Art education 302 (JKU 302)

Qualification	Undergraduate
Faculty	Faculty of Education
Module credits	40.00
Prerequisites	JKU 202
Language of tuition	Module is presented in English
Department	Humanities Education
Period of presentation	Year

Module content

This module focuses on examining various methods and techniques for stimulating creativity in the classroom, in the Intermediary, Senior and Further Education and Training (FET) Phases. The primary focus of the module is the development of the student's art skills, with a view to extending the personal visual vocabulary and promoting self-expression. The student must achieve a significantly higher level of understanding and mastery in terms of the intellectual, perceptual, aesthetic and technical aspects of art education. Additional support is provided through theoretical lectures, practical assignments, demonstrations and continuous assessment. Each student is required to compile a practical portfolio and visual diary, the artwork of which must demonstrate technical quality and provide proof that the student is ready to meet the demands of the practical profession. The portfolio will serve as a guide for future reference in the classroom.
