This module covers two subject areas – financial management and management accounting.

Financial management learning areas

Analysis and interpretation of the annual report and sustainability report of an entity; working capital management; financing covering the sources of financing including the capital, debt and money markets, export financing, off-balance-sheet financing structures, and an evaluation of the feasibility of the different financing instruments; cost of capital incorporating the calculation of the weighted average and weighted marginal cost of financing; capital structure theory; dividend theory; valuations incorporating the valuation of preference shares, debentures or bonds, selected financial instruments on a cash flow basis (swaps, options and forward rate agreements), the valuation of equity instruments (using the following models: intrinsic, dividend yield and dividend growth models, earnings yield and price-earnings, free cash flow or discounted cash flow) and the valuation of intellectual capital; mergers and acquisitions; and risk management, in particular managing currency and interest rate risk.

Management accounting learning areas

Costing in both manufacturing and service environments; decision making incorporating short-term decisions (incorporating cost-volume-profit analysis, relevant costing issues and linear programming), long-term decisions (incorporating different techniques for evaluating long-term decisions) and risk and uncertainty into the decision-making process; Transfer Pricing; performance measurement and management; planning incorporating budgeting, forecasting techniques, learning curves and human behavioural aspects of planning; standard costing and variance analysis; and trends in management accounting (developments in the subject area).

Module content

"The goal of a firm is to maximise the long-term wealth of its shareholders." Why do most management experts generally accept this statement? How do all the other objectives of a firm relate to this goal? Why is the success of most companies measured in financial terms? In FBS 831 answers to these questions are sought. The nature of and interaction between different financial statements are investigated, as well as their role in the creation of shareholder wealth. Although maximising shareholder wealth is the basic general cornerstone of management, recent developments point out that non-quantitative factors are also important in the measurement of company performance.

----------------------------	---

Department	Philosophy
-------------------	------------

Period of presentation	Quarter 2, 3 and 4
-------------------------------	--------------------

Module content

In this module students are equipped with an understanding of the moral issues influencing human agency in economic and political contexts. In particular philosophy equips students with analytical reasoning skills necessary to understand and solve complex moral problems related to economic and political decision making. We demonstrate to students how the biggest questions concerning the socio-economic aspects of our lives can be broken down and illuminated through reasoned debate. Examples of themes which may be covered in the module include justice and the common good, a moral consideration of the nature and role of economic markets on society, issues concerning justice and equality, and dilemmas of loyalty. The works of philosophers covered may for instance include that of Aristotle, Locke, Bentham, Mill, Kant, Rawls, Friedman, Nozick, Bernstein, Dworkin, Sandel, Walzer, and MacIntyre.

Module content

Financial Accounting 701 covers three learning areas, namely financial accounting and reporting, the analysis and interpretation of financial statements and group financial statements.

The learning area on financial accounting and reporting includes the following:

The conceptual framework for financial reporting; income taxes; presentation of financial statements; accounting policies, changes in accounting estimates and errors; revenue; provisions, contingent liabilities and contingent assets; events after the reporting period; inventories; employee benefits; share based payments; government grants; property, plant and equipment; non-current assets held for sale and discontinued operations; fair value measurement; intangible assets; impairment of assets; financial instruments; financial instruments: disclosure; financial instruments: presentation; financial instruments: recognition and measurement; leases; accounting for the effects of foreign exchange rates; earnings per share; investment property; borrowing costs; operating segments; the Companies Act; King III (disclosure); interim financial reporting; IFRS for SMEs; the insurance industry and IFRS; the banking sector and IFRS; medical aid schemes; retirement funds; GRAP; mineral resources and mining extraction costs; sustainability reporting; and XBRL.

In addition to the above, interpretations and circulars related to the specific topics listed above, will also be dealt with as and when appropriate.

The learning area on the analysis and interpretation of financial statements includes the following:

The statement of cash flows and the analysis and interpretation of statements of cash flows.

The learning area on group financial statements includes the following:

Separate financial statements; investments in associates and joint ventures; consolidated financial statements; joint arrangements; disclosure of interests in other entities; insolvent subsidiaries; non-current assets held for sale and discontinued operations (dealing with subsidiaries); business combinations; change in control and interim acquisitions and its impact in financial statements; the translation of financial statements of foreign operations; consolidated statements of cash flows; and related party disclosures.

In addition to the above interpretations and circulars related to the specific topics listed above, will also be dealt with as and when appropriate.

Department Accounting

Period of presentation Year

Financial accounting 801 (FRK 801)

Qualification Postgraduate

Module credits 70.00

Programmes [MCom Accounting Sciences \(Coursework\)](#)
[MCom Accounting Sciences \(Coursework\)](#)

Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Accounting
Period of presentation	Year

Module content

Financial accounting theory; Measurement in financial accounting; Conceptual framework; Introduction to research.

Financial accounting 802 (FRK 802)

Qualification	Postgraduate
Module credits	20.00
Programmes	MCom Accounting Sciences (Coursework) MCom Accounting Sciences (Coursework)
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Accounting
Period of presentation	Year

Module content

Current trends in research in financial accounting.

Mini-dissertation 895 (FRK 895)

Qualification	Postgraduate
Module credits	90.00
Programmes	MCom Accounting Sciences (Coursework) MCom Accounting Sciences (Coursework)
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Accounting
Period of presentation	Year

Fraud risk management 801 (FRM 801)

Qualification	Postgraduate
Module credits	15.00
Programmes	MPhil Fraud Risk Management (Coursework) MPhil Fraud Risk Management (Coursework)
Prerequisites	No prerequisites.

Contact time	5 days 08h00 to 16h00
Language of tuition	Module is presented in English
Department	Auditing
Period of presentation	Year

Module content

This module deals with the managing of the fraud risk by preventing and deterring fraud and corruption, rather than having to deal with the costly consequences thereof.

Economic crime schemes 802 (FRM 802)

Qualification	Postgraduate
Module credits	15.00
Programmes	MPhil Fraud Risk Management (Coursework) MPhil Fraud Risk Management (Coursework)
Prerequisites	No prerequisites.
Contact time	5 days 08h00 to 16h00
Language of tuition	Module is presented in English
Department	Auditing
Period of presentation	Year

Module content

This module aims to provide the fraud examiner with sufficient knowledge to detect and investigate a number of common financial fraud schemes.

Law for commercial forensic practitioners 803 (FRM 803)

Qualification	Postgraduate
Module credits	15.00
Programmes	MPhil Fraud Risk Management (Coursework) MPhil Fraud Risk Management (Coursework)
Prerequisites	No prerequisites.
Contact time	5 days 08h00 to 16h00
Language of tuition	Module is presented in English
Department	Auditing
Period of presentation	Year

Module content

This module aims to equip the fraud investigator with a sound knowledge of the legal aspects relating to his or her conduct. The module will also deal with the legal tools available in an investigation, how the fraud investigator could ensure that evidence will be admissible in subsequent proceedings, as well as the relevant legislation.

Investigation of financial crimes 804 (FRM 804)

Qualification Postgraduate

Module credits 15.00

Programmes [MPhil Fraud Risk Management \(Coursework\)](#)
[MPhil Fraud Risk Management \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 5 days 08h00 to 16h00

Language of tuition Module is presented in English

Department Auditing

Period of presentation Year

Module content

This module will focus on investigation methodologies and techniques which a fraud investigator can use in the investigation of fraud and corruption.

Investigation and management of cyber and electronic crime 805 (FRM 805)

Qualification Postgraduate

Module credits 15.00

Programmes [MPhil Fraud Risk Management \(Coursework\)](#)
[MPhil Fraud Risk Management \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 5 days 08h00 to 16h00

Language of tuition Module is presented in English

Department Auditing

Period of presentation Year

Module content

This module will address the legal and practical issues affecting the investigation and management of irregular on-line and computer-related conduct.

Money laundering detection and investigation 806 (FRM 806)

Qualification Postgraduate

Module credits 15.00

Programmes [MPhil Fraud Risk Management \(Coursework\)](#)
[MPhil Fraud Risk Management \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 5 days 08h00 to 16h00

Language of tuition Module is presented in English

Department Auditing

Period of presentation Year

Module content

This module deals with the development of money laundering detection and investigation skills.

Mini-dissertation 807 (FRM 807)

Qualification Postgraduate

Module credits 60.00

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Auditing

Period of presentation Year

Research article 808 (FRM 808)

Qualification Postgraduate

Module credits 70.00

Programmes [MPhil Fraud Risk Management \(Coursework\)](#)
[MPhil Fraud Risk Management \(Coursework\)](#)

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Auditing

Period of presentation Year

Module content

The theme of the research and the problem statement with identified research outcomes.

Research methodology 809 (FRM 809)

Qualification Postgraduate

Module credits 20.00

Programmes [MPhil Fraud Risk Management \(Coursework\)](#)
[MPhil Fraud Risk Management \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 2 days per semester

Language of tuition Module is presented in English

Department Auditing

Period of presentation Semester 1 or Semester 2

Module content

The basic tenets of academic research will be covered in this module, whilst the student will be working under supervision of his/her supervisor to develop an acceptable research proposal according to departmental guidelines.

Research proposal 901 (FRM 901)

Qualification Postgraduate

Module credits 1.00

Programmes [PhD Fraud Risk Management](#)
[PhD Fraud Risk Management](#)

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Accounting

Period of presentation Year

Module content

The aim of the research, the approach to be followed, the research methodology that will be applied and the outcomes of the research.

Thesis: Fraud risk management 995 (FRM 995)

Qualification Postgraduate

Module credits 360.00

Programmes [PhD Fraud Risk Management](#)
[PhD Fraud Risk Management](#)

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Accounting

Period of presentation Year

Module content

The outcome of the research in terms of the methodology applied, conclusions arrived at in terms of new knowledge contributed and areas identified for future research.

French for beginners 104 (FRN 104)

Qualification Undergraduate

Module credits 24.00

Programmes [BAdmin Public Management and International Relations](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 4 discussion classes per week

Language of tuition	Afrikaans and English are used in one class
Department	Ancient and Modern Languages and Cultures
Period of presentation	Year

Module content

*No previous knowledge of or experience in French required for admission. Students who passed grade 12 French are not allowed to register for this module.

An intensive introductory study of the French language focusing on the acquisition of basic communication skills, namely listening, reading, speaking and writing. It also offers a brief introduction to the culture of French-speaking countries. This module complies with the requirements for level A2 set by the “Common European Framework of Reference for Languages”.

Integrated logistical management 780 (GLB 780)

Qualification	Postgraduate
Module credits	16.00
Programmes	BComHons Business Management BComHons Business Management
Prerequisites	Only for BComHons (Business Management) students
Contact time	1 lecture per week
Language of tuition	Separate classes for Afrikaans and English
Department	Business Management
Period of presentation	Semester 1 or Semester 2

Module content

The purpose of this module is to have students gain insight and perspective into the integrated total materials flow through the enterprise to the target market.

Study themes:

- Logistics management in perspective;
- The materials supply activities required for operations;
- Supporting the activities of materials supply;
- Physical transformation of materials during the production process with emphasis on operations planning and control;
- Support of logistics management including physical distribution;
- Assessment of logistics performance and
- Logistics management – an integrated context.

Human resource management 801 (HPB 801)

Qualification	Postgraduate
Module credits	20.00
Programmes	MPA Public Infrastructure Management (Coursework) MPA (Coursework) MPA Public Infrastructure Management (Coursework)

Prerequisites	No prerequisites.
Contact time	1 contact week per year
Language of tuition	Module is presented in English
Department	School of Public Management and Administration
Period of presentation	Semester 2

Module content

- Institutions and functionaries involved in public human resource management
- Basic values and directives governing public human resource management.
- Strategic human resource management
- Developing a performance culture
- Talent management,
- People development
- Creating and maintaining a learning culture
- Role players and their functions
- Employee relationship management
- Issues in people resource management
- Labour relations management
- Ethics and Accountability

Actuarial mathematics 211 (IAS 211)

Qualification	Undergraduate
Module credits	12.00
Programmes	BSc Mathematical Statistics BCom Statistics
Service modules	Faculty of Economic and Management Sciences
Prerequisites	Pass WTW 114 and (WTW 126 and WTW 128 or (WTW 124) and WTW 123 and WST 111 and WST 121)
Contact time	1 practical per week, 3 lectures per week
Language of tuition	Module is presented in English
Department	Actuarial Science
Period of presentation	Semester 1

Module content

Accumulation functions, interest, time value of money, compounding periods, cash flow models, equations of value, annuities certain, continuous time application, loan schedules, performance measurement, valuation of fixed interest securities..

Financial mathematics 282 (IAS 282)

Qualification	Undergraduate
Module credits	12.00

Programmes	BSc Actuarial and Financial Mathematics BCom Statistics
Service modules	Faculty of Economic and Management Sciences
Prerequisites	IAS 211 60%
Contact time	1 practical per week, 3 lectures per week
Language of tuition	Module is presented in English
Department	Actuarial Science
Period of presentation	Semester 2

Module content

Generalised cash-flow model. The time value of money. Interest rates. Discounting and accumulating. Compound interest functions. Equations of value. Project appraisal. Investments. Simple compound interest problems. The "No Arbitrage" assumption and forward contracts. Term structure of interest rates. Stochastic interest rate models.

Actuarial modelling 382 (IAS 382)

Qualification	Undergraduate
Module credits	20.00
Programmes	BSc Actuarial and Financial Mathematics BCom Statistics
Service modules	Faculty of Economic and Management Sciences
Prerequisites	WST 312 60%
Contact time	1 practical per week, 2 lectures per week
Language of tuition	Module is presented in English
Department	Actuarial Science
Period of presentation	Semester 2

Module content

Principles of actuarial modelling and stochastic processes. Markov chains and continuous-time Markov jump processes. Simulation of stochastic processes. Survival models and the life table. Estimating the lifetime distribution $F_x(t)$. The Cox regression model. The two-state Markov model. The general Markov model. Binomial and Poisson models. Graduation and statistical tests. Methods of graduation. Exposed to risk. The evaluation of assurances and annuities. Premiums and reserves.

Intergovernmental fiscal analysis 980 (IFA 980)

Qualification	Postgraduate
Module credits	12.00
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English

Department School of Public Management and Administration

Period of presentation Semester 1

Intergovernmental fiscal relations 880 (IFR 880)

Qualification Postgraduate

Module credits 12.00

Prerequisites No prerequisites.

