| Period of presentation | Year |

Module content

AAC intervention for the child with severe disabilities will be followed in this module. A practical component is included in this module. At the end of this module the student must be able to describe and implement appropriate AAC strategies for children with a variety of abilities, and integrate AAC implementation within contexts such as adapted play, integrated early intervention- and educational settings.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
