Module-inhoud

*Hierdie inligting is slegs in Engels beskikbaar.

The elective will introduce students to the concept of sustainable development from ethical, economic and corporate governance perspectives. The field of sustainability has grown in recent years and with more regulations being introduced across various countries the importance for managers to have understanding of this environment has grown too. The focus will change year on year depending on what the current trends are and students are advised to consult the elective manual each year for further guidance.