Contact time 30 lectures per week

Language of tuition Module is presented in English

Department School of Public Management and Administration

Period of presentation Semester 1

International information and communication 880 (IIF 880)

Qualification Postgraduate

Module credits 12.00

Prerequisites No prerequisites.

Contact time 30 lectures per week

Language of tuition Module is presented in English

Department School of Public Management and Administration

Period of presentation Semester 1

Local, regional and international issues in communication management 780 (IKO 780)

Qualification Postgraduate

Module credits 40.00

Programmes [PGDip Communication Management](#)
[PGDip Communication Management](#)

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Division of Communication Management

Period of presentation Semester 1 and Semester 2

Module content

- Communication management in South Africa
- Communication management in a developmental state
- Communication management in SADC, Africa and BRICS
- International communication

International communication 901 (IKO 901)

Qualification	Postgraduate
Module credits	30.00
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Marketing Management
Period of presentation	Year

International management and international finance 880 (IMF 880)

Qualification	Postgraduate
Module credits	12.00
Prerequisites	No prerequisites.
Contact time	30 lectures per week
Language of tuition	Module is presented in English
Department	School of Public Management and Administration
Period of presentation	Semester 1

International human resource management 880 (IMH 880)

Qualification	Postgraduate
Module credits	12.00
Prerequisites	No prerequisites.
Contact time	30 lectures per week
Language of tuition	Module is presented in English
Department	School of Public Management and Administration
Period of presentation	Semester 1

Virtual environments 700 (IMY 700)

Qualification	Postgraduate
Module credits	15.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Information Science
Period of presentation	Semester 2

Module content

This module exposes students to virtual environments, ranging from fully immersive virtual reality to online virtual worlds. Starting with the notion of reality and how it is simulated, students learn about hardware, software and human factors associated with the creation and exploration of virtual environments. Students are also exposed to VE platforms and techniques, which they use to create a virtual world.

Animation theory and practice 701 (IMY 701)

Qualification	Postgraduate
Module credits	15.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisite.
Language of tuition	Module is presented in English
Department	Information Science
Period of presentation	Semester 1

Module content

This module provides an overview of the historic and current principles and practice of natural motion animation. Different animation techniques are covered, such as stop motion, traditional animation, and 3D animation. The student receives an opportunity to create an animated short film using a technique of their choice.

Virtual environments 774 (IMY 774)

Qualification	Postgraduate
Module credits	15.00
Programmes	BISHons Multimedia
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 1 practical per week
Language of tuition	Module is presented in English
Department	Information Science
Period of presentation	Semester 2

Module content

This module exposes students to virtual environments, ranging from fully immersive virtual reality to online virtual worlds. Starting with the notion of reality and how it is simulated, students learn about hardware, software and human factors associated with the creation and exploration of virtual environments. Students are also exposed to VE platforms and techniques, which they use to create a virtual world.

Animation theory and practice 777 (IMY 777)

Qualification	Postgraduate
Module credits	15.00

Programmes	BISHons Multimedia
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Information Science
Period of presentation	Semester 1

Module content

This module provides an overview of the historic and current principles and practice of natural motion animation. Different animation techniques are covered, such as stop motion, traditional animation, and 3D animation. The student receives an opportunity to create an animated short film using a technique of their choice.

International negotiation and conflict resolution 880 (INC 880)

Qualification	Postgraduate
Module credits	12.00
Prerequisites	No prerequisites.
Contact time	30 lectures per week
Language of tuition	Module is presented in English
Department	School of Public Management and Administration
Period of presentation	Semester 1

Informatics 112 (INF 112)

Qualification	Undergraduate
Module credits	10.00
Programmes	BSc Extended programme - Physical Sciences BCom BCom Accounting Sciences BCom Business Management BCom Financial Sciences BCom Informatics Information Systems BCom Investment Management BCom Statistics BCom Supply Chain Management

Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Natural and Agricultural Sciences
Prerequisites	A candidate must have passed Mathematics with at least 4 (50-59%) in the Grade 12 examination; or STK 113 60%, STK 123 60% or STK 110
Contact time	2 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Informatics

Period of presentation Semester 2

Module content

Introduction to information systems, information systems in organisations, hardware: input, processing, output, software: systems and application software, organisation of data and information, telecommunications and networks, the Internet and Intranet. Transaction processing systems, management information systems, decision support systems, information systems in business and society, systems analysis, systems design, implementation, maintenance and revision.

Information systems 113 (INF 113)

Qualification Undergraduate

Module credits 10.00

Programmes [BCom Informatics Information Systems](#)
[BCom Informatics Information Systems](#)

Contact time 2 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Informatics

Period of presentation Semester 1

Module content

Introduction to quantitative methods for Information systems to students.

Informatics 154 (INF 154)

Qualification Undergraduate

Module credits 10.00

Programmes [BSc Extended programme - Physical Sciences](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Natural and Agricultural Sciences

Prerequisites A candidate must have passed Mathematics with at least 4 (50-59%) in the Grade 12 examination

Contact time 1 lecture per week, 2 practicals per week

Language of tuition Separate classes for Afrikaans and English

Department Informatics

Period of presentation Semester 1

Module content

Introduction to programming.

Informatics 164 (INF 164)

Qualification	Undergraduate
Module credits	10.00
Programmes	BSc Extended programme - Physical Sciences BCom Informatics Information Systems
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Natural and Agricultural Sciences
Prerequisites	INF 154; A candidate must have passed Mathematics with at least 4 (50-59%) in the Grade 12 examination; AIM 101 or AIM 102 or AIM 111 and AIM 121
Contact time	1 lecture per week, 2 practicals per week
Language of tuition	Separate classes for Afrikaans and English
Department	Informatics
Period of presentation	Semester 2

Module content

Advanced programming, use of a computer-aided software engineering tool.

Informatics 171 (INF 171)

Qualification	Undergraduate
Module credits	20.00
Programmes	BSc Extended programme - Physical Sciences BCom Informatics Information Systems BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Natural and Agricultural Sciences
Prerequisites	A candidate must have passed Mathematics with at least 4 (50-59%) in the Grade 12 examination
Contact time	2 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Informatics
Period of presentation	Year

Module content

General systems theory, creative problem solving, soft systems methodology. The systems analyst, systems development building blocks, systems development, systems analysis methods, process modelling.

Informatics 214 (INF 214)

Qualification	Undergraduate
Module credits	14.00

Programmes	BSc Geography BCom BCom Informatics Information Systems BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Natural and Agricultural Sciences
Prerequisites	AIM 101 or AIM 111 and AIM 121
Contact time	2 lectures per week, 2 practicals per week
Language of tuition	Afrikaans and English are used in one class
Department	Informatics
Period of presentation	Semester 1

Module content

Database design: the relational model, structured query language (SQL), entity relationship modelling, normalisation, database development life cycle; practical introduction to database design. Databases: advanced entity relationship modelling and normalisation, object-oriented databases, database development life cycle, advanced practical database design.

Informatics 225 (INF 225)

Qualification	Undergraduate
Module credits	14.00
Programmes	BSc Geography BCom BCom Informatics Information Systems BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Natural and Agricultural Sciences
Prerequisites	INF 164 and INF 171; AIM 101 or AIM 102 or AIM 111 and AIM 121
Contact time	1 lecture per week, 3 practicals per week
Language of tuition	Afrikaans and English are used in one class
Department	Informatics
Period of presentation	Semester 2

Module content

An overview of systems infrastructure and integration.

Informatics 261 (INF 261)

Qualification	Undergraduate
Module credits	7.00

Programmes	BSc Geography BCom BCom Informatics Information Systems BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Natural and Agricultural Sciences
Prerequisites	INF 214
Contact time	1 lecture per week, 1 practical per week
Language of tuition	Afrikaans and English are used in one class
Department	Informatics
Period of presentation	Semester 2

Module content

Database management: transaction management, concurrent processes, recovery, database administration: new developments: distributed databases, client-server databases: practical implementation of databases.

Informatics 264 (INF 264)

Qualification	Undergraduate
Module credits	8.00
Programmes	BSc Geoinformatics BCom Econometrics BCom Financial Sciences
Prerequisites	INF 112, AIM 101 or AIM 102 or AIM 111 and AIM 121
Contact time	2 practicals per week
Language of tuition	Separate classes for Afrikaans and English
Department	Informatics
Period of presentation	Semester 2

Module content

Application of spreadsheets and query languages in an accounting environment.

Informatics 271 (INF 271)

Qualification	Undergraduate
Module credits	14.00
Programmes	BIS Information Science BCom Informatics Information Systems
Service modules	Faculty of Education
Prerequisites	AIM 101 or AIM 102 or AIM 111 and AIM 121, INF 163, 164
Contact time	1 discussion class per week, 1 lecture per week, 1 practical per week

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Year

Module content

Systems analysis. Systems design: construction; application architecture; input design; output design; interface design; internal controls; program design; object design; project management; system implementation; use of computer-aided development tools.

Informatics 272 (INF 272)

Qualification Undergraduate

Module credits 14.00

Programmes [BSc Geoinformatics](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Natural and Agricultural Sciences

Prerequisites AIM 101 or AIM 102 or AIM 111 and AIM 121, INF 163 and INF 164, Regulation IT.3(g)

Contact time 1 lecture per week, 2 practicals per week

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Year

Module content

Use of computer-aided development tools; advanced programming.

Informatics 281 (INF 281)

Qualification Undergraduate

Module credits 3.00

Programmes [BCom Informatics Information Systems](#)
[BCom Accounting Sciences](#)
[BCom Informatics Information Systems](#)
[BCom Law](#)

Prerequisites FRK 111, FRK 121 or FRK 100 or FRK 101. Only available to BCom (Accounting Sciences) students.

Contact time 2 practicals per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 and Semester 2

Module content

Computer processing of accounting information.

Informatics 282 (INF 282)

Qualification Undergraduate

Module credits 3.00

Programmes [BCom Statistics](#)
[BCom](#)
[BCom Financial Sciences](#)
[BCom Investment Management](#)
[BCom Statistics](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education

Prerequisites FRK 111, FRK 121 or FRK 100 or FRK 101

Contact time 2 practicals per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 and Semester 2

Module content

Computer processing of accounting information.

Informatics 301 (INF 301)

Qualification Undergraduate

Module credits 80.00

Programmes [BCom Informatics Information Systems](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology

Prerequisites INF 214, INF 225, INF 261, INF 271 and INF 272

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Year

Module content

*INF 301 is a module that combines INF 315, INF 324, INF 354 and INF 370. Students register for all these modules, but receive a calculated percentage for INF 301.

A review of current trends that are relevant to the application of information systems within a business environment. Information systems in organisations, social and ethical responsibilities, the role of the Informatician. IT end-user relationships; IT management. Advanced programming. Application of systems analysis and design in a practical project; programming; use of computer-aided development tools.

Informatics 315 (INF 315)

Qualification Undergraduate

Module credits 15.00

Programmes [BIS Information Science](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education

Prerequisites INF 261, INF 225, INF 271 and INF 272

Contact time 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Semester 1

Module content

A review of current trends which are relevant to the application of information systems within a business environment.

Informatics 324 (INF 324)

Qualification Undergraduate

Module credits 15.00

Programmes [BIS Information Science](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education

Prerequisites INF 261, INF 225, INF 271 and INF 272

Contact time 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Semester 2

Module content

Information systems in organisations, social and ethical responsibilities, the role of the Informatician. IT end-user relationships; IT management.

Informatics 354 (INF 354)

Qualification Undergraduate

Module credits 15.00

Programmes [BSc Information and Knowledge Systems](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education

Prerequisites INF 261, INF 225, INF 271 and INF 272

Contact time 1 lecture per week, 2 practicals per week

Language of tuition Afrikaans and English are used in one class

Department Informatics

Period of presentation Semester 1

Module content

Advanced programming.

Informatics 370 (INF 370)

Qualification Undergraduate

Module credits 30.00

Programmes [BCom Informatics Information Systems](#)
[BCom Informatics Information Systems](#)

Service modules Faculty of Engineering, Built Environment and Information Technology

Prerequisites INF 261, INF 225, INF 271 and INF 272

Contact time 1 lecture per week, 2 practicals per week

Language of tuition Separate classes for Afrikaans and English

Department Informatics

Period of presentation Year

Module content

Application of systems analysis and design in a practical project; programming; use of computer-aided development tools.

Capita selecta (Disruptive technologies) 700 (INF 700)

Qualification Postgraduate

Module credits 15.00

Programmes [PGDip Digital Innovation](#)
[PGDip Digital Innovation](#)

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

In this module students will be introduced to disruptive technologies. The module will include topics such as the nature and unique characteristics of disruptive technologies, the identification of disruptors and the impact thereof on existing business models, as well as mechanisms to harness the opportunities and mediate the risks provided by disruptive technologies.

Research methodology 701 (INF 701)

Qualification Postgraduate

Module credits 15.00

Programmes PGDip Digital Innovation
PGDip Digital Innovation

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

This module explains the different approaches that can be used for research in Informatics and gives practical advice with respect to carrying out limited research projects. It also assists students in selecting suitable research topics and writing research proposals in preparation for the research paper, which they will write in INF 702.

Research report 702 (INF 702)

Qualification Postgraduate

Module credits 30.00

Programmes PGDip Digital Innovation
PGDip Digital Innovation

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

A research paper on a topic from the field of Informatics.

Human computer interaction 703 (INF 703)

Qualification Postgraduate

Module credits 15.00

Programmes PGDip Digital Innovation
PGDip Digital Innovation

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

Dramatic advances in technology have revolutionized the way that people interact with computers. This course focuses on the design and evaluation of user interfaces. Discussions will include both traditional computer systems and web-based systems.

Electronic commerce 704 (INF 704)

Qualification Postgraduate

Module credits 15.00

Programmes PGDip Digital Innovation
PGDip Digital Innovation

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

The analysis of the management, innovation and information systems aspects of the use of e-business technology and strategies.

Managing projects and end users 705 (INF 705)

Qualification Postgraduate

Module credits 15.00

Programmes PGDip Digital Innovation
PGDip Digital Innovation

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

Main emphasis will be on IS project management using a case study to get practical experience in project management.

Capita selecta 713 (INF 713)

Qualification Postgraduate

Module credits 15.00

Prerequisites No prerequisites.

Contact time 1 web-based period per week, 8 lectures per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

This module will be used to present special, relevant topics within the expertise of the department.

