Module-inhoud

The elective aims to provide students with the necessary skills required in modern times to analyse financial markets from within firms as well as from an outside perspective. The elective will require students to have a solid base on corporate finance before attending. The aim is to be very practical and hands on during the contact days and therefore preparation will be critical. The focus will change year on year depending on what the current trends are and students are advised to consult the elective manual each year for further guidance.
