### Programme information

This programme focuses on tourism as one of South Africa's largest and fastest growing industries. Students are trained to play an important role in tourism, especially as far as heritage and cultural tourism is concerned. Graduates can follow careers as tour guides, tour operators (entrepreneurs), heritage resource managers, and publicity agents.

### Admission requirements

- The following persons will be considered for admission: a candidate who is in possession of a certificate that is deemed by the University to be equivalent to the required Grade 12 certificate with university endorsement; a candidate who is a graduate from another tertiary institution or has been granted the status of a graduate of such an institution; and a candidate who is a graduate of another faculty at the University of Pretoria.
- Candidates who comply with the minimum subject requirements and achievement levels as well as the APS requirements of these programmes will be granted placement in the programmes, subject to the availability of space. The abovementioned is not applicable to selection programmes.
- To retain admission, learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these programmes, but obtained at least an APS of 26 or 27 in Grade 12, will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the disadvantaged category of the population.
- Applicants who meet the minimum APS requirement, but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.

Visual and virtual spaces

Critical decoding of culturally encoded ideas and ideologies embodied in the construction of space, place, and cyberspace in selected Modernist and Postmodernist cultural practices. Topics include spaces of consumption and entertainment such as shopping malls; gender and spatiality; symbolic spaces; surveillance and the architecture of fear. Land art, environmental art and related debates are also addressed. The ways in which real space is virtualised through new technologies; the history and development of virtual reality, virtual communities, the cyborg and cyberpunk, as well as post humanism, are all engaged with specific emphasis on how embodiment and dis embodiment are represented visually.