Research methodology 714 (INF 714)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Informatics](#)
[BComHons Informatics](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

This compulsory module explains different approaches that can be used for research in Informatics and gives practical advice with respect to carrying out limited research projects. It also assists students in selecting suitable research topics and writing research proposals in preparation for the research paper, which they will write in INF 780.

Enterprise architecture 715 (INF 715)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Informatics](#)
[BComHons Informatics](#)

Prerequisites INF 788

Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Informatics
Period of presentation	Semester 1 or Semester 2

Module content

Enterprise Architecture (EA) involves comprehensive business frameworks that capture the complexity of modern organisations, providing a blue-print for co-ordinating and integrating all components of an organisation. The module will illustrate all the aspects of EA, discuss the need for EA as well as various frameworks, methods and techniques of EA.

Capita selecta 716 (INF 716)

Qualification	Postgraduate
Module credits	15.00
Programmes	BComHons Informatics BComHons Informatics
Prerequisites	No prerequisites.

Programmes	BComHons Informatics BComHons Informatics
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 1 practical per week, 2 web-based periods per week
Language of tuition	Module is presented in English
Department	Informatics
Period of presentation	Semester 1 or Semester 2

Module content

In this information age a lot of data is captured every day and recorded in databases, but the wealth of this data is kept locked in the databases because relatively little mining is performed on this data. This module introduces you to data mining in terms of:

- The data mining process - how do you mine data?
- The data mining techniques - an overview of the data mining techniques that can be used;
- Practical data mining experience - a practical project mining real industry data to find unknown patterns; and
- Product overviews - product demonstrations by data mining vendors.

Prerequisites	Only for BComHons (Business Management) students
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Business Management
Period of presentation	Semester 1

Module content

The purpose of this module is to enhance the international perspective of South African business people and other interested parties in order to increase the competitiveness of local businesses. This can be done by the student gaining appropriate knowledge on international trade in general and international or multinational businesses in particular.

Study themes:

- Globalisation;
- National differences in political economy;
- International trade theory;
- Foreign direct investment;
- The strategy of international business;
- The organising of international business;
- Entry strategy and strategic alliances and
- Global marketing and RandD.

International administration 813 (INR 813)

Qualification	Postgraduate
Module credits	20.00

Period of presentation	Semester 1 or Semester 2

Module content

Informed by the participatory approach to communication this module reflects in depth on methods for the effective communication of information. In order to achieve this, the nature on information within the context on Information Science will be investigated. Thereafter, communication media will be identified and discussed and students will learn how to create a target audience profile to determine the appropriate media and content for the dissemination of information. Information and communication technologies (ICTs) and the communication of information will be investigated along with literacy and media literacy. The communication of information will form a central focus of this module. Therefore the role of traditional, interpersonal, as well as modern media will be addressed. The processes of creating meaningful and effective messages for the communication of information as well as intercultural communication will also be addressed.

Module content

International theory and organisation

What causes war and peace? Can international order and justice be reconciled? Does the international structure matter? The answers depend on the theoretical lenses through which world politics are viewed. An overview is provided of competing theoretical perspectives of international relations. It includes mainstream and alternative perspectives, as well as the underlying ideas, theories and variants of each. These theories also propose different approaches to global peace, amongst others peace through international organisation. A comprehensive analysis is made of selected international organisations with a universal or regional scope, such as the United Nations, the African Union and the Southern African Development Community, and of international law that underpins these organisations and their activities.

Period of presentation Semester 2

Module content

Foreign policy and diplomacy

A short introduction to the study of foreign policy is followed by an explanation of the use of the comparative method and a framework for foreign policy analysis and evaluation. This allows for a comparative study of the foreign policies of selected states from the major regions of the world, amongst others of South African foreign policy. In each case study the policy environment, the formulation and implementation processes, as well as the substance of the particular state's foreign policy are covered. Thereafter the focus narrows to diplomacy: the oldest, most versatile and universally used instrument of foreign policy. The nature, history, modes of diplomacy and legal framework of the institution are explored. Examples are drawn from global practice, with specific consideration of the evolution of diplomatic practice within the African and South African context.

Department	Political Sciences
Period of presentation	Semester 1

Module content

International political economy

The nature and functioning of the international contemporary political-economic order are analysed against the background of the process of globalisation. The focus is on the interaction of political and economic trends and issues such as the economic importance and political impact of regional trade blocs; the debt burden of states; international aid; the role and influence of multinational corporations; and the transfer of technology to less-developed countries; the rise of new economic powers in the Global South; and global economic governance.

Department	Political Sciences
Period of presentation	Semester 2

Module content

Security and strategic studies

A study of traditional and contemporary approaches to security and strategy. Attention is paid to new theories on war, security and strategy; military and non-military security issues and threats; the national security of developing states; as well as the relationship between policy, strategy and tactics. The latter includes an introductory overview of the nature, levels, patterns, forms and instruments of strategy, and the laws of war. The national, regional and continental security situation in Africa and modes of multilateral security cooperation in particular are analysed, also in relation to extra-continental trends. Regarding the aforesaid, emphasis is placed on the legal and institutional framework, national security policy and strategic posture of South Africa.

Intergovernmental relations and cooperative governance 880 (IRC 880)

Module credits	8.00
Programmes	BCom Informatics Information Systems
Prerequisites	No prerequisites.
Contact time	1 other contact session per week
Language of tuition	Separate classes for Afrikaans and English
Department	Informatics
Period of presentation	Year

Module content

This project-orientated module is a form of applied learning which is directed at specific community needs and is integrated into all undergraduate academic programmes offered by the Faculty of Engineering, Built Environment and Information Technology. The main objectives with the module are as follows:

- (1) The execution of a community related project aimed at achieving a beneficial impact on a chosen section of society, preferably but not exclusively, by engagement with a section of society which is different from the student's own social background.
- (2) The development of an awareness of personal, social and cultural values, an attitude to be of service, and an understanding of social issues, for the purpose of being a responsible professional.
- (3) The development of important multidisciplinary and life skills, such as communication, interpersonal and leadership skills.

Assessment in the module will include all or most of the following components: evaluation and approval of project proposal, assessment of oral and/or written progress reports, peer assessment in the event of team projects, written reportback by those at which the project was aimed at, and final assessment on grounds of the submission of a portfolio and a written report.

Community-based project 202 (JCP 202)

Qualification	Undergraduate
Module credits	8.00
Programmes	BIS Publishing
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 other contact session per week
Language of tuition	Separate classes for Afrikaans and English
Department	Informatics
Period of presentation	Year

Jurisprudence 110 (JUR 110)

Qualification	Undergraduate
Module credits	15.00
Programmes	LLB BCom Law
Service modules	Faculty of Economic and Management Sciences Faculty of Humanities
Prerequisites	No prerequisites.
Contact time	1 tutorial per week, 4 lectures per week, 4 seminars
Language of tuition	Separate classes for Afrikaans and English
Department	Jurisprudence
Period of presentation	Semester 1

Module content

*For LLB and BA/BCom specialising in law

The module has both a theoretical and skills component. All elements described below will encompass conceptual knowledge combined with practical application.

UNDERLYING JURISPRUDENTIAL ASPECTS OF LAW / THE LAW IN GENERAL

- (a) A first-year definition of law / the Law
- (b) The relationships between law and society, law and history, law and politics, law and language
- (c) Being a law student or lawyer in South Africa
- (d) Introduction to different perspectives on the law

THE SOUTH AFRICAN LEGAL SYSTEM AND ITS HISTORICAL DEVELOPMENT

SOURCES OF SOUTH AFRICAN LAW AND THEIR HISTORICAL DEVELOPMENT

- (a) Introduction to characteristics and components of the South African legal system
- (b) Mixed legal systems
- (c) The South African Constitution and its historical development
- (d) Customary law and its historical development
- (e) Common law and its historical development
- (f) Primary and other sources of modern South African law
- (g) Applying the sources of law to a set of facts and relying on the sources of law to answer a jurisprudential question.

THE ABOVE CONTENT FORMS THE BASIS OF THE SKILLS COMPONENT (INCORPORATING ACADEMIC LITERACY SKILLS) WHICH CONSISTS OF:

- (a) Conducting research in the library
- (b) Finding, reading and applying the sources of law
- (c) Reading, understanding and summarising texts on topics of law
- (d) Analysing, criticising and improving ("edit") a piece of writing on the law in a theoretical sense; and
- (e) Writing a well-constructed essay or paragraph on legal problems and topics of law or legal history.

Communication management 310 (KOB 310)

Qualification Undergraduate

Module credits 20.00

Service modules Faculty of Engineering, Built Environment and Information Technology

Prerequisites KOB 210 or KOB 220 with a GS in the other

Language of tuition Afrikaans and English are used in one class

Department Division of Communication Management

Period of presentation Semester 1

Module content

Strategic communication management

Integrated Communication (IC) presupposes the alignment and subsequent implementation of the enterprise, corporate and corporate communication strategies of the organisation. The corporate positioning that results from these strategies is communicated through the organisation's unique reputation, image, identity and brand. Environmental scanning furthermore enables the organisation to identify and address issues, risks and possible crises that can influence this positioning. Current corporate governance thinking supports the principle of a symbiotic relationship between business and society by emphasising economic, environmental and social sustainability (the triple bottom line). This culminates in a new realisation of the organisation's corporate social responsibility and its role as a corporate citizen. Ethics in strategic management are highlighted and applicable research techniques are analysed.

Communication management 320 (KOB 320)

Qualification Undergraduate

Module credits 20.00

Service modules Faculty of Engineering, Built Environment and Information Technology

Prerequisites KOB 210 or KOB 220 with a GS in the other, KOB 310 GS

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Division of Communication Management

Period of presentation Semester 2

Module content

Strategic relationship management

The strategic management of internal and external relationships is essential for the organisation's "licence to operate". Stakeholder theories provide a framework for managing relationships with stakeholders such as employees, investors, media and the government. The growing significance and potential impact of activism on organisational performance, justifies the management of such pressure groups through communication. Deontological and teleological ethical approaches are investigated in the strategic management of relationships. The complexity of ethical decision making in the modern business environment, as well as anti-ethics and African ethics amongst others, are also studied. Perception, social and stakeholder audits are examples of idiosyncratic research designs undertaken in strategic reputation management.

Integrated practical communication project 356 (KOB 356)

Qualification Undergraduate

Module credits 20.00

Prerequisites KOB 210 or 220 with a GS in the other. Only available to BCom (Communication Management) students

Language of tuition Separate classes for Afrikaans and English

Department Division of Communication Management

Period of presentation Q1, Q2 and Q3

Module content

* Only for BCom (Marketing Management) and BCom (Communication Management) students
Students will be required to develop and suggest the implementation of a communication strategy for a particular client. This process entails thorough research by means of continuous liaising with the client. Students will present the integrated practical project supported by a written proposal. Lecturers and representatives from the client will assess the projects.

[BComHons Communication Management](#)

Prerequisites Only for BComHons: Communication students

Contact time 1 lecture per week, 6 discussion classes per week

Language of tuition Module is presented in English

Department Division of Communication Management

Period of presentation Semester 1

Module content

This module is positioned as an entry-level postgraduate module and not as an advanced level or practical application of undergraduate theory. The module content is more abstract than many other subjects, since KPK 780 provides the foundation for Strategic communication management (SKO 780) and Development communication (OWK 780). This module provides a sound theoretical/philosophical foundation for understanding current and emerging trends in the theory and practice of corporate communication management. Specific emphasis is placed on the difference between modern and postmodern approaches to this field of study, contrasts between European, American, Asian and African theory and practice, and the influence of seminal research projects like the "EBOK" and "Excellence" studies on practice. The role of professional and subject-related associations within this globalised field of study is also explored. The purpose of this module is to empower students to critically evaluate current and emerging theories/views through regular class debates and other forms of critical thinking. This module also provides a broad theoretical foundation in preparation for future master's degree studies. This includes emphasising the nature of theory and the components of a meta-theoretical framework for a specific research question.

Whole farm planning and budget development The financial analysis of farm financial, financial modelling, the financing decision: capital acquisition, creditworthiness, different capital sources, capital structures. The investment decision and working capital management. Value chains in agribusiness. Risk management. Strategic management and marketing principles in agribusiness. Operational management and human resources management. Business planning for agribusiness.

Agricultural market and price analysis 410 (LEK 410)

Qualification	Undergraduate
Module credits	20.00
Programmes	BScAgric Agricultural Economics and Agribusiness Management BCom Agribusiness Management
Service modules	Faculty of Economic and Management Sciences
Prerequisites	LEK 220 and LEK 210
Contact time	2 practicals per week, 3 lectures per week
Language of tuition	Afrikaans and English are used in one class
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1

Module content

This module will focus on the fundamentals of demand, supply and agricultural price analysis. After providing an appropriate background in the theoretical concepts of demand and supply these basics will be applied in the generation of econometric simulation models. This will include the identification of supply and demand shifters as well as the elasticities, flexibilities, and impact multipliers. Practical experience in the formulation of these models will be attained from practical sessions. The student will submit a project in which he/she must analyse the demand or supply patterns of a commodity of his/her choice by generating an econometric model. Agricultural price analysis: price determination under different market structures followed by practical sessions on measuring market structures in various ways. This will include the calculation of market concentration. Price trend analysis and measurement of price changes by using indexes, and especially seasonal indexing. All of this will be supported by the relevant practical sessions.

Agricultural economics 415 (LEK 415)

Qualification	Undergraduate
Module credits	16.00
Programmes	BScAgric Agricultural Economics and Agribusiness Management BCom Agribusiness Management
Service modules	Faculty of Economic and Management Sciences
Prerequisites	EKN 110, LEK 220 and WTW 134 or WTW 165
Contact time	1 practical per week, 3 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1

Module content

Derivative instruments in agriculture: To prepare students for taking the SAFEX Agricultural Markets Division brokerage exam. Giving an in-depth knowledge on the importance of hedging. Giving an in-depth knowledge on designing and implementation of low/zero risk hedging strategies. Introduction to the mathematics of portfolio management and mathematical modelling of derivatives. Working knowledge of the mathematical relationships in the management of a hedged portfolio. Working knowledge on the applicable software for managing derivative portfolios. Introduction into the management of option portfolios. To expand the thinking on the uses of derivatives, by also dealing with the hedging of diesel cost, interest rates and weather events.

Agricultural economics 421 (LEK 421)

Qualification Undergraduate

Module credits 20.00

Programmes [BScAgric Agricultural Economics and Agribusiness Management](#)
[BCom Agribusiness Management](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites LEK 410 and STK 210

Contact time 2 practicals per week, 3 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 2

Module content

Price and production function analysis. Input -output, input -input and product -product relationships; profit maximization; the production process through time, economies of size; decision making in agriculture under risk and uncertain circumstances; linear programming.

Introduction to resource economics 424 (LEK 424)

Qualification Undergraduate

Module credits 15.00

Programmes [BScAgric Agricultural Economics and Agribusiness Management](#)
[BCom Agribusiness Management](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites LEK 210

Contact time 3 lectures per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 2

Module content

This module reviews the origins and evolution of natural and environmental resource economics and its present-day main paradigms. Sources of externalities and causes of environmental degradation are examined. An introduction to the concepts and methods backing the design and implementation of environmental policies are provided. Economic valuation of natural and environmental resources is introduced.

Advanced production economics 711 (LEK 711)

Qualification	Postgraduate
Module credits	15.00
Programmes	BComHons Agricultural Economics
Prerequisites	EKT 713 and MIE 780
Contact time	1 lecture per week, 1 practical per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 2

Module content

Advanced production economics

- (a) Primal approach: Structure of the production technology and properties, elasticity of substitution, homogeneity and returns to scale, separability, estimation of technology parameters and testing hypothesis about properties, functional forms.
- (b) Normative supply analysis: Applications of linear programming to farm supply decisions.
- (c) Dual approach: The profit function, the cost function, duality and technology structure, estimation and hypothesis testing.
- (d) Positive supply analysis: Econometric specification of output supply and factor demand, restrictions from technology structure (homogeneity, etc.), aggregate supply analysis.
- (e) Risk and uncertainty: Mean-variance analysis applications in agricultural production, stochastic dominance; MOTAD and quadratic programming.

Agricultural marketing 713 (LEK 713)

Qualification	Postgraduate
Module credits	15.00
Programmes	BComHons Agricultural Economics BComHons Agricultural Economics
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1 or Semester 2

Module content

Agricultural marketing. The nature, development and conceptualisation of marketing and marketing study; the marketing environment, nationally and internationally; the functional and institutional approaches to marketing study; price discovery and margins; dynamics of agricultural and food marketing channels; competition and concentration on horizontal and vertical level; conflict and power relationships in agricultural marketing; economics of food consumption, consumer behaviour and consumer action; food market segmentation; food quality and branding, price, product, promotional and distributional policy; marketing analysis and planning. Global food marketing issues, contracting and changing global food retail patterns.

Agribusiness management 720 (LEK 720)

Qualification Postgraduate

Module credits 15.00

Programmes [BAgricHons Rural Development](#)
[BComHons Agricultural Economics](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites No prerequisites.

Contact time 1 discussion class per week, 3 lectures per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1 or Semester 2

Module content

Strategic management in agriculture. Dynamics of agricultural management. Entrepreneurship. Environmental scanning. Productivity measurement and improvement thereof by the organisation of manpower, capital and financial sources. Business growth. Formulation and implementation of competitive strategy. Corporate governance, strategic analysis and strategic choice, strategy implementation, balanced scorecard.

Agricultural finance and risk management 722 (LEK 722)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Agricultural Economics](#)

Prerequisites No prerequisites.

Contact time 1 discussion class per week, 1 lecture per week, 1 practical per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 2

Module content

Agricultural finance. Economic theory underlying agricultural finance and agricultural finance institutions. Supply and demand of agricultural financial services. Servicing the farm and the agricultural business firm. Agricultural finance within the broader financial market in South and Southern Africa. Risk assessment and management. Risk in agricultural finance and mitigation strategies.

Agribusiness research report: Case study 777 (LEK 777)

Qualification	Postgraduate
Module credits	30.00
Programmes	BComHons Agricultural Economics BComHons Agricultural Economics
Service modules	Faculty of Economic and Management Sciences
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Year

Module content

In this module students have to select a specific agribusiness and analyse one key dimension of this business. This dimension could be: marketing programme, supply chain management, strategic plan, market analyses, etc. This component of the course should serve as an opportunity for students to identify prevalent problems in an agribusiness and to devise appropriate solutions. This module should have a practical onslaught with a case study approach. It is envisaged that the student will have to work in close cooperation with companies and professionals in the industry, with the written report as the final deliverable of the the case study.

International agricultural trade and policy 782 (LEK 782)

Qualification	Postgraduate
Module credits	15.00
Programmes	BComHons Agricultural Economics
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 2 practicals per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1

Module content

WTO/GATT-1994 and agricultural related Agreements and Understandings. Regionalism and trade blocks. International trade and economic development. South Africa's agricultural trade policy. Involvement in bilateral and plurilateral agreements. Application of international market analysis tools. International trade and tariff statistics, trade modelling, theory and familiarity in international and regional databases. The module covers the basic tools to understand what determines the flow of goods across countries, i.e. international trade, and applications to a number of topics of current interest, including the debate on globalisation, free trade agreements, the SA Current account and the medium run prospects for exchange rates.

Advanced rural finance 784 (LEK 784)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Agricultural Economics](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1

Module content

Advanced rural finance. Economic theory underlying rural financial markets and institutions. Economic growth and financial services. Supply and demand of financial services in rural areas. Rural financial institutions and application to South and Southern Africa.

Agricultural project planning and appraisal 785 (LEK 785)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Agricultural Economics](#)
[BComHons Agricultural Economics](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites No prerequisites.

Contact time 1 discussion class per week, 1 lecture per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1

Module content

- Project planning and priority setting (project concept to rural socioeconomic development, logical framework analysis, research priority setting methods, strategic planning, scenario planning).
- Economic analysis of agricultural development projects through CBA (decision making in public and private sectors, financial, social and economic considerations; identification of Cs and Bs, valuation of Cs and Bs; project assessment criteria.
- Monitoring, evaluation and impact assessment (process and program monitoring, MandE systems; causality, incrementality and the attribution problem; impacts assessment methodology.
- Project management (scheduling, techniques for management, managing risk and uncertainty, monitoring performance
- Welfare economics and political economy considerations (Pareto optimality, compensation tests, efficiency and distribution, politics of CBA, development projects vs. development policies, first vs. second best shadow prices, market failure)

Agricultural supply chain management 788 (LEK 788)

Qualification Postgraduate

Module credits 15.00

Programmes [BComHons Agricultural Economics](#)
[BComHons Agricultural Economics](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1 or Semester 2

Module content

Agricultural supply chain analysis. Explore the evolution of supply chain management in the global food industry. Establish the different ways in which supply chain management can provide a source of competitive advantage at industry level and for individual firms. Examine the crossfunctional and multidisciplinary nature of supply chain management as it applies in the global food industry. Introduce the core elements of the theoretical literature on supply chain management and consider applications in different sectors. Provide students with practical experience in applying the principles of supply chain management to the exploitation of a marketing opportunity, using case examples from the fresh produce and meat sectors. Provide students with practical experience of undertaking a supply chain audit, with a view to establishing an appropriate business strategy for a food manufacturing company.

Quantitative methods for agricultural and environmental policy 814 (LEK 814)

Qualification Postgraduate

Module credits 15.00

Programmes [MSc Environmental Economics \(Coursework\)](#)
[MPhil Agricultural Economics \(Coursework\)](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 practical per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 1

Module content

Quantitative models for agricultural and environmental policy. This module will introduce students to applications of discrete choice and linear regression models to agricultural and environmental economics. These include demand systems, production functions and treatment effects/impact assessment models. The second part of the class will focus on mathematical programming and numerical methods including but not limited to multisector models, Input-output and programming models and social accounting matrices for consistent production planning, growth, income distribution and trade policy analysis. Computable general equilibrium models.

Partial equilibrium modelling and commodity market analysis 820 (LEK 820)

Qualification Postgraduate

Module credits 15.00

Programmes [MPhil Agricultural Economics \(Coursework\)](#)
[MPhil Agricultural Economics \(Coursework\)](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites EKT 723 or LEK 810

Contact time 1 lecture per week, 1 practical per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 2

Module content

This module focuses on the modelling of agricultural commodity markets, price determination, policy and trade. The main objective is to provide the basic theoretical principles and skills for partial-equilibrium model building and and opportunity to apply these skills. The approach will include:

- 1) Economic theory: The theoretical foundations of each modelling component of a typical commodity balance sheet and set of prices will be emphasised in the design and specification of models; price formation and model closure under alternative equilibrium pricing conditions
- 2) Applied research: Advanced steps in modelling will be emphasised. Throughout the module, applied modelling research will be conducted and presented to gain experience with methods discussed in class. The course applies economic theory and quantitative methods to analyse food and agricultural markets, price, trade and policy issues. The module examines problem formulation, model structure, estimation, and model evaluation applied to demand and supply and to trade and policy interventions.

Environmental valuation and policy 826 (LEK 826)

Qualification	Postgraduate
Module credits	15.00
Programmes	MSc Environmental Management (Coursework) MPhil Agricultural Economics (Coursework)
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 2

Module content

Environmental valuation and policy. This module will review the basic principles of microeconomic theory needed for understanding and analysis of environmental problems, introduce market and non-market techniques of valuation of natural resources and environmental services (hedonic pricing, contingent valuation, transport cost, willingness-to-pay, cost-based techniques, etc.), public goods and environmental externalities, property rights regimes and selection of appropriate environmental policy instruments for management of environmental externalities.

Agricultural science and technology policy 832 (LEK 832)

Qualification	Postgraduate
Module credits	15.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	Registration for at least a master's degree
Contact time	1 discussion class per week, 1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1 or Semester 2

Module content

The basic definitions and concepts related to agricultural science policy. An overview of the trends in research investment, capacity development in the field of agricultural research, juxtaposed against the regional and international performance in this field. The application of concepts and methodologies used in project planning and management with respect to research evaluation and monitoring. Productivity analysis and its use in evaluating technological change, the determination of the RandD effects in terms of agricultural research and development. Case studies dealing with current topics in agricultural science policy highlighting the application of the methodologies learned.

Food policy 833 (LEK 833)

Qualification	Postgraduate
Module credits	15.00
Programmes	MAgric Rural Development
Service modules	Faculty of Economic and Management Sciences
Prerequisites	Registration for at least a master's degree
Contact time	1 lecture per week, 1 practical per week, 1 seminar per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 2

Module content

The concept and interrelated causes of food insecurity (production, markets and socio-economic climate) and the global food economy. Household coping strategies and response to risk and shocks. Household dynamics (including livelihoods, purchasing behaviour and nutrition). Practical tools for programme and policy analysis and targeting. Evaluation of possible programme and policy options and their effectiveness in terms of achieving comprehensive and pro-poor growth.

Institutional economics 882 (LEK 882)

Qualification	Postgraduate
Module credits	15.00
Programmes	MSc Environmental Management (Coursework) MPhil Agricultural Economics (Coursework)
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1

Module content

Institutional and behavioural economics. This module will expose students to the principles of the New Institutional Economics paradigm and how it can be utilized to improve the analysis of agricultural economic and agricultural development problems and issues. Major themes covered are: The agricultural development challenge: stylised features; new institutional economics: distinctive features and concepts; institutions and development: A historical and macro-perspective techno-economic characteristics and agricultural systems and products in poor countries; NIE analysis of markets and markets structures; the State: Political and institutional determinants of agricultural policy; collective action; transactions costs in smallholder agriculture; case studies.

Agricultural supply chain management 883 (LEK 883)

Qualification	Postgraduate
Module credits	15.00
Programmes	MPhil Agricultural Economics (Coursework) MPhil Agricultural Economics (Coursework)
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 1 or Semester 2

Module content

Agricultural supply chain analysis. Explore the evolution of supply chain management in the global food industry. Establish the different ways in which supply chain management can provide a source of competitive advantage at industry level and for individual firms. Examine the crossfunctional and multidisciplinary nature of supply chain management as it applies in the global food industry. Introduce the core elements of the theoretical literature on supply chain management and consider applications in different sectors. Provide students with practical experience in applying the principles of supply chain management to the exploitation of a marketing opportunity, using case examples from the fresh produce and meat sectors. Provide students with practical experience of undertaking a supply chain audit, with a view to establishing an appropriate business strategy for a food manufacturing company.

The economics of natural resources 886 (LEK 886)

Qualification	Postgraduate
Module credits	15.00
Programmes	MSc Environmental Economics (Coursework) MPhil Agricultural Economics (Coursework)
Service modules	Faculty of Economic and Management Sciences
Prerequisites	LEK 810 or equivalent
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Agricultural Economics Extension and Rural Develo
Period of presentation	Semester 2

Module content

The economics of natural resources. This course will introduce students to the techniques of optimisation overtime, optimal allocation and management of non-renewable and renewable resources, with case studies from Africa. The influence of property rights regimes on optimal natural resource use will also be stressed. The course consists of three main sections: Methods of dynamic optimisation; Theory of exhaustible and renewable resources and growth models; and Property rights and natural resource use with case studies from Africa.

Selected topics in environmental economics 887 (LEK 887)

Qualification Postgraduate

Module credits 15.00

Programmes [MPhil Agricultural Economics \(Coursework\)](#)
[MPhil Agricultural Economics \(Coursework\)](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites MIE 780 and EKT 713 or equivalents

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Agricultural Economics Extension and Rural Develo

Period of presentation Semester 2

Module content

Selected topics in environmental economics. This module will introduce students to various issues of special importance in environmental economics and policy with special emphasis on international dimensions. Examples of key themes to be covered include trade and the environment, trans-boundary externalities, global public goods, multi-lateral environmental agreements, international aid, economic growth and environmental change, poverty and the environment, etc. The main objective of the module is to equip students with the appropriate tools for analysing the linkages between economic development, trade and globalization, poverty, economic and environmental policy and environmental change.

Module content

The singular normal distribution. Distributions of quadratic forms. The general linear model. Multiple comparisons. Analysis of covariance. Generalised linear models. Analysis of categorical data.

Language, life and study skills 133 (LST 133)

Qualification Undergraduate

Module credits 8.00

Programmes [BSc Extended programme - Mathematical Sciences](#)
[BCom Extended programme](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences

Prerequisites As for BSc Four-year programme and BCom Four-year programme

Contact time 4 discussion classes per week, Foundation Course

Language of tuition Module is presented in English

Department Natural and Agricultural Sciences Deans Office

Period of presentation Semester 1

Module content

In this module students use different information and time management strategies, build academic vocabulary, revise basic grammar concepts and dictionary skills, examine learning styles, memory and note-taking techniques, practise academic reading skills and explore basic research and referencing techniques, learn how to use discourse markers and construct definitions, and are introduced to paragraph writing. The work is set in the context of the students' field of study.

Language, life and study skills 143 (LST 143)

Qualification Undergraduate

Module credits 8.00

Programmes BSc Extended programme - Mathematical Sciences
BCom Extended programme

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences

Prerequisites LST 133

Contact time 4 discussion classes per week, Foundation Course

Language of tuition Module is presented in English

Department Natural and Agricultural Sciences Deans Office

Period of presentation Semester 2

Module content

In this module students learn how to interpret and use visual literacy conventions. Students write more advance paragraphs, and also learn how to structure academic writing, how to refine their use of discourse markers and referencing techniques and how to structure their own academic arguments. Students' writing is expected to be rational, clear and concise. As a final assignment all aspects of the LST 133 and LST 143 modules are combined in a research assignment. In this project, students work in writing teams to produce a chapter on a career and to present an oral presentation of aspects of the chapter. The work is set in the context of the students' field of study.

Module content

- Understand, evaluate and apply the concept, components and characteristics of organisational development and change
- Apply the knowledge and skills to explain organisational functioning and organisational changes
- Know and understand the nature of current and future changes that could impact on organisations, as well as the strategies that organisations can use to address these changes.
- Know and understand the organisational development process and evaluate and understand the role and use of change theories in the organisational development process
- Know, understand and be able to apply the various change theories (i.e. Lewin's planned change model, action research model, positive model, general model)
- Apply the knowledge and skills regarding organisational diagnoses in order to address problems and identify opportunities within the organisation
- Apply the knowledge and skills to evaluate organisational development strategies (at individual, group and organisational levels) and to intervene within organisations

Research report 795 (MHB 795)

Qualification	Postgraduate
Module credits	30.00
Programmes	BComHons Human Resource Management BComHons Human Resource Management
Prerequisites	Only for BComHons: Human Resource Management students
Language of tuition	Module is presented in English
Department	Human Resource Management
Period of presentation	Year

Module content

- Deliver a written research report of limited scope under supervision
- Conduct a systematic review of the literature

Human resource management/Industrial and organisational psychology practice 801 (MHB 801)

Qualification	Postgraduate
Module credits	12.00
Programmes	MCom Human Resource Management (Coursework) MCom Human Resource Management (Coursework) MCom Industrial Psychology (Coursework)

Prerequisites	No prerequisites.
Contact time	1 lecture per week, 2 discussion classes per week
Language of tuition	Module is presented in English
Department	Human Resource Management
Period of presentation	Year

Module content

After completing this module, students should be able to:

- Define IOP and describe the work of an IOP.
- Distinguish between the different roles and practices of IOP.
- Identify key critical competencies required to be an effective IOP.
- Conceptualise a broad theoretical framework for how an IOP operates.
- Understand and explain the meaning of ethical work behaviour, ethical choice, and morality.
- Understand and explain the ethical role of the IOP in the workplace.
- Understand and explain ethical organisational issues and ways to establish ethical work conduct in the workplace.
- Understand and explain the role of SIOPSA and the HPCSA in governing the ethical conduct of IOPs.

Cross-cultural psychology 802 (MHB 802)

Qualification	Postgraduate
Module credits	12.00
Programmes	MCom Human Resource Management (Coursework) MCom Human Resource Management (Coursework) MCom Industrial Psychology (Coursework)
Prerequisites	No prerequisites.
Contact time	1 lecture per week, 2 discussion classes per week
Language of tuition	Module is presented in English
Department	Human Resource Management
Period of presentation	Semester 2

Module content

First, this module requires students to come to grips with the basic building blocks of the field of Cross-cultural Psychology. This is done by reviewing the relevant literature to develop an understanding of different kinds of theories and models in Cross-cultural Psychology. Second, students are required to build their own conceptual/mental models in the different areas of Cross-cultural Psychology and to have a thorough understanding of the nature and dynamics of Cross-cultural Psychology in the work context. Thirdly the module requires students to integrate contextualised theory and models of Cross-cultural Psychology and how they relate to the world of work.

Advanced assessment 803 (MHB 803)

Qualification	Postgraduate
----------------------	--------------

Module credits 12.00

Programmes [MCom Human Resource Management \(Coursework\)](#)
[MCom Human Resource Management \(Coursework\)](#)
[MCom Industrial Psychology \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 2 discussion classes per week

Language of tuition Module is presented in English

Department Human Resource Management

Period of presentation Semester 1

Module content

Students develop a conceptual and theoretical insight of AC practice by exploring the available scientific literature on AC. They need to know the guidelines that regulate AC practice (locally and internationally) and must have a good understanding of their implementation in the work context. Students also have to develop a practical AC for the work context where they apply AC theory and models, including the mixed-method design and trait activation theory, and have to develop their own competency model for a position, matrix grid and AC exercise. Finally, they must demonstrate how they understand the nuts and bolts of AC techniques and the practical application of the AC in an organisation.

Leadership 804 (MHB 804)

Qualification Postgraduate

Module credits 12.00

Programmes [MCom Human Resource Management \(Coursework\)](#)

[MCom Industrial Psychology \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 2 discussion classes per week

Language of tuition Module is presented in English

Department Human Resource Management

Period of presentation Semester 1

Module content

The purpose is to provide students with an opportunity to:

- understand and critically evaluate the main leadership theories and to link this knowledge to leadership development requirements in the current world of work;
- identify and understand the genealogy of leadership development and different models, approaches and techniques for developing leaders and leadership capacity in organisations as well as the role of HR in structuring a leadership development strategy in an organisation;
- understand how to assess characteristics of individuals or other inherent characteristics that define a leader by exploring the role of intelligence, personality, attributes and even the dark side of leadership or destructive leadership; and
- interrogate gender and cultural influences on leadership behaviour and their implications for leadership development. interrogate gender and cultural influences on leadership behaviour and their implications for leadership development.

Strategic human resource management 805 (MHB 805)

Qualification Postgraduate

Module credits 12.00

Programmes [MCom Human Resource Management \(Coursework\)](#)

Department	Economics
-------------------	-----------

Period of presentation	Semester 2
-------------------------------	------------

Module content

As a follow-on to the first semester of microeconomics MIE 780, this module will enable the students to analyse relevant real-world situations by means of formal models which have become standard in Economic Theory. To this end, newsworthy economic events, e.g., bail-out decisions, speculative attacks etc., will be discussed. The theoretical focus of this module will be on concepts from general equilibrium theory, game theory, and information economics.

Change dynamics 802 (MKB 802)

Qualification Postgraduate

Module credits 12.00

Programmes [MCom Human Resource Management \(Coursework\)](#)
[MCom Human Resource Management \(Coursework\)](#)
[MCom Industrial Psychology \(Coursework\)](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 2 discussion classes per week

Language of tuition Module is presented in English

Department Human Resource Management

Period of presentation Year

Module content

Students are required to study the theory behind change dynamics and to create a practical and applicable framework in order to:

- understand the 'changing world' from a systems perspective;
 - develop insight into the changes that occur within individuals and organisations;
 - motivate the necessity to understand planned change within organisations; and
 - gain insight into the dynamics, emotions and experiences, and drivers of change
- Having fulfilled the above requirements, students will be able to:
- fundamentally understand change and change dynamics;
 - evaluate change interventions in organisations; and
 - lead change interventions in an organisation.

Music technology 700 (MTZ 700)

Programmes [BComHons Human Resource Management](#)
[BComHons Human Resource Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Human Resource Management

Period of presentation Year

Module content

The module covers quantitative data analysis and the basic principles of qualitative inquiry with interviews and thematic analysis. For quantitative data analysis, students learn how to select appropriate descriptive and inferential statistics, conduct the analysis using SPSS interpret results in terms of statistical and practical significance. Introductory scale development statistics, including Cronbach's alpha, Exploratory Factor Analysis and Confirmatory Factor Analysis are also reviewed. For qualitative inquiry, students reflect on their own interview practice to develop their interviewing skills. They complete a small qualitative research project and report their findings in an infographic. Emphasis in this part of the module falls on trustworthiness issues, while ethics, sampling and data collection with interviews are also covered in detail. The module as a whole is based on the principles of research in practice, and all components are executed practically.

Period of presentation Year

Module content

This module covers the four (4) phases of the Audit Process namely pre-engagement, planning, further procedures and completion and reporting. The theory and underlying principles of each of the four phases addressed in this module is based on the International Standard of Auditing (ISA's) as pre-scribed by SAICA's Competency Framework, specifically with regards to the Auditing and Assurance and partially the Strategy, Risk Management and Governance competencies.

During the pre-engagement phase focus is placed on the SAICA Code of Professional Conduct, King III Report and Code on Governance in South Africa, Companies Act, 2008 and the Auditing Profession Act.

The planning phase of the audit addresses internal controls in manual as well as computerised environments, complex computer systems (consisting of Electronic Data Interchange, Electronic Fund Transfers, Enterprise Resource Planning and Client Relationship Management) as well as tests of controls to test the operating effectiveness of these controls for possible reliance by the auditor. The auditor's strategy and audit plan of an audit of financial statements.

During the further procedure phase the students are exposed to the different business cycles within retail, manufacturing, services or financial services operations and how to obtain audit assurance on the different line items included in the entity's financial statements. Computer Assisted Audit Techniques, Money Laundering and other relevant legislation is also addressed as part of this phase.

The Completion and Reporting phase deals with the completion and reporting requirements of the ISA's relevant to an audit of financial statements. A basic understanding of the other types of assurance, review and compilation engagements also forms part of this phase.

The content and knowledge levels of this module are annually revised based on the Auditing examinable pronouncements for SAICA's Initial Test of Competence.

Department Division of Communication Management

Period of presentation Semester 2

Module content

In terms of the primary learning outcomes of the module the student will be able to:

- disseminate information from relevant theories, models and paradigms of Corporate Social Responsibility (CSR) and Development Communication;
- apply scientific reasoning to critically evaluate existing corporate social responsibility and development communication case studies and lessons learnt from them;
- understand the importance of the strategic management of corporate social responsibility;
- work effectively with others as a member of a group;
- work effectively as an individual during self-study;
- stimulate cross-functional communication and management abilities;
- demonstrate and understand that the world is a set of related systems and that problem-solving does not exist in isolation;
- understand the importance of sustainable development for companies; and
- evaluate an actual South African case study around a particular social responsibility/development project.

Period of presentation Semester 1

Module content

This module in public administration is designed specifically to assist students in understanding the role of public administration in a modern state, the unique characteristics of public administration, the schools and approaches in public administration and introducing the various generic administrative functions. The discipline of public administration has developed rapidly and by implication, has changed and shifted its paradigm over the years. The purpose of this module is to introduce public administration to the student as a field of study that makes a significant contribution to the effective administration and management of government institutions.

Period of presentation	Semester 1

Module content

While the cliché “Our company’s most important asset is our people” is often used, the aim of the PEM 884 module is to bring life to this statement, equipping managers in the technology environment to manage people in a way that enhances both their value and humanity. The module centres around challenges in the technology environment for the 21st century, considering how organisational behaviour and human resource management processes can be used in mastering these. The module includes aspects such as managing individuals, teams and organisations with regard to various dimensions of behaviour including: individual diversity, emotional intelligence, motivation and team performance, group dynamics in managing teams, communication, leadership, power and politics, organisational culture, organisational change and stress, labour relations and human resource processes.

Language of tuition Separate classes for Afrikaans and English

Department Psychology

Period of presentation Semester 1

Module content

The module introduces methods of inquiry in the social sciences and humanities. The purpose of this module is to introduce students to the research process in order to equip them with the necessary competence to:

- identify social problems, formulate research questions and hypotheses;
- have a basic understanding of writing the literature review and research proposal;
- know and select relevant methods of inquiry;
- be aware of the necessity of conducting ethically sound research; and
- interpret and present data graphically.

Research 261 (RES 261)

Qualification Undergraduate

Module credits 10.00

Service modules Faculty of Economic and Management Sciences
Faculty of Natural and Agricultural Sciences

Prerequisites RES 151

Contact time 2 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Psychology

Period of presentation Quarter 2

Module content

Methods of critical thinking and inquiry

The module focuses on different basic methods of inquiry in the humanities. The purpose of this module is to equip students with the necessary competence to:

- select and apply central procedures, operations and techniques;
- identify and solve well-defined problems using relevant methods of inquiry;
- critically analyse and synthesize information, and present the information using skills effectively; and
- present and communicate information coherently and reliably, using academic conventions and formats appropriately.

Students will also develop an awareness of ethically sound research using different approaches.

Marketing of sport 780 (RKB 780)

Qualification Postgraduate

Module credits 20.00

Service modules Faculty of Economic and Management Sciences

Prerequisites BEM 110 or BEM 781

Contact time 1 lecture per week, 1 web-based period per week

Language of tuition Separate classes for Afrikaans and English

Department Sport and Leisure Studies

Period of presentation Semester 2

Module content

The aim of this module is to introduce students to a dynamic application field in marketing, namely sport and leisure marketing. The ultimate outcome is that students will be exposed to the multidimensional scope of sport and leisure marketing through an experiential process where relevant scientific theory is combined with practical applications. Other topics will also be covered: leisure, recreation, sport and adventure tourism.

Therapeutic recreation 251 (RKD 251)

Qualification Undergraduate

Module credits 8.00

Service modules Faculty of Economic and Management Sciences

Prerequisites No prerequisites.

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Quarter 1

Module content

Explanation of terms (leisure, recreation, therapy). Historical development of TR. Purpose of TR. Barriers to TR. Paralympic Games and related Games. TR through the life-span (elderly), leadership, evaluation and ethics regarding TR programmes. TR in the RSA. Future of TR.

Resource design and management 252 (RKD 252)

Qualification	Undergraduate
Module credits	8.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Quarter 2

Module content

The impact of sustainable development and globalisation on resource management, parks and recreation are analysed. The elements of the conceptual model for the design and management of recreation resources are studied and applied. A comprehensive model for the management of recreation facilities is analysed.

Recreation and aspects of tourism management 253 (RKD 253)

Qualification	Undergraduate
Module credits	8.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Quarter 3

Module content

Tourism management from the perspective of the recreation manager. Management of recreation behaviour at the tourist resort/destination.

Economy of leisure time 254 (RKD 254)

Qualification	Undergraduate
Module credits	8.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Quarter 4

Module content

Introduction to economic principles and processes underpinning leisure behaviour of the consumer and influencing recreation management.

Sports and recreation tourism 354 (RKD 354)

Qualification	Undergraduate
Module credits	10.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Quarter 4

Module content

Impact of sporting event tourism: national and global economic impact, sociocultural impact, environmental impact, health impact. Sports tourism product development.

Applied accountancy 701 (RMP 701)

Qualification	Postgraduate
Module credits	40.00
Programmes	Certificate Theory of Accountancy Certificate Theory of Accountancy
Prerequisites	No prerequisites.
Language of tuition	Separate classes for Afrikaans and English
Department	Accounting
Period of presentation	Year

Roman law 120 (ROM 120)

Qualification	Undergraduate
Module credits	10.00
Programmes	LLB BCom Law
Service modules	Faculty of Economic and Management Sciences
Prerequisites	No prerequisites.
Contact time	1 tutorial per week, 3 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Jurisprudence
Period of presentation	Semester 2

Module content

*For LLB and BA/BCom specialising in law

General introduction to Roman law and European law as foundations of South African private law

INTRODUCTION TO THE ROMAN LAW OF THINGS

- (a) Things, real rights, possession
- (b) Ownership, limitations, acquisition, protection
- (c) Limited real rights, servitudes, real security

INTRODUCTION TO THE ROMAN LAW OF CONTRACT

- (a) General principles of the law of contract
- (b) Specific contracts
- (c) Quasi contracts

INTRODUCTION TO THE ROMAN LAW OF DELICT

- (a) General principles of the law of delict
- (b) Specific delicts
- (c) Quasi delicts

Legal interpretation 210 (RVW 210)

Qualification Undergraduate

Module credits 10.00

Programmes [BAdmin Public Management and International Relations](#)

Prerequisites No prerequisites.

Contact time 2 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Public Law

Period of presentation Semester 1

Module content

*For LLB, BAdmin, BA specialising in law and BCom Taxation

Statute law:

- (a) General introduction: relationship between text and context
- (b) What is legislation: categories and types of legislation
- (c) The structure and format of legislation (enacted law texts)
- (d) Commencement, amendment and demise of legislation

Principles of interpretation:

- (a) How to interpret legislation: various theories and methods of interpretation and the influence of the supreme Constitution on statutory interpretation
- (b) Internal and external aids to determine the legislative purpose
- (c) So-called peremptory and directory provisions
- (d) Statutory interpretation and judicial lawmaking
- (e) Basic principles of constitutional interpretation

Period of presentation	Semester 1

Module content

*For LLB and BA/BCom specialising in law

- (a) General principles of the law of things
- (b) Constitutional aspects
- (c) Control (possession and holdership)
- (d) Ownership (including joint ownership and sectional-title property)
- (e) Limited real rights (including servitudes, limiting provisions, public servitudes, mineral rights and real security rights)

Strategic marketing management 781 (SBB 781)

Qualification	Postgraduate
----------------------	--------------

Module credits	25.00
Programmes	BComHons Marketing Management BComHons Marketing Management
Prerequisites	Only for BComHons (Marketing Management) students
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Marketing Management
Period of presentation	Semester 1 or Semester 2

Module content

- To develop the student's ability to think strategically
- To explain the ways in which a company can develop a sustainable competitive advantage
- To teach students the practical capabilities in situation analysis, strategic alternatives and the "what if" analysis
- To equip students with the art of understanding the coordination between the corporate and marketing strategy
- To teach students the processes of target market identification and positioning
- To teach students how to use management techniques and financial analysis in a management perspective
- To develop students' holistic, creative and abstract thoughts with the aim to integrate their previous knowledge
- To develop the awareness of ethical and social responsible behaviours of individuals and companies
- To develop students' ability to formulate their thoughts scientifically and logically and to communicate their thoughts in writing and orally

Strategic management 700 (SBE 700)

Qualification	Postgraduate
Module credits	20.00
Programmes	PGDip Integrated Reporting PGDip Integrated Reporting
Prerequisites	Only for students studying BComHons (Communication Management and the Postgraduate Diploma (Integrated Reporting))
Language of tuition	Module is presented in English
Department	Business Management
Period of presentation	Semester 1

Module content

This module, Strategic management, analyses the combination of competitive moves and business approaches that organisations can employ to please customers, achieve organisational objectives and compete successfully in a dynamic business environment.

Study themes:

- The strategic management process: an overview;
- Establishing company direction: developing a strategic vision, setting objectives and crafting a strategy;
- Industry and competitive analysis;
- Evaluating company resources and competitive capabilities;
- Strategy and competitive advantage;
- Tailoring strategy to fit specific industry and company situations;
- Strategy and competitive advantage;
- Evaluating the strategies of diversified companies;
- Building resource strengths and organisational capabilities;
- Managing the internal organisation to promote better strategy execution and
- Corporate culture and leadership - keys to effective strategy execution.

Simple random sampling. Estimation of proportions and sample sizes. Stratified random sampling. Ratio and regression estimators. Systematic and cluster sampling. Complex survey methodology. Handling of nonresponse.

Strategic communication management 700 (SKO 700)

Qualification Postgraduate

Module credits 20.00

Programmes [PGDip Integrated Reporting](#)
[PGDip Integrated Reporting](#)

Prerequisites No prerequisite.

Language of tuition Module is presented in English

Department Division of Communication Management

Period of presentation Semester 2

Module content

*Only for Postgraduate Diploma in Economics and Management Sciences Option: Integrated Reporting students.

The objective of this module is to provide a conceptualisation of the role of corporate communication in the strategic decision-making process. It also addresses the overlapping and complementary areas of communication management with other fields of study in the management sciences.

Some of the topics that you will be introduced to are:

- * The corporate communication manager's contribution to strategic management
- * The role of communication management in the identification and management of strategic issues in the internal, task and macro environment of the organisation
- * The positioning and introduction of a corporate communication strategy
- * How the strategic management of communication can assist in achieving corporate goals such as innovation (by creating a culture of creativity), productivity, rationalisation, a new corporate culture, and global competitiveness
- * The crucial role of communication management in identifying and managing strategic stakeholders and problematic publics
- * The responsibility of corporate communication in identifying and changing asymmetrical worldviews in the organisation
- * Important research in the field
- * The experience of and relationships with top management.

Module evaluation is continuous and includes individual class tests, group presentations, projects and participation in class discussions.

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 1

Module content

Quality control and improvement. Shewhart, cumulative sum (CUSUM), exponentially weighted moving average (EWMA) and Q control charts. Univariate and multivariate control charts. Determining process and measurement systems capability. Parametric and nonparametric (distribution-free) control charts. Constructing control charts using Microsoft Excel and/or SAS. Obtaining run-length characteristics via simulations, the integral equation approach, other approximate methods and the Markov-chain approach.

Foundations of recreation and sports management 110 (SRM 110)

Qualification	Undergraduate
Module credits	12.00
Service modules	Faculty of Economic and Management Sciences Faculty of Health Sciences
Contact time	3 lectures per week
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Semester 1

Module content

This module is a broad introduction to sport and recreation as products in the market. Students discover the nature of sport and recreation, the difference between the concepts and policies, plans, strategies and structures of sport and recreation in South Africa and Zone VI in Africa. The dynamic scope and nature of recreation and sports management are introduced and discussed. Emphasis is placed on basic management tasks and functions in sport and recreation contexts, interpersonal skills, leadership and control systems and techniques in sport and recreation. The module establishes a foundation of management knowledge and skills on which subsequent sport and recreation management modules are built.

Leadership in sport and recreation 120 (SRM 120)

Qualification	Undergraduate
Module credits	12.00
Service modules	Faculty of Economic and Management Sciences
Prerequisites	SRM 110
Contact time	3 lectures per week
Language of tuition	Afrikaans and English are used in one class
Department	Sport and Leisure Studies
Period of presentation	Semester 2

Module content

This module explores the difference between sports and recreation management and leadership and their application in sport and recreation. Selected classic and modern management and leadership theories are identified, described and compared in sport and recreation contexts. Students are guided towards selecting and demonstrating appropriate leadership styles and skills related to cross-cultural sport and recreation situations. Emphasis is placed on building leadership capacity through sport and recreation. This module establishes leadership competencies and confidence for subsequent academic service learning and community engagement activities.

Sports facility and event management 210 (SRM 210)

Qualification	Undergraduate
Module credits	16.00

Service modules Faculty of Economic and Management Sciences

Prerequisites SRM 120

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 1

Module content

In this module the scope of sport and recreation facilities and events is identified and explored. Knowledge of basic management tasks acquired in previous modules is applied to plan and maintain sports facilities. Project management techniques are described and applied to managing sport and recreation events. The Act on Safety at Sport and Recreation events is analysed and applied to sport and recreation events. Special attention is given to the synergy between facilities and events, safety and risk management of sports facilities and events.

Business and governance of sport 220 (SRM 220)

Qualification Undergraduate

Module credits 16.00

Service modules Faculty of Economic and Management Sciences

Prerequisites SRM 220

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 2

Module content

In this module sports business models are investigated and integrated with governance principles, legislation and business structures and applied in diverse sport and recreation contexts. Sports agencies, sports facilities as income generators and the role of women in the business of sport are debated. Relationships between financial decisionmaking and sports business effectiveness are explored and discussed.

Economics of sport and leisure 310 (SRM 310)

Qualification Undergraduate

Module credits 30.00

Service modules Faculty of Economic and Management Sciences

Prerequisites SRM 220

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 1

Module content

This module builds on the business and governance principles applied to sport and leisure industries and explores the basics of economic analysis and decision-making. It aims to explain and apply the supply-demand economic module underpinning individual and organisational leisure and sports behaviour. The economics of professional sports teams and sports franchises are examined. The module develops ability and techniques to calculate GDSP and economic impact of sport and recreation events, facilities, professional sports teams and sports franchises.

Value-based decision-making in sport and recreation 320 (SRM 320)

Qualification Undergraduate

Module credits 30.00

Service modules Faculty of Economic and Management Sciences

Prerequisites SRM 310

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 2

Module content

This module examines the theory and reality of cross-cultural value-based decision-making in sport and recreation. Relationships and potential conflict between diverse value paradigms and responsible decision-making are argued in mega sports events and specific sport and recreation contexts.

Period of presentation	Semester 1

Module content

*On its own, STK 113 and 123 will not be recognised for degree purposes, but exemption will be granted for STK 110.

Data operations and transformations:

Introductory concepts, the role of statistic, various types of data and the number system. Concepts underlying linear, quadratic, exponential, hyperbolic, logarithmic transformations of quantitative data, graphical representations, solving of equations, interpretations. Determining linear equations in practical situations. Characteristics of logarithmic functions. The relationship between the exponential and logarithmic functions in economic and related problems. Systems of equations in equilibrium. Additional concepts relating to data processing, functions and inverse functions, sigma notation, factorial notation, sequences and series, inequalities (strong, weak, absolute, conditional, double) and absolute values.

Descriptive statistics – Univariate:

Sampling and the collection of data, frequency distributions and graphical representations. Descriptive measures of location and dispersion. Introductory probability theory. Identification, use, evaluation and interpretation of statistical computer packages and statistical techniques.

The weekly one hour practical is presented during the last seven weeks of the semester.

Statistics 120 (STK 120)

Qualification Undergraduate

Programmes

Service modules Faculty of Engineering, Built Environment and Information Technology
 Faculty of Education
 Faculty of Humanities
 Faculty of Natural and Agricultural Sciences

Prerequisites STK 110 GS or both STK 113 GS and STK 123 GS or both WST 133 and WST 143 or STK 133 and STK 143

Contact time 1 practical per week, 1 tutorial per week, 3 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Statistics

Period of presentation Semester 2

Module content

Multivariate statistics:

Analysis of variance, categorical data analysis, distribution-free methods, curve fitting, regression and correlation, the analysis of time series and indices.

Statistical and economic applications of quantitative techniques:

Systems of linear equations: drafting, matrices, solving and application. Optimisation; linear functions (two and more independent variables), non-linear functions (one and two independent variables). Marginal and total functions. Stochastic and deterministic variables in statistical and economic context: producers' and consumers' surplus, distribution functions, probability distributions, probability density functions. Identification, use, evaluation, interpretation of statistical computer packages and statistical techniques.

This module is also presented as an anti-semester bilingual module.

Statistics 121 (STK 121)

Qualification Undergraduate

Module credits 13.00

Service modules Faculty of Natural and Agricultural Sciences

Prerequisites STK 133 and STK 143 or WST 133 and WST 143 or STK 113 GS and STK 123 GS

Contact time 1 practical per week, 1 tutorial per week, 3 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Statistics

Period of presentation Semester 1

Module content

Students can only get credit for one of the following two modules: STK 120 or STK 121.

Multivariate statistics: Analysis of variance, categorical data analysis, distribution-free methods, curve fitting, regression and correlation, the analysis of time series and indices.

Statistical and economic applications of quantitative techniques: Systems of linear equations: drafting, matrices, solving, application. Optimisation: linear functions (two and more independent variables), non-linear functions (one and two independent variables). Marginal and total functions. Stochastic and deterministic variables in statistical and economic context: producers' and consumers' surplus, distribution functions, probability distributions, probability density functions. Identification, use, evaluation, interpretation of statistical computer packages and statistical techniques.

Statistics 123 (STK 123)

Qualification Undergraduate

Period of presentation Semester 2

Module content

Part 1: Democratic studies

A high level critical analysis of democratic theory and practice. The analysis of democratic theory will include themes such as classical, radical, deliberative and feminist perspectives. The analysis of democratic practice will include aspects such as democratisation, democratic consolidation, democratic citizenship and society, the role and importance of civil society, the institutions and procedures for democracy and “good governance”.

Part 2: Political analysis

The methods and practice of political analysis is the focus of study. The principles and problems underpinning different approaches and methods of political analysis are described and explained. This includes the nature, methods and use of comparative analysis, forecasting, risk analysis, performance evaluation and the political audit. These analytical methods are positioned in a political and policy context, with emphasis on practical application. Applicable examples and case studies are used throughout.

Strategic Tourism Management

This module presents two interlinking themes: Strategic destination marketing and contemporary tourism issues. Strategic destination marketing explores the unique characteristics of and approaches to marketing a tourist destination. It provides a management and operational framework for destination marketing and within this framework trends, practices and case studies in destination marketing are addressed. Contemporary tourism issues examine developments in tourism such sustainable and ecotourism tourism, cultural tourism and sport tourism.

Tourism management 310 (TBE 310)

Qualification	Undergraduate

Service modules	Faculty of Humanities Faculty of Natural and Agricultural Sciences
Prerequisites	TBE 210 GS
Language of tuition	Afrikaans and English are used in one class
Department	Division of Tourism Management
Period of presentation	Semester 1

Module content

Tourism Industry Sector Management I

This module covers the management of two industry sectors: tourism attractions (including events) and hospitality. Visitor attractions (including events), which are at the core of successful tourism is addressed at three levels: the key role of visitor attractions/events in the tourism industry; the overall development process (feasibility studies, financial and design aspects, etc.) relating to visitor attractions/events; and finally the strategic management and operational aspects of visitor attractions/events.

Hospitality management covers all the operational and management functions of the "guest cycle" from the moment a potential guest contacts an accommodation establishment to the time that he or she departs. A distinction is drawn between revenue centres and support centres. Food and beverage management forms an essential ingredient of this section. As financial management and costing are critical to the success of any hospitality organisation, the policies, principles and procedures pertaining to financial operations and financial management in such establishments are also covered.

Tourism and hospitality management 311 (TBE 311)

Qualification	Undergraduate
Module credits	20.00
Programmes	BConSci Hospitality Management
Prerequisites	No prerequisites.
Contact time	2 lectures per week
Language of tuition	Afrikaans and English are used in one class
Department	Division of Tourism Management
Period of presentation	Semester 1 or Semester 2

Module content

This module introduces tourism management from a systems perspective, covering tourism demand and supply as well as the functional and physical links between demand and supply. The environment in which tourism operates is also presented. The sectors within the tourism industry are introduced and special attention is given to hospitality management where the operational and management functions of the "guest cycle" are covered. The policies, principles and procedures relating to the financial operations and management in hospitality establishments are also discussed in this module.

Tourism distribution management 320 (TBE 320)

Qualification	Undergraduate
Module credits	20.00
Service modules	Faculty of Humanities
Prerequisites	TBE 210 GS
Contact time	4 lectures per week
Language of tuition	Afrikaans and English are used in one class
Department	Division of Tourism Management
Period of presentation	Semester 2

Module content

Tourism Industry Sector Management II

This module covers the management of two industry sectors as they relate to tourism: transport and distribution channels. Transport is integral to understanding tourism. This section covers how transport affects tourism and examines the supply of and demand for transport from a tourism perspective. It also introduces the various modes of transport and their impact on the tourism system and industry. Tourism distribution management provides an overview of distribution theory as it relates to tourism and describes the integral nature of information in the tourism industry. Distribution channels are analysed and the special nature of tour wholesaling, travel retailing, business and corporate travel management and incentive travel are introduced. This section also introduces the concept of eTourism.

Please note: Various practical and industry-interaction activities support the theoretical component of the TBE 110, 120, 210, 220, 310, and 320 syllabi and take place during vacations, over weekends and after hours to develop practical and industry skills.

A student should, in consultation with the head of the division, obtain

1 000 "credits" for the practical component (which includes satisfactory class attendance, approved practical work and appropriate practical short courses as determined by the head of the division) before such student will be allowed to sit for the examination in TBE 320.

Air transport and business travel management 702 (TBE 702)

Qualification	Postgraduate
Module credits	20.00
Programmes	PGDip Tourism Management PGDip Tourism Management
Prerequisites	No prerequisites.
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Division of Tourism Management
Period of presentation	Semester 2

Module content

This module covers two themes: air transport and business travel. In the first part a broad overview of the air transportation industry and some of the major airline management functions is presented. The topics are explored from a strategic management perspective and take into account the contemporary issues in the global airline industry and their effect on tourism globally and in South Africa. The impact of aviation policy on tourism flows is also addressed. In the second part business travel is analysed from the perspective of corporate travel management. The relationships between suppliers, corporate travel managers, travellers and travel management companies are analysed. Issues such as travel policy formulation and compliance, responsible travel management, travel risk management and the impact of future trends on managed travel are investigated.

Department Division of Tourism Management

Period of presentation Semester 1

Module content

The tourism domain is one of the most important applications within the information and communication technology fields. The sectors of the tourism industry (airlines, hotels, destinations, retailers, travel management companies and tour wholesalers, tourists) are interdependent and much of this interdependence is connected to information flow which is managed through electronic means. The management of eTourism is the link that draws these sectors together. This module covers the strategic use of information technology across the tourism value chain with each sector being viewed in terms of the management of the so- called eTourism environment. Finally, the latest trends in the management of technological advances within each tourism sector are analysed.

Department Division of Tourism Management

Period of presentation Semester 1

Module content

This module focuses on managing ecotourism (including the natural and cultural resource base) following eco-principles and guidelines in order to provide a conceptual framework for sustainable/responsible tourism development in response to community needs within the Southern African context. The concepts of ecotourism, alternative tourism, responsible tourism and geotourism are debated. The management of ecotourism is studied from a theoretical perspective addressing issues such as the planning, design and sustainable development of eco-facilities and spaces; co-creation and the experienced tourist; the greening of the environment; and managing sustainable events; against the backdrop of climate change using local, national and international case studies. The aim is to provide students with a holistic perspective of ecotourism and to hone their entrepreneurial view to issues within this arena in order to apply sustainable eco-principles to various situations, ranging from green architectural structures and spaces to sustainable community and pro-poor tourism projects.

Department Division of Tourism Management

Period of presentation Semester 2

Module content

The managing of events and attractions as key focus area within the tourism landscape is becoming more competitive and sophisticated. Both events and attractions are significant core elements that assist in providing a sense of place and creating a certain magic for a destination. Major components of attractions and event management include the essential elements to manage any event within the MICE industry; a study of cultural festivals; sports events, social media/e-marketing; managing flagship attractions and events; and Special Interest Tourism (SIT). Researching global trends and changes in the global industry is imperative to manage events successfully and benchmark attractions. The understanding of current and topical issues within this industry is crucial to hone skills and insight to gain the competitive advantage and make a worthy contribution to this dynamic tourism industry sector.

Strategic destination marketing 707 (TBE 707)

Qualification Postgraduate

Module credits 20.00

Programmes [PGDip Tourism Management](#)
[PGDip Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Division of Tourism Management

Period of presentation Semester 2

Module content

In an increasingly competitive marketplace, destinations have to distinguish themselves through creative strategies. Rapid changes in marketing platforms require innovative approaches to attract and retain brand loyal visitors, but also to sustain industry partnerships. Based on established theoretical principles of marketing, this module explores current trends in, and approaches toward destination marketing. Emphasis is placed on best practise cases from around the world through exploration of strategic destination marketing plans as well as tactics used by destinations to capitalise on the relevant latest trends.

Air transport and business travel management 711 (TBE 711)

Qualification Postgraduate

Module credits 20.00

Programmes [BComHons Tourism Management](#)
[BComHons Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Division of Tourism Management

Period of presentation Semester 2

Module content

This module covers two themes: air transport and business travel. In the first part a broad overview of the air transportation industry and some of the major airline management functions is presented. The topics are explored from a strategic management perspective and take into account the contemporary issues in the global airline industry and their effect on tourism globally and in South Africa. The impact of aviation policy on tourism flows is also addressed. In the second part business travel is analysed from the perspective of corporate travel management. The relationships between suppliers, corporate travel managers, travellers and travel management companies are analysed. Issues such as travel policy formulation and compliance, responsible travel management, travel risk management and the impact of future trends on managed travel are investigated.

eTourism 712 (TBE 712)

Qualification Postgraduate

Module credits 20.00

Programmes [BComHons Tourism Management](#)
[BComHons Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Division of Tourism Management

Period of presentation Semester 1

Module content

The tourism domain is one of the most important applications within the information and communication technology fields. This module covers the strategic use of information technology across the tourism value chain with each sector (airlines, hotels, destinations, retailers, travel management companies and tour wholesalers) being viewed in terms of the management of the so-called eTourism environment. The sectors of the tourism industry are interdependent and much of this interdependence is connected to information flow which is managed through electronic means and the management of eTourism is the link that draws these sectors together. Finally, the latest trends in the management of technological advances within each tourism sector are analysed.

Hospitality management 713 (TBE 713)

Qualification Postgraduate

Module credits 20.00

Programmes [BComHons Tourism Management](#)
[BComHons Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Division of Tourism Management

Period of presentation Semester 1

Module content

This course is designed to provide students with an in-depth understanding and knowledge of the management aspects of hospitality operations, relating to all the operational aspects completed in the undergraduate course. The application of these management principles will enable the student to develop an operational plan for a tourism organisation, in a very practical manner.

Responsible ecotourism management 714 (TBE 714)

Qualification Postgraduate

Module credits 20.00

Programmes [BScHons Geography and Environmental Science](#)
[BComHons Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 other contact session per week

Language of tuition Module is presented in English

Department Division of Tourism Management

Period of presentation Semester 1

Module content

This module focuses on managing ecotourism (including the natural and cultural resource base) following eco-principles and guidelines in order to provide a framework for sustainable/responsible tourism development in response to community needs within the Southern African context. The concepts of ecotourism, alternative tourism, responsible tourism and geotourism are debated. The management of ecotourism is studied from a theoretical perspective addressing issues such as the planning, design and sustainable development of eco-facilities and spaces; co-creation and the experienced tourist; the greening of the environment; and managing sustainable events; against the backdrop of climate change using local, national and international case studies. The aim is to provide students with a holistic perspective of ecotourism and to hone their entrepreneurial view to issues within this arena in order to apply sustainable eco-principles to various situations, ranging from green architectural structures and spaces to sustainable community and pro-poor tourism projects.

Sport tourism management 716 (TBE 716)

Qualification Postgraduate

Module credits 20.00

Programmes [BComHons Tourism Management](#)
[BComHons Tourism Management](#)

Contact time 1 lecture per week

Language of tuition Afrikaans and English are used in one class

Department Division of Tourism Management

Period of presentation Semester 1 or Semester 2

Module content

This module aims to clarify the relationship between sport and recreation events and activities and tourism. The role of sport and recreation in the development of tourism will be clarified. The multi-dimensional impact of sport tourism on communities will be analysed from both a sport management and event management perspective.

Strategic events management 721 (TBE 721)

Qualification Postgraduate

Module credits 20.00

Programmes [BComHons Tourism Management](#)
[BComHons Tourism Management](#)

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Afrikaans and English are used in one class

Department Division of Tourism Management

Period of presentation Semester 2

Module content

The managing of events and attractions as key focus area within the tourism landscape is becoming more competitive and sophisticated. Both events and attractions are significant core elements that assist in providing a sense of place and creating a certain magic for a destination. Major components of attractions and event management include the essential elements to manage any event, events within the MICE industry; a study of cultural festivals; sports events; social media/e-marketing; managing flagship attractions and events; and Special Interest Tourism (SIT). Researching global trends and changes in the global industry is imperative to manage events successfully and benchmark attractions. The understanding of current and topical issues within this industry is crucial to hone skills and insight to gain the competitive advantage and make a worthy contribution to this dynamic industry tourism sector.

Service modules Faculty of Natural and Agricultural Sciences

Prerequisites At least 4 (50-59%) in Mathematics in the Grade 12 examination; BSc and BCom numeric stream students must be take WTW 133 concurrently.

Contact time 1 practical per week, 2 tutorials per week, 4 lectures per week, Foundation Course

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 1

Module content

Descriptive statistics – Univariate:

The role of Statistics, various types of data. Sampling, probability and non-probability sampling techniques and the collection of data. Frequency, relative and cumulative distributions and graphical representations. Additional concepts relating to data processing: sigma notation, factorial notation. Descriptive measures of location, dispersion and symmetry. Exploratory data analysis.

Probability:

Introductory probability theory and applications. Set theory and probability laws. Introduction to random variables. Assigning probabilities, probability distributions, expected value and variance in general. Specific discrete probability distributions (Uniform, Binomial). Report writing and presentation. Identification, use, evaluation and interpretation of statistical computer packages and statistical techniques.

Mathematical statistics 143 (WST 143)

Qualification Undergraduate

Module credits 8.00

Programmes [BSc Extended programme - Physical Sciences](#)
[BCom Extended programme](#)

Service modules Faculty of Natural and Agricultural Sciences

Prerequisites BSc and BCom numeric students: WST 133 and WTW 133 and must be taken concurrently with WTW 143.

Contact time 1 practical per week, 2 tutorials per week, 4 lectures per week, Foundation Course

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 2

Module content

Probability and inference:

Probability theory and theoretical distributions for continuous random variables (Uniform, Normal and t). Sampling distributions (means and proportions). Estimation theory and hypothesis testing of sampling averages and proportions (one- and two-sample cases).

Optimisation techniques with economic applications:

Applications of differentiation in statistic and economic related problems. Integration. Applications of integration in statistic and economic related problems. Systems of equations in equilibrium. The area under a curve and applications of definite integrals in Statistics and Economics. Report writing and presentation. Identification, use, evaluation and interpretation of statistical computer packages and statistical techniques.

Mathematical statistics 153 (WST 153)

Qualification Undergraduate

Module credits 8.00

Programmes [BSc Extended programme - Mathematical Sciences](#)

Qualification Postgraduate

Module credits 30.00

Programmes [BScHons Mathematical Statistics](#)
[BComHons Mathematical Statistics](#)

Prerequisites WST 311, WST 312, WST 321 and WST 322

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 1 and Semester 2

Module content

Refer to the document: Criteria for the research management process and the assessment of the honours essays, available on the web: www.up.ac.za under the Department of Statistics: postgraduate study.

Cyber analytics 802 (WST 802)

Qualification Postgraduate

Module credits 20.00

Programmes [MCom Statistics \(Coursework\)](#)

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Statistics

Period of presentation Semester 1 or Semester 2

Module content

Reviewing, from a statistical perspective, the cyberinfrastructure ecosystem including distributed computing, multi node and distributed file eco systems. Structured and unstructured data sources, including social media data and image data. Setting up of large data structures for analysis. Algorithms and techniques for computing statistics and statistical models on distributed data. Software to be used include, Hadoop, Map reduce, SAS, SAS Data loader for Hadoop.

Dissertation: Mathematical statistics 890 (WST 890)

Qualification Postgraduate

Module credits 180.00

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Statistics

Period of presentation Year

Mini-dissertation: Mathematical statistics 895 (WST 895)

Qualification Postgraduate

Module credits 100.00

Programmes [MSc Mathematical Statistics \(Coursework\)](#)
[MCom Mathematical Statistics \(Coursework\)](#)

Service modules Faculty of Natural and Agricultural Sciences

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Statistics

Period of presentation Year

Thesis: Mathematical statistics 990 (WST 990)

Qualification Postgraduate

Module credits 360.00

Programmes [PhD Mathematical Statistics](#)

Service modules Faculty of Natural and Agricultural Sciences

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Statistics

Period of presentation Year

Calculus 114 (WTW 114)

Qualification Undergraduate

Module credits 16.00

Programmes [BCom Statistics](#)
[BCom](#)
[BCom Econometrics](#)
[BCom Statistics](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites Refer to Regulation 1.2. Mathematics 60% Grade 12.

Contact time 1 tutorial per week, 4 lectures per week

Language of tuition Separate classes for Afrikaans and English

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

*This module serves as preparation for students majoring in Mathematics (including all students who intend to enrol for WTW 218 and WTW 220). Students will not be credited for more than one of the following modules for their degree: WTW 114, WTW 158, WTW 134, WTW 165.

Functions, limits and continuity. Differential calculus of single variable functions, rate of change, graph sketching, applications. The mean value theorem, the rule of L'Hospital. Definite and indefinite integrals, evaluating definite integrals using anti-derivatives, the substitution rule.

Discrete structures 115 (WTW 115)

Qualification Undergraduate

Module credits	8.00
Programmes	BSc Extended programme - Mathematical Sciences
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Economic and Management Sciences
Prerequisites	Refer to Regulation 1.2: A candidate must have passed Mathematics with at least 50% in the Grade 12 examination
Contact time	1 tutorial per week, 2 lectures per week
Language of tuition	Module is presented in English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 1

Module content

Propositional logic: truth tables, logical equivalence, implication, arguments. Mathematical induction and well-ordering principle. Introduction to set theory. Counting techniques: elementary probability, multiplication and addition rules, permutations and combinations, binomial theorem, inclusion-exclusion rule.

Mathematics 124 (WTW 124)

Qualification	Undergraduate
Module credits	16.00
Programmes	BCom BCom Econometrics BCom Statistics
Prerequisites	WTW 114
Contact time	1 tutorial per week, 4 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 2

Module content

*Students will not be credited for more than one of the following modules for their degree: WTW 124, WTW 146, WTW 148 and WTW 164. This module serves as preparation for students majoring in Mathematics (including all students who intend to enrol for WTW 218, WTW 211 and WTW 220).

The vector space R^n , vector algebra with applications to lines and planes, matrix algebra, systems of linear equations, determinants. Complex numbers and factorisation of polynomials. Integration techniques and applications of integration. The formal definition of a limit. The fundamental theorem of Calculus and applications. Vector functions, polar curves and quadratic curves.

Precalculus 133 (WTW 133)

Qualification	Undergraduate
----------------------	---------------

Module credits	8.00
Programmes	BEd Senior Phase and Further Education and Training Teaching BCom Extended programme
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Economic and Management Sciences Faculty of Health Sciences
Prerequisites	BSc and BCom students: At least 3 (40-49%) in Mathematics in the Grade 12 examination and must be taken concurrently with WTW133
Contact time	1 practical per week, 3 lectures per week, Foundation Course
Language of tuition	Module is presented in English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 1

Module content

Real numbers, elementary set notation, exponents and radicals. Algebraic expressions, fractional expressions, linear and quadratic equations, inequalities. Coordinate geometry: lines, circles. Functions: definition, notation, piecewise defined functions, domain and range, graphs, transformations of functions, symmetry, even and odd functions, combining functions, one-to-one functions and inverses, polynomial functions and zeros.

Sequences, summation notation, arithmetic, geometric sequences, infinite geometric series, annuities and instalments. Degrees and radians, unit circle, trigonometric functions, fundamental identities, trigonometric graphs, trigonometric identities, double-angle, half-angle formulae, trigonometric equations, applications.

This module is only offered in English at the Mamelodi Campus for the BSc Extended programme. At the Hatfield and Groenkloof campuses it is offered in English and Afrikaans.

Mathematics 134 (WTW 134)

Qualification	Undergraduate
Module credits	16.00
Programmes	BCom BCom Economics BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Veterinary Science
Prerequisites	Refer to Regulation 1.2: At least 50% for Mathematics in the Grade 12 examination .
Contact time	1 tutorial per week, 4 lectures per week
Language of tuition	Separate classes for Afrikaans and English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 1

Module content

**Students will not be credited for more than one of the following modules for their degree: WTW 134, WTW 165, WTW 114, WTW 158. WTW 134 does not lead to admission to Mathematics at 200 level and is intended for students who require Mathematics at 100 level only. WTW 134 is offered as WTW 165 in the second semester only to students who have applied in the first semester of the current year for the approximately 65 MBChB, or the 5-6 BChD places becoming available in the second semester and who were therefore enrolled for MGW 112 in the first semester of the current year.*

Functions, derivatives, interpretation of the derivative, rules of differentiation, applications of differentiation, integration, interpretation of the definite integral, applications of integration. Matrices, solutions of systems of equations. All topics are studied in the context of applications.

Calculus 143 (WTW 143)

Qualification Undergraduate

Module credits 8.00

Programmes [BEd Senior Phase and Further Education and Training Teaching](#)
[BCom Extended programme](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Health Sciences

Prerequisites BSc and BCom students: WTW 133 and WST133 and must be taken concurrently with WTW143

Contact time 1 tutorial per week, 3 lectures per week, Foundation Course

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

Functions: exponential and logarithmic functions, natural exponential and logarithmic functions, exponential and logarithmic laws, exponential and logarithmic equations, compound interest. Limits: concept of a limit, finding limits numerically and graphically, finding limits algebraically, limit laws without proofs, squeeze theorem without proof, one-sided limits, infinite limits, limits at infinity, vertical, horizontal and slant asymptotes, substitution rule, continuity, laws for continuity without proofs. Differentiation: average and instantaneous change, definition of derivative, differentiation rules without proofs, derivatives of polynomials, chain rule for differentiation, derivatives of trigonometric, exponential and logarithmic functions, applications of differentiation: extreme values, critical numbers, monotone functions, first derivative test, optimisation.

Linear algebra 146 (WTW 146)

Qualification Undergraduate

Module credits 8.00

Programmes BCom
BCom Economics
BCom Statistics

Service modules Faculty of Education

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

*Students will not be credited for more than one of the following modules for their degree: WTW 124, WTW 146 and WTW 164. The module WTW 146 is designed for students who require Mathematics at 100 level only and does not lead to admission to Mathematics at 200 level.

Vector algebra, lines and planes, matrix algebra, solution of systems of equations, determinants. Complex numbers and polynomial equations. All topics are studied in the context of applications.

Calculus 148 (WTW 148)

Qualification Undergraduate

Module credits 8.00

Programmes BCom
BCom Economics
BCom Statistics

Service modules Faculty of Education

Prerequisites WTW 114 GS or WTW 134

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

*Students will not be credited for more than one of the following modules for their degree: WTW 124, WTW 148 and WTW 164. The module WTW 148 is designed for students who require Mathematics at 100 level only and does not lead to admission to Mathematics at 200 level.

Integration techniques. Modelling with differential equations. Functions of several variables, partial derivatives, optimisation. Numerical techniques. All topics are studied in the context of applications.

Linear algebra 211 (WTW 211)

Qualification Undergraduate

Module credits 12.00

Programmes	BSc Meteorology BCom BCom Econometrics BCom Statistics
Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Economic and Management Sciences
Prerequisites	WTW 124
Contact time	1 tutorial per week, 2 lectures per week
Language of tuition	Module is presented in English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 1

Module content

This is an introduction to linear algebra on \mathbb{R}^n . Matrices and linear equations, linear combinations and spans, linear independence, subspaces, basis and dimension, eigenvalues, eigenvectors, similarity and diagonalisation of matrices, linear transformations.

Calculus 218 (WTW 218)

Qualification Undergraduate

Module credits 12.00

Programmes BSc Chemistry
BCom
BCom Econometrics
BCom Statistics

Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education Faculty of Economic and Management Sciences
Prerequisites	WTW 114 and WTW 124
Contact time	1 tutorial per week, 2 lectures per week
Language of tuition	Module is presented in English
Department	Mathematics and Applied Mathematics
Period of presentation	Semester 1

Module content

Calculus of multivariable functions, directional derivatives. Extrema and Lagrange multipliers. Multiple integrals, polar, cylindrical and spherical coordinates.

Analysis 220 (WTW 220)

Qualification Undergraduate

Module credits 12.00

Programmes BSc Meteorology
BCom
BCom Statistics

Service modules Faculty of Education
Faculty of Economic and Management Sciences

Prerequisites WTW 114 and WTW 124, WTW 211 and WTW 218

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

Properties of real numbers. Analysis of sequences and series of real numbers. Power series and theorems of convergence. The Bolzano-Weierstrass theorem. The intermediate value theorem and analysis of real-valued functions on an interval. The Riemann integral: Existence and properties of the interval.

Linear algebra 221 (WTW 221)

Qualification Undergraduate

Module credits 12.00

Programmes BSc Actuarial and Financial Mathematics
BCom
BCom Statistics

Service modules Faculty of Education
Faculty of Economic and Management Sciences

Prerequisites WTW 211 and WTW 218

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

Abstract vector spaces, change of basis, matrix representation of linear transformations, orthogonality, diagonalisability of symmetric matrices, some applications.

Differential equations 264 (WTW 264)

Qualification Undergraduate

Module credits 12.00

Programmes BSc Mathematical Statistics
BCom

Service modules Faculty of Education
Faculty of Economic and Management Sciences

Prerequisites WTW 114 and WTW 124

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

*Students will not be credited for both WTW 162 and WTW 264 or both WTW 264 and WTW 286 for their degree.

Theory and solution methods for ordinary differential equations and initial value problems: separable and linear first order equations, linear equations of higher order, systems of linear equations. Laplace transform.

Differential equations 286 (WTW 286)

Qualification Undergraduate

Module credits 12.00

Programmes [BSc Meteorology](#)
[BCom](#)

Service modules Faculty of Economic and Management Sciences

Prerequisites WTW 114, WTW 124 and WTW 162

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Module is presented in English

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

*Students will not be credited for more than one of the modules for their degree: WTW 264, WTW 286

Theory and solution methods for ordinary differential equations and initial value problems: separable and linear first-order equations, linear equations of higher order, systems of linear equations. Application to mathematical models. Numerical methods applied to nonlinear systems. Qualitative analysis of linear systems.

Analysis 310 (WTW 310)

Qualification Undergraduate

Module credits 18.00

Programmes [BSc Mathematical Statistics](#)
[BCom](#)
[BCom Statistics](#)

Service modules Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 220

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

Topology of finite dimensional spaces: Open and closed sets, compactness, connectedness and completeness. Theorems of Bolzano-Weierstrass and Heine-Borel. Properties of continuous functions and applications. Integration theory for functions of one real variable. Sequences of functions.

Financial engineering 354 (WTW 354)

Qualification Undergraduate

Module credits 18.00

Programmes [BSc Mathematical Statistics](#)
[BCom](#)
[BCom Statistics](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences

Prerequisites WST 211, WTW 211 and WTW 218

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

Mean variance portfolio theory. Market equilibrium models such as the capital asset pricing model. Factor models and arbitrage pricing theory. Measures of investment risk. Efficient market hypothesis. Stochastic models of security prices

Algebra 381 (WTW 381)

Qualification Undergraduate

Module credits 18.00

Programmes [BSc Mathematical Statistics](#)
[BCom](#)

Service modules Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 114 and WTW 211

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

Group theory: Definition, examples, elementary properties, subgroups, permutation groups, isomorphism, order, cyclic groups, homomorphisms, factor groups. Ring theory: Definition, examples, elementary properties, ideals, homomorphisms, factor rings, polynomial rings, factorisation of polynomials. Field extensions, applications to straight-edge and compass constructions.

Dynamical systems 382 (WTW 382)

Qualification Undergraduate

Module credits 18.00

Programmes [BSc Actuarial and Financial Mathematics](#)
[BCom](#)
[BCom Statistics](#)

Service modules Faculty of Education
Faculty of Economic and Management Sciences

Prerequisites WTW 218 and WTW 286/264

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Mathematics and Applied Mathematics

Period of presentation Semester 1

Module content

Matrix exponential function: homogeneous and non-homogeneous linear systems of differential equations. Qualitative analysis of systems: phase portraits, stability, linearisation, energy method and Liapunov's method. Introduction to chaotic systems. Application to real life problems.

Numerical analysis 383 (WTW 383)

Qualification Undergraduate

Module credits 18.00

Programmes [BSc Actuarial and Financial Mathematics](#)
[BCom](#)
[BCom Statistics](#)

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 114, WTW 123 WTW 124 and WTW 211

Contact time 1 practical per week, 2 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Mathematics and Applied Mathematics

Period of presentation Semester 2

Module content

Direct methods for the numerical solution of systems of linear equations, pivoting strategies. Iterative methods for solving systems of linear equations and eigenvalue problems. Iterative methods for solving systems of nonlinear equations. Introduction to optimization. Algorithms for the considered numerical methods are derived and implemented in computer programmes. Complexity of computation is investigated. Error estimates and convergence results are proved.

Sport tourism 210 (YSL 210)

Qualification Undergraduate

Module credits 16.00

Service modules Faculty of Economic and Management Sciences

Prerequisites YSL120

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 1

Module content

This module presents an introduction to sport tourism from a tourist destination perspective. Concepts in sport tourism are defined, a timeline of the development of sport tourism and different sport tourism models, motivations for sport tourism involvement and forms of sport tourism are explored and discussed. The role and influence of government in sport tourism are analysed and critiqued. The impact of sport tourism on community development is examined through case studies.

Sport development 220 (YSL 220)

Qualification Undergraduate

Module credits 16.00

Service modules Faculty of Economic and Management Sciences

Prerequisites YSL 210

Contact time 3 lectures per week

Language of tuition Afrikaans and English are used in one class

Department Sport and Leisure Studies

Period of presentation Semester 2

Module content

In this module the student is orientated towards strategies and skills that develop both an active and winning nation to improve the health and wellness of the South African population through mass participation in sport and recreation. Knowledge and skills to detect, develop and retain talented athletes through sport development structures and systems are discussed. The Sport Academy system in South Africa and Zone VI in Africa are analysed and appropriate delivery strategies and structures are planned and designed. Students will also perform academic service through community engagement in diverse communities.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
